

The University of New South Wales

Commerce and Economics

1990 Faculty Handbook

Granted by the College of Heralds, London 3 March 1952

Heraldic Description of Arms

Argent on a Cross Gules a Lion passant guardant between four Mullets of eight points Or a Chief Sable charged with an open Book proper thereon the word SCIENTIA in letters also Sable.

The lion and the four stars of the Southern Cross on the Cross of St George have reference to the State of New South Wales which brought the University into being; the open book with SCIENTIA across its page reminds us of its original purpose. Beneath the shield is the motto 'Manu et Mente' ('with Hand and Mind'), which is the motto of the Sydney Technical College, from which the University has developed. The motto is not an integral part of the Grant of Arms and could be changed at will; but it was the opinion of the University Council that the relationship with the parent institution should in some way be recorded.

Introduction

The Faculty of Commerce and Economics offers both graduate and undergraduate courses which are relevant to a wide range of careers and professional interests in the commercial and industrial world, in the public service and in teaching at both the secondary and tertiary level. Last year saw the introduction of a new degree, the Bachelor of Economics, which is helping students prepare for careers in all these areas. The difference between this new degree and the existing Bachelor of Commerce is that all Bachelor of Economics students will complete a major sequence of study in economics though they may combine this with a major in another discipline, such as finance, industrial relations, political science or Asian studies.

There are separate quotas for the Bachelor of Commerce and the Bachelor of Economics. Students enrolled in the Faculty may apply at the end of each calendar year to transfer from one degree to the other, but approval will not be automatic and will depend on a student's academic record.

In both the Bachelor of Commerce and the Bachelor of Economics a common core of subjects in first year provides the essential foundation for subsequent specialization. The Faculty is concerned to combine strong development of fundamental conceptual issues with emphasis upon the application of knowledge to particular fields of human endeavour. This aim is assisted by the substantial interaction between the community and the Faculty through such avenues as the Information Systems Forum, the Centre for Applied Economic Research, the Japanese Economic and Management Studies Centre and the Industrial Relations Research Centre, together with the consulting and continuing education activities in fields such as accounting, behavioural science, economics, finance, industrial relations information systems and marketing.

J. R. Niland Dean Commerce and Economics

Faculty Information

Some People Who Can Help You

If you require advice about enrolment, degree requirements, progression within courses or any other general faculty matters, contact one of the following:

Mrs N. Withers, Administrative Assistant, Faculty of Commerce and Economics Office, Room 132, John Goodsell Building.

Dr P. Luey, Executive Assistant to the Dean of The Faculty of Commerce and Economics, Room 132A, John Goodsell Building.

For information and advice about subject content and requirements, contact the appropriate schools.

Faculty of Commerce and Economics Facsimile No. (02) 662 8845

It is University policy to promote equal opportunity in education (refer to EOE Policy Statement, University of New South Wales Calendar and the Guide for Students 1990).

Important: As changes may be made to information provided in this handbook, students should frequently consult the noticeboards of the schools and the official noticeboards of the University.

Higher School Certificate Prerequisites

The Bachelor of Commerce, Bachelor of Economics, Bachelor of Commerce/Bachelor of Science, Bachelor of Commerce/Bachelor of Laws and Bachelor of Economics/Bachelor of Laws courses require students to have achieved a prescribed standard in Mathematics at the Higher School Certificate before an offer of a place will be made. In addition, a number of subjects offered in these courses require students to have achieved a prescribed standard in English at the Higher School Certificate before enrolment in such subjects is permitted.

Current H.S.C. prerequisites, where applicable, are listed in the section Undergraduate Study: Subject Descriptions later in this Handbook.

The document containing advice to new students who do not meet English requirements is available from the Academic Registrar or the Faculty Office.

Faculty of Commerce and Economics Enrolment Procedures

All students re-enrolling should obtain a copy of the free leaflet Re-Enrolling 1990 available from the Faculty Office and the Admissions Office. This booklet provides detailed information on enrolment procedures and fees, enrolment timetables by Faculty and course, enrolment in miscellaneous subjects, locations and hours of Cashiers and late enrolments.

Examinations

In subjects under the control of the various schools in the Faculty of Commerce and Economics the published grade will be determined on the basis of a composite mark which will include, on a weighted basis, the results of the final examination, session and other prescribed examinations, essays and assignments. The exact method of weighting the components of the composite mark may differ from subject to subject, but students will be advised of the weighting at the commencement of each session.

Supplementary Examinations

Students may be required to sit for an oral and or written supplementary examination, which will normally be held in the two weeks preceding the commencement of Session 2 or in early January. In general this opportunity will only be offered to a student who has been prevented from taking an end of session examination or who has been placed at a serious disadvantage during the examination, and whose circumstances have improved considerably in the period since the examination was held.

Students are advised not to undertake programs with which they cannot cope adequately, and re-enrolling students are encouraged to seek the advice of enrolling officers in the Faculty on this matter.

Use of Calculators

The Faculty of Commerce and Economics has resolved to advise all students to equip themselves with a portable electronic calculator, preferably one which possesses in addition to the four basic arithmetic functions, those involving discounting and present value calculations.

These calculators should be a valuable study aid in expediting the routine aspects of assigned practical exercises throughout the year in many subjects. Such calculators may also be permitted, subject to the discretion of individual examiners, in examinations for subjects taught in the Faculty.

Faculty of Commerce and Economics Library Facilities

Students and staff of the Faculty of Commerce and Economics are mainly served by the Social Sciences and Humanities Library. Students in the Department of Legal Studies and Taxation also need to use the Law Library.

The Social Sciences and Humanities Library

This library is designed to serve the specialized reference and research needs of staff, post-graduate students and undergraduate students.

All students are welcome to use the library and to borrow books from it. The main entrance to the Social Sciences and Humanities Library can be reached by taking the lift to Level 4 of the library building.

The Library has a computerised on-line catalogue which provides up-to-date information on books on loan or in Open Reserve. Reference Staff of the Social Sciences and Humanilies Library are there to help you use the on-line catalogue. In addition, sets of the Library's microfiche catalogue are available for consultation. Both the on-line catalogue and microfiche catalogue will tell you where in the Library the material you want is located.

Social Sciences and Humanities Librarian

Pat Howard

Undergraduate Services

- The Open Reserve Section houses books and other materials which are required reading. Level 2.
- The Audio-Visual Section contains cassette tapes, mainly of lectures and other spoken word material. The Audio-Visual Section has wired study carrels and cassette players for student use. Level 3.
- The Reader Education program provides orientation tours and introductory library research method lectures to students.

Please contact the Reader Education Librarian on 697 2672 if you would like such classes to be arranged.

The Law Library

This library caters principally for the library needs of students in the Faculty of Law, but it is also responsible for the extensive collection on taxation. All students are welcome to use the library and borrow books from it. However, most of the materials required by students in the Department of Legal Studies and Taxation are held in the Open Reserve Section in the Undergraduate Library.

Law Librarian

Rob Brian

Faculty of Commerce and Economics Library – Reading Room

Officer-in-charge: Pamela Gildea

The library-reading room for undergraduate honours and graduate students in the Faculty of Commerce and Economics is located in the John Goodsell Building. Largely as a result of a series of annual grants of R500 made since 1961 by the Public Accountants' Registration Board of New South Wales and other grants and donations by public authorities and business organizations, the reading room contains books and periodicals covering a wide range of subjects. The reading room is open from 9 am to 7 pm Mondays to Thursdays and 9 am to 5 pm on Fridays.

Students wishing to use these fibrary facilities should register with Miss Gildea at the Enquiry Desk located in Room 127 on the first floor of the building.

General Education Requirement

The University requires that all undergraduate students undertake a structured program in General Education as an integral part of studies for their degree.

Among its objectives, the General Education program provides the opportunity for students to address some of the key questions they will face as individuals, citizens and professionals.

The program requires students to undetake studies in three areas:

- A. An introduction in non-specialist terms to an understanding of the environments in which humans function.
- **B.** An introduction to, and a critical reflection upon, the cultural bases of knowledge, belief, language, identity and purpose.
- **C.** An introduction to the development, design and responsible management of the systems over which human being exercise some influence and control.

The exact from of category is still being decided and should be clearly defined in 1990. This could involve, however, a slight subsequent change to the structure of the later years of degree programs.

There are differing requirements for students commencing before and after 1988:

1. Students who commenced their undergraduate program before 1988.

Students must complete a program of General Education in accordance with the requirements in effect when they commenced their degree program. Students yet to complete their General Education requirement may select subjects from any of the three calegories of the new program.

2. Students who commenced their undergraduate program in or after 1988.

Students must complete a program of subjects slelected from each of three categories of study in accordance with the rules defined in the General Education handbook and in sequences specified in the requirements for individual courses.

Further information may be obtained from the office of the Centre for Liberal and General Studies, Room G58, Morven Brown Building and the General Education handbook.

Student Clubs and Societies

Students have the opportunity of joining a wide range of clubs and societies. Many of these are affiliated with the Students' Union. There are numerous religious, social and cultural clubs

and also many sporting clubs which are affiliated with the Sports Association.

Clubs and societies seeking to use the name of the University in their title, or seeking University recognition, must submit their constitutions either to the Students' Union or the Sports Association if they wish to be affiliated with either or these bodies, or to the Academic Registrar for approval by the University Council.

The Commerce Society

The Commerce Society is the student body of the Faculty, and all Commerce students regardless of their course are automatically admitted as members.

The Annual General Meeting of the Society is held late in second session when the Executive Committee is elected. Early in first session a first year welcome is held. At this event first year students are encouraged to participate in the organisation of events such as the Commerce Ball.

Socially the main event of the Society is the Annual Ball. Other social events include barbecues, wine and cheese parties, harbour cruises, and other events as determined by the committee

President: Nick Moore Vice-President: Michael Alscher (Mail to: 1st Floor, John Goodsell Building, UNSW.)

AIESEC

AIESEC is a unique world-wide organization of Business and Management students, with committees in over five hundred campuses around the world. The UNSW Local Committee, besides serving the aims of AIESEC International is a most active social club within the Faculty of Commerce and Francomics

AIESEC has two primary aims: 1. To promote better understanding and co-operation among nations, especially the students of those nations. 2. To allow those students to improve their preparation for careers in Business and Commerce by gaining valuable experience.

AIESEC runs an international student exchange program, whereby students are matched to training programs and jobs that are offered by companies worldwide. These traineships are available in the areas of accounting, economics, marketing, management, personnel and computer science.

On traineeships, students can complement their studies with practical experience, earn award wages and, with the help of counterparts in other countries, enjoy the experience of living overseas. At the same time, the company acquires a highly qualified person of its own specifications.

At home AIESEC offers the opportunity to deal with leaders of industry and commerce and to develop talents within the organization itself. It also helps bridge the gap between students and academics and the business community.

The name, AIESEC, stands for the Association Internationale des Etudiants en Sciences Economiques et Commerciales. It was established in 1948 by representatives from 12 universities in seven European countries, and has now grown to embrace over 500 universities and other tertiary institutions

in 67 countries. It now involves more than 40,000 students, and has matched over 100,000 traineeships since its inception.

AIESEC, run by the students and for the benefit of students is a non-profit, non-political organization. Membership is \$6 per annum and all interested students are encouraged to join and be part of AIESEC's many social activities. Watch AIESEC's newsboard on the ground floor of the John Goodsell Building for more information on meeting times.

For further information contact:

AIESEC Union Box 48A

The University of New South Wales

Kensington, NSW 2033

or phone 697 5454 c/o University Students' Union and leave a message.

The Economic Society of Australia

Students are eligible for membership of the Economic Society of Australia at a concessional rate through the New South Wales branch. The Branch's financial year commences on 1st April and the student subscription rate is \$20 per annum compared with a full subscription rate of \$40 per annum. This concession applies to full-time students. Application for membership forms are available from the School of Economics office and require the attestation of a University staff member. Membership forms and information about the Society are also available from: The Hon Secretary, The Economic Society of Australia (NSW branch), PO Box 211, Mosman, NSW 2088.

Members receive the Society's journals, The Economic Record and Economic Papers. They may also subscribe at concessional rates to The Australian Quarterly. Meetings are held each month. The Branch also holds an annual Winter School and other functions at which current economic topics are discussed.

Statistical Society of Australia: New South Wales branch

The branch offers Student Membership to bona fide students. The current subscription for a student member is \$21 per annum, with a rebate of \$6 if payment is received before the due date, 1 January.

The branch holds about six Ordinary Meetings each year, as well as an Annual General Meeting in March. In addition, special meetings are arranged to present lectures by noted visitors. The branch conducts symposia for the study and discussion of particular statistical techniques or of statistical methods in a specialized field. In 1988 and every second year the Society holds its Australian Statistical Conference. Branch members pay reduced rates for attendance at both the symposia and the conferences.

Members of the branch receive the Australian Journal of Statistics (3 issues per year) and the Society's Newsletter (4 issues per year).

Requests for further information and for Application for Membership forms should be sent to the Honorary Secretary, Dr S. H. Huxham, School of Mathematics, University of Technology, Sydney, P.O. Box 123, Broadway, NSW 2007.

Market Research Society of Australia (NSW Division)

Market research is the systematic collection and objective recording, classification, analysis and presentation of data concerning the behaviour, needs, attitudes, opinions, motivations, etc. of individuals and organizations (commercial enterprises, public bodies, etc) within the context of their economic, social, political and everyday activities. It includes social research, insofar as this uses similar approaches and techniques in its study of issues and problems not directly connected with the marketing of goods and services, and also industrial marketing research and desk research especially where these are concerned with the acquisition of original data from the field and not simply the secondary analysis of already available data.

The aim of the Society is to encourage the use of scientific method in marketing research and marketing, and to facilitate the acquiring of further professional skills by its members.

Established in Australia since 1955, the Society has over 840 members in its five State divisions and is growing rapidly. It is the Australian representative of the International Marketing Federation. Its activities include courses, seminars and workshops on marketing research and marketing, and lectures by top Australian and overseas researchers. It publishes a monthly Newsletter, and a bi-annual journal, The Australian Marketing Researcher. At the regular monthly meetings a variety of papers on marketing research is discussed. It also makes available an annual award to marketing students.

A fully affiliated branch of the Society operates on campus as the UNSW Marketing Society (see entry following.) It also makes available an annual award to marketing students.

Membership fees are: \$25 joining fee, Full \$95, Associate \$95, Student \$40. Address: MRS of Australia, NSW Div, PO Box 380, Milsons Point, NSW 2061 (phone 957 4847). Enquiries from prospective members or visitors are welcomed, as are those from students or graduates interested in marketing research or marketing careers.

The University of New South Wales Marketing Society

The UNSW Marketing Society was formed to cater for the specific needs of marketing students. It offers a unique opportunity for marketing students to develop their management and social skills. Each year, the success of the Society depends on the interest of the students themselves.

