

Arms of

THE UNIVERSITY OF NEW SOUTH WALES

Granted by the College of Heralds, London, 3 March 1952.

In 1994 the University title was added to the Arms to create the new University Symbol shown.

Heraldic Description of the Arms

Argent on a Cross Gules a Lion passant guardant between four Mullets of eight points Or a Chief Sable charged with an open Book proper thereon the word SCIENTIA in letters also Sable.

The lion and the four stars of the Southern Cross on the Cross of St George have reference to the State of New South Wales which brought the University into being; the open book with SCIENTIA across its page reminds us of its original purpose. Beneath the shield is the motto 'Manu et Mente' ('with hand and mind'), which was the motto of the Sydney Technical College, from which the University has developed. The motto is not an integral part of the Grant of Arms and could be changed at will; but it was the opinion of the University Council that the relationship with the parent institution should in some way be recorded.

Preface

UNSW

The University of New South Wales is situated on 38 hectares in Kensington, an inner south-eastern suburb of Sydney. It has sub-campuses in Canberra and at Oatley and Paddington as well as a number of research stations in other parts of New South Wales.

The University consists of twelve faculties: Applied Science; Arts and Social Sciences; Biological and Behavioural Sciences; the Built Environment; Commerce and Economics, Engineering; Law; Medicine; Professional Studies; Science; the Australian Graduate School of Managment; and the College of Fine Arts. In addition there are academic activities overseen by two Boards of Studies in Science and Mathematics, and Taxation. A wide range of first degrees, higher degrees, graduate diplomas and other courses are offered and there are substantial research facilities within these units. UNSW also provides undergraduate and graduate courses through the University College at the Australian Defence Force Academy.

The total number of students in 1994 was 28,704 made up of 19,752 proceeding to bachelor degrees, 6,723 to higher degrees, 90 to postgraduate qualifying, 1,240 to graduate diplomas and graduate certificates, 208 cross-institution and 691 undertaking non-award studies.

The number of full-time equivalent staff (including casual staff) supporting these activities was 5,125, of whom 2,057 are teaching and/or research staff, and 3,068 are library, technical, administrative, clerical and other staff. The Library contains 1.8 million items. The University's total operating expenditure in 1994 was approximately \$424 million. The University's building assets, including land, are valued at approximately \$497 million, with the total value of assets, approximating \$571 million.

Brief History

The University was incorporated by Act of the Parliament of New South Wales in 1949 as *The New South Wales University of Technology*. This name reflected the wish of the founders that the University should place special emphasis on science and technology and attempt to meet the urgent demand in Australia for increasing numbers of technologists and applied scientists.

The first courses, leading to the award of the degree of the Bachelor of Engineering, were begun in 1948 in civil, electrical, mechanical, and mining engineering. These courses were planned to give students full-time lecture and laboratory instruction at the University for approximately half the year, with planned industrial experience for the remainder. Courses leading to the award of the degree of Bachelor of Science were introduced in applied chemistry and chemical engineering for the 1949 academic year, and in applied physics and wool technology for the 1951 academic year. A first degree course in architecture was established in 1950, and in 1954 a further full-time Bachelor of Science course (in metallurgy) and a four-year degree course in applied geology, leading to the award of the degree of Bachelor of Engineering (Geology), were offered. A four-year full-time Bachelor of Science in food technology also began in 1954.

Part-time degree courses were introduced in 1954 in applied biology, applied chemistry, applied geology, chemical engineering, civil engineering, electrical engineering, food technology, general science, industrial chemistry, leather chemistry, mechanical engineering and metallurgy to enable students to remain continuously in employment related to their studies throughout the course. A part-time course was begun in applied psychology in 1955, leading to the award of the degree of Bachelor of Science in psychology.

In 1957 full-time and part-time courses leading to the award of the degree of Bachelor of Commerce and providing for specializations in accountancy, economics, statistics or applied psychology were begun; advanced courses in business administration were introduced. At the same time the full-time degree courses in textile technology and industrial engineering and hospital administration were also begun. Although emphasis on science and technology remained a major objective, the University decided in 1958 that it should broaden its academic scope to include studies in the fields of humanities and medicine. Changes were made to the Act of Incorporation in 1958 and the name of the University changed to *The University of New South Wales.* Degree courses were begun in arts in 1960, in medicine in 1961, and in law in 1971; in 1977 higher degree and other courses in business and public administration were first offered by the Australian Graduate School of Management.

The act incorporating the University gives the Council power to establish colleges and departments. Under these powers a college was established in 1951 at Newcastle (which became independent as the University of Newcastle in 1965) and a college was established in 1962 at Wollongong (which became the University of Wollongong in 1975). Under an agreement between the University and the Commonwealth of Australia, first entered into in 1981, the University College (Australian Defence Force Academy) was set up in the Australian Capital Territory. Courses leading to the award of bachelor degrees of the University. The university. The university are taught there by academic staff employed by the University. The undergraduate students are officer cadets of all three services. Higher degree work and research are also undertaken. The University College is funded by the Department of Defence.

In 1990 the former St George Institute of the Sydney College of Advanced Education was amalgamated with the University and the three schools located at the St George campus at Oatley were integrated into the Faculty of Professional Studies. The former City Art Institute, located in Paddington was also incorporated within the University and is now the University's College of Fine Arts. In addition, UNSW acts as sponsor for Charles Sturt University and the new Southern Cross University.

The University of New South Wales Act 1968 and the University of New South Wales Regulations 1969, were repealed by the University of New South Wales Act 1989 which commenced on 1 July 1990.

Governance

The University is governed by a council of twenty-one members including parliamentary and ex-officio members, members elected by staff, students and graduates of the University, and members appointed by the Minister for Education or by Council itself. The principal academic body is the Academic Board which receives advice on academic matters from the Faculties, the University College (Australian Defence Force Academy), and the Boards of Studies. The faculties and boards are responsible for the teaching and examining of subjects within their scope and the Academic Board co-ordinates and furthers their work.

The chief executive officer of the University is the Vice-Chancellor and Principal. The Deputy Vice-Chancellors and Pro-Vice-Chancellor are responsible for academic operations, research policy, research management, quality assurance and external relations including sponsorship. The administrative work of the University is divided between the Registrar and Deputy Principal who is responsible for the provision of registrarial, property and administrative services; the Bursar and Deputy Principal who is responsible for the provision of financial services; and the Director of Information Services and Deputy Principal who is responsible for the Library and Computing Services. There are twelve full-time Deans or Dean/Directors as well as the Rector of the University College (Australian Defence Force Academy) who have considerable delegated authority in relation to their areas.

General Information

University Organizations

The University's academic organization includes twelve faculties and two Boards of Studies based at Kensington, Paddington and Oatley, NSW, and Canberra, ACT. The faculties are groupings of schools, according to academic disciplines, through which the academic staff conduct all the undergraduate courses, higher degree programs and graduate diploma courses, and pursue research and scholarly investigations.

Faculties (and Boards having the responsibilities of faculties) are established under the University By-laws. They are responsible for supervising teaching, conducting examinations and encouraging scholarship and research in relevant areas of study. Each faculty/board comprises the professors, associate professors, senior lecturers, and associate lecturers in the relevant departments, ex officio members, elected students, and other persons whom Council may appoint as members. The faculties/boards and their committees meet several times each year on scheduled dates.

Each faculty and board has a dean or director appointed by Council as the full-time head, responsible to the Vice-Chancellor for the administrative, financial and certain academic affairs of the faculty/board. The heads of schools and, in the University College, heads of departments, are also appointed by Council.

The University also maintains teaching and research at its teaching hospitals; field stations; the Institute of Administration at Little Bay; the Manly Vale Water Research Laboratory; the Randwick campus, where some of the Schools have facilities and the Institute of Languages is located; the Cliffbrook campus, where ATAX and the Asia-Australia Institute are located; and the St George campus, where part of the Faculty of Professional Studies is located.

Detailed information on each Faculty, Board and School is available in the UNSW Handbooks, and a summary of courses offered by Faculties and Boards of Studies appears in the chapter 'UNSW Courses', later in this book.

Australian Graduate School of Management

The Australian Graduate School of Management (AGSM) is Australia's pre-eminent graduate mangement school and has a long-term strategy to be internationally competitive in research-based, relevant, professionally - delivered management education.

The AGSM was established in 1977 following the recommendation of the 1970 Cyert Committee of Inquiry that 'a national institution of excellence in the field of management education' be established in the University of New South Wales.

The Cyert Committee saw as the basic aim of the new School 'a need to enhance, at a national level, the effectiveness of Australian professional management now and in the future'. The achievement of this goal was seen as involving a number of programs, different substantially in their academic content and in the time and nature of their impact, but all emphasizing preparation for general management.

The Master of Business Administration (MBA) Program was designed to accelerate the development of talented young people into top management positions. The first MBA candidates were enrolled in 1977.

The School also has a doctoral program designed to meet the future needs of trained academic staff, not only to a limited extent for the national school itself but also for other Australian universities.

The AGSM's Executive Programs, which have been conducted since 1977 provide short, advanced management programs for middle and senior managers in both the private and public sectors.

In 1993 the AGSM launched a new award program, the Executive MBA. The Executive MBA is a part-time program for practising managers who seek excellence in management education. It is offered through AGSM's Australian Open Learning Program (AOLP), an innovative structure of postgraduate management development courses which provide busy, high potential managers with flexible, modular education.

The first stage of the AOLP is the Graduate Management Qualification (GMQ), a one-year foundation course of four

subjects. Graduates of the GMQ may proceed to stage two, the Graduate Diploma in Management (GDM) by undertaking an additional four subjects. Enrolment in the Executive MBA is open to graduates of the GDM who meet determined standards.

The School also has five centres of research. The School's world-class faculty underpins teaching excellence with research leadership. The AGSM is governed by a Board of Management which operates under delegation of authority from the University Council. The membership of the Board includes the Vice-Chancellor, the School's Dean and Director (Professor F.G. Hilmer), the President of the Academic Board, representatives of the public and private sectors of employee and other organizations with interests in management education, and of the academic staff and student body of the School.

The School has a Board of Studies which operates in a similar manner to a faculty so far as the activities of the School are concerned.

The AGSM Faculty and programs benefit from the extensive linkages the School has developed with industry, government and other business schools. These linkages are evident through the Board of Management, Advisory Council, sponsorship and support from industry and exchange relationships with leading international business schools.

Australian Defence Force Academy University College

The University College was established by resolution of the Council on 2 February 1981 which ratified the draft agreement between the Commonwealth of Australia and the University of New South Wales to establish a University College within the Australian Defence Force Academy. The agreement was signed on 7 May 1981. The University College provides courses of study leading to the award of degrees of Bachelor of Arts, Bachelor of Science and Bachelor of Engineering at pass and honours level, and Bachelor of Technology (Aeronautical) at pass level. Opportunities are available for graduate study leading to the award of graduate diplomas, masters degrees and doctor of philosophy. Entry to the undergraduate courses of the Australian Defence Force Academy is by selection; candidates must have reached an approved academic standard and have met the particular requirements of the branch of the Services to which they have been recruited. Undergraduate courses in the University College are restricted to officer cadets and certain other members of the regular Armed Services although civilians may enrol in graduate courses. The undergraduate courses offered by the University College are listed later in the section Disciplines of the University and will be published in detail in the annual Australian Defence Force Academy Handbook. Enquiries relating to the University College should be addressed to the University College Secretary, Australian Defence Force Academy, University of New South Wales, Northcott Drive, Canberra, ACT 2600.

College of Fine Arts

The University's College of Fine Arts was established from the commencement of 1990 following the amalgamation of the former City Art Institute with the University. It is one of the largest and most distinguished art schools in Australia.

The College, which has the status of a faculty in the University, is located in Paddington, the heart of Sydney's artistic community, and offers undergraduate courses in fine arts, design, art education and art theory. These courses provide students with the opportunity to undertake rigorous and demanding studies at degree level in the major studio disciplines of the visual arts, design, art education and art theory. As well as providing opportunities for study at honours level, courses provide sound foundations for postgraduate study within the College or at other art schools in Australia or abroad.

The College also offers masters degrees by coursework and research in fine arts, design, art administration and art education. The opportunity also exists for study at doctoral level.

Board of Studies in Science and Mathematics

The Board of Studies in Science and Mathematics, which was established to facilitate the joint academic administration of the Science and Mathematics degree course by the Faculty of Biological and Behavioural Sciences and the Faculty of Science, considers and reports to the Academic Board on all matters relating to studies, lectures and examinations in the Science and Mathematics courses 3970 to 3977.

The Board of Studies in Science and Mathematics includes all members of the Faculty of Biological and Behavioural Sciences and of the Faculty of Science together with some members of specific Schools in other Faculties contributing to the Science and Mathematics course, a representative of the Centre for Liberal and General Studies, the Registrar or his nominee, and such other persons as Council may appoint.

The Deans of the Faculty of Science (Professor A R Hyland) and of the Faculty of Biological and Behavioural Sciences (Professor W O'Sullivan) serve alternately as Dean of the Board. The Co-ordinator of Studies is Associate Professor H A Goodwin.

Board of Studies in Taxation

The Board of Studies in Taxation was established in 1991 to supervise the ATAX program, an independent University program supported by the Australian Taxation Office. The Board of Studies draws on staff from the Faculty of Law and the Faculty of Commerce and Economics at the University of New South Wales and the University of Central Queensland contributes Distance Education design.

The Bachelor of Taxation degree is a purpose built degree designed to give a balanced education in the foundations of taxation and multi-skilling in essential component disciplines like commercial law, accounting, economics, administrative law and computer information systems.

Undergraduate teaching commenced at the beginning of 1991 and postgraduate teaching in 1992 with a Master of Taxation and two postgraduate diplomas, the Graduate Diploma in Advanced Taxation and the Graduate Diploma in Taxation Studies.

All courses are offered in Distance Education mode on a part-time basis, allowing ATAX to combine the efficiencies of innovative distance education delivery with the resources of a leading University.