There is no membership fee for the Society. Fund raising helps finance various functions held by the Society, and to facilitate communication of necessary information.

Last year the Society had over 220 members.

The main objectives of the Society are: 1. to supplement the marketing course by developing close links with industry; 2. to represent marketing students in activities on campus; 3. to sponsor seminars, case studies and visiting guest speakers; 4. to provide an opportunity for marketing students to develop their management and communication skills; and 5. to organize social activities for marketing students and friends.

For further information contact:

The Marketing Office, 3rd Floor, John Goodsell Building.

The Industrial Relations Society of New South Wales

The Industrial Relations Society of New South Wales, formed in 1958, was the first organization of its type to be formed in Australia.

Its objects are to organize and foster discussion, research, education and publication within the field of industrial relations. From its inception it has been highly successful in furthering its objectives and in bringing together representatives of trade unions, employers and government, the legal profession and academics, all of whom have contributed to the promotion of better industrial relations.

The proven success of the New South Wales Society is reflected by the fact that similar societies have been formed in each of the states of the Commonwealth and also in Papua New Guinea. This has also enabled the formation of a federal body, the Industrial Relations Society of Australia (composed of representatives of state societies) which is affiliated to the International Industrial Relations Association.

Participation in the activities of the Society enables a free exchange of opinions, an understanding of the other person's point of view, new friendships and personal relations, all being factors designed to create goodwill and understanding in the fields of industiral relations. All members receive a copy of the quarterly publication Journal of Industrial Relations. Regular activities include luncheons, occasional discussion groups and an annual convention.

Membership fees are payable each financial year and for the 1989/1990 financial year are approximately \$16 for bona fide fulltime students and \$28 for ordinary membership. The precise fee is available on the application form for membership. Enquiries should be addressed to:

The Honorary Secretary Industrial Relations Society of NSW GPO Box 4479 Sydney 2001

Accounting Students' Register

The Australian Society of Accountants enables all accounting students to be affiliated to Australia's largest professional accounting body through the ASR. Membership of the ASR offers many services including: access to one of the best accounting libraries in Australia; discount on purchase price of the Members Handbook, which contains the Australian Accounting Standards (a required text); subscription to the Society journal The Australian Accountant; access to seminars and courses organised by the Society.

For further information and application forms for the Accounting Students' Register, contact the Accountancy Careers Officer, Australian Society of Accountants, P.O. Box Q290, Queen Victoria Building, Sydney, 2000 or phone 29-6215 or 20-3514.

Banking Students' Register

The Australian Institute of Bankers has a special category of subsidized membership for full-time students enrolled in the Faculty of Commerce and Economics who are interested in

financial markets issues and are comtemplating a future career in the banking and finance industry.

The benefits of student membership include receiving the AIB journal *The Australian Banker*, the opportunity to attend professional development functions organised by the NSW State Committee (66 King Street, Sydney, Telephone (02) 262 1249), access to the Institute's library and information on the educational requirements for professional awards offered by the AIB.

Application forms for student membership can be obtained from the Office of the School of Banking and Finance.

Undergraduate Study

Bachelor of Commerce and Bachelor of Economics Degree Courses

The Faculty of Commerce and Economics consists of the Schools of Accounting, Banking and Finance, Economics, Industrial Relations and Organizational Behaviour, Information Systems, and Marketing, and the Department of Legal Studies and Taxation.

School of Accounting

Head of School Professor W. P. Birkett

Manager Mr E. W. Watts

Accounting is concerned with the provision of information for the management of economic resources and activities by means of measurement, communication and interpretation of financial data; with the development of information systems; and with the financial accountability and management of business and public enterprises.

The profession of accountancy has developed into two general classes, namely, the accountant in public practice and the accountant in industry, commerce and government. The former provides to clients services such as auditing corporate annual accounts, advising on taxation and business matters, designing computer and other forms of information systems, liquidating or resuscitating ailing businesses and management consulting. The accountant in industry, commerce and government is generally concerned with assisting in the financial management of the organization, including the design, control and operation of computer

systems, internal auditing and the preparation of periodic financial statements. The demand for accounting graduates has been and continues to be extremely strong.

For students enrolling in 1990 for the first time and who wish to prepare for professional practice in Accounting a sample course outline follows. However, students who enrolled prior to 1989 are advised to refer to the 1988 Handbook and follow the outline as it appears on page 13.

Year 1

Session 1

14.501 Accounting and Financial Management 1A 99.774 Legal Environment of Commerce

15.101E Microeconomics 1

15.102M Quantitative Methods A** or

15.101M Quantitative Methods A (Advanced)**

Session 2

14.511 Accounting and Financial Management 1B

19.602 Computer Information Systems 1

15.102E Macroeconomics 1

15.103M Quantitative Methods B

Year 2

Session 1

14.522 Accounting and Financial Management 2A

98 613 Business Finance 2A

99,775 Legal Transactions in Commerce

Economics Option

Session 2

14.542 Accounting and Financial Management 2B

14.777 Legal Organization of Commerce

Option*

Year 3 Session 1

14.563 Accounting and Financial Management 3A

14.783 Taxation Law Option*

Session 2

14.583 Accounting and Financial Management 3B

14.708 Auditing Option

"Two options must satisfy the General Education Requirement. The other 2 may be additional subjects related to Accounting, Banking and Finance, Information Systems or Legal Studies and Taxation

**All students must enrol concurrently and additionally in 19.601. The subject 19.601 must be satisfactorily completed prior to enrolment in 15.103M. This involves a total of 20 hours during session.

Students with a good academic record are encouraged to enter the Honours course in the third year of the full-time course or in the corresponding stages of the part-time course. Applications to enter must be approved by the Head of School before the student enrols in Year 3 of the full-time course or in the fifth stage of the part-time course. Applications to enrol should be addressed to the Faculty Office as soon as possible after the publication of results in the year concerned.

Before finalizing their enrolment, students are advised to discuss their requirements with staff members from the School of Accounting to ensure that all possible subject combinations are given consideration.

School of Banking and Finance

Head of School Professor I.G. Sharpe

Finance is the study of financial and capital markets, It is concerned with decision making within those markets, and how values or prices of financial assets are determined. It is concerned with investment decisions (for example portfolio selection), financing decisions of a firm (dividend policy, debt and equity structures, and lease purchase decisions), and the development of risk hedging strategies so as to minimise the damaging effects of adverse movements in share prices, interest rates, exchange rates, and other uncertainty.

A student may specialise in Finance or combine Finance with Accounting, Econometrics, Economics, Japanese Studies, Mathematics, Marketing or Law. Depending on the program selected, Finance provides training for a wide range of vocations including: corporate financial managers or treasurers; portfolio managers for trust funds, superannuation funds and insurance companies; investment analysts and financial researchers in stockbroking firms, merchant banks, trading banks and government departments; and management consultants and takeover specialists in corporate advisory divisions of merchant banks, public accounting firms, and management consulting firms.

Deregulation of Australia's financial system has created an excess demand for Finance graduates. Hence employment prospects are presently outstanding.

School of Information Systems

Head of School Professor D. R. Jeffery

Information Systems is concerned with planning, analysis, design and operation of computerized systems used to process information in commerce, industry, government and research organizations. The data processing needs of the organization are studied by systems analysts. Solutions to these needs, generally involving computerized equipment, are determined and systems of processing information are designed.

Graduates often follow careers as programmers, systems analysts, EDP auditors and database administrators. Major employers of Information Systems graduates include government departments, banks, oil companies, insurance companies, large manufacturing enterprises, universities and other research organizations, and computer marketing organizations.

School of Economics

Head of School Professor J. Piggott

Executive Assistant to Head of School Dr M. S. Monadiemi

The School of Economics offers full-time and part-time courses leading to the degree of Bachelor of Commerce and Economics with specializations in economics, econometrics or economic history. The full-time courses extend over three years for a degree at Pass level and four years for a degree at Honours level; the part-time courses extend over six years for a degree at Pass level and seven years for a degree at Honours level.

A joint degree in economics and Asian studies is offered within the School. The School of Economics and the School of Banking and Finance offer a joint degree in economics and finance and the School of Economics and the School of Industrial Relations and Organizational Behaviour offer a joint degree in economics and industrial relations.

The School of Economics and the School of Banking and Finance also offer a course in econometrics and finance leading to the degree of Bachelor of Commerce or Bachelor of Economics.

The core requirements of the Bachelor of Economics courses comprise three years of training in modern economic analysis, instruction in quantitative methods and techniques, an in-depth analysis of a field of economics or econometrics and, in most cases, some exposure to economic history. Through the common first year program in the Faculty of Commerce and Economics, students are given an introduction to accounting. The Bachelor of Economics courses are sufficiently flexible to allow students to pursue other interests to the extent of a major outside the School or the Faculty. The specialization in economics provides a basic training in economics which is

suitable for a wide range of careers in the private and public sectors of the economy. Students preparing for a career in banking or other financial institutions are advised to enrol in the joint Bachelor of Economics degree in economics and finance or the joint Bachelor of Commerce degree in econometrics and finance.

In all specializations, students who have a good academic record in the first or second year of the full-time course, or in the corresponding stages of the part-time course, are encouraged to apply for enrolment for the Honours course. Students who wish to become professional economists, econometricians or economic historians are strongly advised to take the Honours course. Applications must be approved by the Head of School before the student enrols in the third year of the full-time course, or in the fifth stage of the part-time course. Applications should be addressed to the Head of School as soon as possible after the publication of the results in the year concerned.

School of Industrial Relations and Organizational Behaviour

Head of School

Associate Professor D. H. Plowman

Industrial Relations is concerned with the wide range of issues and problems arising from the context of work in modern society. It focuses on the conventions and laws governing work relationships, and the way these are affected by the values of the larger society within which labour and management function.

The industrial relations institutions and procedures of a country reflect its economic, social, political and legal history, as well as the contemporary way of life of the people who relate to one another as employee and employer. The industrial relations program, therefore, is designed on a multi-disciplinary social science basis to foster an appreciation of the many important questions which arise for the individual, trade unions, employers and governmental bodies in respect of work.

The specialization in industrial relations provides a basic training suitable for a wide range of modern vocations, such as industrial advocacy or research with trade unions and employer organizations, as well as careers as industrial relations or manpower specialists with government bodies and international labour organizations.

The courses in Organizational Behaviour bring together the findings and techniques of individual, social and industrial psychology, sociology and other major social sciences in understanding human behaviour in organizations and the role of private, public and voluntary organizations in modern society.

The structure, functions and design of complex organizations, their management, the ways in which they change in response to external and internal forces, the significance of technology and culture and methods of managing change are some of the major issues dealt with. The courses constitute a significant adjunct and complement to more "technical" studies eg accounting, finance, information systems, economics, marketing, industrial relations and contribute to a broader appreciation of problems and methods of general and functional management.

School of Marketing

Head of School Professor R. A. Layton

Marketing, which became a distinct discipline only in recent decades, is a management discipline concerned with exchange processes involving organizations and individuals.

The School of Marketing offers undergraduate and graduate courses leading to the award of the degrees of Bachelor of Commerce and Master of Commerce. These courses provide training at two levels, for undergraduates with a special interest in and aptitude for marketing positions and for graduates with a first degree in any appropriate area.

Part-time programs to train senior marketing executives are provided each year by the School of Marketing. In addition the School offers short executive courses on specific aspects of marketing practice through Unisearch Ltd.

The first year of the full-time and the first two years of the part-time undergraduate courses in marketing are similar to the corresponding courses in accounting, finance and information systems, and economics. Students who have met the requirements of any of these courses can elect to transfer into the second year of the full-time or the third year of the part-time marketing course.

The content of the course includes not only the general field of marketing but the related disciplines of economics, accounting, psychology, sociology and mathematics. The Honours year deals with more advanced developments in marketing, and students are required to prepare a thesis. The course is broadly based in a number of disciplines in order to give the prospective marketing executive a comprehensive training that will reflect the practice of marketing in both the private and public sectors.

Graduates find careers in marketing research, marketing management, retailing, wholesaling and a host of other business activities, as well as in government and education. Those primarily interested in statistical analysis in market research will probably have availed themselves of the option to do extra work in mathematics.

A new undergraduate course in hospitality and management was introduced in 1989. This course adds hospitality management subjects to the full range of marketing subjects. These additional subjects include human resource management, tourism and hospitality law, together with hospitality management for hotels, resorts and restaurants. Graduates will find careers in major hotels and resorts, both in general management as well as in marketing.

The Master of Commerce degree course is designed to provide a specialist training at graduate level in specific areas of marketing skill. In particular, students can develop an interest in such areas as marketing research, industrial marketing, strategic marketing and quantitative analysis in marketing. By combining subjects from the School of Marketing with subjects offered by other schools in the Faculty, it is possible to complement studies in marketing with work in financial management, information systems or economics. The Master of Commerce degree course offers a flexible structure within which students can put together units that best suit their needs.

Professional Recognition of Courses offered by the Faculty of Commerce and Economics

The degree courses offered by this Faculty are recognized by professional organizations in accordance with the details set out below:

The Australian Society of Accountants has accepted this University as an approved tertiary institution for the purpose of the Society's membership qualifications, and graduates who complete the Bachelor of Commerce (Accounting) degree are able to qualify for Provisional Associate Membership. If their course includes 14.708 Auditing, 99.775 Legal Transactions in Commerce, 99.777 Legal Organization of Commerce and 99.783 Taxation Law, they will be eligible for Associate membership subject to professional requirements.

The Master of Commerce degree course in Professional Accounting is accepted for Provisional Membership of the Society if the course includes as a minimum the subjects: 14.940G Accounting and Financial Management A, 14.941G Accounting and Financial Management B, 14.970G Accounting Concepts and Financial Reporting, 99.971G The Legal Environment of Business, 98.973G Corporate Finance, 14.996G Management Accounting Control Systems; and two advanced accounting electives together with 15.114G Economics A and 15.125G Economics B. Students who have not previously studied economics to the required standard must also include 15.114G and 15.125G.

The MCom degree in Auditing, External Reporting, Management Accounting, Taxation or Treasury is recognised as the postgraduate study requirement for Specialist designation in the appropriate discipline.

Students seeking professional recognition are also advised to contact the ASA for current requirements.

The Institute of Chartered Accountants in Australia. Graduates who have completed the Accounting course for the Bachelor of Commerce degree are eligible under the Institute's new admission requirements to enter the 'Professional Year' leading to membership, provided they have included in their course the optional subjects, 14.708 Auditing, 99.775 Legal Transactions in Commerce, 99.777 Legal Organization of Commerce and 99.783 Taxation Law.

The Public Accountants' Registration Board of New South Wales exempts from its examinations graduates who complete the course provided they include in their course the optional subjects: 14.708 Auditing, 99.775 Legal Transactions in Commerce, 99.777 Legal Organization of Commerce and 99.783 Taxation Law.