The University Library

The main Library is situated on the upper Kensington campus and houses the Social Sciences and Humanities

Library (enquiries, Level 3), the Physical Sciences Library (enquiries, Level 7), and the Law Library (enquiries, Level 8). The Biomedical Library is housed in the western end of the Mathews Building. The combined holdings of these four Special Libraries amount to some 1.5 million items.

Access to the collection is provided through the Library's online catalogue and via the campus-wide network. Other facilities include reference and reader education services, a photocopying service, an online search service, and a document delivery service.

Library facilities are also situated at other campuses, including:

- St George campus, Oatley
- College of Fine Arts, Paddington
- The Water Research Laboratories, Manly Vale
- The Australian Defence Force Academy, ACT

Libraries at these locations also provide a variety of services to staff and students.

The hours of opening of the UNSW libraries vary during the course of the academic year. For hours of opening at the Kensington campus telephone 385 2687.

Institutes

The Asia-Australia Institute

The Asia-Australia Institute was established at the University of New South Wales in 1990. The Chairman is Professor Stephen FitzGerald.

The Institute's mission is to work towards the goal of an Asian 'confederation' and an Australian place within it. Its aim is to preserve regional pluralism within the converging or 'Asianising' of Asia.

This mission is achieved through the development of a region-wide ideas forum of independent and creative thinking on the region's long-term future, dedicated to achieving a conjunction of influential minds not only on diverse regional issues but on acceptance of cultural and political difference. Integral to this mission is the participation of Australia, and its evolution as an equal, Asia-educated and contributing partner in Asia.

The Institute runs a series of inter-related programs concerned with the future of Asia over a thrity-year perspective. These programs are for the elites who set the intellectual, policy and research agendas for the region, and particularly for younger and emerging leaders who will be responsible for shaping and guiding the region over the next thirty years.

The programs consist of a series of relatively small-scale ideas or 'think-tank' forums and seminars; professional development courses and symposia for elites working across the national boundaries of the region; and public debate and advocacy. The programs are supported by research inputs, and the publication of ideas papers. For enquiries please contact the Director, Mr Larry Strange, on (02) 385 9111.

Garvan Institute of Medical Research

In 1963 the establishment of the Garvan Institute of Medical Research fulfilled a long held desire of St Vincent's Hospital to contribute to the international body of scientific knowledge in addition to its role as a provider of medical care.

Incorporated as an autonomous Institute under its own Act of Parliament in 1984, the Garvan is New South Wales' premier research institute. It is the only Institute outside Melbourne to receive 'Centre of Excellence' status with block funding from the National Health and Medical Research Council and is formally affiliated with St Vincent's Hospital and the University of New South Wales.

The Garvan Institute of Medical Research seeks to relieve human pain and suffering through intensive research into the molecular basis of health and disease. The Garvan integrates its basic and clinical resources to target four main areas:

- Cancer
- · Diabetes, obesity and cardiovascular disorders
- Neurological orders
- Osteoporosis

These are all complex diseases with enormous social and financial costs for Australia and which depend on the application of a wide variety of sophisticated medical research techniques.

The Garvan is internationally recognised for its research achievements. Significant findings over the last few years have included:

- The exciting discovery of a new type of neutrotransmitter receptor which may provide the key to unlock the secrets of Parkinson's disease, schizophrenia and other neurological disorders.
- Development of an understanding of the relationship between the levels of different growth factor and hormone receptors in breast cancer. Understanding this relationship should lead to improved treatment regimes for this devastating cancer.
- The finding that certain types of fat are closely related to the effectiveness of insulin. This discovery not only has significance for diabetes sufferers but also for those afflicted with functional metabolic problems related to obesity, high blood pressure and heart disease.
- The identification of the gene responsible for determining bone density, and hence the risk of developing osteoporosis.

With 120 staff including 37 highly specialized post-doctoral researchers, the Garvan believes that medical research is a vital part of the Australian health care system where it can be integrated with both educational and full community service programs.

Institute of Administration

The Institute of Administration was established by the University of New South Wales in 1960 to specialize in the provision of short managment development courses. The Institute's mission is to improve the quality of management in Australia and worldwide through excellent courses conducted within a creative and friendly learning environment.

Courses are conducted at our purpose-built Executive Retreat at Little Bay. Located in the grounds of Prince Henry Hospital, 18 kms from the centre of Sydney and 9 kms from Sydney Airport, the magnificent environment is conducive to learning.

We believe that eduction is the art of the application of knowledge and our educational methodology emphasises the transfer of learning from the course to the workplace. Within a strategic planning context, four principal techniques are used:

- Action learning i.e. learning by doing,
- · Experiential learning i.e. learning by experiencing,
- Accelerated learning use of whole-brain techniques to improve learning and retention,
- Goal setting and action planning to encourage the application of learning.

Course development staff research the market before developing courses. They consult industry and opinion

leaders to ensure that programs are relevant and up-to-date.

A course coordinator is assigned to each course to help create and maintain an effective learning environment.

A three-part longitudinal evaluation of all courses is undertaken. This enables the Institue to refine future courses, and ensure they meet the market test of relevance.

All session leaders meet the following criteria: they have relevant qualifications in their field, practical experience in their disciplines and superior communication skills.

Savings, resulting from efficient operations, are passed on to clients. The Institute's courses are regarded as most cost-effective by client organizations.

Professional staff gladly develop programs to meet the specific needs of organizations. Such programs may be offered at the Executive Retreat or anywhere in the world.

The Institute's facilities are available for hire by organizations wishing to conduct their own courses.

The Director of the Institute is Joshua Owen, and all staff are located at the Executive Retreat at Little Bay. Telephone (02) 661 4144, Facsimile (02) 694 1752.

Institute of Languages

The Institute of Languages provides a comprehensive language education program within the University of New South Wales. Established in 1966, it is the oldest and one of the largest university language centres in Australia. The institute's program provides high-quality training courses and services for overseas students and the Australian community. UNSWILs activities are organised into six main programs.

- Modern Languages
- · General Proficiency and Occupational English
- English for Academic Purposes
- Special Interest English
- Migrant Education Program
- Language Teacher Education
- Language Testing Services

All courses reflect contemporary needs in industry, commerce and higher education.

More than 4,000 Australian and overseas students attend the Institute each year, with a substantial number of overseas students from Japan, Taiwan, Korea, Indonesia, Thailand and the People's Republic of China. The Institute employs a total staff of over 100, including teaching, management, administrative and technical staff.

The Institute maintains programs and activities at three sites: Randwick campus, the UNSW Kensington campus, St George campus.

The Director of the Institute is located at 22 King Street, Randwick. Telephone (02) 385 0339.

Institute for Manufacturing Management and Technology

(Unisearch Manufacturing Technology)

The Institute for Manufacturing Management and Technology (IMMT) has been established using funds provided by the National Industry Extension Service (NIES) to provide specialist training to industry. Situated in the School of Mechanical and Manufacturing Engineering at the University of New South Wales, the Institute's mission is to assist with the development of manufacturing industry and the traded services.

IMMT is actively seeking to develop collaborative linkages with manufacturing industry. Short courses are designed to comply with the requirements of the Training Guarantee Scheme.

For further details contact Dr Farhad Shafaghi on (02) 385 4141.

Unisearch Institute of Professional Education (IPACE)

IPACE is an education and training division of Unisearch. Its role is to facilitate links between the Unviersity of New South Wales and external communities. It provides a full range of educational and project management services such as needs assessment, instructional design, project design, marketing, financial management and student support.

The major activities of the Institute include:

- International training programs,
- Design and management of open learning programs (in Australia and overseas),
- Study abroad,
- In-house training,
- Short courses,
- Multi-media software development.

IPACE works in collaboration with all teaching areas of the University.

To facilitate its links with both the University and external communities, an IPACE Advisory Board has been established with senior University and industry members.

The Institute is located on the 16th Floor of the Mathews Building, The University of New South Wales, Sydney. Telephone (02) 385 3175.

Centres

The University has established a range of Centres to encourage research and teaching in areas not readily covered by the Schools and Faculties. Most Centres concentrate on multi-disciplinary fields, and some allow for the expansion of teaching, research and professional services in specialized areas.

The majority of Centres bring together cognate groups of academics within particular schools or faculties, and in some cases across faculty boundaries.

Below is a listing of Centres currently established in the University of New South Wales. For further information on University Centres consult the publication *Centres at UNSW*, or contact the Centre Director.

Centre for Liberal and General Studies

Following a review of general education within the University, Council established the Centre for Liberal and General Studies from the beginning of 1988. The Centre has responsibility, under the supervision of the Academic Board's Undergraduate Studies Committee, for the administration of the University's General Education Program

This Program is designed to complement specialist studies undertaken in professional and major disciplinary courses by all students in first undergraduate degree programs. Students are required to take 56 hours of instruction in each of three categories of study. The third of these categories of study provides students with the opportunity to address, in a coherent and systematic way, some of the central issues of social responsibility and professional ethics they will encounter on graduation.

While it is the role and the task of the Centre's staff to provide the general management and administration of the Program, subjects offered within the Program are taught by academic staff from the various Faculties and Schools of the University.

Details of the Program appear under *General Education Requirement* in the *Procedures* chapter of this book.

The Co-op Program

The Co-op Program was established to promote the University's commitment to Education for Industrial Leadership.

The Co-op Program office has the primary responsibility of overseeing and extending the program of scholarship-based, industry-linked undergraduate courses. This scheme now covers over 20 disciplines in the Faculties of Applied Science, Commerce, Engineering and Science. Over 460 students currently hold \$9,600 scholarships. The University receives around 1500 applications from the nation's top school leavers for these awards.

The Co-op Program is also supporting the development of new postgraduate courses designed to improve the transition of graduate technologists and engineers to management roles.

The Co-op Program also works closely with the Foundation and the Alumni Association.

Kanga's House

Kanga's House long day care centre is situated on Barker Street, Kingsford. The Centre offers 88 day careplaces (of which 72 are community-based and 16 are work based) for children aged from 3 months to 5 years. Drama Foundation

The University of New South Wales Drama Foundation, originally established in 1965 in association with the Australian Elizabethan Theatre Trust, was re-established as a University organization in 1980 with the objects of encouraging and promoting the study and practice of the theatre arts in or associated with the University. The Foundation may seek financial and other support for and make grants to assist with the achievement of these objects.

There is a committee of three members of the University to advise the Vice-Chancellor on applications for grants from the Foundation and on ways in which the encouragement and promotion of theatre arts may be undertaken.

Educational Testing Centre

The Educational Testing Centre (ETC) is a self-funded independent unit whose primary aim is to provide high quality assessment materials and procedures of analysis to improve the education and learning process. Its clients include university staff and students, schools, other educational, governmental and private sector bodies, commercial and industrial organisations and market research companies.

The Centre designs, constructs and analyses tests (achievement, selection, placement, competency based), questionnaires, rating scales and other qualitative and quantitative assessment materials to the specific requirements of clients. These are supplemented with comprehensive feedback.

One of the prime advantages of the Centre is its ability to process large volumes of information using the latest technology. It has document reading machines capable of scanning between 10 000 and 18 000 sheets per hour. In 1993, the Centre completed approximately 3 400 projects for 220 different clients and processed over 2.5 million sheets.

The Centre is well known for the competitions which it conducts annually for students throughout Australia, New Zealand, the Pacific Islands and Asia. In 1994 approximately one million students participated in the Australian Schools Science Competition (sponsored by Esso Australia Ltd), the Primary Schools Mathematics Competition (sponsored by the Commonwealth Bank) and the Australian Schools English Competition.

The staff at ETC are active in research and teaching in educational testing, programme evaluation and measurement. The Centre has links with the UNSW's School of Educational Studies and School of Psychology whose postgraduate students and staff add to the breadth of knowledge and skill available to the Centre in the assessment area.

International Student Exchange Program

The University of New South Wales has developed reciprocal exchange agreements with a number of international universities and actively encourages students to take part of their degree overseas. Currently students from the University of New South Wales can study at universities in Canada (University of Alberta, Edmonton), Germany (University of Bonn), and the United States of America (University of Bonn), and the United States of America (University of Illinois at Urbana-Champaign and the 8 campuses of the University of California). Exchange agreements have recently been signed with universities in Korea, Taiwan, Thailand, and Singapore; further agreements are being developed with universities in North America, Europe and Asia. In addition, students in specific courses can participate in restricted exchange agreements which a School or Faculty of the University of New South Wales has established with its counterpart at an overseas institution.

Undergraduate and postgraduate students with a satisfactory academic record may apply to study overseas under these exchange programs. During their period of exchange, students must remain enrolled at the University of New South Wales; they must pay full-load Higher Education Contribution Scheme and all Student Activity fees. The overseas university will waive tuition and administration fees for exchange students, but students are responsible for paying their own travel, accommodation and living expenses. Austudy and other scholarships can usually be continued whilst on exchange, and the University provides modest travel scholarships to selected students. As a condition of their exchange, students arrange for the subjects completed at the overseas university to be credited towards their degree course.

Students from the overseas university enrol as a non-award student at the University of New South Wales and undertake subjects for credit at their home universities. Visiting students pay all tuition and other fees in their home university and study at no charge at the University of New South Wales.

The University also administers the Danish International Study program affiliated with the University of Copenhagen. Under this scheme students in architecture, commerce and arts pay fees to undertake special programs in Denmark.

For further information on these and other programs being developed contact the International Student Centre, Building F9a, Union Road near the Round House. Telephone: 385 5333. Facsimile: 385 5927.

Finally, the Centre has a sports store (selling a wide variety of sports clothing and equipment at budget prices) and a Relaxation and Sports Massage Clinic.

Sport and recreation staff effectively manage and operate the facilities and programs on behalf of the University and Sports Association. They report to the SARC Management Committee, which is responsible for the planning and development of activities and facilities in the SARC Centre, in the best interests of students, staff, the community and the University. The committee has both student and staff representatives.

Sports Association

The Sports Association is student organization within the University consisting of 43 constituent sporting clubs. These clubs provide sporting and recreational opportunities for both men and women in wide variety of sports. These range from traditional sports such as soccer and netball to the more recreation oriented clubs such as hang gliding and bushwalking.

Many clubs are involved in weekly competition and each club provides for all levels of participation, with coaching for the novice or beginner in most sports. Clubs also organize accompanying social activities for their members to broaden the range of people with whom they meet and associate.

Membership is compulsory for all registered students, and the annual fee is as set out later in *Procedures, Enrolment Procedures and Fees Schedules, Section 15: Fees.* Membership is also open to all members of the staff and graduates of the University on payment of the fee which is prescribed in the By-Laws of the Association. All members are encouraged to participate in the activities arranged by the Association, and to make use of the University's sporting and recreational facilities.

The Association covers much of an individual's expenses for participating in sport, including capital equipment (e.g. ski boats, scuba gear and sailboards) and compulsory fees. This gives students the opportunity to participate in a diversity of sports at a reasonable cost.

The Sports Association is affiliated with the Australian Universities Sports Federation (AUSF) which is the controlling body for sport in all Australian universities. University Sports teams compete in Australian University Championships which are sporting competitions between universities from across Australia with competitors being provided with subsidised travel. The University of New South Wales has an excellent record of competition at AUCs and is respected for the competitiveness of its teams and willingness to take a leadership role in the development of University Sport.

The Association also seeks to offer elite athletes the opportunity to participate at the highest level in their sport, through initiatives such as the Ben Lexcen Scholarships, which increase club playing standards and attract good players to University Sporting Clubs. The Scholarships facilitate the continuance of an academic and sporting career while assisting the personal development of students who have achieved sporting excellence.

The Sports Association is administered by a General Committee, which includes delegates from each of the constituent clubs and its office bearers are elected annually.

The Office is located in the Sport and Recreation Centre (B6, lower campus) and can be contacted on 385 4880.

UNSW Equal Employment Opportunity and Affirmative Action Policy Statement

The University is committed to the goal of freedom from discrimination in employment on the grounds of sex, marital status, pregnancy, race (defined as colour, ethnic or ethno-religious background or national origin), homosexuality (male or female, actual or presumed), disability (including physical, intellectual, psychiatric, sensory, neurological, or learning disabilities, and including HIV/AIDS), and age; and freedom from racial and homosexual vilification.* The University is required to ensure the absence of such discrimination by the Commonwealth Racial Discrimination Act, 1975; the Anti-Discrimination Act, 1977 (NSW); the Commonwealth Sex Discrimination Act. 1984: the Commonwealth Affirmative Action (Equal Employment Opportunity for Women) Act, 1986; and the Commonwealth Disability Discrimination Act, 1993. Under the University of New South Wales Act, 1989, the University also declares that it will not discriminate on the grounds of religious or political affiliations, views or beliefs.

Reflecting its commitment to freedom from discrimination in employment, the University will continue to ensure the absence of discrimination and to promote equal employment opportunity for women, members of racial minorities, and the physically impaired, as resolved by the University Council, and in accordance with Part IXA of the *Anti-Discrimination Act, 1977* (NSW) and the *Affirmative Action (Equal Employment Opportunity for Women) Act, 1986* (Commonwealth). To achieve equality of employment opportunity, the University will continue to implement, monitor and review its Equal Employment Opportunity and Affirmative Action Program (EEO/AA Program) developed in part for these EEO groups.

In accordance with equal employment opportunity and affirmative action principles, the University applies the principle of merit in the recruitment, selection, appointment, staff development and training, and promotion of staff in all job classifications. Only criteria related to the ability to do the job are used in recruitment, selection and promotion procedures. This merit system also covers the terms on which the University as the employer offers employment.

The University's Equal Employment Opportunity Management Plan referred to as the EEO/AA Program since 1989, involves both positive steps to eradicate discrimination for the benefit of all staff, and programs for members of EEO groups which aim to remedy past disadvantage.

The 1993-1996 EEO/AA Program was developed in consultation with the University community, including staff, particularly women and other EEO group members, through sub-committees, meetings and established networks, and unions having coverage of University staff. The University will continue to consult these groups on the implementation, review and amendment (as appropriate) of the program.

In compliance with its statutory requirements, the University has analysed statistically all sections of its workforce to identify the employment patterns of EEO groups. It has also reviewed and will continue to review its personnel policies and practices in the areas of recruitment, selection and appointment, promotion, staff development and training, conditions of service and termination of employment. This information is contained in the University's 1990 EEO Survey, other research projects, and Annual Reports to the NSW Office of the Director of Equal Opportunity in Public Employment and the Affirmative Action Agency. The EEO/AA Program contains objectives and strategies developed to address identified problem areas, and procedures to monitor their implementation and effectiveness.

Details of progress on the implementation of the University's EEO/AA Program are contained in Annual Reports to the NSW Office of the Director of Equal Opportunity in Public Employment, to the Affirmative Action Agency, and to the Council of the University; and in the University's own Annual Report to the Parliament of NSW.

The University's Director of Affirmative Action (DAA) is responsible for compliance with equal opportunity legislation. The DAA is assisted by the Director, Equal Employment Opportunity and other EEO Unit staff. The DAA is further assisted by the Advisory Committee on Equal Opportunity in Employment, which has as its terms of reference to advise the DAA on:

- the promotion of equal opportunity in employment and, in particular, on the introduction of programs in support of this aim;
- the effectiveness of any such programs introduced;
- ways in which present impediments to equal employment opportunity in the University might be removed;
- any other such matters which it considers relevant to the principles of equal opportunity in employment and education in the University.

Anti-Discrimination and Affirmative Action legislation is designed to assist in creating and maintaining a fair and just society. The aim of the University's program is to prevent discrimination and promote equal employment opportunity including recognising and valuing the diverse skills, backgrounds and experience of staff. At the same time it aims to promote sound and cost effective management practices which ensure that the community's entire pool of talent is utilised to create an effective workforce.

The University has both a legal and moral obligation to provide a non-discriminatory workplace free from all forms of harassment. The success of the program depends on the continued co-operation of the whole University community in making equal employment opportunity a reality.

Equal Opportunity in Education Policy Statement

Under the Federal Racial Discrimination Act (1975), Sex Discrimination Act (1984), Disability Discrimination Act (1992) and the New South Wales Anti-Discrimination Act (1977), the University is required not to discriminate against students or prospective students on the grounds of sex, marital status, pregnancy, race, nationality, national or ethnic origin, colour, homosexuality or disability. Under the University of New South Wales Act (1989), the University declares that it will not discriminate on the grounds of religious or political affiliations, views or beliefs.

University Commitment to Equal Opportunity in Education

As well as recognizing its statutory obligations as listed, the University will eliminate discrimination on any other grounds which it deems to constitute disadvantage. The University is committed to providing a place to study free from harassment and discrimination, and one in which every student is encouraged to work towards her/his maximum potential. The University further commits itself to course design, curriculum content, classroom environment, assessment procedures and other aspects of campus life which will provide equality of educational opportunity to all students.

Special Admissions Schemes

The University will encourage the enrolment of students who belong to disadvantaged groups through programs such as the University Preparation Program and the ACCESS Scheme. Where members of disadvantaged groups are particularly under-represented in certain disciplines, the responsible faculties will actively encourage their enrolment.

Support of Disadvantaged Students

The University will provide support to assist the successful completion of studies by disadvantaged group members through such means as the Aboriginal Education Program, the Supportive English Program and the Learning Centre. It will work towards the provision of other resources, such as access for students with impaired mobility, assistance to students with other disabilities, the provision of a parents' room on the upper campus, and increased assistance with English language and communication.

Course Content, Curriculum Design, Teaching and Assessment, and Printed Material

Schools and faculties will monitor course content (including titles), teaching methods, assessment procedures, written material (including study guides and handbook and Calendar entries) and audiovisual material to ensure that they are not discriminatory or offensive and that they encourage and facilitate full participation in education by disadvantaged people.

Equal Opportunity Adviser Scheme

The University will continue its Equal Opportunity Adviser Scheme for students who feel that they have been harassed or who consider they have been disadvantaged in their education by practices and procedures within the University.

Harassment Policy

The University is committed to ensuring freedom from harassment for all people working or studying within the institution. It will continue to take action, including disciplinary action, to ensure that freedom from harassment is achieved.

Graduate Study

The University provides facilities for approved students to engage in advanced studies and research leading to the award of higher degrees and graduate diplomas.

The conditions for the various awards are administered by the Higher Degree Committee of the appropriate Faculty or Board of Studies under the general supervision of that Faculty or Board.

The higher doctorates of Doctor of Science, Doctor of Laws and Doctor of Letters may be awarded for published work of distinguished merit in any of these fields.

The degree of Doctor of Philosophy is available in all Faculties and in the Australian Graduate School of Management. It requires the completion of a progam of research over a period of at least three years' full-time study and the preparation of a thesis. The degree of Doctor of Medicine requires either a similar program of study or may be awarded on the basis of published work.

The University also offers masters degrees by research and by course work, as well as various courses leading to the award of a graduate diploma.

Short intensive graduate and special courses are provided each year through IPACE (by updating and refresher courses for professional people), the Centre for Continuing Medical Education, and a number of Schools of the University. These courses cover a wide range of interests and details are advertised separately.

General Education Requirement

The University requires that all undergraduate students undertake a structured program in General Education as an integral part of studies for their degree.

Among its objectives, the General Education program provides the opportunity for students to address some of the key questions they will face as individuals, citizens and professionals.

There are differing requirements for general education for students commencing before, in, and after 1988. Students must complete a progam of general education in accordance with the requirements in effect when they commenced their degree program. Students should consult the appropriate course authority or the Centre for Liberal and General Studies in Morven Brown Building, Room LG50.

The program requires students to undertake studies in three categories of the program: The key questions addressed by the Program are:

Category A: The External Context: An introduction in non-specialist terms to an understanding of the environments in which humans function.

Course Requirement: 56 hours

- 1. Australia and the Development of the World Economy. How do we, can we, generate wealth?
- 2. Human Inequality. How can we, ought we, distribute wealth, status and power?
- 3. Science and Civilization. What steps should we take, and what policies should we adopt, in science and technology?
- 4. Ecosystems, Technology and Human Habitation. What effects do our wealth generating and techno-scientific activities have on the environment?
- 5. Mass Media and Communication. What are the effects of the new mass media of communication?
- 6. Australian Society and Culture. What are the key social and cultural influences on Australia today?

Category B: The Internal Context of Assumptions and Values: An introduction to, and a critical reflection upon, the cultural bases of knowledge, belief, language, identity and purpose.

Course Requirement: 56 hours

1. The Self and Society. How do we define ourselves in relation to the larger human community?

- 2. Changing Conceptions of Human Nature and Well-Being. How do our conceptions of human nature and well being influence both individual and social behaviour?
- 3. The Pursuit of Human Rationality. What are the prevailing conceptions of and challenges to human rationality?
- The Use of Language, Images and Symbols. How do language, images and symbols function as means and media of communication
- 5. The Computer: Its Impact, Significance and Uses What is the impact of the computer on human society and culture?
- 6. Beliefs, Values and the Search for Meaning. Which systems of belief and configurations of values are most conducive to the survival and enhancement of the human species and the planet earth?

Category C: An introduction to the design and responsible management of the human and planetary future: An introduction to the systems over which human beings exercise some influence and control. This category is required only of students in four-year professional and honours programs

The central question to be addressed by students in a systematic and formal way is: For what purpose or purposes will I use my intellectual skills, my expertise, or my technological prowess?

Will these abilities be used, for example:

in a creative and innovative way?

to widen the circle of human participation in the benefits they bring?

to break down the barriers of exclusion and discrimination?

to enhance the prospects for survival of the human species?

to enhance the capacity of the planet earth to sustain life?

All students in courses of four or more years must address these issues in their course. Information about how the Category C requirement is satisfied is provided by course authorities and is specified in faculty handbooks: the Category C program varies between Faculties, and in some Faculties, between Schools.

Identification of Subjects

A subject is defined by the Academic Board as 'a unit of instruction approved by the University as being a discrete part of the requirements for a course offered by the University'.

Each approved subject of the University is identified by a sequence of eight characters, consisting of a four character alphabetical prefix which identifies the organizational unit responsible for administering the subject, and a four digit numeric suffix which identifies the subject.

Subject identifiers are approved by the Registrar and the system of allocation is based on the following guidelines:

- 1. The authority offering the subject, normally a School of the University, is indicated by the four character alphabetical prefix.
- 2. Each subject identifier is unique and is not used for more than one subject title.
- 3. Subject numbers which have previously been used are not used for new subject titles.

Subjects taught are listed in full in the handbook of the faculty or board of studies responsible for the particular course within which the subjects are taken. Subject descriptions are contained in the appropriate section in the handbooks.

Appropriate subjects for each school appear at the end of each school section.

The identifying alphabetical prefixes for each organizational unit are set out on the following pages.

Procedures

The University, in common with other large organizations, has established rules and procedures which are designed for the benefit of all members of the University. In some cases there are penalties (eg fines or exclusion from examinations) for non-compliance. Students requiring further information about the procedures described below should, initially, contact the Student Centre at their campus.

General Conduct

The University has not considered it necessary to formulate a detailed code of rules relating to the general conduct of students. Enrolment as a student of the University, however, involves an undertaking to observe the regulations, by-laws and rules of the University, and to pay due regard to any instructions given by any officer of the University.

Admission and Enrolment

Student Centres are located on each campus. These are the initial referral points for information on undergraduate and graduate courses admission requirements, undergraduate and graduate courses and enrolment procedures.

Information may be obtained at Student Centres about admission to first year undergraduate courses, special admission, admission with advanced standing and admission based on overseas qualifications. Applications are also received from UNSW students who wish to transfer from one course to another, or seek any concession in relation to a course in which they are enrolled.

It is essential that the closing dates for lodgement of applications are adhered to. For further details see the section on *Enrolment Procedures and Fees Schedules 1995*.

Kensington Campus

The Student Centre is located on the lower ground floor of the Chancellery building, adjacent to the Library lawn. It is open from 8.30am to 5.30pm Monday - Friday.

The Cashier is located on the ground floor of the Chancellery, adjacent to the main entrance. It is open from 9.30am to 4.30pm Monday - Friday. Faculty Handbooks and the Calendar may be purchased here.

A Cashier also operates at the Enrolment Centre during the enrolment period.