The Institute of Chartered Secretaries and Administrators grants the maximum recognition permitted by its regulations. Graduates completing the Accounting course for the degree of Bachelor of Commerce are granted exemption from twelve of the fifteen subjects prescribed in the Institute's examination syllabus, provided they include in their course the required subjects as set down in the Institute's information sheet covering exemptions granted to Universities and teaching bodies in New South Wales.

The Australian Computer Society recognizes that students who have completed the requirements for the award of the Bachelor of Commerce degree have achieved the standard of knowledge required for Level 1 entry to membership if they have included in their course any six (6) subjects from 19.602 Computer Information Systems 1, 19.603 Computer Information Systems 2, 19.605 Information Systems 19.608 Information Systems 19.608 Database Systems, 19.611 Information Systems Development, 19.805 Information Systems Auditing. In addition the Society recognizes that students who have successfully completed any four or five of the above subjects have achieved the standard required for Level 2 entry to membership and successful completion of any three subjects from the above list for Level 3 entry

Students who have completed the Master of Commerce degree course are recognized as having achieved the standard of knowledge required for Level 1 entry if they have successfully completed any five subjects from: 19.605 Information Systems Implementation, 19.608 Database Systems, 19.611 Information Systems Development, 19.905G Information Systems Auditing, 19.953G Advanced Systems Management, 19.983G Information Systems and Telecommunications, 19.986G Research Topics in Information Systems 1, 19.987G Research Topics in Information Systems 2, 19.988G Information Systems A, 19.989G Information Systems B, 19.991G Decision Support Systems, and for Level 2 if they have included in their course any three or four of the subjects listed.

The Securities Institute of Australia grants exemptions from certain units leading to associate membership of the Institute to graduates who have completed finance subjects offered in the BCom, BEc or MCom degree courses.

Applications for registration, exemption or admission should be made direct to the professional bodies concerned.

The Australian Institute of Bankers. The educational requirements for Senior Associate status will be satisfied if graduates from any of the following BCom and BEc degrees include in their study programs 98.864 Australian Capital Markets and 98.630 Bank Financial Management:

BCom (Finance) **BCom** (Finance/Marketing) **BCom** (Finance/Japanese Studies) BCom (Economics/Finance) **BCom** (Econometrics/Finance) BCom. (Accounting/Finance) BCom/LLB (Finance) BCom/BSc (Finance/Mathematics) BFc (Economics/Finance)

Also students who intend to work in financial markets are also encouraged to include 98.632 Regulation in Capital Markets to give them a three-subject package of financial markets subjects.

The Master of Commerce degree in Finance or Treasury is accepted for Senior Associate membership of the Institute if the course includes the subjects 98.964G Australian Capital Markets, 98.911G Legal Aspects of Finance and 98.925G Financial Institution Management.

Students are also advised to contact the AIB for current requirements.

Undergraduate Study

Rules Governing the Award of the Degree of Bachelor of Commerce*

Preliminary

Rule 1

The degree of Bachelor of Commerce may be conferred as a Pass degree or as an Honours degree. There shall be three classes of Honours, namely, Class 1, Class 2 in two Divisions and Class 3. In cases of superior academic performance throughout the course, the Pass degree will be conferred with merit.

Rule 2

A person on whom the Pass degree of Bachelor of Commerce has been conferred shall not be admitted to candidature for the Honours degree of Bachelor of Commerce.

Passing in a Subject

Rule 3

Where, in the following rules, reference is made to the requirement that a candidate shall pass a subject, the requirement shall be construed as meaning that the candidate shall:

- attend such lectures, seminars and tutorials as may be prescribed in that subject;
- (2) complete assignments, laboratory work, and other set work by the prescribed dates to the satisfaction of the Head of School concerned;
- (3) pass the examination or examinations in that subject.

*These rules apply to students who were enrolled prior to 1989

Minimum Time for Completion

Rule 4

A candidate enrolled in a full-time course may not complete the requirements for the Pass degree in less than six sessions or the Honours degree in less than eight sessions. A candidate enrolled in a part-time course may not normally complete the requirements for the Pass degree in less than twelve sessions or the Honours degree in less than fourteen sessions, provided that these periods may, with the consent of the Head of School, be reduced to ten sessions and twelve sessions respectively in exceptional cases.

Normal Program

Rule 5

A candidate will not normally be permitted to enrol for more than four subjects simultaneously as a full-time student or more than two subjects simultaneously as a part-time student. The Head of School concerned may in exceptional circumstances grant such exemptions from this rule as the Head considers appropriate.

Nomination of Course

Rule 6

A candidate must nominate on the enrolment form the specialization intended when enrolling for the first year in the case of a candidate in a full-time course or the second year in the case of a student in a part-time course, provided that change of specialization will be permitted automatically up to

enrolment for the second year of a full-time course or the third year of a part-time course.

Humanities Subjects

Rule 7

A candidate shall include among his options two subjects totalling not less than three hours per week for two sessions which are any subjects, other than economics, offered by the Centre for Liberal and General Studies or any subjects, other than economics, that are qualifying subjects for the degree of Bachelor of Arts at the University of New South Wales." 1- For the purposes of this rule, one Arts subject with the value of 5 credit points

equals one Option.

†Commencing in 1983, students who have completed General Education subjects totalling three hours per week for one session are permitted to satisfy the requirements of this rule by completing one additional subject of two hours per subject to two hours per the completing one additional subject of two hours per the compl

totaling these incurs per week to the season are permitted to satisfy the requirements of this rule by completing one additional subject of two hours per week. Students who have completed one subject of one and a half hours per week for one session are permitted to satisfy the requirements of this rule by completing one or two additional subjects totalling four hours per week for one session.

A subject taught by the Centre for Liberal and General Studies and the corresponding Arts subjects may not both be counted towards the requirements for the degree and no more than two subjects taught by the Centre for Liberal and General Studies

may be counted towards the requirements of the degree.

Honours Degree

Rule 9

Rule 8

Upon completion of the first or second years of a full-time course or the corresponding stages of a part-time course, a candidate may make a written application to the Head of School concerned for permission to enrol for an Honours degree. When such permission is granted but a candidate's later performance is unsatisfactory, permission to continue as an Honours student may be withdrawn and the student may proceed to an appropriate Pass degree.

Credit for Subjects Passed at Another University

Rule 10

Subject to the University rules governing admission with advanced standing, subjects passed at another university may be counted towards fulfilling the requirements of the degree but, in general, not more than four subjects studied for a year or eight subjects studied for a session which are already counted for another degree may be counted towards the requirements for the Bachelor of Commerce.

Options

Rule 11

Subject to Rules 7 and 8 above and Rules 13 to 27 below, the options may be chosen from any approved subjects taught in the University which require at least one and a half hours of class contact for two sessions or three hours of class contact for a session. The approval for subjects to count as options is given by the Head of the School responsible for the candidate's specialization. Where such options are prescribed in the following tables, the Head of the School may, in exceptional circumstances, vary the selection prescription. Apart from

service courses for other faculties, all subjects offered by the Faculty of Commerce and Economics will be automatically approved as options save that no subject can be counted both as an option and as a prescribed subject.

Order of Progression of Subjects - Full-time and Part-time Students

Rule 12

To fuffil the requirements of the degree a candidate shall pass the subjects as set out in any one of **Rules 13** to **27**. Full-time students shall take the subjects in the order set out in these rules. All part-time students shall enrol in Accounting and Financial Management 1A and 1B and Microeconomics 1 and Macroeconomics 1 in their first year. In their second year they shall complete the requirements of the first yearfull-time course. Thereafter they may divide the subjects in any full-time year between two part-time years, subject to **Rules 5** and **29**. Except in exceptional circumstances, any compulsory subjects failed at midyear or end-of-year examinations must be repeated in the first session in which it is next offered.

These courses have been approved but are not available in 1990. For details of the courses see pp 49-50 of the 1981 Commerce Faculty Handbook.

Undergraduate Study

Rules Governing the Award of the Degrees of Bachelor of Commerce and Bachelor of Economics

Preliminary

Rule 1

The degrees of Bachelor of Commerce or Bachelor of Economics may be conferred as a Pass degree or as an Honours degree. There shall be three classes of Honours, namely Class 1, Class 2 in two Divisions and Class 3. In cases of superior academic performance throughout the course, the Pass degree will be conferred with merit.

Rule 2

Students not completing the requirements of a Table showing two majors must choose options so that they complete a "disciplinary minor" in a discipline other than the major one identified by the heading of the Table. A "disciplinary minor" is defined as four approved session units of which no more than two may be first year units.

Details of current disciplinary minors are shown following Rule 15.

Rule 3

Candidates are admitted to either the Bachelor of Commerce or the Bachelor of Economics course. There is no automatic transfer between the Bachelor of Commerce and the Bachelor of Economics courses. Candidates may seek to transfer between degrees and decisions will be made by the Faculty Admissions Committee.

Rule 4

A person on whom the Pass degree of Bachelor of Commerce or Bachelor of Economics has been conferred shall not be

admitted to candidature for the Honours degree of Bachelor of Commerce or Bachelor of Economics.

Passing in a Subject

Rule 5

Where, in the following rules, reference is made to the requirement that a candidate shall pass a subject, the requirement shall be construed as meaning that the candidate shall:

- (1) attend such lectures, seminars and tutorials as may be prescribed in that subject;
- (2) complete assignments, laboratory work, and other set work by the prescribed dates to the satisfaction of the Head of School concerned;
- (3) pass the examination or examinations in that subject.

Minimum Time for Completion

Rule 6

A candidate enrolled in a full-time course may not complete the requirements for the Pass degree in-less than six sessions or the Honours degree in less than eight sessions. A candidate enrolled in a part-time course may not normally complete the requirements for the Pass degree in less than twelve sessions or the Honours degree in less than fourteen sessions, provided that these periods may, with the consent of the Head of School, be reduced to ten sessions and twelve sessions respectively in exceptional cases.

Normal Program

Rule 7

A candidate will not normally be permitted to enrol for more than four subjects simultaneously as a full-time student or more than two subjects simultaneously as a part-time student. The Head of School concerned may in exceptional circumstances grant such exemptions from this rule as the Head considers appropriate.

Nomination of Course

Rule 8

A candidate must nominate on the enrolment form the specialization intended when enrolling for the first year.

General Education Program

Rule 9

Candidates are required to undertake 56 hours of instruction in at least one of the areas of study in Category (A) and 56 hours of instruction in Category (B).

Honours Degree

Rule 10

Upon completion of first or second years of a full-time course or the corresponding stages of a part-time course, a candidate may make a written application to the Head of School concerned for permission to enrol for an Honours degree. When such permission is granted but a candidate's later performance is unsatisfactory, permission to continue as an Honours student may be withdrawn and the student may proceed to an appropriate Pass degree.

Credit for Subjects Passed at Another University

Rule 11

Subject to the University rules governing admission with advanced standing, subjects passed at another university may be counted towards fulfilling the requirements of the degree but, in general, not more than four subjects studied for a year or eight subjects studied for a session which are already counted for another degree may be counted towards the requirements for the Bachelor of Commerce or Bachelor of Economics.

Options

Rule 12

Subject to the requirements of the individual programs, students may choose options from any approved subject taught in the University. Normally students may not count more than two subjects taught in the General Education program as

options. The approval for subjects to count as options is given by the Head of the School responsible for the candidate's specialization. Where such options are prescribed in the following tables, the Head of School may, in exceptional circumstances, vary the selection prescription. Apart from service courses for other faculties, all subjects offered by the Faculty of Commerce and Economics will be automatically approved as options save that no subject can be counted both as an option and as a prescribed subject.

Order of Progression of Subjects – Full-time and Part-time Students

Rule 13

Full-time students shall take the subjects in the order set out in these rules. All part-time students shall enrol in Accounting and Financial Management 1A and 1B and Microeconomics 1 and Macroeconomics 1 in their first year. In their second year they shall complete the requirements of the first year full-time course. Thereafter they may divide the subjects in any full-time year between two part-time years. Except in exceptional circumstances, any compulsory subjects failed at midyear or end-of-year examinations must be repeated in the first session in which it is next offered.

Prerequisite Requirements

Rule 14

To fulfil the requirements of the degrees a candidate shall pass the subjects as set out in the various programs. A candidate may not enrol in any subject without having satisfied any prescribed prerequisite requirement.

Special Rule Governing Economics and Mathematics Subjects

Rule 15

Students who have been excluded from the subjects listed in the left-hand column may not enrol in the subjects listed in the right-hand column:

If excluded from

15.102M Quantitative Methods A or 10.001 Mathematics 1 or 15.103M Quantitative Methods B 15.204E Applied Macroeconomics 2 15.203E Applied Microeconomics 2 15.201E Microeconomics 2

Subjects Making Up Disciplinary Minors

A Disciplinary Minor shall be satisfied by a candidate passing any four subjects of any discipline of which no more than two should be first year subjects.

1. Accounting - BCom and BEc

Undergraduate Thesis*

Students enrolled for a degree at Honours level in the Schools of the Faculty must present a thesis in their final year of study. The thesis is to be on a topic selected by the student and approved by the Head of the School concerned. The thesis must be written under the supervision of a member of staff nominated by the appropriate Head of School.

The length of the thesis for the Honours degree should not exceed 10,000 words.

For the Honours courses the topic selected must normally be submitted for approval no later than the end of the second session in the second last year of the course.

The thesis for any course leading to the award of a degree at Honours level must be presented not later than 30 November of the year in which the thesis is to be presented.

In writing theses students are expected to pay particular attention to matters of presentation. In this respect students are advised to consult Jate L. Turabian, A Manual for Writers of Term Papers, Theses and Dissertations, Phoenix Books, University of Chicago Press, 1955, and W. R. Parker, The MLA Style Sheet, Modern Language Association, NY, latest edition. The thesis must include a bibliography and an acknowledgement of all source material and it must be accompanied by an abstract of approximately 200 words. Two copies of the thesis must be submitted in double-spaced. typescript on paper size A4 with a 30 mm margin and suitably bound or stapled.

In exceptional circumstances the Head of School may grant an extension of time for compliance with the requirements of the three immediately preceding paragraphs.

"Before choosing a thesis topic, students in Economics should seek from their department an information sheet outlining requirements for the undergraduate thesis. The School of Economics also supplies the form headed Undergraduate Thesis: Application of Approval of Topic. Two copies of this form should be completed by the student and signed by a member of staff to show that the proposed topic is recommended for consideration. They should then be lodged at the School office.

Undergraduate Study

Combined Commerce/Law Course, Economics/Law Course and Commerce/Science Course

Combined Courses leading to award of Degrees of Bachelor of Commerce/Bachelor of Laws and Bachelor of Economics/Bachelor of Laws

The University offers combined courses leading to the award of the degrees of BCom and LLB and BEc and LLB. The Bachelor of Commerce degree course and the Bachelor of Economics degree course may be taken at either Pass or Honours level, the combined course taking five or six years respectively. Students wishing to take the degree at Honours level must consult the Head of the School in which they wish to study for Honours before enrolling in the second year of the course.

The Bachelor of Laws degree may be combined with a Bachelor of Commerce specializing in Accounting, Finance, Industrial Relations, Information Systems or Marketing.

In the modern world of business and administration there is a need in many fields for the combined professional skills of accountancy and law. The most obvious of these is the broad field of taxation practice, already drawing on both accounting and legal specialists for such matters as estate planning and taxation aspects of business reorganizations. With the growing complexity of commerce, including international business activities and large scale corporate organization, there is a new and urgent need for graduates who are well versed in a wide range of legal subjects as well as in

accounting and commerce generally. These graduates may enter large companies as full-time advisers or undertake specialized professional practice. In the public sector also the increasing scale and complexity of government undertakings opens up a significant range of opportunities leading to senior administrative positions. Apart from specific career considerations, there is no doubt that accounting and law are complementary studies which provide a demanding but worthwhile course for the able student.

In the financial markets, there is considerable demand for graduates with training in finance and law. The complexity of securities, takeover and company legislation has necessitated the employment of such graduates in merchant banks, trading banks, brokerage houses and regulatory bodies.

The combination of Economics and Law is not designed with the needs of any particular professional group in mind, but these skills are valuable in many vocations, particularly in the Public Service.

The growing complexity of industrial relations in Australia highlights the need for people wishing to become industrial advocates to have a solid grounding in economics, psychology, sociology and industrial relations, as well as in law. The combined course of Bachelor of Commerce (Industrial Relations) and Bachelor of Laws is therefore recommended for people who hope to practise law in the industrial jurisdiction.

Recent developments in Federal and State legislation, in the field of trade practices and consumerism in particular, have created an urgent need for managers and administrators skilled in both law and marketing. The combined Marketing/ Law course seeks to meet this need by combining a detailed study of marketing systems in general, and marketing

management in particular with the study of law. Graduates will find opportunities in both private and public sectors of the economy.

Rule 30

- 4(b) For students who enrolled in 1989 and subsequent years in the BCom (Industrial Relations)/LLB course, course code 4750:
- (1) Students who have passed 90.112 Legal System Torts will be exempted from two Rule 9 options.
- (2) Students will be exempted from 6 options if they have passed the following subjects:
- 90.141Contracts
- 90.161Criminal Law
- 90.500Law of Employment
- 90.503Industrial Law
- 5(a) For students enrolled prior to 1989 in the BCom(Marketing)/LLB course, course code 4710:
- Students who have passed 90.112 Legal System Torts will be exempted from two Rule 7 options.
- (2) Students who have passed 90.141 Contracts and 90.161 Criminal Law will be exempted from 15.101H Australia in the International Economy in the Twentieth Century and 99.774 Legal Environment of Commerce.

- (3) Students who have passed any two electives from the list below will be exempted from two Rule 24 options. The electives are as follows:
- 90,223Communications Law
- 90.401Business Associations 1
- 90.426Regulation of Economic Activity
- 90.434Trade Practices
- 90.437Commercial Law A
- 90.438Commercial Law B 90.454International Trade
- (4) Students wishing to take out the Bachelor of Commerce degree before completing the combined course must also complete the subject 28.022 Marketing Models. Students who have completed 28.022 as a compulsory subject prior to 1982 should consult the School of Marketing.
- 5(b) For students enrolled in 1989 and subsequent years in the BCom (Marketing)/LLB course, course code 4710:
- (1) Students who have passed 90.112 Legal System Torts will be exempted from two **Rule 9** options.
- (2) Students who have passed 90.141 Contracts and 90.161 Criminal Law will be exempted from 2 options.
- (3) Students will be exempted from two options if they have passed two subjects from the following list:
- 90.223Communications Law
- 90.401Business Associations 1
- 90.426Regulation of Economic Activity
- 90.434Trade Practices
- 90.437Commercial Law A
- 90.438Commercial Law B
- 90.454International Trade
 - (4) Students wishing to take out the Bachelor of Commerce degree before completing the combined course must also complete the subject 28.022 Marketing Models.
 - 6. For students enrolled in the BCom (Information Systems)/LLB course, course code 4736:
- (1) Students who have passed 90.112 Legal Systems Torts will be exempted from two **Rule 9** options.
- (2) Students will be exempted from 5 subjects if they have passed the following subjects:
- 90.141Contracts
- 90.161Criminal Law
- 90.402Business Associations 1
- 90.403Business Associations 2
- 7. For students enrolled in the BEc/LLB course, course code 4745:
- (1) Students who have passed 90.112 Legal System Torts will be exempted from two **Rule 9** options.
- (2) Students will be exempted from 6 options under Table 21 for students enrolled in the Pass course or Table 21A for students enrolled in the Honours course if they have passed 3 full-year (or equivalent) Law subjects.

Candidates who discontinue the combined course before its completion may apply to the Faculty of Commerce and Economics and be credited with such subjects as the relevant School deems appropriate.

Students requiring admission to the course leading to the award of the combined Commerce/Law or Economics/Law degree shall be required to meet the normal Faculty of Commerce and Economics prerequisites for entry.

Candidates for Honours in the Commerce or Economics degree course must complete one year additional to the minimum of five years required for the Commerce/Law course at Pass level.

Notwithstanding the above regulations, students undertaking the Combined Bachelor of Commerce or Bachelor of Economics at Honours level/Bachelor of Laws course may be awarded the degree of Bachelor of Commerce or Bachelor of Economics at Honours level once they have completed the Honours year and the requirements of the first three years of the Bachelor of Commerce or Bachelor of Economics at Honours Level/Bachelor of Laws course.

Rule 31

Combined Courses in Bachelor of Commerce (Accounting, Finance, Industrial Relations, Information Systems, Marketing)/Bachelor of Laws or Bachelor of Economics/Bachelor of Laws

Degree requirements are set out in tabular form as follows:

Table 26, Bachelor of Commerce (Accounting)/Bachelor of Laws. (This course is available only to students who enrolled prior to 1989.)

Cabor atory sessions as required are additional to the prescribed hours.

†All students must enrol concurrently and additionally in 19.601. The subject 19.601 must be satisfactorily completed prior to enrolment in 15.103M. This involves a total of 20 hours during session.

Combined Courses leading to award of Degrees of Bachelor of Commerce Bachelor of Science

The University offers a combined course leading to the award of the degrees of Bachelor of Commerce (Finance)/Bachelor of Science (Mathematics). The Bachelor of Commerce degree course may be taken at either Pass or Honours level, the combined course taking five or six years respectively. Students wishing to take the Bachelor of Commerce degree at Honours level must consult the Head of the School in which they wish to study for Honours before enrolling in the second year of the course.

There are two major sources of employment for BCom/BSc graduates. First and foremost are the banks. Since de-regulation, the financial sector has seen the entry of some 100 (merchant) banks, and the sector has been exposed to new and sophisticated capital markets. These banks require numerate mathematics graduates who can design and critically analyse the complex mathematical models (for example, of leasing agreements and option pricing) needed to operate effectively in these markets.

Other sources of employment are the insurance and financial consulting companies. In order to respond effectively to foreshadowed changes in the superannuation and tax laws, companies are seeking and employing good mathematics graduates willing to be trained as actuaries.

For both sources, graduates with a combined mathematics/finance background would be ideal.

Entry to the program will be by quota with the admission requirements being not less than that for the degree with the highest requirements (currently the Commerce degree) and also with the HSC prerequisites for 10.001 Mathematics 1. Students may be admitted direct to the program in Year 1 or could apply for admission in Years 2 or 3. Any sudents in the program would also have the option of taking out the BCom degree at the end of three years (provided all program requirements have been met).

The program will take four and a half years of full-time study to complete. However, outstanding students could be granted special permission to complete the program in four years by taking higher than average loads from the second half of year 2 onwards. Another alternative is for four years of full-time study, with the remaining requirements being completed part-time.

The program is:

3995 Bachelor of Commerce (Finance)/Bachelor of Science (Mathematics)

B.Com/BSc

This course is available only to students who enrolled prior to 1989.

Rule 40 (for students who enrolled prior to 1989).

To complete the requirements for the award of the BCom (Finance)/BSc (Mathematics) a candidate shall pass the subjects as set out in Table 33 below with the requirement that two options must be chosen from:

Bank Financial Management 98.630

98 631 Risk and Insurance

98.632 Regulation in Capital Markets

The remaining options undertaken must satisfy Rule 7 of the BCom degree requirement.

Some students would have the option to take Honours in either Finance or in Mathematics with the permission of the relevant Heads of Schools. An Honours program would normally require five and a half yours. However, by taking an extra unit in both years 3 and 4, a student would also have the option of completing an Honours degree in five years.

Note on Higher Units: For both Mathematics and Finance units, good students are encouraged to substitute higher level units for the corresponding ordinary level units listed in the program.

Subject Descriptions

Identification of Subjects by Number

A subject is defined by the Professorial Board as 'a unit of instruction approved by the University as being a discrete part of the requirements for a course offered by the University'.

Each approved subject of the University is identifiable both by number and by name as this is a check against nomination of a subject other than the one intended.

Subject numbers are allocated by the Registrar and the system of allocation is based on the following guidelines:

- 1. The authority offering the subject, normally a School of the University, is indicated by the number before the decimal point.
- 2. Each subject number is unique and is not used for more than one subject title.
- **3.** Subject numbers which have previously been used are not used for new subject titles.
- **4.** Graduate subjects are indicated by a suffix 'G' to a number with three digits after the decimal point. In other subjects three or four digits are used after the decimal point.

Subjects taught are listed in full in the handbook of the faculty or board of studies responsible for the particular course within which the subjects are taken. Subject descriptions are contained in the appropriate section in the handbooks.

Appropriate subjects for each school appear at the end of each school section.

The identifying numerical prefixes for each subject authority are set out on the following page.

Servicing Subjects are those taught by a school or department outside its own faculty. Their subject descriptions are published in the handbook of the faculty which originates the subject and are also published in the handbook of the faculty in which the

subject is taught. These subjects will be found at the back of this handbook.

The following pages contain descriptions for most of the subjects offered for the courses described in this book, the exception being General Education subjects. For General Education subjects see the General Education Handbook which is available free of charge.

HSC Exam Prerequisites

Subjects which require prerequisites for enrolment in terms of the HSC Examination percentile range, refer to the 1978 and subsequent Examinations.

Candidates for enrolment who obtained the HSC in previous years or hold other high school matriculation should check with the appropriate school on what matriculation status is required for admission to a subject.

Information Key

The following is the key to the information which may be supplied about each subject:

\$1 Session 1, \$2 Session 2

F Session 1 plus Session 2, ie full year

\$1 or \$2 Session 1 or Session 2, ie choice of either session

SS single session, but which session taught is not known at the time of publication

CCH class contact hours

L Lecture, followed by hours per week

T Laboratory/tutorial, followed by hours per week

Electrical Engineering and Computer Science

6.711 Computing 1A

S1 or S2 L3 T3

Prerequisite: As for 10.001. Co-requisite: 10.001. Excluded 6.600, 6.611. 6.620. 6.021D.

Introduction to the basic concepts of computing: logic, hierarchies, abstraction, specification, refinement, implementation, algorithm, programming language, recursion, non-determinism. Fundamental structures: sets, relations, functions, sequences, bags, trees, graphs. Exposure to a functional programming language for practical experience with the conceptual material in the subject, Machines for interpreting functional programs.

6.712 Computing 1B

S1 or S2 L3 T3

Prerequisite: 6.711. Excluded 6.620, 6.621, 6.021D

Expansion of the functional approach to computing in 6.711. Introduction to procedural and logic programming styles. Data structure implementation. Control structures: recursion and iteration. The software development process. Program efficiency and complexity - time and space analysis. Practical experience in using a procedural language. The basic structure of a computer, the layered model of a computer, instruction execution, assembly language, computer building blocks, the function of the operating system.

Mathematics

Mathematics I is appropriate for students with mathematical ability and interest. Students with a good 4 unit HSC Mathematics pass should attempt 10.011, whilst students with a 3 unit Grade 1 or 2 HSC Mathematics pass may attempt 10.001. In other circumstances, 15.102M and 15.103M Quantitative Methods may be a more suitable choice.

10.001 Mathematics 1

F L4 T2

Prerequisite:

HSC Exam Score Range Required

2 unit Mathematics* or 3 unit Mathematics or 4 unit Mathematics or 67-100 1-50 1-100

10.021B. Excluded 10.011, 10.021B, 10.021C.

*This refers to the 2 Unit Mathematics subject which is related to the 3 Unit Mathematics subject. It does not refer to the subject 2 Unit Mathematics (Mathematics in Society).

Calculus, analysis, analytic geometry, linear algebra, an introduction to abstract algebra, elementary computing.

10.011 Higher Mathematics 1

Prerequisite:

HSC Exam Score Range Required

F L4 T2

3 unit Mathematics

120-150

or 4 unit Mathematics Excluded 10.001, 10.021B, 10.021C

47-50

Calculus, analysis, analytic geometry, linear algebra, an introduction to abstract algebra, elementary computing. Those students wishing to do second year Mathematics in the Commerce course should enrol in the units 10.111A, 10.1113, 10.1114 Pure Mathematics and 10.2111, 10.2112 Applied Mathematics. Suitably qualified students may attempt the corresponding higher units.

10.111A Pure Mathematics 2 --Linear Algebra

S2 L1.5 T1

Prerequisite: 10.001 or 10.011. Excluded 10.121A.

Vector spaces, linear transformations and matrices, change of basis. Eigenvalues and eigenvectors, generalized eigenvectors. Functions of matrices. Linear systems of differential equations including the use of Laplace transform. Inner products, orthogonalization, projections. Unitary and self-adjoint transformations. Quadratic and Hermitian forms.

10.1113 Pure Mathematics 2 – Multivariable Calculus

S1 or S2 L1.5 T1

Prerequisite: 10.001 or 10.011. Excluded 10.1213.

Multiple integrals, partial differentiation. Analysis of real valued functions of one and several variables.

10.1114 Pure Mathematics 2 – Complex Analysis

S1 or S2 L1.5 T1

Prerequisite: 10.001 or 10.011. Excluded 10.1214.

Analytic functions, Taylor and Laurent series, integrals. Cauchy's theorem, residues, evaluation of certain real integrals.

10.1115 Pure Mathematics 2 -Finite Mathematics A

S1 L1.5 T0.5

Prerequisite: 10.001.