Students wishing to enrol as research degree candidates should first consult the Head of the School in which they wish to study. An application is then lodged on a standard form and the Postgraduate Section, after obtaining a recommendation from the Head of School, refers the application to the appropriate Faculty or Board of Studies Higher Degree Committee.

Admission to Undergraduate Courses

Those seeking entry to undergraduate courses in any university in NSW or the ACT are required to a lodge a single application form with the Universities Admissions Centre (Locked Bag 500, Lidcombe, 2141) by the end of September (late applications are accepted until the end of October on payment of a late fee). Provision is made on the application form for applicants to indicate up to six preferences. Students are notified of the result of their applications and provided with information regarding procedures to be followed in order to accept an offer of a place at this University. Enrolment is completed at the Enrolment Centre, Unisearch House, 221 Anzac Parade, Kensington.

Deferment of First Year Enrolment

Students who have received an offer of a place may request deferment of enrolment for one year and will usually receive permission providing they do not enrol in another tertiary course in that year.

First year students who enrol and subsequently discontinue their whole course without failure will be permitted to re-enrol the following year providing they do not enrol in another tertiary course in that year. They must confirm their intention to re-enrol by lodging an application with the Universities Admissions Centre.

Admission Requirements

Admission to all courses in the University is subject to selection on the basis of the Tertiary Entrance Rank (TER) (see below).

Students who are candidates for the New South Wales Higher School Certificate in 1994 may be considered for admission if they have sat at least ten units in approved subjects including English.

Subjects currently approved by the University are:

Group A:

All courses within this group are acceptable for inclusion in the aggregate including 2 unit general and 2 unit unrelated courses.

Aboriginal Studies Agriculture Ancient History **Applied Studies** Arabic Bahasa Indonesian/ Malaysia **Business Studies** Chinese **Classical Greek Computing Studies** Croation Czech Dance Design and Technology Drama Dutch Economics **Engineering Science** English Estonian Food Technology French **General Studies** Geography German Hebrew Home Science Hungarian Indonesian Industrial Technology Italian

Japanese Korean Latin Latvian Legal Studies Life Management Studies Lithuanian Macedonian Mathematics Modern Greek Modern History Music Personal Development, Health and Physical Education Polish **Rural Technology** Russian Science Serbian Sheep Husbandry and Wool Technology Slovenian Society and Culture Spanish Studies of Religion Textile and Design Turkish Ukranian Vietnamese Visual Arts

Group B:

Only ONE course (i.e. 2 units) from this group may be counted for selection purposes.

Classical Ballet Industry Studies Mathematics in Practice Science for Life

Joint Schools/TAFE Courses: Accounts Clerical Electronics Technology Travel Agency Practice

Distinction Courses: Comparative Literature Cosmology Philosophy

PLEASE NOTE:

Any Board determined courses NOT listed above have not yet been approved by the University for inclusion in the TER.

The University reserves the right to amend entry requirements without prior notice.

Calculation of Tertiary Entrance Rank (TER)

The TER will be based on the scaled aggregate and will inform students of their relative positions within the overall ranking of all HSC candidates.

The University's scaling method will take the Board of Studies standardised examination mark and the moderated school assessment for each course, and average the two to produce the course score. Scores for each 2 unit paper will then be standardised using a mean of 50. Where there is no school assessment, the examination mark only will be used. The scaling process will then determine weightings for courses according to the quality of their candidatures and the scores for each subject will be adjusted accordingly. For 3 and 4 unit related courses the scaled scores are determined from distributions of scaled scores in the common papers.

The best ten scaled unit scores will be selected and added together to produce an aggregate which is then converted to a TER.

The scaled aggregate can include any combination of units from Group A (see Admission Requirements) but no more than two units from Group B. Students may sit for more than two units from Group B but no more than two units will be included in the calculation of the scaled aggregate and therefore the TER.

Prerequisites

In addition some degree courses, as listed in the following table, require a student to have achieved a prescribed standard in specified Higher School Certificate subjects before an offer of a place will be made. These are called *course prerequisites*.

Further, some subjects have *subject prerequisites* based on results in the Higher School Certificate. Students who satisfy the course prerequisites but do not satisfy the subject prerequisites for all subjects in their course, may still receive and take up an offer of a place in the course except for Medicine (see below). They will not, however, be permitted to enrol in the particular University subject until the required prerequisite has been met.

Some introductory subjects will be available to students who have not met subject prerequisites at the Higher School Certificate but it should be noted that inclusion of one or more of these subjects in the first year program could prevent completion of a course in minimum time.

Subject prerequisites in the Medicine Course

For students entering the Medicine course failure to meet the subject requirements will result in their being given a one year deferment in order that they may achieve the required standard before commencing their course.

The following table lists all the undergraduate degree and diploma courses offered by the University other than those which are offered at the University College of the Australian Defence Force Academy, Canberra, and indicates those Higher School Certificate courses which, if completed at a satisfactory standard, will enable students to meet the prerequisite requirements of all compulsory subjects in that course.

Note

Where reference is made to 2 unit Mathematics, this does not include Mathematics in Society or Mathematics in Practice unless otherwise stated.

Where reference is made to 2 unit Science (any strand) or (Chemistry) etc this refers to an appropriate 2 unit course in Biology, Chemistry, Geology or Physics and does not refer to 2 unit Science (General) or Science for Life.

Footnotes

- 1. Students are advised to include both Physics and Chemistry in their HSC program as both disciplines are studied in this degree course.
- 2. There are no compulsory subjects in this degree course which have HSC prerequisites. Some optional subjects have HSC prerequisites. See the relevant Faculty Handbook.
- Mathematics 1 is the only compulsory subject in this degree course with HSC prerequisites. Some optional subjects have HSC prerequisites. See the relevant Faculty Handbook.
- Entry to this course full-time is restricted to graduates and part-time to graduates or persons 21 years of age or older.

- This is a four year professional Psychology course. The subject Psychology may also be studied as a major subject in the Arts and in the Science and Mathematics course.
- 6. Associate Diploma
- 7. These courses have a subject prerequisite for the Mathematics studied in the first year which is higher than the Mathematics required to enter the course. This means that students who meet the course prerequisite score in Mathematics but not the subject prerequisite score will receive and be able to take up the offer of a place in the course, but they will not be able to attempt the first year Mathematics subject until they successfully complete General Mathematics in year 1.
- 8. Selection based on HSC Score and interview.
- 9. Subject to approval.
- 10.Flight training component of course only available to International Students.

Admission Based on Equivalent Qualifications

Most applicants seeking admission to the University have completed the New South Wales Higher School Certificate. The University also accepts other qualifications, including:

1. Interstate Year 12, provided that applicants have achieved the equivalent of the current NSW TER required for entry to the particular course and satisfied course prerequisite subjects.

2. Overseas secondary and/or tertiary qualifications may be assessed by the University as meeting the equivalent level for admission to a particular course.

3. NSW TAFE Certificate, Advanced Certificate, Associate Diploma or Diplomas: applicants holding completed approved TAFE qualifications are eligible to be considered for admission. Trade certificates are not acceptable for admission purposes.

4. Registered Nurse Training (Hospital Based).

Registered Nurses who completed hospital-based training are eligible to be considered for admission to some courses. Completion of Enrolled Nurse training is not acceptable for admission purposes.

5. Previous Tertiary Studies

A person who has successfully completed the equivalent of at least two whole year degree level subjects at any recognised tertiary institution will be considered on the basis of academic performance.

6. Foundation Studies Certificate

International students may qualify for admission to undergraduate courses by successfully completing the Foundation Studies Certificate, or a recognised equivalent course. The Foundation Studies Certificate is offered by Unisearch Ltd, and is conducted at two locations, the Kensington Campus of the University and the Riverina campus of Charles Sturt University in Wagga Wagga.
Special Entry to the University

Some avenues of special entry are available for (i) Older students, (ii) Aboriginal students and (iii) educationally disadvantaged students. These avenues of special entry are described below.

Older Students

There are three avenues of special entry available for older students.

(a) Applicants who are 20 years of age or older may qualify for entry to the University by completing 10 semester units of study in the Tertiary Preparation Certificate Course conducted by the NSW Department of Technical and Further Education (TAFE). To be eligible for admission to all courses with a Mathematics prerequisite, the TPC **must** include Mathematics 1, 2 and 3 with a minimum mark of 30 in each. For further information on the TPC, contact a counsellor at a TAFE College.

(b) Applicants who are 21 years of age or older may qualify for entry to the University by obtaining a Tertiary Entrance Rank in 5 units of approved subjects at the New South Wales Higher School Certificate examination. All applicants undertaking the Special Adult Matriculation must include in their program at least 2 units of English. In addition, applicants must satisfy all course and subject prerequisites. Special Adult Matriculation is undertaken at a college of TAFE.

(c) Applicants over the age of 21 may also apply for admission to certain courses on successful completion of the University Preparation Program (UPP). The UPP involves attendance at the University for two hours per week (day or evening) for 28 weeks or, alternatively, for four hours per week (day or evening) for 14 weeks in Session 2 only. The UPP is designed to help students develop the skills and strategies needed to cope with the demands of tertiary study.

Students wishing to apply for Applied Science, Commerce, Economics, Engineering, or Science courses will be required in addition to take the Mathematics Preparation Program (MPP) during the Summer Session if they have not previously satisfied the HSC Mathematics prerequisite. The MPP is an intensive course of 10 hours per week for 10 weeks, requiring attendance on 3 evenings per week from early November to mid January.

Points to Note

- Entry to the Medicine or Optometry course is not possible via the TAFE Tertiary Preparation Course, a 5 unit HSC program or the University Preparation Program.
- In addition, the UPP is not accepted for entry to the following courses: Bachelor of Science (Psychology); Bachelor of Science in Computer Science, Advanced Science, Information Systems or Business Information Technology.
- Completion of a 5 unit HSC, the TPC or UPP does not ensure entry. Selection into all courses is based on academic merit in competition with other applicants. Some Faculties also consider other factors such as employment or may require applicants to submit a portfolio or attend an audition or interview.

- Certain courses have prerequisites. Refer to the section on Prerequisites.
- Any application for admission based on results in a 5 unit HSC program, the TPC or UPP must be made through the Universities Admissions Centre, Locked Bag 500, Lidcombe 2141.
- Any enquiries concerning the above should be directed to the University's Admissions Office. Telephone (02) 385 3686/3089.

Aboriginal Student Support Program

The University provides a special admission program for persons of Aboriginal or Torres Strait Island descent and offers admission to all undergraduate courses at the University. It is not necessary for applicants to have attempted the HSC or equivalent in order to apply for admission under this program.

All enquiries relating to this scheme should be directed to the Co-ordinator, Aboriginal Student Support Program. Telephone (02) 385 3805.

ACCESS Scheme

The ACCESS Scheme is a special method of entry to the University of New South Wales. It is designed primarily to assist school leavers of high academic potential whose education has been disadvantaged by circumstances beyond their control over a substantial period of time. It is available for admission to all undergraduate courses at the University and is open to all permanent residents of Australia.

Under the Scheme students who can demonstrate that their education has been severely affected by social, environmental or physical conditions for a period of at least a year, will be considered for places in courses below the normal course cut-offs. Those admitted within the Scheme will receive special assistance during their first year at University.

Further information about the Scheme may be obtained from the ACCESS Scheme Co-ordinator, telephone (02) 385 5434 or from the Undergraduate Admissions Section, telephone (02) 385 3089.

Enrolment as a Non-Award Student

See section 1.7., Enrolment Procedures and Fees Schedule, 1995, below.

Enrolment Procedures and Fees Schedules 1995

These rules apply to the following categories of students at the University:

- those proceeding to an undergraduate award;
- those proceeding to a postgraduate award or undertaking a postgraduate qualifying program;

- those undertaking cross-institutional study at UNSW for credit towards an award in which the student is currently enrolled at another Australian tertiary institution;
- those undertaking study as part of the Study Abroad program;
- those undertaking study as part of a formal exchange agreement between UNSW and certain overseas institutions;
- those enrolling in formal subjects but who will not be counting such subjects towards a formal University award (ie non-award enrolment).

1. Enrolment and Variations in Enrolment

All students must lodge an enrolment form each year. Students who fail to enrol in accordance with advertised procedures or who enrol after the nominated date will incur a fee penalty. At the time of lodging the enrolment form and with permission of the course authority, the student enrols in a course and in subjects appropriate to the student's year of course and discipline area. The student also provides demographic information, collected in statistical form, for the Department of Employment, Education and Training, and incurs Student Activity Fees and liability under the Higher Education Contribution Scheme. Details of Student Fees are provided below.

1.1 New Undergraduate Enrolments

Students applying for entry into the University must lodge an application for selection with the Universities Admissions Centre, Locked Bag 500, Lidcombe 2141.

Those who are selected will be required to complete enrolment at a specified time before the start of Session 1.

Application forms and details of application procedures may be obtained from the Student Centre at your campus.

1.2 Re-enrolling Undergraduate Students

Students who are continuing courses (or returning after approved leave of absence) should enrol in accordance with the procedures set out in the 1995 Enrolment Booklet available from the Student Centre and from course offices. Failure to complete enrolment in accordance with the instructions in the Enrolment Booklet will incur a penalty.

1.3 Re-enrolment deadlines – restrictions on late enrolment

Students must enrol in accordance with the enrolment schedule for their course. Students who attempt to enrol after this date will be required to apply in writing to the Registrar showing cause why they should be permitted to enrol. If permission is granted, students will be liable for a late enrolment fee of \$250 if enrolling in Week 1, and \$500 if enrolling in Week 2 or subsequently. An official receipt of payment of this fee must be shown before enrolment can be completed.

Some categories of student are exempt from this requirement – see the 1995 Enrolment Booklet for details. See Other Fees (below) for details of penalty fees.

1.4 New Postgraduate Students

Students enrolling for the first time in postgraduate courses will be advised by letter concerning the method of enrolment. Enrolment other than in accordance with the procedure set out in this letter may incur a penalty.

1.5 Re-enrolling Postgraduate Students

Students enrolled in research degrees will receive re-enrolment instructions in January.

Students re-enrolling in postgraduate degree, diploma or certificate courses should enrol in accordance with the procedures set out in the 1995 Enrolment Booklet for Graduate Courses, available from the Student Centre at their campus and from course offices.

1.6 Summer Session Enrolments

Students will be required to complete formal enrolment procedures prior to the commencement of their Summer Session of study.

Enrolment at this time will be for a student's approved Summer Session program. An invoice will be issued to all international and local students undertaking voluntary subjects or other fee paying courses, and to students electing to pay HECS up-front. When students complete formal re-enrolment with the University in February, Student Activity Fees will be levied together with an estimate of HECS liability based on the total year's approved program of study.

1.7 Restrictions on Re-enrolling

Students who have infringed the rules governing re-enrolment should not attempt to re-enrol but should follow the written instructions they have received from the Registrar.

1.8 Non-award Enrolment

Non-award students are students who are enrolled in subject/s but are not proceeding to a degree or diploma of the University.

Voluntary subject enrolment is where a student elects to enrol in subjects additional to his/her UNSW degree or diploma. Enrolment in these subjects is on a non-award basis.

Enrolments by non-award students are governed by the following rules:

(1) Enrolment in a particular subject or subjects as a non-award student may be permitted provided that in every case the Head of the School offering the subject considers that the student will benefit from the enrolment and provided also that accommodation is available and that the enrolment does not prevent a place in that subject being available to a student proceeding to a degree or diploma.

(2) A student who is under exclusion from any subject in the University may not enrol in that subject.

(3) A student who is under exclusion from any course in the University may not enrol in any subject which forms a compulsory component of the course from which the student is excluded.

(4) A student who is subsequently admitted to a course of the University for which subjects completed as a non-award student form a part, may receive standing for those subjects. (5) As a general rule the University does not permit non-award students to enrol in first year undergraduate subjects.

Enquiries concerning eligibility for enrolment and the availability of subjects should be made at the relevant School. Applications for non-award enrolment should be submitted to the Undergraduate Admissions Office.

Non-award students are required to pay subject tuition fees. The amounts are set out below in item 10 under 'Schedule of Subject Tuition Fees for Non-award Enrolments'.

1.9 Cross-institutional Enrolment

Students proceeding to an award at another tertiary institution who have been permitted to count a subject undertaken at the University towards their award at the other institution, require the permission of the Head of the School offering the subject in the same manner as other non-award enrolments. (See 1.7 above).

Enquiries concerning application procedures and eligibility should be made at the Student Centre at your campus.

Cross-institutional non-award students will incur a HECS liability for their enrolment except that where such students are permitted to enrol in a subject for which a tuition fee is charged, they will be required to pay the tuition fee in lieu of a charge under HECS.

1.10 Final dates for Enrolling in Subjects

No enrolments for subjects extending over the whole year or for Session 1 only will be accepted from students after the end of the second week of Session 1 except with the express approval of the Registrar and the Head(s) of the School(s) concerned. No enrolments for subjects in Session 2 only will be accepted after the end of the second week of Session 2 except with the express approval of the Registrar and the Head(s) of the School(s) concerned.

1.11 Variations in Enrolment (including Discontinuation of a course)

(1) Students wishing to vary their enrolment program must make application on the Variation of Enrolment form available from course offices.

(2) Discontinuation of a course

Students discontinuing courses are required to notify the Registrar in writing or to complete the discontinuation form available from the Student Centre. Such students may be entitled to a fee refund. (See item 2, Student Fees). Discontinuation of a course is acknowledged in writing by the Registrar.

(3) Discontinuation of subjects

Applications to discontinue subjects may be submitted throughout the year but applications lodged after the following dates will result in students being regarded as having failed the subjects concerned, except in special circumstances.

- (a) Session One subjects: 31 March
- (b) Whole Year subjects: end Week 2 of Session 2
- (c) Session Two subjects: 31 August

All variations to subject enrolments are acknowledged by the 'Confirmation of Enrolment' notice issued each session.

(4) Variation to Summer Session enrolment

Students wishing to vary their Summer Session enrolment program must apply on the Variation of Enrolment form within 5 working days of the subject commencing. Applications lodged after this time will result in students being regarded as having failed the subject(s) concerned, except in special circumstances.

(5) Discontinuation of 1st year undergraduate students First year students who enrol and subsequently discontinue without failure their whole course will be permitted to re-enrol the following year providing they do not enrol in another tertiary course. They must confirm their intention to re-enrol by lodging an application with the Universities Admissions Centre.

1.12 Deadlines for Payment of Fees, Charges and HECS

The University has introduced deadlines for the payment of all fees – these are set out below. Students who do not pay all fees by the due dates may be disenrolled. Students who are permitted to be re-instated following disenrolment will be required to pay a penalty fee of \$250.00 plus all outstanding fees and HECS before re-instatement.

Session 1 (All fees for	Friday 10 March 1995
1995; Session 1 HECS)	

Session 2 (Session 2 HECS) Friday 4 August 1995

1.13 Multiple Enrolment

(1) No person shall be permitted to enrol in a degree, diploma or certificate course at the University of New South Wales at the same time as he/she is enrolled for any other degree, diploma or certificate in the University or at any other tertiary institution, except with the approval of the faculty or faculties concerned.

(2) The Registrar may suspend from enrolment any student who is found to be enrolled, without approval, in more than one degree, diploma or certificate course.

2. Student Fees

Students are liable to pay Student Activity Fees and may incur a liability under the Higher Education Contribution Scheme (HECS). In the case of some postgraduate courses, students are also liable for course tuition fees, payment of which exempts them from HECS liability.

Tuition fees are also charged for any subject in which a student has enrolled on a non-award basis. In the case of such subjects, tuition fees are levied in lieu of HECS charges.

Students who are not Australian citizens or who have not been granted permanent residence in Australia are required to pay the full-fee cost of their degree or diploma. The full-fee amount includes both Student Activity Fees and course tuition fees. Full-fee students are not HECS liable.

Students may be liable for one or more of the following Fees:

- Higher Education Contribution Scheme (HECS)
- Postgraduate Course fees
- Subject fees (voluntary or non-award)
- Student Activity fees
- Other fees

Payment of fees and HECS must be made in accordance with instructions contained on the Student Charges Notice

issued during enrolment. Any requests for variation from those instructions should be referred to the Manager, Treasury Unit, Financial Services Department.

2.1 Student Activity Fees

Student Activity Fees have 3 components: the University Union Entrance Fee, Annual Subscriptions to the various student organizations listed in (b) below, and the Miscellaneous Fund Annual Fee.

(a) University Union Entrance Fee: Kensington Campus only.

Payable on first enrolment in the University \$37

All students must pay the full University Union entrance fee including those enrolling for one session only.

(b) Annual Subscriptions:

All students (with the exceptions set out below) are required to pay Annual Subscriptions if enrolling for a program involving two sessions. Those enrolling for only one session will pay half any subscriptions due.

Annual subscriptions are adjusted annually by a system of indexation and those set out below have been approved for 1995.

Kensington Campus:

University Union annual subscription:	\$180
Sports Association annual subscription:	\$48
Student Guild annual subscription:	
full-time students:	\$53
part-time students:	\$43

St George Campus:

St George Students' Association annual subscription:

tun-time students:	\$107
part-time students:	\$112

College of Fine Arts:

College of Fine Arts Students' Association annual subscription:

full-time students:	\$197
part-time students:	\$118

(c) Miscellaneous Fund Annual Fee:

This fee is used to finance expenses generally of a capital nature relating to student activities and includes an allocation for insurance cover for students. Funds are allocated for projects approved by the University Council. Those enrolling for only one session will pay half the annual fee.

Kensington:	\$63
St George:	\$63
College of Fine Arts:	\$63

2.2 Exemption from Student Activity Fees

Students often seek exemption from Student Activity Fees for reasons other than those set out below. It is stressed that the fees charged are a contribution by students towards services and amenities for the University community both now and in the future and exemption from them cannot be claimed because a student is unable or unwilling to make use of some of those services or amenities.

(1) Life members of the University Union and the Sports Association are exempt from those Annual Subscriptions.

Students who consider themselves eligible for life membership of the University Union or the Sports

Association should make enquiries at the offices of those organisations.

(2) Students enrolled in courses classified as External or who are enrolling in courses where for a session or sessions the formal academic requirements are undertaken at a part of the University away from their campus such as a teaching hospital or field station or at another tertiary institution or elsewhere, are exempt from the University Union Entrance Fee and all Annual Subscriptions but not the Miscellaneous Fund Annual Fee.

(3) Students enrolled in courses at the University College Australian Defence Force Academy are exempt from the Student Activity Fees and the University Union Entrance Fee, but shall pay such other fees and charges as the Council may from time to time determine.

(4) Students who while enrolled at and attending another tertiary institution in a degree or diploma course are given approval to enrol at the University in subjects to be credited towards the degree or diploma for which they are enrolled elsewhere are exempt from all Student Activity Fees.

(5) Graduate students who have completed all the experimental and research work for their degree at the commencement of session, except for the submission of their thesis or project report, may be exempted from the payment of all Student Activity Fees by the Registrar on production of an appropriate statement from the student's supervisor or head of school certifying that the student is no longer using University facilities.

(6) Graduate students required to resubmit their thesis or project report where resubmission requires no further experimental or research work may be exempted from payment of all Student Activity Fees by the Registrar on production of an appropriate statement from the supervisor or head of school.

(7) The Registrar is empowered to grant exemption from membership of the University Union, Student Guild and/or the Sports Association to students who have a genuine conscientious objection to such membership, subject to payment of all prescribed fees to the Miscellaneous Fund.

2.3 Refund of Student Activity Fees

(a) If notice of discontinuation of a course is received before the first day of Session 1, a refund of all Student Activity Fees paid will be made.

(b) Any person who has paid the University Union Entrance Fee in any year and who discontinues membership of the University Union after the commencement of Session 1 in the same year, or who does not renew membership in the immediately succeeding year may on written application to the University Union Warden receive a refund of half the entrance fee paid.

(c) If notice of discontinuation of a course is received on or before 31 March a full refund of Annual Subscriptions and the Miscellaneous Fund Annual Fee paid will be made; if notice is given on or before 31 August a refund of one-half of the Annual Subscriptions and the Miscellaneous Fund Annual Fee paid will be made; thereafter no refund will be made except that provided for in (f) below.

(d) If a student's enrolment is for one session only and notice of discontinuation is received on or prior to either 31 March or 31 August a full refund of Annual Subscriptions and the Miscellaneous Fund Annual Fee paid will be made; thereafter no refund will be made except that provided for in (f) below. (e) The refunds mentioned above may be granted to a student unable to notify the Registrar in writing by the dates required provided evidence is supplied that the student had ceased attendance by those dates.

(f) The refunds mentioned in (a), (c) and (d) above also apply to graduate students who submit a thesis or project report for examination or whose enrolment is discontinued by the dates given.

3. Higher Education Contribution Scheme (HECS)

The Higher Education Contribution Scheme, (HECS), is a scheme introduced by the Commonwealth Government in 1989 whereby students contribute towards the cost of their higher education. In 1995 the annual charge will be \$2,409 for a full-time equivalent study load. All students are liable for HECS unless exempted from the charge. The categories of HECS exemptions are set out below.

HECS is calculated each session at the HECS census dates and represents the proportion of the normal full-time equivalent load for the year of the course in which the student is enrolled. The load for full-year subjects is assessed and reported separately for session 1 and session 2. Load for summer session subjects is assessed when teaching in the subjects begins and is reported at the same time as session 1 load. Similarly, subjects studied in the mid-year break (winter session) are assessed when teaching in the subjects begins and reported at the same time as session 2 load. Students are assessed for session 1 subject load and the session 2 subject load and the session 2 load of full-year subjects on 31 August.

For most students there are two options available for payment of the charge. Students may pay 'up-front' and receive a 25% discount on the calculated charge or 'defer' payment in which case their liability is discharged through the taxation system when their income reaches certain levels. Students may also opt to make a partial payment up-front, in which case they receive no discount. At enrolment each student must choose a payment option and complete the Payment Options Form. The Commonwealth Government requires that New Zealand citizens resident in Australia for less than two years and permanent residents of Australia whose term address is overseas pay their HECS contribution up-front.

Students who wish to pay up-front must follow the instructions they receive at enrolment and make the payment within the specified time. Students who elect the up-front option may also opt to use a 'safety net' provision so that if they fail to pay up-front by the census date the payment will default to the deferred option. Students who do not opt for the safety net provision and who have not paid up-front HECS by the due date and have not changed their HECS payment option to deferred will be disenrolled. The deferred payment option requires students to provide their Tax File Number or for those who have not been issued with a number or do not know their Tax File Number, to complete a Tax File Number Application/Enquiry Form.

After the HECS census dates, all students are sent a notice confirming their enrolment details and outlining HECS

liability information. For those students who have chosen the deferred payment option, the liability which appears on the form will be reported to the Australian Taxation Office.

3.1 HECS Exemptions

(1) All students who have received an Australian Postgraduate Award (without stipend);

(2) Full-fee paying, sponsored, and subsidised overseas students.

(3) Students awarded a scholarship from education authorities for the professional development of teachers.

(4) All students enrolled in courses where tuition fees are payable.

Further information about HECS is provided in the HECS & the UNSW Student flier available at enrolment and, during the year, from the Student Centre at each campus.

4.1 Exemption from Course Fees

Students who can demonstrate that they will suffer extreme financial difficulties in undertaking a tuition-fee course, may be permitted to enrol with a HECS liability replacing the course fee. Students seeking this concession should submit their written request (outlining the circumstances on which the claim for concession is based) to the Registrar. This concession is under review.

4.2 Refund of Course Fees

(a) If notice of discontinuation of a course is received before the first day of Session 1 a refund of all course fees paid, less \$300, will be made. (b) If notice of discontinuation of a course is received on or before 31 March, a refund of all course fees paid less \$500 will be made. If a student's enrolment was for Session 2 only a refund of course fees paid for that session less \$500 will be made, if notice of discontinuation is received before 31 August. Students in the Graduate Diploma in Couple and Family Therapy who withdraw after the commencement of Session One will not be eligible for a refund of any tuition fees paid. 5. International Students

5.1 Study Abroad Students

The Study Abroad Office administers arrangements for fee paying international students wishing to study at the University for up to one year. The course categories available are:

- Regular undergraduate academic subjects and internships generally for students in the second and third year of their tertiary education;
- · Graduate-level coursework or projects;
- Short credit and non-credit courses convened on particular topics and offered during session breaks;
- Non-credit study programs for the enhancement of professional skills and knowledge.