Positional number systems, floating-point arithmetic, rational arithmetic, congruences. Euclid's algorithm, continued fractions, Chinese remainder theorem, Fermat's theorem, applications to computer arithmetic. Polynomial arithmetic, division algorithm, factorization, interpolation, finite field. Codes, errorcorrecting codes, public-key cryptography.

10.121A Higher Pure Mathematics 2 — F L2 T0.5 Algebra

Prerequisite: 10.011 or 10.001 DN. Excluded 10.111A, 10.1111.

Linear algebra: vector spaces, commutative rings, polynomials, modules, linear transformations, eigenvectors, invariant subspaces, canonical forms, linear functions, bilinear and multi-linear algebra. Group theory; subgroups, quotient groups, isomorphisms. Lagrange's theorem, Sylow's theorem

10.1213 Higher Pure Mathematics 2— Multivariable Calculus

S1 L2 T0.5

Prerequisite: 10.011 or 10.001 DN. Excluded 10.1113.

As for 10.1113 Pure Mathematics 2 – Multivariable Calculus but in greater depth.

10.1214 Higher Pure Mathematics 2 – S2 L2 T0.5 Complex Analysis

Prerequisite: 10.1213. Excluded 10.1114.

As for 10.1114 Pure Mathematics 2 - Complex Analysis, but in greater depth.

10.122B Higher Pure Mathematics 3 — F L1.5 T0.5 Real Analysis and Functional Analysis

Prerequisites: 10.121A or 10.111A DN, 10.1213 or 10.1113 DN Excluded 10.1128, 10.1523.

The limit processes of analysis; introduction to Lebesgue integration; introduction to metric spaces. Hilbert spaces; linear operations; Fourier series.

10.1523 Pure Mathematics 3 – S1 or S2 L1.5 T0.5 Functional Analysis and Applications

Prerequisites: 10.111A, 10.2112. Co-requisite: 10.1128 strongly recommended. Excluded 10.122B.

Geometry of Hilbert spaces, approximation problems, linear operators, filters, spectral methods for differential equations.

10.2111 Applied Mathematics 2 — S1 or S2 LI.5 T0.5 Vector Calculus

Prerequisite: 10.001, Excluded 10.2211.

Properties of vectors and vector fields; divergence, gradient, curl of a vector; line, surface, and volume integrals. Gauss' and Stokes' theorems. Curvilinear co-ordinates.

10.2112 Applied Mathematics 2 – S1 or S2 L1.5 T0.5 Mathematical Methods for Differential Equations

Prerequisite: 10.001. Excluded 10.2212.

Mathematical methods for ordinary and partial differential equations. Series solutions, numerical methods, separation of variables. Fourier series. Bessel functions.

10.2113 Applied Mathematics 2 - S1 or S2 L1.5 T0.5 Linear Programming

Prerequisite: 10.001. Co-requisite: 10.111A. Excluded 10.2213.

Mathematical modelling and solution techniques for linear optimization problems. Feasible regions, graphical methods, the standard problem, basic solutions, fundamental theorem, simplex and revised simplex methods, duality and the dual simplex method, sensitivity analysis, the transportation problem.

10.2115 Applied Mathematics 2 - S1 or S2 L1.5 T0.5 Discrete-Time Systems

Prerequisite: 10.001. Co-requisite: 10.111A. Excluded 10.2215.

The study of dynamical systems whose states change at discrete points in time. Difference equations: existence and

uniqueness of solutions, general solution of linear equations. Linear systems: dynamics, stability, and oscillations, z-transforms, state-space methods. Nonlinear systems; equilibrium points, limit cycles. Applications selected from problems of importance in engineering, biological, social, management, and economic systems.

10.212L Applied Mathematics 3 – S1 L3 T1 Optimization Methods

Prerequisite: 10.111A, and 10.1113 or 10.2111. Excluded 10.222L.

Development, analysis and application of methods for optimization problems. Theory of multivariable optimization; including necessary and sufficient optimality conditions, stationary points, Lagrange multipliers, Kuhn-Tucker conditions, convexity and duality. Numerical methods for one minimization, dimensional unconstrained multivariable (including steepest minimization descent. Newton. quasi-Newton and conjugate gradient methods) and constrained multi-variable minimization including linear programming and quadratic programming.

10.212M Applied Mathematics 3 – S2 L3 T1 Optimal Control

Prerequisites: 10.1113 and 10.1114, 10.111A. Excluded 10.222M

Introduction to control of time-varying systems. Open and closed loop control systems. Mathematical description of dynamical systems. Transform methods for linear systems. Stability, feed-back and control. State space, observability and controllability. Optimal control. Dynamic programming and the Bellman equation. The Pontryagin maximum principle. Calculus of variations. Examples and applications are selected from physical, engineering economics, resource and financial management, social and biological systems.

10.2211 Higher Applied Mathematics 2 - S1 L2 T.5 Vector Analysis

Prerequisite: 10.011 or 10.001 (CR), Excluded 10.2111.

As for 10.2111 but in greater depth.

10.2212 Higher Applied Mathematics 2 - S2 L2 T.5 Mathematical Methods for Differential Equations

Prerequisite: 10.011 or 10.001 CR. Excluded 10.2112.

As for 10.2112 but in greater depth.

10.311A Theory of Statistics 2 - S1 L3 T1 Probability and Random Variables

Prerequisite: 10.001 or 10.011 or 10.021C (CR). Excluded 10.321A, 10.301.

10.301

Probability, random variables, standard discrete and continuous distributions, multivariate distributions, transformations, random sampling, sampling distributions, limit theorems.

10.311B Theory of Statistics 2 – Basic Inference

Prerequisite: 10.311A. Excluded 10.321B, 10.301, 45.101.

Point estimation: general theory, estimation by moments, maximum likelhood, interval estimation with general theory and application, hypothesis testing using Neyman Pearson theory, linear regression and prediction, analysis of variance.

S2 L3 T1

Psychology

12.651 Psychology (Industrial Relations)

Prerequisite: Nil.

Not offered in 1990.

Problems and limitations affecting social research in industry. Critical review of American research from Hawthorne to Herzberg and of British research from Tavistock and Trist to Emery in Australia. Conflict and organic theories of organization and related theories of motivation and morale. The use of library resources. Practice in the skills and discipline required to obtain and evaluate empirical evidence in this field. Recent developments under the headings of 'participation' and democracy in industry.

School of Accounting

14.501 Accounting and Financial S Management 1A

S1 or S2 L2 T2.5

Prerequisite: Nil.

This is the first unit in a sequence of subject dealing with aspects of the practice of financial reporting, and reviewing the analytical and investigative tools and processes used within the discipline of accounting. The basic accounting process, whereby financial data from source documents are recorded, processed, summarised and adjusted (in terms of a given set of accounting concepts) culminating in the preparation of financial reports. Design of accounting systems and incorporation of internal controls. Accounting for cash debtors, inventories and property, plant and equipment. Uses and limitations of traditional financial reports.

14.511 Accounting and Financial Management 1B

\$1 or \$2 L2 T2.5

Prerequisite: 14.501.

The second unit in a sequence of financial accounting subjects including the definition and recognition of assets, liabilities, revenues and expenses, partnerships, joint ventures and corporations. Financing decisions and financial Management. Financial statement analysis. Aspects of the contemporary institutional and regulatory environment of external financial reporting. Alternative accounting systems incorporating different measurement unit. Capital maintenance and valuation concepts. Overview of accounting for investments. Preparation of simple funds statement.

14.522 Accounting and Financial Management 2A

S1 L2 T2.5

Prerequisites: 14.511 plus

2 unit Mathematics or 3 unit Mathematics or 4 unit Mathematics HSC minimum mark required 60

1

The design and operation of management accounting systems, including product costing systems and budgeting planning and control systems. In particular, attention is focused on the theoretical and practical implications of management accounting system design on organisational functioning, with emphasis on both manufacturing and service organisations.

14.542 Accounting and Financial Management 2B

S2 L2 T2.5

Prerequisite: 14.511 plus HSC results as for 14.522.

Consideration of more complicated transactions and events as well as the accounting problems in certain specific industries. The contracting cost and other frameworks for the analysis of financial reporting, more advanced aspects of accounting for shareholders' equity. Liabilities and assets including interperiod company tax allocation and lease accounting. Accounts of a company. Profit and Loss account, balance sheet, and summary of sources and applications of funds. Application of computer technology to financial accounting problems.

14,563 Accounting and Financial Management 3A

S1 or S2 L2 T2.5

Prerequisite: 14.542.

The practices and problems associated with reporting on the affairs of complex organisations and structures including the technique of consolidation accounting; reporting on relationships with subsidiaries, associated companies, joint ventures, trusts, etc; segment reporting, reporting where the affairs of subsidiaries or associates are stated in foreign currencies, and other foreign currency translation issues. Overall view of developments in financial reporting: major themes in the professional and research literatures in financial accounting and perspectives on the process whereby regulations governing the practice of external reporting are produced and compliance with those rules is administered.

14.573 Accounting and Financial Management 3A Honours

S1L T6

Prerequisite: 14.542.

Includes 14.563 Accounting and Financial Management 3A as well as additional and more advanced work in both accounting theory and in the financial management and accountability of corporate enterprises.

14.583 Accounting and Financial Management 3B

S1 or S2 L2 T2.5

Prerequisite: 14.522.

Management accounting for decision making: Development of skills in financial analysis, and analytical skills and techniques for modelling and solving a variety of typical managerial decision problems with regard to organisational content. Involves the use of the mainframe computer financial modelling package IFPS.

14.593 Accounting and Financial Management 3B Honours

S2 L T6

Prerequisite: 14.522.

Includes 14.583 Accounting and Financial Management 3B, as well as more advanced work dealing with theoretical and research issues in management accounting.

14.708 Auditing

S1 or S2 L T3

Prerequisite: 14.511.

Practice of auditing, the concepts which underly the practice, auditors' reponsibilities and the audit environment. Although the focus of attention is on audits carried out under the provisions of the Companies Act and Codes, reference is also made to other forms of audit. The course is intended to provide an overview of the audit process as it exists in Australia, both EDP and computer-assisted audit techniques are an integral part of this course.

14.794 Honours Thesis

14.801 Advanced Studies in Financial Accounting 1 L3
Prerequisite: Admission to BCom degree course at Honours levels
majoring in accounting.

As for 14.901G. See Graduate Study: Subject Descriptions.

14.802 Advanced Studies in Financial Accounting 2 L3
Prerequisite: Admission to BCom degree course at Honours level
majoring in accounting.

As for 14.902G. See Graduate Study: Subject Descriptions.

14.803 Regulation of Accounting

majorina in accountina.

14.803 Regulation of Accounting L3
Prerequisite: Admission to BCom degree course at Honours level

As for 14.903G. See Graduate Study: Subject Descriptions.

14.804 Development of Accounting Thought

Prerequisite: Admission to BCom degree course at Honours level majoring in accounting.

As for 14.904G. See Graduate Study: Subject Descriptions.

14.809 Current Developments in Auditing Research

Prerequisite: Admission to BCom degree course at Honours level majorina in Accounting.

As for 14.909G. See Graduate Study: Subject Descriptions.

14.851 Current Developments in Accounting Research – Financial

Prerequisite: Admission to BCom degree course at Honours level.

As for 14,951G. See Graduate Study: Subjects Descriptions.

14.852 Current Developments in Accounting Research -- Managerial

Prerequisite: Admission to BCom degree course at Honours level.

As for 14.952G. See Graduate Study; Subject Descriptions.

14.853 Advanced Systems Management L3 Prerequisite: Admission to BCom degree course at Honours level.

As for 14.953G. See Graduate Study: Subject Descriptions.

14.855 Design of Cost Management Systems S2 L3 Prerequisite: 14.522

Organizational and systems design in manufacturing organizations and in the service industries. Examination of how strategic cost management and management control systems

can be used to increase the competitive effectiveness and efficiency of a business with particular emphasis on the interactive effects on performance of strategic cost management and management control systems, and market and technology competitive strategies. Analysis of case studies set in contemporary manufacturing and service settings.

14.856 Management Planning and Control Prerequisite: 14.522.

1 10/0quisite. 14.522.

As for 14.956G. See Graduate Study: Subject Descriptions.

14.867 Special Topic in Accounting

13

L3

Prerequisite. 14.897.

As for 14.967G. See Graduate Study: Subject Descriptions.

14.897 Seminar in Research Methodology L3

Prerequisite: Admission to BCom degree course at Honours level.

As for 14.997G. See Graduate Study: Subject Descriptions.

14.898 Project Seminar

Servicing Subjects

These are subjects taught within courses offered by other faculties.

For further information regarding the following subjects see the Faculties of Architecture and Engineering Handbooks.

14.001 Introduction to Accounting A S1 L1.5

Architecture: 2 credit points compulsory for BBuild degree course students.

Prerequisite: Nil.

L3

L3

L3

L3

An introduction for non-commerce students to the nature, purpose and conceptual foundation of accounting. Information systems including accounting applications. Analysis and use of accounting reports.

14.002 Introduction to Accounting B S2 L1.5

Architecture: 2 credit points; compulsory for BBuild degree course students.

Prerequisite: 14.001.

An introduction for non-commerce students to managerial accounting. Long-range planning, budgeting and responsibility accounting: cost determination, cost control and relevant cost analyses.

School of Banking and Finance

98.613 Business Finance 2A

S1 or S2 L T3

Prerequisite: 14.511, 15.102E and 15.103M.

The essential aspects of financial decision-making in business including: factors influencing capital expenditure decisions; alternative approaches to valuation; factors affecting the formulation of the capital structure; influence of the capital market environment.

98.614 Business Finance 2B

S1 or S2 L T3

Preregulaite: 98.613. Excluded: 98.624.

Financial decision making within the framework of capital market theory. Includes diversification, risk and return, determinants of risk, efficient market hypothesis with emphasis on Australian evidence, capitalization changes and performance measures, takeovers and mergers.

98.615 Business Finance 3 Prerequisite: 98.614. Excluded: 98.625.

S1 L3

Theory and analytical techniques relevant to investment analysis and management. Includes analysis and valuation of securities, properties of accounting numbers, portfolio theory

analysis and management. Includes analysis and valuation of securities, properties of accounting numbers, portfolio theory and asset pricing models, capital asset returns and information, bond ratings and yields and financial distress predictions.

98.624 Business Finance 2B (Honours) S1 or S2 L3

Prerequisite: 98.613 at Credit level or better. Excluded: 98.614.

The concepts, theory and evidence of the major components of finance theory including: portfolio theory, asset pricing theory, and the efficient market hypothesis. The subject also includes the development of elementary skills in matrix algebra, Lagrange multipliers and OLS regression.

98.625 Business Finance 3 Honours

S1 L3

Prerequisite: 98.624, Excluded; 98.615.

The theory and evidence of selected aspects of the capital market behaviour including option markets and option theory, futures and commodity markets. Beta factors, portfolio performance measurement, divided policy, capital structure and cost of capital.