Offers of admission for the session are made to qualified candidates in the sequence of application until all places have been filled. Applicants will have completed a year or more of post-secondary study at an accredited degree-granting institution of higher education prior to enrolment.

Qualified applicants need to be recommended for Study Abroad by a Dean or designated adviser, but will have attained an academic average of 3.0 GPA, or a credit in coursework completed at the time of application in the subject areas nominated for study at the University of New South Wales. Applicants should have obtained approval from their home institution for course preferences.

Applicants to the Study Abroad Program are normally notified of the selection decision no later than two weeks after their application is received. Successful candidates will receive a letter of provisional offer and a request for the full fee. On receipt an Acceptance Advice Form will be forwarded along with instructions on how to obtain a student visa and other pre-departure information.

Further information is available from the Study Abroad Office located on the 16th Floor of the Mathews Building.

5.2 Exchange Students

The University is party to several exchange agreements whereby students from the University of New South Wales may undertake courses at an overseas university and have subjects credited towards their degree. Students from the overseas universities enrol as non-award students at the University of New South Wales and undertake subjects for credit at their home universities.

Exchange students pay no tuition fees or subscription fees to students or sports unions, but are responsible for their own airfares, accommodation and living expenses.

Students from this University who study overseas on exchange should obtain course authority approval for proposed subjects prior to departure and submit official transcripts of the results to the course office upon their return. Australian exchange students will incur a liability under the Higher Education Continuation Scheme. Further information regarding exchange programs can be obtained from the International Student Centre.

5.3 International Students

International students currently undertaking an Australian Year 12 examination or enrolled in an Australian university apply for admission through the Universities Admissions Centre in the same way as local students. All other overseas students seeking admission to the University apply direct to the University.

To accept an offer of a place, an international student must lodge a deposit of 50% of the first year's fee. When this is received, the University is able to issue an Acceptance Advice Form which must be submitted when the applicant applies for a student visa.

The balance of the first year's fee must be paid on enrolment. Australian Government regulations require that international students must enrol in and remain enrolled in a full-time program.

Further information is available from the University's International Programs Office or the Student Centre located in The Chancellery Building. A full schedule of award courses and tuition fees for international students is given in the earlier chapter 'UNSW Courses Undergraduate and Graduate.'

6. Other Fees

Special Examination Fees

Examinations conducted in special circumstances for each subject: \$30

Review of assessment results for each subject \$20

Other Charges

In addition to any of the fees outlined above and depending on the subject being taken, students may be required to make a payment for equipment; money so paid is, in general, refunded if the equipment is returned in a satisfactory condition. Charges may also be payable for accommodation and subsistence on excursions and fieldwork; and for hospital residence by medical students.

Penalty Fees

(1) Failure to lodge enrolment form or pay fees* according to enrolment procedure: \$50

- (2) Late enrolment penalty for re-enrolling students: enrolment in Week 1 of Session 1: \$250 enrolment in Week 2 of Session 1 or subsequently: \$500
- (3) Reinstatement of enrolment fee: \$250

Penalties (1) and (2) may accumulate.

* Fees include Student Activity Fees, the Miscellaneous Fund annual fee, fees levied for voluntary enrolment, non-award enrolment, international student fees, tuition fees for postgraduate courses, and up-front HECS liability.

7. Sponsored or Assisted Students

Scholarship holders and sponsored students must present an enrolment voucher or appropriate letter of authority from their sponsor at the time they attend to enrol.

8. Debts

Any student who is indebted to the University and who fails either to make a satisfactory settlement of indebtedness upon receipt of due notice or to receive a special exemption will be disenrolled and will cease to be entitled to membership and privileges of the University. Such a student is not permitted to attend classes or examinations, or to be granted any official credentials. Re-enrolment in a subsequent session or year will not be permitted until such time as the debt is either paid in full, together with any enrolment reinstatement penalty fee (if appropriate) or agreement reached between the student and the Registrar on the method of repayment.

In exceptional cases the Registrar may grant exemption from the provisions referred to in the preceding paragraph upon receipt of a written statement from the student setting out all relevant circumstances.

9. Award Course Tuition Fees for International Students

For a complete schedule of course tuition fees for overseas students, see the chapter on 'UNSW Courses', preceding this chapter.

These fees also apply to students undertaking voluntary subjects ie subjects not required for the University of New South Wales degree or diploma in which the student is currently enrolled.

Students counting the subject/s towards a degree or diploma at another Australian tertiary institution will incur a HECS liability for the subject/s undertaken.

A refund of tuition fees paid will be made only if notification of discontinuation is received before 31 March for Session 1 and whole year subjects or 31 August for Session 2 subjects. Thereafter no refund will be made except in cases where the student, for reasons of illness or misadventure, was unable to notify the Registrar by the dates required.

Student ID Card - Conditions of Use

All students enrolling at the University are issued with a student identification card. The number appearing on the card is the student identifier used in the University's records. This number should be quoted in all correspondence.

(1) The card must be carried at the University and shown on request. It must be presented when borrowing from the University libraries, when using Library facilities and when applying for concessions.

(2) The card is not transferable.

(3) The student to whom the card has been issued must notify the Circulation Office of the Library of its loss or theft. Failure to do so may result in the cardholder being held responsible for items issued on the card after its loss or theft.

(4) The card is valid only for the period of enrolment indicated on the enrolment program notice issued at enrolment each year.

(5) The cardholder accepts responsibility for all Library books issued on his/her card and agrees to return books by the due date.

(6) If the card is damaged or becomes otherwise unusable, it is the cardholder's responsibility to seek replacement.

(7) The card always remains the property of the University and must be returned to it when the holder leaves the University.

Discontinuation and Course Leave

Leave from a course of study may be granted to undergraduate or postgraduate students. Leave is generally restricted to a total of two sessions; applications for leave in excess of two sessions will be approved only in exceptional circumstances at the discretion of the course authority.

Undergraduate students may be granted leave before commencement of the course. This type of leave, usually referred to as deferment of enrolment, will normally be granted once only and for a maximum of 2 sessions.

Undergraduate Students

A new undergraduate student in Stage 1 of a course who discontinues that course without failure prior to 31 March must reapply through UAC and is guaranteed re-admission to the same course the following year. A student who does not resume study in the following year must compete for a place, if and when re-admission is sought.

A new undergraduate student in Stage 1 of a course who discontinues after 31 March may apply for leave for Session 2 prior to the Session 2 withdrawal date of 31 August. It should be noted that discontinuation after the census date for a session may result in failures being recorded.

All students

1. A request for leave should be made in writing to the Registrar either by letter or by using the Discontinuation/Leave form available from course offices and the Student Centres at each campus.

2. Leave should be sought prior to the census date: 31 March for Session 1 or whole year leave, or prior to 31 August for Session 2 leave.

3. A student who discontinues a course with or without failure after the census date for a session retains an enrolment record for that session and is subject to the rules on re-enrolment. A student who discontinues after the Session 1 census date may apply for leave for Session2.

4. A student whose application for leave is rejected or who does not resume study at the end of the approved leave period must formally apply, in the usual manner, for re-admission to the course.

5. Enquiries about re-admission to a course should be directed to the Undergraduate Admissions Office or the Postgraduate Section, as appropriate.

Resumption of Courses

Students who have had a leave of absence for twelve months and wish to resume their course should follow the instructions about re-enrolling given in the letter granting leave of absence. If these instructions are not fully understood or have been lost students should contact the Student Centre in the Chancellery before November in the year preceding the one in which they wish to resume their course.

If students have not obtained leave of absence from their course and have not been enrolled in the course over the past twelve months or more, they should apply for re-admission to the course through the Universities Admissions Centre before the end of September in the year preceding that in which they wish to resume studies or to the Postgraduate Section by the appropriate closing date.

Undergraduate Course Transfers

Students wishing to transfer from one program to another within the following awards should apply through their School office: Bachelor of Commerce, Bachelor of Economics, Bachelor of Science (Science and Mathematics), Bachelor of Engineering (Aerospace Engineering, Industrial Engineering, Manufacturing Management, Mechanical Engineering and Naval Architecture), Bachelor of Laws. Students wishing to transfer courses within the Faculty of Arts and Social Sciences should apply through the Faculty Office.

All other students wishing to transfer from one course to another must either apply through the Universities Admissions Centre (UAC) by the end of September (late applications are accepted until the end of October on payment of a late fee) or complete a Course Transfer Application and submit it to the Student Centre by 22 December. Application forms are available from the Student Centre in the Chancellery. *No late Course Transfer applications will be accepted.*

Students will be notified of the result of their application by the end of January.

Admission with Advanced Standing and Credit Transfer

The following rules apply to credit granted in undergraduate degrees or awards.

- (i) Any credit granted must be consistent with the rules governing progression within the course which are operative at the time the application is determined.
- (ii) Students who transfer from another course shall not in general be granted standing which is superior to what they had in the course from which they are transferring.
- (iii) Students who are admitted to the University after completing or partly completing the requirements of another degree or award of another tertiary institution must complete a program of study deemed to be no less than that required of students in full-time attendance in the final year of the course concerned.
- (iv) Where Faculty/Board of Studies rules permit, students who have been awarded the degree of bachelor at pass level may be permitted to enrol for the award of the degree at honours level with credit for all subjects completed if, during their studies for the pass degree, they have satisfied the prerequisites for entry to the honours level laid down by the schools concerned or the equivalent of those prerequisites.

Applicants should also note that eligibility for credit in a UNSW course does not guarantee admission to that course.

The following rules apply to credit granted in postgraduate coursework degrees and diplomas.

(1) A coursework postgraduate student may be granted credit by the course authority. Any credit must be consistent with the rules governing progression within the course as determined by the Higher Degree Committee.

(2) A coursework postgradute student who is admitted to the University on the basis of a partially completed postgradute degree or other award from another institution will be required to complete at least 50% of the UNSW course. A Higher Degree Committee may establish for a course a requirement of completion of a higher percentage of the course.

(3) A coursework postgraduate student who is admitted to the University on the basis of a completed postgraduate degree or other award will not normally be granted advanced standing in the UNSW course. This does not apply to articulated UNSW courses which Council approval to build from certificate to master level without loss of credit.

Assessment and Examinations

Examinations are held in June/July and in November/ December.

Timetables

Provisional timetables indicating the dates and times of examinations are posted on the University noticeboards in May and October. Students must advise the Student Centre of any clash in examinations.

Final timetables indicating the dates, times, locations, and authorized materials are available for students two weeks before the end of each session.

Assessment of Course Progress

In the assessment of a student's progress in a course, consideration may be given to work in laboratory and class exercises and to any term or other tests given throughout the year, as well as to the results of written examinations.

Results of Assessment

Assessment result advices include the final composite marks students achieve in subjects taken that session.

Grading of Passes

Passes are graded as follows:

High Distinction: an outstanding performance Distinction: a superior performance Credit: a good performance Pass: an acceptable level of performance Satisfactory: satisfactory completion of a subject for which graded passes are not available

Pass Conceded

A pass conceded may be granted provided that the overall performance is considered to warrant such a concession. A pass conceded in a subject will allow progression to another subject for which the former subject is a prerequisite.

Pass Terminating

A *pass terminating* may be granted provided that the overall performance is considered to warrant such a concession. A pass terminating does not allow progression to another subject for which the former subject is a prerequisite.

Notification of Results

Final assessment results will be posted to a student's postal address, or vacation address if requested. Forms requesting that results be posted to a vacation address and change of address forms are obtainable at the Student Centre at your campus.

No assessment results are given by telephone.

Review of Results

A student may make application to the Registrar for the review of a result. The application form, accompanied by an appropriate fee, must be submitted not later than fifteen working days after the date of issue of the Notification of Result of Assessment form.

In reviewing a result, the subject authority shall ensure that all components of the assessment have been assessed and a mark assigned.

A review of a result is not a detailed reassessment of a student's standard of knowledge and understanding of, and

skills in, the subject. It is rather a search for arithmetic error in arriving at the composite mark and for gross and obvious error in assignment of marks in components of the final composite mark.

When an increase in marks is recommended, the application fee will be refunded by the Registrar.

Special Consideration

Students who believe that their performance in a subject, either during session or in an examination, has been adversely affected by sickness or any other reason should inform the Registrar and apply for special consideration in the determination of their standing. The application must be made on the 'Application for Special Consideration' form available from the student Centre. This application explains the specific information the Unviersity requires in order to make a decision.

Such requests should be lodged as soon as practicable after the occurrence and in any event no more than seven days after the final examination in a subject.

The Student Guide also contains full details of consideration procedures.

Physical Disabilities

Students with a physical disability which puts them at a disadvantage in written examinations, should advise the Head, Enrolments and Assessment Section (Ground Floor, the Chancellery, telephone (02) 385 3088) immediately their disability is known to discuss special examining conditions.

All students who need special examining conditions should contact the Student Centre and fill out the appropriate forms as soon as the Provisional Timetable is displayed.

Use of Computers and Electronic Calculators

The use of computers or electronic calculators may be permitted in examinations conducted within the University. Computers and electronic calculators which are authorized by the University for this purpose must be hand-held, internally powered, and silent. Computers are distinguished from electronic calculators for this purpose by the existence of a full alphabetic keyboard on them. Computers are not permitted in examinations for which an electronic calculator has been specified. When an electronic calculator on it must be cleared prior to entering an examination room.

Examinations Held Away from the Campus

Except in the case of students enrolled in external courses, examinations will not be permitted away from the campus unless the candidate is engaged in *compulsory industrial training*. Candidates must advise the Head, Enrolments and Assessment Section, telephone (02) 385 3088, immediately the details of the industrial training are known.

Arrival at Examinations

Morning examinations commence at 9am and afternoon examinations at 2pm. Candidates are required to be in their seats 15 minutes before the starting time to hear announcements regarding examinations and to take advantage of the reading time.

Use of Linguistic Dictionaries

The answers in all examinations and in all work submitted must be in English unless otherwise directed. Students may apply for permission to use standard linguistic dictionaries in the presentation of written work for assessment. The dictionary must be shown to the Head, Enrolments and Assessment Section at the time the application is made.

Academic Misconduct

Students are reminded that the University regards academic misconduct as a very serious matter. Students found guilty of academic misconduct are usually excluded from the University for 2 years. Because of the circumstances in individual cases the period of exclusion can range from one session to permanent exclusion from the University.

The following are some of the actions which have resulted in students being found guilty of academic misconduct in recent years:

1. taking unauthorized materials into an examination;

2. submitting work for assessment knowing it to be the work of another person;

3. improperly obtaining prior knowledge of an examination paper and using that knowledge in the examination.

4. failing to acknowledge the source of material in an assignment.

Acknowledgement of Sources

Students are expected to acknowledge the source of ideas and expressions used in submitted work. To provide adequate documentation is not only an indication of academic honesty but also a courtesy enabling the marker to consult sources with ease. Failure to do so may constitute plagiarism, which is subject to a charge of academic misconduct.

Conduct of Examinations

Examinations are conducted in accordance with the following rules and procedure:

1. Candidates are required to obey any instruction given by an examination supervisor for the proper conduct of the examination.

2. Candidates are required to be in their places in the examination room not less than fifteen minutes before the time for commencement.

3. No bags, mobile telephones or other communications equipment, writing paper, blotting paper, manuscript or book, other than specified material, is to be brought into the examination room.

4. Candidates are required to sit in the seat allocated to them by an examination supervisor.

5. Candidates shall not be admitted to an examination after thirty minutes from the time of commencement of the examination.

6. Candidates shall be not permitted to leave the examination room before the expiry of thirty minutes from the time the examination commences.

7. Candidates shall not be re-admitted to the examination room after they have left it unless, during the full period of their absence, they have been under approved supervision.

8. Candidates shall not by any improper means obtain, or endeavour to obtain, assistance in their work, give, or endeavour to give, assistance to any other candidate, or commit any breach of good order.

9. All answers must be in English unless otherwise stated. Foreign students who have the written approval of the Registrar and Deputy Principal may use standard linguistic dictionaries. 10. Smoking, eating and drinking are not permitted during the course of examinations.

11. A candidate who commits any infringement of the rules governing examinations is liable to disqualification at the particular examination, to immediate expulsion from the examination room and to such further penalty as may be determined in accordance with the By-laws.

Writing in Examinations

Candidates are permitted to take pens, pencils and erasers into the examination room but are advised that all answers must be written in ink. Except where expressly required, pencils may be used only for drawing, sketching or graphical work.

Further Assessment

In special circumstances further assessment including assessment or further assessment on medical or compassionate grounds may be granted.

Further assessment may be given at the discretion of the subject authority at any time prior to the meeting of the relevant faculty assessment committee (normally the fourth week of the Midyear recess and the second week of December). Further assessment may also be awarded at the faculty assessment committee and students affected may need to be free to undertake that further assessment in the last week in the Mid-year Recess and in the period up to the end of the second week in January. Students should ensure that they are familiar with the further assessment arrangements established by their subject authorities, and should consult their subject authority for details of further assessment immediately their results are known.

Provision of Information on Student Assessment

The University is committed to a policy of openness regarding exchange of information in matters involving the assessment of students. To this end:

(a) Subject authorities are responsible for ensuring that there is provided for each subject a clear written statement of expectations which should include a statement of objectives of the subject; its assessment plan, including weights allocated to each significant assessable component and related submission dates; the kind of evidence required for consideration to be given to late submissions; attendance, timetable and other requirements, to be presented at the first class of each session/term, recognizing always the ability to negotiate changes with the students concerned within the first week.

(b) All items of assessment completed during session should be marked promptly and returned to students with a mark or grade and, where appropriate, comments. Subject authorities where appropriate should provide information on the distribution of results in all items of assessment so that students can gauge their own performance against that of the other members of the class.

(c) Final composite marks in subjects as determined by faculty/board of studies Assessment Committees should continue to be provided to students on result notifications.

(d) Final examination scripts (other than those returned to students) are to be retained in the School for six months. Students should have access to their own scripts and be able to consult the examiner or the subject authority on their performance.

Faculties and boards of studies may determine the conditions under which access may be granted.

(e) Where examination question papers or other forms of assessment need to be kept confidential (e.g. multiple choice question papers where questions are re-used in later examinations) arrangement should be made for students to receive advice on their own performance with reference to their own examination script but in a way which does not prejudice the examination mode.

(f) In the case of the examination of theses and project reports, the examiners' reports should be released to the student, following determination of the student's results. The names of examiners, while remaining undisclosed prior to assessment, should be released subsequently unless a particular examiner requests that this information be not released.

Restriction on Students Re-enrolling

The University Council has adopted the following rules governing re-enrolment with the object of requiring students with a record of failure to show cause why they should be allowed to re-enrol and retain valuable class places.

First Year Students

1. Students enrolled for the first time in the first year of an undergraduate course of study in the University shall be advised that their academic progress is unsatisfactory if they do not pass the minimum number of subjects, units or credits prescribed by the relevant faculty or board of studies. Students will not be asked to show cause why they should be allowed to continue their course, but will be advised of courses of action they may take to improve their academic progress.

The minimum requirement for most faculties/boards is to pass half of the program. Further details are available from the Student Centre.

The above does not apply to students who discontinue without failure all Session 2 and whole-year subjects.

Repeated Failure Rule

2. Students shall be required to show cause why they should be allowed to repeat a subject which they have failed more than once. Where the subject is prescribed as part of the course they shall also be required to show cause why they should be allowed to continue that course.

General Rule

3. (1) Students shall be required to show cause why they should be allowed to repeat a subject they have failed if the assessment committee of the faculty or board of studies so decides on the basis of previous failures in that subject or in a related subject. Where the subject is prescribed as part of the course they shall also be required to show cause why they should be allowed to continue that course.

(2) Students shall be required to show cause why they should be allowed to continue their course if the assessment committee of the faculty or board of studies so decides on the basis of their academic record.

The Session-Unit System

4. (1) Students who infringe the provisions of Rule 2. at the end of Session 1 of any year will be allowed to repeat the

subjects if offered and/or continue the course in Session 2 of that year, subject to the rules of progression in the course.

(2) Such students will be required to show cause at the end of the year, except that students who infringe Rule 2. at the end of Session 1, and repeat the subjects in question in Session 2, and pass them, will not be required to show cause on account of any such subjects.

Exemption from Rules by Faculties

5. (1) A faculty or board of studies assessment committee may, in special circumstances, exempt students from some or all of the provisions of Rule 2.

(2) Such students will not be required to show cause under such provisions and will be notified accordingly by the Registrar.

Showing Cause

6. (1) Students wishing to show cause must apply for special permission to re-enrol. Application should be made on the form available from the Registrar and must be lodged with the Registrar by the dates published annually by the Registrar. A late application may be accepted at the discretion of the University.

(2) Each application shall be considered by the Admissions and Re-enrolment Committee of the relevant faculty or board of studies which shall determine whether the cause shown is adequate to justify the granting of permission to re-enrol.

Appeal

7. (1) Students who are excluded by the Admissions and Re-enrolment Committee from a course and/or subject under the provisions of the Rules have the right of appeal. A Re-enrolment Appeal Committee of the Academic Board will be constituted for the purpose of hearing such appeals.

(2) This Committee will have a membership of five and will be chaired by a senior member of the Academic Board nominated by the President. The remaining members of the Committee will preferably have had experience on a faculty Admissions and Re-enrolment Committee but will not be currently serving as members of such committees and need not be members of the Academic Board.

The decision of the Committee shall be final.

(3) The notification to students of a decision upheld by an Admissions and Re-enrolment Committee of the Academic Board to exclude them from re-enrolling in a course and/or subject shall indicate that they may appeal against that decision to the Re-enrolment Appeal Committee. The appeal must be lodged with the Registrar within fourteen days of the date of notification of exclusion; in special circumstances a late appeal may be accepted at the discretion of the chairman of the Appeal Committee. In lodging such an appeal with the Registrar students should provide a complete statement of all grounds on which the appeal is based.

(4) The Appeal Committee shall determine appeals after consideration of each appellant's academic record, application for special permission to re-enrol, and stated grounds of appeal. Students may elect to appear before the Committee and/or be represented.

Exclusion

8. (1) Students who are required to show cause under the provisions of Rule 3. and either do not attempt to show cause or do not receive special permission to re-enrol from

the relevant Admissions and Re-enrolment Committee (or the Appeal Committee on appeal) shall be excluded, for a period not in excess of two years, from re-enrolling in the subjects and courses on account of which they were required to show cause. Where the subjects failed are prescribed as part of any other course (or courses) they shall not be allowed to enrol in any such course.

(2) Students required to show cause under the provisions of Rule 2. who either do not attempt to show cause or do not receive special permission to re-enrol from the relevant Admissions and Re-enrolment Committee (or the Appeal Committee on appeal) shall be excluded, for a period not in excess of two years, from re-enrolling in any subject they have failed twice. Where the subjects failed are prescribed as part of a course they shall also be excluded from that course. Where the subjects failed are prescribed as part of any other course (or courses) they shall not be allowed to enrol in any such course.

(3) Students who are required to show cause under the provisions of Rules 2. or 3. and do not receive special permission to re-enrol may be excluded under one of the following categories:

- (a) One year with automatic re-admission.
- (b) Two years without automatic re-admission

Students excluded under (b) will be advised by the Registrar of courses of action they may take to improve their chances of re-admission.

Re-admission after Exclusion

9. (1) Excluded students may apply for re-admission after the period of exclusion has expired.

(2) (a) Applications for re-admission to a course should be made to the Universities Admissions Centre before the closing date for normal applications in the year prior to that in which re-admission is sought. Such applications will be considered by the Admissions and Re-enrolment Committee of the relevant faculty or board of studies.

(b) Applications for re-admission to a subject should be made to the Registrar before 30 November in the year prior to that in which re-admission is sought. Such applications will be considered by the relevant subject authority.

(3) Applications should include evidence that the circumstances which were deemed to operate against satisfactory performance at the time of exclusion are no

 longer operative or are reduced in intensity and/or evidence of action taken (including enrolment in course/s) to improve capacity to resume studies.

(4) Students who apply during their second year of exclusion to be re-admitted the following year to a course or subject, and are unsuccessful, will have the right to appeal against the decision to the Re-enrolment Appeal Committee.

Restrictions and Definitions

10. (1) These rules do not apply to students enrolled in programs leading to a higher degree or graduate diploma.

(2) A subject is defined as a unit of instruction identified by a distinctive subject identifier.

Admission to Degree or Diploma

The University's policy is to graduate at the next series of ceremonies all students who have completed requirements for their degree or diploma in the previous academic session.

The Registrar writes in December and June to all students eligible to complete requirements for their degree or diploma in the current academic session. Students who expect to complete requirements and who do not receive a letter by the end of December or June, respectively, should contact Student Administration (02) 385 3097/3102.

The letter from the Registrar asks students to notify any corrections to the University's records regarding name, address, telephone number and qualification sought. Students enrolled in courses where an honours qualification may be obtained through an additional year's study will be given the opportunity to advise that they will proceed to honours and, therefore, will not take out a pass degree.

Graduands who are indebted to the University will not be permitted to graduate until the debt has been cleared.

Information about graduation ceremonies

The University usually holds graduation ceremonies in the following periods:

February - Faculty of Medicine

April/May - All Degrees and Diplomas

June - Degrees and Diplomas conferred at ceremonies in Hong Kong, Kuala Lumpur and Singapore.

October - All Degrees and Diplomas

December - Australian Defence Force Academy

A schedule of graduation ceremonies, published by the Registrar, may be obtained from the Student Centre at each campus.

Information about arrangements for graduation ceremonies will be forwarded to graduands approximately four weeks before the date of the ceremony.

Attendance at Classes

Students are expected to be regular and punctual in attendance at all classes in the subjects in which they are enrolled. All applications for exemption from attendance at classes of any kind must be made in writing to the Registrar.

In the case of illness or of absence for some other unavoidable cause students may be excused by the Registrar for non-attendance at classes for a period of not more than one month or, on the recommendation of the Dean of the appropriate faculty, for a longer period.

Absence from Classes

Explanations of absences from classes, or requests for permission to be absent from forthcoming classes, should be addressed to the Registrar and, where applicable, should be accompanied by a medical certificate. If examinations or other forms of assessment have been missed, this should be stated in the application. If students attend less than eighty per cent of their possible classes they may be refused final assessment.

Release of Information to Third Parties

The University treats results of assessment and information it receives from a student as confidential and will not reveal such information to third parties without the permission of the student except at the discretion of senior officers in circumstances considered of benefit to the student and when it is either impossible or impracticable to gain the student's prior permission. This happens rarely. This policy is considered so important that it often involves officers of the University in very difficult situations, for example, when they must refuse to reveal the address of a student to parents or other relatives.

All students should be aware that students' addresses are eagerly sought by various commercial agents and that subterfuges of various kinds can be used to obtain them. From time to time, for example, people claiming to be from the University telephone students or their families and ask for information (usually another student's address) which is often given unsuspectingly. There is evidence that this is a technique used by some commercial agents.

It would be generally helpful if students, their families and friends were cautious in revealing information, making it a practice to ask the name, position, and telephone extension of any caller claiming to be from the University and, if suspicious, returning the call to the extension given.

Change of Address

Student Administration should be notified as soon as possible of any change of address. Failure to do this could lead to important correspondence (including results of assessment) going astray. The University cannot accept responsibility if official communications fail to reach students who have not given notice of their change of address. *Change of Address Advice* forms are available at Faculty and School offices and from the Student Centre at each campus.

All communications from the University will be sent to the postal address except when arrangements are made otherwise in the case of results of assessment (see **Assessment and Examinations: Notification of Results** earlier in this section).