98.630 Bank Financial Management

SS L3

Prerequisite: 98.864 and 98.614 or 98.624.

The theory and practice of banking from a financial management perspective. Banks and the financial services industry. Regulatory restrictions and financial management. Performance analysis and strategic planning. Asset management – liquidity, investment and loan management. Liability and deposit management. Capital structure and dividend decisions. Financial management implications of electronic banking, international banking, and other developments.

98.631 Risk and Insurance

SS L3

Prerequisite: 98.864, and 98.614 or 98.624, and 15.103M or equivalent.

The nature of commercial, financial, and physical risk is explored. In addition to the theory of risk, the way in which insurance has evolved to deal with this important aspect of the economic environment is studied in depth. Case studies are used to illustrate points of practical relevance. Emphasises the mathematical and statistical foundations of the discipline. Topics in the area of risk include, risk premia, insurance ratings, simulation of risky environments, physical risk, and death. Insurance is approached as a natural commercial response to risk with inference from insurance data, general insurance, motor insurance, very large risks, and life assurance.

98.632 Regulation in Capital Markets

SS L3

Prerequisites: 98.613 and 98.864.

Forms of Australian financial regulation with special reference to: the structure of the regulatory system; the legal regulation of the companies and securities industry; the role of the investigative powers of regulatory agencies; functional weakness in the administrative legal process. An examination of specific regulations affecting securities markets and a review of theories of financial regulation and empirical evidence concerned with their effect. A review of the constraints on financial decision making imposed by financial regulations.

98.633 Real Estate Finance and Investment SS L3

Prerequisite: 98.614 or 98.624

An evaluation of real estate financing, the mechanics of the mortgage market, and the application of modern finance theory to the evaluation, selection and management of property investments. Topics include: the role of regulation, taxation, government agencies, property trusts, and the banking system in promoting real estate activity. An analysis of real estate prices and yields, diversification aspects, and use of property as an inflation hedge. An evaluation of leasing, type of tenancy, property options and property trusts.

98.634 Lending and Liquidity Management SS L3

Prerequisite: 98.864 and 98.614 or 98.624.

An analysis of the short-term sources and uses of funds with primary emphasis on lending and liquidity management. Topics include loan pricing with applications of option pricing theory, loan risk assessment and management, lending practice and boan administration, working capital management, inventory management and statistical credit controls.

98.635 Options, Futures and Risk Management SS L3 Techniques

Prerequisite: 98.615 or 98.625.

introduces students to the new financial instruments, such as options, futures, swaps and their markets. Theories for pricing these instruments are surveyed. Alternative strategies for hedging and spreading are studied in detail.

The order of topics covered is: Advanced topics in option theory, options for different underlying instruments, futures instruments, options on futures, swaps, hedging techniques, portfolio insurance, immunisation using interest rate futures.

98.794 Honours Thesis

98.864 Australian Capital Markets

S2 L T3

Prerequisite: Nil.

As for 98.964G, See Graduate Study: Subject Descriptions.

98.875 Seminar in Finance

SS L3

Prerequisite: 98.625.

Reviews basic mathematical and statistical techniques employed in theoretical and empirical studies in finance.

98.876 Business Finance 4A

S1 L3

Prerequisite: 98.625.

As for 98.976G. See Graduate Study: Subject Descriptions.

98.877 Business Finance 4B

Prerequisite: 98.876.

As for 98,977G, See Graduate Study: Subject Descriptions.

98.879 Empirical Research in Finance

S1 L3

S2 L3

Prerequisite: 98.625.

As for 98.979G. See Graduate Study: Subject Descriptions.

98.882 International Business Finance

S2 L3

Prerequisite: 98.614 or 98.624. Excluded: 98.900

The problems, techniques and policies of financial decision making in the international business environment. Includes a review of foreign exchange markets, problems of exposure to foreign exchange risk, determination of spot and forward rates, capital budgeting, cost of capital and capital structure, and working capital management in the multinational environment.

98.898 Project Seminar

98.900 International Business Finance (Honours) S2 L3 Prerequisite: 98.625. Excluded: 98.882.

The problems, techniques and policies of financial decison-making in the international business environment. Includes a review of foreign exchange markets, problems of exposure to foreign exchange risk, determination of spot and forward rates, capital budgeting, cost of capital and capital structure, and working capital management in the multinational environment.

School of Information Systems

19.601 Introduction to Computing

S1 or S2

An introduction to the use of Mini-computers and the University main frame computer. Fundamentals of computing hardware. Use of examples of widely adopted user oriented languages. Laboratory work.

19.602 Computer Information Systems 1S1 or S2 L2 T1 Prerequisite: 15.102M or 15.101M or approved studies in computer

science.

Information systems and the organization, architecture of

Information systems and the organization, architecture of typical commercial application systems, the systems lifecycle, the systems analysis/design task, tools and techniques of the systems analyst, documentation techniques, internal controls and interfacing with the edp auditor, file design concepts, logic and computer hardware, commercial computer programming.

19.603 Computer Information Systems 2 S2 L2 T1

Prerequisite: 19.602. Excluded 19.606.

System analysis and design: requirements analysis and specification, logical and physical design of business systems, specification and updating of files, man-machine dialogue procedures. Comparison of design methodologies - top-down and evolutionary.

19.605 Computer Systems Implementation

Prerequisite: 19.609.

For students who first enrolled before 1989

Prerequisite: 19.603.

Supervised implementation of an information systems project in a commercial programming language. Advanced program design and structured techniques, interface with systems software at application implementation level, comparison of a range of programming languages, test data specification, implementation procedures.

19.606 Management information S2 L2 T1 Systems Design

Prerequisite: 19.602. Excluded 19.603.

Organizational impact, information systems design methodologies, requirements elicitation, logical and physical design, implementation procedures, principles of data management, data analysis, telecommunications networks, systems design in a distributed environment, commercial programming practice, systems development case studies using spreadsheet, file management and word processing software.

19.607 Distributed Computer Systems S2 L2 T1

Prerequisite: 19.603 and 19.609.

Advanced data communication concepts, computer networks, reference to international standards and common industry communications software packages; transaction processing software and interface with data management systems; local networks; interaction between text processing and data processing; a case involving the design of a telecommunications-based commercial system.

19.608 Database Systems

S1 L2 T1

S1 L2 T1

Prerequisite: 19,603 or 19,606 or 19,609.

Advanced data storage concepts, including detailed study of allemative approaches to database management systems. Management information needs and database specification in a commercial environment. Detailed evaluation, with project work, of a database management system. Information retrieval concepts, relational query-systems, security, control and audit considerations.

19.609 Computer Information Systems S1 L2 T1 Technology

Prerequisites: 19,602 or 6,711

Programming in the commercial environment: COBOL; Hardware and operating systems concepts and their impact on the commercial computing environment. Introduction to computer networks and distributed systems.

19.611 Information Systems Development S2 L2 T1

Prerequisite: 19.603 and approval by the Head of the School of Information Systems.

A systems analysis and design case study. Information systems project management, data processing administration, on-line systems, design techniques, internal controls

19.616 Commercial Programming Principles S2 L2 T1

Prerequisite: 19.605 Co-requisite: 19.692

Available only to BIT students.

An advanced treatment of the practice of implementing commercial systems. Topics include: the use of library code. program design for performance, the use of code generators, project control and reporting practice.

19.691 Industrial Training 1

S1 ICCH

Prerequisite: 19.602

Available only to BIT students. A practical treatment of the characteristics of commercial information systems. The topics covered include: analysis of an existing information system; development of overview documentation of the system; evaluation of the interface design; consideration of the role of security and control mechanisms.

19.692 Industrial Training 2

S2 ICCH

Prerequisite: 19.605. Co-requisite: 19.616.

Available only to BIT students. An in-depth practical exposure to Information Systems Development. The topics covered include: the structure and management of the implementation teams; the roles of users and information staff in and durina implementation: scheduling control implementation.

19.693 **Industrial Training 3**

S1 ICCH

Co-requisite: 19.611

Available only to BIT students.

In-depth practical work in Information Systems Analysis and Design. The topics covered include: the structure and management of analysis and design teams; the roles of users and I/S staff in analysis and design; scheduling and control during analysis and design.

19.773 **Operations Research In Business**

S2 L2 T1

Prerequisite: 14.522.

Formulation and application of mathematical and statistical models for the solution of managerial and industrial problems, including mathematical programming, probability and statistical decision theory, simulation, network analysis, inventory and queueing models.

19.794 Honours Thesis

19.805 Information Systems Auditing

S1 L3

Prerequisites: 14,708 (14,703 prior to 1986), 19,602 and 19,603 or with approval of the Heads of the Schools of Accounting and Information Systems.

As for 19,905G, See Graduate Study: Subject Descriptions.

19.810 **Advanced Data Management**

S1 L1 T2

Prerequisite: Admission to BCom decree course at Honours level majoring in Information Systems plus approval of the Head of School of information Systems.

The principles and practice of data administration in a large organization. Design, redesign and tuning of database. Distributed databases and database management systems. Reliability, security and integrity of the database.

19.811 Knowledge Based Information Systems

S2 L2 T1

Prerequisite: Admission to BCom degree course at Honours level majoring in Information Systems plus approval of the Head of School of Information Systems.

Knowledge acquisition and representation methods, including knowledge engineering as applied to Expert Systems, Inferential mechanisms, artificial intelligence hardware and software applicable to knowledge based information systems. Evaluation, with project work of expert systems tools and techniques in specified problem domains.

Managing Software Development S1 L2 T1 19.812

Prerequisite: Admission to BCom degree course at Honours level majoring in Information Systems plus approval of the Head of School of Information Systems.

Software engineering of complex systems, project planning and management, estimation models and techniques, project scheduling, software quality, reliability, assurance, software project productivity models.

S2 L3 19.853 Advanced Systems Management

Prerequisite: Admission to BCom degree course at Honours level. As for 19.953G. See Graduate Study: Subject Descriptions.

Operations Research for Management 1 S2 L3

Entry approval by Head of School of Information Systems.

As for 19.957G. See Graduate Study: Subject Descriptions.

S1 L3 19.886 Research Topics In Information Systems 1

Entry approval by Head of School of Information Systems.

As for 19.986G. See Graduate Study: Subject Descriptions.

19.887 Research Topics in **Information Systems 2**

S2 L3

S1 L3

Entry approval by Head of School of Information Systems.

As for 19,987G. See Graduate Study: Subject Descriptions.

Decision Support Systems 19.891

Prerequisite: 19.603

As for 19.991G. See Graduate Study: Subject Descriptions.

19.893 Special Topic in Information S1 or S2 L3 Systems

Prerequisite: Approval of Head of School of Information Systems.

To assist students in completion of research project requirement. May consist of an examinable readings program defined to meet the needs of a particular student or a formal program undertaken by a group of students whose research projects are in a common area.

19.898 **Project Seminar**

Department of Legal Studies and Taxation

Legal Environment of S1 or S2 L2 T1 99.774 Commerce

Prerequisite: HSC minimum mark required Cont. English or 2 unit English (General) or 60 2 unit English or 53 3 unit English

The Australian legal system and areas of substantive law relevant to commerce including contract, business organization, employment, commercial arbitration, advertising, trade regulation, civil compensation, discrimination.

99.775 Legal Transactions in S1 or S2 L2 T1 Commerce

Prerequisite: 99.774.

General principles of law of contract and specialized commercial transactions including banking and negotiable instruments, insurance, agency, sale of goods, bailment, suretyship.

99.776 Legal Regulation of Commerce S1 or S2 L2 T1 Prerequisite: 99.774.

The regulation of restrictive trade practices and sales promotion. The legal framework of marketing strategy with special reference to anti-competitive practices including collusive activity, exclusive dealing, price discrimination, resale price maintenance, mergers and monopolization and consumer protection law including misleading and deceptive advertising and other unfair practices. Consumer credit; product liability; protection of intellectual property.

99.777 Legal Organization of Commerce S2 L3 T1

Prerequisite: 99.775 or 99.776.

The law relating to corporations including company takeovers and the securities industry, partnerships, joint ventures and trusts, with special reference to their comparative utility.

Taxation Law 99.783

S1 L3 T1

Prerequisite: 99.775 or 99.776.

The law and practice of the taxation of income under the Income Tax Assessment Act 1936 Commonwealth including the concepts of income and allowable deductions; alienation of income; taxation of partnerships, trusts and corporations; tax avoidance and evasion. Capital taxes. An introduction to stamp duties, payroll tax, land tax and sales tax. Tax policy.

99.824 Advanced Taxation: Contemporary S2 L3 lasues

Prerequisite: 99.783

As for 99.924G. See Graduate Study: Subject Descriptions

Economics

Department of Economics

S1 or S2 L2 T1.5 or L2 T2 15.101E Microeconomics 1 HSC minimum Prerequisite:

mark required Cont. English or 60 60 2 unit English General or 53 2 unit English or 3 unit English

Economics as a social science; scarcity, resource allocation and opportunity cost. An introductory analysis of consumer behaviour. The economics of firms and markets: production and costs; the classification and analysis of markets. Efficiency concepts and market failure. The gains from international trade and the impact of trade restrictions. Economic growth and structural change.

15.102E Macroeconomics 1 S1 or S2 L2 T1.5 or L2 T2

Prerequisite: 15.101E.

Introduction to the analysis of aggregate output, employment and economic growth and their relationship to the policy issues of unemployment, inflation and the balance of payments. Social accounting and aggregate income and expenditure analysis. Introduction to macroeconomic models of income determination; consumption and investment functions. The role of money and financial institutions; interactions between goods and money markets in equilibrium and disequilibrium situations. Analysis of recent Australian macroeconomic experience.

15.201E Microeconomics 2

S1 L2 T2

Commerce and Economics prerequisite: 15.102E. Arts Applied Science Sciences prerequisites: 15.102E and 15.103M. Excluded 15.221E, 15.203E.

For students who first enrolled before 1989 -

Commerce prerequisite: 15.011.

Arts Applied Science Sciences prerequisites: 15.011 plus 15.401 or 15.411 or 10.001 or 10.011, Co-requisite: 15.412.

Excluded 15.012, 15.072.

Choice theory, including intertemporal choice, labour supply. Extensions of price theory. The theory of production, costs and supply. Market structures including oligopoly models. Introduction to general equilibrium and welfare analysis. Externalities.

15.202E Macroeconomics 2

S2 L2 T2

Commerce and Economics prerequisite: 15.102E.

Arts/Applied Science/Sciences prerequisites: 15.102E and 15.103M. Excluded 15.204E, 15.222E.

For students who first ennrolled before 1989 -

Commerce prerequisite: 15.011.

Arts/Applied Science/Sciences prerequisites: 15.002 plus 15.412.

Co-requisites: 15.422 or 15.416.

Excluded 15.052, 15.062,

Models of aggregate income determination in open economies. Theories of aggregate economic behaviour with respect to consumption and investment expenditures and financial transactions. Balance of payments and exchange rate analysis. Theories of inflation and unemployment. Introduction to dynamic analysis. Theories of growth and cycles.

15.203E Applied Microeconomics

SS L2 T1

Commerce and Economics prerequisite: 15.102E.

Arts/Applied Science/Sciences prerequisites: 15.102E and 15.103M

or 15.100M.

Excluded 15.201E, 15.221E.

For students who first enrolled before 1989 -

Commerce/Arts /Applied Science/Sciences prerequisite: 15.011. Excluded 15.012 and 15.002.

Structural change in the Australian economy. The effect of different market structures on firms and consumer welfare. The consequences of market failure and the effects of government regulation. Investment decisions in the public and private sectors, including the estimation of future benefits, revenues and costs, the measurement of consumer and producer surplus. The economics of non-renewable and other resources. Australia's international trade and investment and the effects of restrictions on international trade and investment.

15.204E Applied Macroeconomics

SS L2 T1

Commerce and Economics prerequisite: 15.102E.

Arts/Applied Science/Sciences prerequisites: 15,102E and 15,103M

or 15.100M.

Excluded 15.202E, 15.222E.

For students who first enrolled before 1989 -

Prerequisite: 15.011.

Excluded 15.052 and 15.042.

Economic growth and fluctuations in Australia. Inflation, unemployment and balance of payments issues. Fiscal, monetary, exchange rate and income policies. Changes in the structure of the Australian financial system and its links with the international monetary system. Effects of restrictions on capital markets.

15.205E Marxian Political Economy

SS L2 T1

Prerequisite: 15.102E.

For students who first enrolled before 1989 – Commerce/Arts/Applied Science prerequisite: 15.011.

Varieties of political economy. Marx and the classics, the Marxian system. Marxian economics since Marx. Marx and socialist planning. Marxian analysis of current economic problems.

15.206E Post-Keynesian Political Economy SS L2 T1

Prerequisite: 15.102E.

For students who first enrolled before 1989 --

Commerce/Arts prerequisite: 15.011.

Introduction to Post-Keynesian economics, ie that branch of economic theory which attempts to integrate the short-run analysis of Keynes and Kalecki with aspects of the classical tradition deriving from Ricardo and Marx. The major theoretical points at issue between Post-Keynesian and neo-classical

economics are elaborated and the policy implications brought out.

The state in contemporary capitalism including the role of the state in ensuring the reproduction of industrial capital, capital in general and capitalist social relations with consideration of how this is achieved.

15.207E Natural and Environmental Resources Economics

S2 L2 T1

Prerequisites: 15.201E or 15.221E or 15.203E.

For students who first enrolled before 1989 – Prerequisite: 15,002 or 15,012 or 15,072 plus 15,421.

Classification of renewable and non-renewable resources: reserves, resources and resource base; the concept and measurement of resource scarcity, costs, prices and rents; exhaustion of resources, ore quality, exploration, availability of substitutes: uncertainty of discovery, technical progress, market imperfections; renewable resources, sustainable yield concepts. Policy issues, with particular reference to Australia's role in the international economy.

15.208E Industry Economics and Australian S2 L2 T1 Industrial Policy

Prerequisite: 15.201E or 15.221E or 15.203E.

For students who first enrolled before 1989 -

Commerce/Applied Science prerequisite: 15.002 or 15.012 or 15.072. Arts prerequisites: 15.421 plus 15.072 or 15.012 or 15.002.

Structure of industry; inter-relationships between the role of the business firm and industrial structure; multinational corporations; factors affecting size, structure and performance such as economies of scale, barriers to entry, vertical integration, diversification and mergers, patents, the development and transmission of technology; industrial policy in Australia with special reference to competition policy, foreign investment and mergers, and some specific industry policies eg on motor vehicles, electronics, steel, petroleum.

15.215E Japanese International Economic Relations

S1 or S2 L2 T1

Prerequisite: 15.201E or 15.221E, 15.203E 15.204E.

For students who first enrolled before 1989 --

Commerce/Arts prerequisites: 15.011 plus 15.103 or 15.113 or

15.072 as a co-requisite. Excluded: 15.209E.

Japan's international trade, investment and balance of payments policies; globalisation of Japanese economic interests; problems relating to external economic policies including alternative strategies for international economic relations; impact of yen appreciation; trade friction; bilateral relations with focus on Australia, USA, China and South East Asia.

15.210E Regional and Urban Economics

S1 L2 T1

Prerequisites: 15.201E or 15.203E or 15.221E plus 15.202E or 15.204E or 15.222E.

Not offered in 1990.

Theory of urban and regional economics and its policy implications. Regional income and growth, location theory,

urban land values and structure, urban growth, the economics of city size, urban transportation and fiscal problems.

15.217E Economics of Tourism

S1 4CCH

Prerequisites: 15.101E, 15.102E

Macro and micro economic environments. Factors affecting international and domestic tourism. Tourism forecasting models. Economic analysis of projects. Cost/benefit and related procedures. Implications of tourism developments for the community in general.

15.221E Microeconomics 2 (Honours)

S1 L2 T2

Commerce and Economics prerequisite: 15.102E.

Arts prerequisite: 15.102E at Credit level or better and 15.103M.

Excluded 15.201E, 15.203E,

For students who first enrolled before 1989 -Commerce prerequisite: 15.011.

Arts/Sciences prerequisites: 15.011 at Credit level or better, plus 15.401 or 15.411, Co-requisite: 15.412.

Excluded 15.072, 15.002.

Material covered in 15.201E Microeconomics 2 at greater depth.

15.222E Macroeconomics 2 (Honours)

S2 L2 T2

Commerce and Economics prerequisite: 15,102E.

Arts prerequisite: 15.201E at Credit level or better or 15.221E and 15.203M.

Excluded 15.202E, 15.204E.

For students who first enrolled before 1989 -

Commerce prerequisite: 15.011.

Arts/Applied Science/Sciences prerequisite: 15.012 or 15.002 at

Credit level or better plus 15.412. Co-requisites: 15.422 or 15.415.

Excluded 15.042 and 15.062.

Material covered in 15.202E Macroeconomics 2 at greater depth.

15.315E Economics of Developing Countries S1 L2 T1 Prerequisite: Any one of the following: 15.201E, 15.221E, 15.203E.

15.202E, 15.222E, or 15.204E, Excluding: 15.241E.

Aspects of economic development in the less developed countries. Characteristics of these countries and the policies available to them, simplified models of under-development. phenomenon of structural change in the development process, role of industrialization in promoting structural change, international relationships of developing countries and stategies of development based on industry or agriculture. Applications to Asian experiences in economic development.

15.216E Japanese Economic Policy

S1 L2 T1

Prerequisite: 15.102E, Excluded: 15.246E, 15.311E.

For students who first enrolled before 1989 - Commerce/Arts

prerequisite: 15.011.

Analysis and evaluation of postwar economic policy; issues relating to policy determination including role of institutions and interest groups; critical examination of Japan Inc. model: industrial policy and role of 'genkyoku' system; Japanese long term economic planning; nature of principle economic policies such as agricultural, monetary and fiscal; anti-trust and competition policies.

15.301E Microeconomics 3

S1 L2 T2

Prerequisites: 15,201E, 15,202E, and 15,203M, Exclused: 15,321E,

For students who first enrolled before 1989 -Commerce prerequisite: 15,002 or 15,012.

Arts/Applied Science/Sciences prerequisite: 15.00 or 15.012 plus 15.422 or 15.416.

Excluded: 15.153.

Extensions of microeconomic theory; general equilibrium approaches to economic analysis; international trade including analysis of trade restrictions and distortions. Limitations of the general competitive model; uncertainty and risk with applications to modern theories of corporate behaviour.

15.302E Macroeconomics 3

S2 L2 T2

Prerequisites: 15.201E, 15.202E and 15.203M. Excluded 15.322E.

For students who first enrolled before 1989 -

Commerce prerequisite: 15.042 or 15.052.

Arts/Applied Science/Sciences prerequisite: 15.042 or 15.052, plus 15.422 or 15.416.

Excluded 15.013.

Theory of economic policy. Extended macroeconomic models, theory and fiscal policy and the problems of the budget deficit. International policy dependence and the exchange rate. Australian financial system, monetary theory and policy. Inflation and unemployment and incomes policy. National expectations and economic policy. Australian macroeconomic models.

15.303E Monetary Economics A

S1 L2 T1

Prerequisites: 15.201E or 15.221E, 15.202E or 15.222E, and 15.203M. Excluded 15.242E, 15.063.

Definitions, functions and properties of money. Theory of financial intermediation. Financial innovation. Theory of portfolio selection. Flow-of-funds analysis. Determination of interest rates including risk and term structures. Theories of the financial firm. Development, structure and efficiency of the Australian financial system and implications for monetary policy.

15.304E Monetary Economics B

S2 L2 T1

Prerequisite: 15.303E.

Development structure and efficiency of the international monetary system and the role of the IMF. International adjustment mechanisms for the balance of payments. Exchange rate determination and the effects of exchange rate variation. Optimum currency areas. Forward exchange markets. Foreign exchange risk management. Development of Eurocurrency markets and implications for policy. The international debt problem. International financial integration and implications for domestic policy.

15.305E Public Economics A

S1 L2 T1

Prerequisites: 15.201E or 15.221E, 15.202E or 15.222E, and

15.203M. Excluded 15.247E, 15.093.

The theory of public economic activity. Government objectives and the social welfare function. Equity and efficiency criteria. Public goods and externalities. The theory of public sector pricing and its applications. The theory of public sector pricing and its applications. Techniques of investment appraisal, cost-benefit analysis and related issues. The application of cost-benefit analysis to transport, urban and other problems. Analysis of transfer policy.

15.306E Public Economics B

S2 L2 T1

Prerequisite: 15.305E. Excluded 15.243E, 15.083.

General aspects of public sector expenditure and its financing with special reference to Australia. Role of government in the economy; principles and types of public expenditure. Taxation theory. Tax sharing and revenue systems; economic and welfare aspects of different types of taxes; inflation and tax indexation; loan finance and the public debt.

15.307E Labour Economics A

S1 L2 T1

Prerequisites: 15.201E or 15.221E, 15.202E or 15.222E, and 15.203M.

Economic analysis of contemporary labour market problems. Labour force participation, the demand for labour, the supply of labour (traditional approaches and selectivity-bias-corrected studies), the demand for education and investment in human capital. The economic analysis of unions and collective bargaining, the structure of compensation, occupational choice, job turnover and labour mobility, contract theory and the theory of job search.

15.308E Labour Economics B

S2 L2 T2

S2 L2 T1

Prerequisite: 15.307E. Excluded 15.557.

As for 30,731.

15,309E Economic Growth and Development A

S1 L2 T1

Prereguisite: 15.201E or 15.221E, 15.202E or 15.222E and 15.203M.

Characteristics of economic growth and development, role of capital accumulation, labour, technology, and natural resources. Application of growth models to development issues. Role of industrialization, structural change, development strategies etc in promoting economic development.

15.310E Economic Growth and Development B

S2 L2 T1

Prerequisite: 15.309E.

Major characteristics of the international economy, including roles of the United States, Japan, Western Europe, NICs, OPEC and other LDCs. Trade and investment policies, including the debt problem and the role of GATT and the World Bank. Macro monetary policies, including international co-ordination and the role of the IMF. Benefits and costs of closer integration. Foreign aid.

15.311E Contemporary Japanese Economy S1 L2 T1 Prerequisite: 15.202E or 15.222E. Excluded: 15.216E 15.246E,

15.203.

Analysis of postwar economic performance; macroeconomic trends; features of high economic growth and transition to moderate economic growth, including saving rate, changing patterns and new elements in the business cycle and capital accumulation; structural adjustment; microeconomic features of the economy; industrial and financial organisation and

adjustment to low growth; market competition; internationalisation of the Japanese economy.

15.312E The Newly Industrializing Economies S2 L2 T1 of East Asia

Prerequisite: 15.309E. Co-requisite: 15.310E.

Principal economic characteristics of the newly industrializing economies of East Asia: South Korea, Taiwan and Hong Kong. Comparisons of internal and external policies and their contribution to the achievement of socio-economic objectives.

15.313E Economic Development in ASEAN Countries

S1 L2 T1

Prerequisite: 15.202E or 15.222E. Co-requisite: 15.309E.

Analysis of principal economic characteristics of members of the Association of South East Asian Nations: Indonesia, Malaysia, Philippines, Singapore and Thailand. Causes and consequences of economic development policies. Theoretical issues related to formation of customs unions and free trade areas, and their application to ASEAN.

15.314E Economic Methodology

Prerequisite: 15.202E or 15.222E.

For students who first enrolled before 1989 – Commerce prerequisite: 15.013.

Arts prerequisite: Credit in 15.013 or consent of the Head of the

Department of Economics.

The methodology of modern economics, the scientific method, the testing of hypotheses. Some logical problems in econometric techniques. The analysis and methodology of classical and later economists. Economic analysis and methodology plus the development of economic thought as a response to changes in society and contemporary economic problems. Some of the major issues in monetary theory, classical and neo-classical value and distribution theory and equilibrium and welfare economics.

15.321E Microeconomics 3 (Honours)

SS L2 T2

Commerce and Economics prerequisites: 15.201E and 15.202E, both at Credit level or better, or 15.221E and 15.222E, and 15.203M. Arts prerequisites: 15.201E and 15.202E, both at Credit level or better, or 15.221E and 15.222E plus 15.203M and 15.204M. Excluded 15.301E.

For students who first enrolled before 1989 --Commerce prerequisite: Either 15.002 or 15.012 at Credit level or

better.

Arts/Science prerequisite: Either 15.002 or 15.012 at Credit level or better plus 15.422 or 15.416.

Excluded 15.143.

General equilibrium theory and an introduction to applied general equilibrium analysis. The theory of international trade. Market failure and the theory of second best. Uncertainty and risk in economic models including agency theory.

15.322E Macroeconomics 3 (Honours)

SS L2 T2

Commerce and Economics prerequisite: 15.201E and 15.202E, both at Credit level or better, or 15.221E and 15.222E, and 15.203M. Arts prerequisites: 15.201E and 15.202E, both at Credit level or better, or 15.221E and 15.222E, plus 15.203M and 15.204M. Excluded 15.302E.

For students who first enrolled before 1989 --

Commerce prerequisite: Either 15.042 or 15.052 at Credit level or better

Arts/Sciences prerequisite: Either 15.042 or 15.052 at Credit level or better plus 15.422 or 15.416.

Excluded 15.003.

Review and extension of macroeconomic models of open economics. Dynamics, including cyclical dynamics.