Procedures for the Resolution of Student Grievances and Disputes

The University of New South Wales recognises that all decisions which affect a student's standing or progress in a course or subject must be made fairly and must be based on appropriate academic criteria.

Guidelines

The University is committed to providing a harmonious work and study environment, and will seriously listen to complaints and resolve them quickly if possible. The resolution procedures ensure that students are able to air legitimate complaints, knowing that ad hoc, vindictive or arbitrary action will not be taken against them or the staff complained about. By providing a clear set of procedures, it is hoped that grievances can be dealt with satisfactorily and expeditiously, and will prevent a minor grievance from becoming major problem.

These procedures apply to all enrolled students and to any decisions which may affect a student's standing in a subject or course. Many of these decisions concern assessment, but they may relate to other matters which could adversely affect a student's standing such as the granting of advanced standing, discontinuation, supervision arrangements, access to facilities, the award of scholarships and prizes, and decisions regarding fees. Research students may have a grievance concerning a thesis topic, access to facilities or supervision.

As there are many different decision-making processes in the University potentially affecting academic standing, not all of them can be covered specifically in one set of procedures. It is however the University's intention that a student's right to resolution of a grievance or dispute is not limited by this statement of procedures. Existing appeal procedures established for the re-enrolment rules for undergraduate students or for decisions on allegations of academic misconduct are not affected by these procedures. Information on these procedures is available earlier in the *Calendar*, in the *Student Guide* or from the Student Centre in the Chancellery.

A student is required to make his/her grievance known within a reasonable time frame, normally within a month of the decision being communicated.

The University expects that student grievances and claims of unfair treatment should in most instances be able to be resolved through informal discussion and consultation without recourse to formal appeal. However, where resolution is not possible, the University is committed to listen seriously to complaints and resolve them quickly if possible, by the following procedures.

Grievance Procedure

Step 1

The student should attempt to resolve the grievance with the staff member(s) concerned within a reasonable time frame.

Step 2

If the grievance is still unresolved, it should be directed to the Head of School (or other responsible officer nominated by the Faculty) who will attempt to resolve the grievance informally. Reasons should be provided by the Head of School (or nominated officer) for any recommendation or decision in respect of the matter.

Step 3

If the matter is not satisfactorily resolved at this stage, the student should refer the grievance to the Registrar.

Step 4

Except when insufficient or unfounded reasons have been given by the student to support the complaint, the Registrar will take the complaint in writing, inform the respondent officially, commence an investigation, including reference to the Dean or Presiding Member of the Faculty, and give an answer (including reasons) normally within 7 days.

Step 5

If the student is still dissatisfied, an appeal may be lodged in writing with the Presiding Member of the Postgraduate or Undergraduate Studies Committee within 14 days of receiving the Registrar's notification. The Presiding Member may decline to take action in cases where insufficient or unfounded reasons have been given by the student and shall inform the student accordingly.

If the matter has not already been considered by the Postgraduate or Undergraduate Studies Committee, this appeal will be heard by an Appeal Sub-committee, empanelled for the purpose by the Presiding Member of the appropriate Studies Committee. The Presiding Member will appoint as Chair of the Appeal Sub-Committee a member of the corresponding Studies Committee.

If the matter has already been considered by the Postgraduate or Undergraduate Studies Committee, this appeal will be heard by an Appeal Sub-Committee of the Academic Board, empanelled for the purpose by the President of the Board. The President will appoint as Chair of the Appeal Sub-Committee a member of the Academic Board.

The Appeal Sub-Committee will consist of at least three members, one of whom will be a student. The student member will be drawn from the Academic Board or from the current list of student members of faculties and boards of studies.

No member of the Appeal Sub-Committee will have been associated with either the original decision or any earlier step in the appeal process.

Within two months the Appeal Sub-Committee will make a decision on the matter. Decisions made by the Appeal Sub-Committees will be reported annually to the Academic Board. There will be no further right of appeal.

Each stage is to be handled expeditiously.

Donations, Gifts and Bequests

Since its foundation in 1949 the University of New South Wales has played an important role in tertiary education and, through its teaching and research, has contributed to the prosperity and development of industry and commerce in New South Wales and indeed throughout Australia. The quality of community life of the individual has also been enhanced by its work in medicine, environmental studies, engineering, the sciences and the humanities. While it receives a large measure of support from governments, the University relies to a considerable extent on funds from other sources to maintain and expand its research and to provide facilities for students and, also, to give it that additional measure of independence and freedom so necessary for the continuation of research and teaching.

In 1988 the University established The University of New South Wales Foundation Limited as the principal vehicle for its fundraising activities. Individuals and companies who wish to foster the University's independent advancement are encouraged to contribute to the Foundation, which can be contacted through the External Affairs Directorate.

For those wishing to contribute by Will, the following is a suggested form of bequest:

'I give to the University of New South Wales the sum of \$...........which I direct to be paid free from all duties thereon to the Vice-Chancellor of the said University and to be applied for the purposes of the University in such manner as the Council thereof may determine.'*

The University could also be nominated as a residuary beneficiary in the event that other beneficiaries predecease the testator/testatrix. Solicitors would assist drafting an appropriate will.

It is desirable that any request as to the application of a donation or bequest be expressed in terms as general as possible unless, of course, previous consultation has taken place with a representative of the University. Otherwise the University may be hampered in carrying out the real intention of a donor or testator by detailed directions which become unsuitable in some future conditions.

A bequest to the University frequently takes the form of shares and inscribed stock. It is suggested that intending benefactors may care to consider making the necessary legal arrangements to permit the University to invest in a wide range of securities, thus allowing the University to protect the bequest against monetary depreciation.

This particular provision could be made in the following form:

'In addition to its express powers of investment, the University may invest moneys, the subject of this bequest, and any income earned thereon in shares, stocks, bonds, notes, debentures or other securities or obligations of any company which is listed on any Stock Exchange in Australia.'

*Any request or conditions which the testator may wish to be attached to the bequest may be added here.

Death duty and Estate duty

A bequest to the University is at present exempt from the payment of death duty and estate duty.

Donations and Gifts – Taxation

Gifts not being testamentary gifts of the value of two dollars and upwards of money, or of property other than money which was purchased by the taxpayer within twelve months immediately preceding the making of the gifts, and made by the taxpayer in the year of income, are at present allowable taxation deductions under a provision of the Income Tax Assessment Act (Commonwealth).

(d) As soon as practicable after the closing of the ballot the Registrar, in the presence of such of the scrutineers as choose to be present, is to proceed to the examination of the voting papers.

(e) The Registrar is to reject as informal any voting paper in respect of which the provisions of paragraphs (a) and (b) have not been complied with.

(f) The method of counting votes at any election where only 1 candidate is to be elected is as prescribed by By-law 51.

(g) The method of counting votes at any election where 2 or more candidates are to be elected is as prescribed by By-law 52.

Method of Counting Votes at Elections where Only One Candidate is to be Elected

51. (a) The Registrar is to count the total number of first preference votes given to each candidate.

(b) If any candidate has received an absolute majority of votes, the Registrar is to declare that candidate elected, but if no candidate has received an absolute majority of votes, the candidate who has received the fewest votes is to be excluded and each voting paper counted to that candidate is to be allocated to the continuing candidate next in order of the voter's preference.

(c) The Registrar is to then make a second count and, if any candidate then has received an absolute majority of votes, the Registrar is to declare that candidate elected; but if no candidate then has received an absolute majority of votes, the process of excluding the candidate who has received the fewest votes, of allocating each voting paper counted to that candidate to

the continuing candidate next in order of the voter's preference, and of making a further count is to be repeated until a count reveals that 1 candidate has received an absolute majority of votes. The Registrar is to then declare that candidate elected.

(d) If, after any count other than the final count, 2 or more candidates have received an equal number of votes and 1 such candidate has to be excluded, the Registrar is to determine by lot which of them is to be excluded.

In this paragraph, "determine by lot" means determine in accordance with the following directions:

The name of each candidate concerned having been written on separate and similar slips of paper and the slips having been folded so as to prevent identification and mixed and drawn at random, the candidate whose name is first drawn is to be excluded.

(e) If, after the final count in which there are only 2 continuing candidates, both candidates having received an equal number of votes, the Registrar is to determine by lot which of them is to be elected.

In this paragraph, "determine by lot" means determine in accordance with the following directions:

The name of each candidate concerned having been written on separate and similar slips of paper and the slips having been folded so as to prevent identification and mixed and drawn at random, the candidate whose name is first drawn is to be elected.

(f) If, after the final count in which there are only 2 continuing candidates, such candidates not having received an equal number of votes, the continuing candidate who has the larger number of votes is to be elected even if the number is below an absolute majority of votes.

(g) In this By-law:

"an absolute majority of voters" means a number greater than one half of the total number of ballot papers counted;

"continuing candidate" means a candidate who has not been excluded from the ballot.

Method of Counting Votes at Elections where two or more Candidates are to be Elected

52. (a) The Registrar is to reject all informal ballot papers, and arrange the unrejected ballot papers under the names of the respective candidates by placing in a separate parcel all those on which a first preference is indicated for the same candidate. The first preference votes given for each candidate on all unrejected ballot papers are then to be counted.

(b) The number of first preference votes given for each candidate and the total number of all such votes is to be ascertained and a quota is to be determined by dividing the total number of first preference votes by one more than the number of candidates required to be elected and by increasing the quotient so obtained (disregarding any remainder) by 1, and any candidate who has received a number of first preference votes equal to or greater than the quota is to be elected.

(c) Unless all the vacancies have been filled, the number (if any) of votes in excess of the quota (here referred to as "surplus votes") of each elected candidate is to be transferred to the continuing candidates as follows:

(*i*) the number of surplus votes of the elected candidate is to be divided by the number of first preference votes received by that candidate and the resulting fraction is to be the transfer value;

(*ii*) The total number of ballot papers of the elected candidate that express the first preference vote for that candidate and the next available preference for a particular continuing candidate are to be multiplied by the transfer value, the number so obtained (disregarding any fraction) is to be added to the number of first preference votes of the continuing candidate and all those ballot papers are to be transferred to the continuing candidate, and any continuing candidate who has received a number of votes equal to or greater than the quota on the completion of any such transfer is to be elected.

(d) Unless all the vacancies have been filled, the surplus votes (if any) of any candidate elected under paragraph (c), or elected subsequently under this paragraph, are to be transferred to the continuing candidates in accordance with sub-paragraphs (i) and (ii) of paragraph (c), and any continuing candidate who has received a number of votes equal to or greater than the quota on the completion of any such transfer is to be elected.

(e) Where a continuing candidate has received a number of votes equal to or greater than the quota on the completion of a transfer under paragraphs (c) or (d) of the surplus votes of a particular elected candidate, no votes of any other candidate are to be transferred to the continuing candidate.

(f) For the purposes of the application of sub-paragraphs (i) and (ii) of paragraph (c) in relation to a transfer of the surplus votes of an elected candidate, each ballot paper of the elected candidate that was obtained on a transfer is to be dealt with as if any vote it expressed for the elected candidate were a first preference vote, as if the name of any other candidate previously elected or excluded had not been on the ballot paper and as if the number indicating subsequent preferences had been altered accordingly.

(g) Where after the counting of first preference votes or the transfer of surplus votes (if any) of elected candidates, no candidate has, or fewer than the number of candidates required to be elected have, received a number of votes equal to the quota, the candidate who stands lowest in the poll is to be excluded, and:

(i) the total number of ballot papers expressing a first preference vote for an excluded candidate and the next available preference for a particular continuing candidate are to be transferred, each ballot paper at a transfer value of 1, to the continuing candidate and added to the number of votes of the continuing candidate;

(ii) the total number (if any) of other ballot papers obtained by an excluded candidate or candidates are to be transferred beginning with the ballot papers received by that candidate

or those candidates at the highest transfer value and ending with he ballot papers received at the lowest transfer value, as follows:

the total number of ballot papers received by the excluded candidate or candidates at a particular transfer value from a particular candidate and expressing the next available preference for a particular continuing candidate are to be multiplied by that transfer value, the number so obtained (disregarding any fraction) is to be added to the number of votes of the continuing candidate and all those ballot papers are to be transferred to the continuing candidate.

(h) Any continuing candidate who has received a number of votes equal to or greater than the quota on the completion of a transfer is to be elected and unless all the vacancies have been filled the surplus votes (if any) of the candidate so elected are to be transferred to the continuing candidates except that where the candidate is elected before all the votes have been transferred the surplus votes (if any) of the candidate so elected are not to be transferred until the remaining votes of the excluded candidate have been transferred.

(i) Subject to paragraph (k), where after the transfer of all of the ballot papers of an excluded candidate or candidates, as the case may be, no continuing candidate has received a number of votes greater than the quota the continuing candidate who stands lowest in the poll is to be excluded and his or her ballot papers transferred in accordance with sub-paragraphs (i) and (ii) of paragraph (g).

(j) Where a candidate is elected during a transfer of ballot papers under paragraphs (g) or (i), no other ballot papers of an excluded candidate or candidates are to be transferred to the candidate so elected.

(k) In respect of the last vacancy for which 2 continuing candidates remain, the continuing candidate who has the larger number of votes is to be elected even if that number is below the quota

(I) Where the number of continuing candidates is equal to the number of remaining unfilled vacancies those candidates are to be elected.

(m) In this By-law:

"continuing candidate" means a candidate not already elected or excluded from the count.

This Calendar has been specifically designed as a summary volume of the University's academic and administrative procedures. It contains detailed information about the University - its organization, staff membership, description of disciplines, scholarships and prizes. The UNSW Handbooks also contain a summary list of higher degrees as well as the conditions of their award applicable to each volume. For detailed information about courses, subjects and requirements of a particular faculty consult the relevant Faculty Handbook. Separate Handbooks are published for the Faculties of Applied Science, Arts and Social Sciences, Built Environment, Commerce and Economics, Engineering, Law, Medicine, Professional Studies, Science (including Biological and Behavioural Sciences and the Board of Studies in Science and Mathematics), the Australian Graduate School of Management (AGSM), Australian Taxation Studies Program (ATAX), the College of Fine Arts, University College (ADFA) and the Centre for Liberal and General Studies.