Introduction to the theory of economic policy. Rational expectations and macroeconomic policy. Theory and analysis of Australian fiscal, monetary, exchange rate, public and external debt, and incomes policy. International policy interdependence.

15.421E Microeconomics 4

SS L2 T1.5

Prerequisite: 15.321E.

For students who first enrolled before 1989 -

Prerequisite: 15,153.

Static analysis: constrained optimisation and set theory as applied in comparative statis problems of consumer firm behaviour. Theory of duality. Theory of market and general equilibrium. Economics of information and uncertainty. Dynamic analysis; simple overlapping generations general equilibrium model with money.

15.422E Macroeconomics 4

SS L2 T1.5

Prerequisite: 15.322E.

For students who first enrolled before 1989 --

Prerequisite: 15.013.

Recent developments in macroeconomics including theories of economic growth, an assessment of Keynes's contributions, recent theories of unemployment, overlapping generations models, recent developments in the theory of asset prices, dynamic inconsistency and policy credibility, disequilibrium macroeconomics, macroeconometric modelling.

15.426E Economics Honours Thesis Seminar

S1 and S2 L2

15.427E Thesis

S1 and S2

Note: Students are expected to do a substantial amount of work on their thesis before the commencement of the academic year. They must have a topic approved by the Head of the Department of Economics before the end of the year preceding their entry into their final year. Students are required to present a seminar on the topic of their thesis.

Servicing Subject

A servicing subject is one taught within courses offered by other faculties.

For further information regarding the following subject see the Faculty of Arts Handbook.

15.420E Economics Honours Arts

F 8CCH

Prerequisites: 15.221E, 15.222E, 15.321E, 15.322E all at Credit level or better, plus 15.203M and 15.204M.

Consists of advanced topics in macroeconomics and microeconomics and a thesis. Students enrolled in this subject are required to attend regular seminars at which each student will present a seminar on the thesis topic.

Note: Students are expected to do a substantial amount of work on their thesis before the commencement of the academic year. They must have a topic approved by the Head of School of Economics before the end of the year preceding their entry into their final year.

Department of Econometrics

15,101M Quantitative Methods A (Advanced)

S1 L2 T1.5

Prerequisite:

HSC minimum mark required

3 unit Mathematics or 4 unit Mathematics

Arts co-requisite: 15.101E.

Excluded 10.001, 10.011, 15.102M.

Note: Students who took 3 unit Mathematics with a minimum mark of 1-50 and 4 unit Mathematics may take 15.101M and other students take 15.102M.

Students wishing to vary enrolment from 15.102M to 15.101M or vice-versa must do so before the end of the second week of the session.

Mathematics of finance. Compound interest, present value, annuities, continuous compounding. Matrix Algebra: Operations with matrices, determinants, matrix inverse, linear dependence and rank, linear and quadratic forms, solution of matrix equations, input-output analysis, linear programming and dual. Calculus: univariate differentiation, optimization of univariate functions, definite and indefinite integration, multivariate functions and partial differentiation, unconstrained and constrained optimization of multivariate functions, applications of above concepts and techniques in economics and business.

15.102M Quantitative Methods A

S1 or S2 L2 T1.5

Prerequisite:

HSC minimum mark required

60

1

1

2 unit Mathematics or 3 unit Mathematics or 4 unit Mathematics

Arts co-requisite: 15.101E.

tests, the distribution.

Excluded 10.001, 10.011, 15.101M.

Mathematics of finance: Compound interest, present value, annuities. Matrix Algebra: Operations with matrices, determinants, matrix inverse, rank, solutions of matrix equations, input-output analysis. Calculus: univariate differentiation, maxima and minima of a function, functions of several variables, partial derivatives, unconstrained and constrained optimization. Applications of the above concepts and techniques in accountancy and economics.

the binomial distribution, the normal distribution, estimation of

population parameters and confidence intervals, hypothesis

15.103M Quantitative Methods B

S1 or S2 L2 T1.5

Prerequisite: 15.101M or 15.102M and 19.601.

Arts co-requisite: 15.102E.

Frequency distributions, measures of central tendency, dispersion and skewness, introduction to probability theory,

This subject requires a level of computer literacy (Subject number 19.601). Four-week courses will be offered in Session 1 and may also be offered in the inter-session break. Students may demonstrate their ability in the relevant computer skills by passing an examination without attending a course. Students who have not passed the examination before commencing this subject must take a special four-week course offered in the first weeks of Session 1 (or possibly in the inter-session break) as part of this subject, and must pass the examination at the end of week 4 in order to pass the subject.

15.201M Linear Economics

S1 L2 T1

Prerequisite: 15.101M or 15.102M.

For students who first enrolled before 1989 – Prerequisite: 15.411 or 10.001 or 15.401.

Elements of set theory, Vector spaces. Classical optimization in economics. Linear programming theory and solution algorithm. The dual problem; applications of linear programming in economics: Efficient production and valuation of resources. Input-output analysis. Introduction to the theory of games.

15.202M Economic Optimization and Dynamics

S2 L2 T1

Prerequisite: 15.101M or 15.102M and 15.103M.
For students who first enrolled before 1989 –
Prerequisite: 15.432.

Non-linear programming problems existence and characterization of solutions. Economic applications to welfare maximization and constrained production. Descriptive growth models: dynamic Leontief models, and Von Neumann model of an expanding economy. Differential equations. Optimal control theory; applications to optimal growth problems.

15.203M Quantitative Economic Techniques A S1 L2 T1

Prerequisite: 15.103M.

Arts/Applied Science/Sciences Co-requisite: 15.201E or 15.221E.

For students who first enrolled before 1989 – Prerequisite: 15.421.

Index numbers including consumer price index for Australia. The simple and multivariage regression models with economic applications, emphasizing practical aspects of model building.

15.204M Quantitative Economic Techniques B S2 L2 T1

Prerequisite: 15.203M.

Arts/Applied Science/Sciences Co-requisite: 15.202E or 15.222E.

For students who first enrolled before 1989 – Commerce Arts prerequisite: 15.412.

Extensions of multiple regression models when the classical assumptions break down. Applications involving computer usage in the areas of consumption, demand, investment and production. Introduction to simultaneous equation models.

15.205M Introduction to Operations Research

SS L3

Prerequisite: 15.101M or 15.102M.

For students who first enrolled before 1989 -

Prerequisite: 15.411 or 15.401.

Introduction to operations research as the systematic application of quantitative methods to the analysis of problems involving decision making in economics and related disciplines. Includes linear programming, quadratic programming and dynamic programming with applications to transportation, inventory and portfolio selection and other economic related fields.

15.206M Business Econometrics and Forecasting S2 L3

Prerequisite: 15.103M.

For students who first enrolled before 1989 – Commerce/Arts prerequisite: 15.421. Sciences prerequisite: 15.421 or 10.311B.

The use of econometric and statistical techniques relevant to forecasting in a business environment. Computer implementation of the methods and the study of applied work is emphasized in this non-specialist course. Short-term forecasting using time series analysis Box-Jenkins methods. Long-term forecasting with S-shaped growth curves and trend analysis.

15.207M Measurement of Income Inequality S1 L2 T1

Prerequisite: 15.103M

For students who first enrolled before 1989 -

Commerce prerequisite: 15.421.

Applied Science/Sciences prerequisite: 15.421 or 10.311B.

Systematic treatment of the conceptual framework and practical problems of measurement of income inequality and poverty. Emphasises the use of Australian income data. Knowledge of mathematics and statistics beyond the second year university level is not required. Topics are: well-known income distribution functions, the Lorenz curve and its properties, welfare implications of inequality measures, measurement of intensity of poverty, use of Lorenz curve analysis in problems of direct and indirect taxation and Government expenditure, international comparison of poverty and inequality.

15.208M Operations Research in Economics S:

S2 L3

Prerequisite: 15.103M

For students who first enrolled before 1989 – Commerce prerequisite: 15.442 plus 15.002 or 15.012. Sciences prerequisite: 15.442 or equivalent, or with permission of the Head of the Department of Econometrics, 10.311B.

Applications of mathematical programming and statistics to economic problems. Use of computer programming. Inventory models, queueing problems, decision analysis, dynamic programming.

15.209M Applied Economic Statistics

S1 L3

Prerequisite: 15.103M.

For students who first enrolled before 1989 -

Prerequisite: 15.422.

Applied multivariate analysis. The techniques of principal components, factor analysis, discriminant analysis and cluster analysis. Sample survey design and analysis. Non-parametric methods in statistical inference. In addition, students undertake a case study requiring data collection and analysis.

15.301M Mathematical Economics A

S113

Prerequisite: 15,201E or 15,221E, 15,202E or 15,222E, and 15,203M.

For students who first enrolled before 1989 -

Commerce prerequisite: 15.432 or 15.442 or 15.002 or 15.012. Sciences prerequisite: Consult with the Head of the Department of Econometrics.

The duality approach to economic optimization, Applications of duality theory to economic analysis and econometric modellina.

15.302M Mathematical Economics B

S2 L3

Prerequisite: 15.301M.

For students who first enrolled before 1989-Prerequisite: 15.432 or 15.442 or 15.002 or 15.012.

Uncertainty in Economics.

15.303M Econometrics A

S1 L2 T1

Prerequisite: 15,201E or 15,221E, 15,202E or 15,222E, and 15,203M. Excluded 15.323M.

For students who first enrolled before 1989 -

Commerce prerequisite: 15.422.

Sciences prerequisite: 15.422, or with permission of the Head of the Department of Econometrics 10.311B.

Excluded 15,463.

The econometric approach, the objectives of applied econometrics: structural analysis, forecasting and policy evaluation. Estimation of regression models under classical assumptions, and break down of these assumptions: multicollinearity, autocorrelation, heteroskedasticity. Asymptotic distribution theory, errors in variables, stochastic regressors and instrumental variables, lagged dependent variables, seemingly unrelated regressions.

15.304M Econometrics B

S2 L2 T1

Prerequisite: 15.303M. Excluded 15.324M. For students who first enrolled before 1989 -

Commerce prerequisite: 15,413.

Sciences prerequisite: 15.413, or with permission of the Head of the

Department of Econometrics, 10.312C.

Excluded 15 473.

Identification, specification and estimation of simultaneous equation models including forecasting, policy analysis and simulation. The estimation techniques include: two-stage least squares, three-stage least squares, limited information maximum likelihood and reduced form estimation.

Students build their own models using standard computer packages.

15.305M Applied Demand Analysis

S2 L3

Prerequisite: 15.204M.

For students who first enrolled before 1989 -

Prerequisite: 15.422.

Theory and measurement of demand functions, estimation of complete system of demand equations, the indirect utility function and true cost of living index. International comparison of purchasing power.

15.421M Advanced Mathematical Economics A S1L3

Prerequisite: 15.302M

For students who first enrolled before 1989 -

Prerequisite: 15.444.

Value theory and general equilibrium analysis.

15.422M Advanced Mathematical Economics B S2 L3

Prerequisite: 15.421M.

For students who first enrolled before 1989 -

Prerequisite: 15.438.

Selected advanced topics in mathematical economics.

15.423M Applied Econometrics A

S1 L3

Prerequisite: 15.304M or 15.324M.

For students who first enrolled before 1989 -

Prerequisite: 15.423 or 15.473.

The nature of applied econometrics. Practical limitations of standard econometric techniques. 1. in the face of difficulties with data, 2. in view of the theoretical assumptions underlying estimators and tests, 3. in the light of ambiguities of interpretation of statistical results. Applications of econometric analysis to disaggregated data (eg business investment behaviour) and to aggregated data (eg national income forecasting).

15.424M Applied Econometrics B

S2 L3

Prerequisite: 15.304M or 15.324M.

For students who first enrolled before 1989 --

Prerequisite: 15.423 or 15.473.

The system-wide approach to econometrics. Problems of specification, estimation, and hypothesis testing when complete systems of equations are studied. Applications using consumer demand, asset demand and market share models. Estimation and inference with nonlinear equation systems: maximum likelihood and nonlinear least squares.

15.425M Monte Carlo Methods and Simulation S2 L3 **Techniques**

Prerequisite: 15.303M or 15.323M. Co-requisite: 15.304M or 15.324M.

For students who first enrolled before 1989 -

Prerequisite: 15.413 or 15.463. Co-requisite: 15.423 or 15.473.

The Monte Carlo Method and its applications in econometrics distribution sampling stochastic and simulation. Methodological principles in Monte Carlo research. Pseudorandom number generation. Monte Carlo evidence on the properties of econometric estimators and test statistics. Validation of macroeconometric models using stochastic simulation. Practical experiences with stochastic simulation.

15.427M Thesis (Econometrics)

Note: Students are expected to do a substantial amount of work on their thesis before the commencement of the academic year. They must have a topic approved by the Head of the Department of Econometrics before the end of the August Recess in the year preceding their entry into Year 4.

Servicing Subject

A servicing subject is one taught within courses offered by other faculties.

For further information regarding the following subject see the Faculty of Arts Handbook.

15.100M Introductory Quantitative Economic S1 L2 T2 Analysis

Arts prerequisite: 2 unit Mathematics or permission of the Head of the School of Economics. Co-requisite: 15.101E.

Excluded 15.101M, 15.102M, 15.103M, 15.403.

Algebra, introductory calculus and statistics with applications to economics

School of Industrial Relations and Organizational Behaviour

30,701 Industrial Relations 1A

S1 or S2 L2 T1.5

Prerequisite:

HSC minimum mark required

60

53

Cont. English 2 unit English (General) or 2 unit English or 3 unit English

Multi-disciplinary introduction to a range of important concepts and issues in industrial relations. Political, social, economic, legal, historical and psychological aspects of the evolution and operation of modern employer/employee relations with material drawn from both Australian and overseas experience. The nature and implications of: strikes. lockouts and other forms of industrial conflict and alienation: the structure and policies of State and Federal trade unions. the State labor councils and such peak organizations as the Australian Council of Trade Unions; the employer industrial relations function and the structure and policies of employer associations; processes of work rule determination, such as collective bargaining, mediation, conciliation and compulsory arbitration; labour movements; and the role of the various arbitration tribunals and government instrumentalities with respect to industrial relations.

30.702 industrial Relations 1B

S1 or S2 L2 T1.5

Prerequisite: As for 30.701.

Formation and development of Australian unions. Analysis of economic, legal, political and social framework within which unions operate; the role of unions, the structure and government of unions, union strategies and unions and the 'balance of power'. The course will discuss the policies and operation of unions generally, and of State Labour Councils and the Australian Council of Trade Unions.

30.703 Industrial Relations 2A

S1 L2 T1.5

Prerequisites: 30,701 (may be taken simultaneously rather than as a prerequisite).

The development of industrial relations systems overseas paying special attention to collective bargaining systems. Topics include: the role of trade unions, employer bodies and government labour policies; the nature of industrial conflict and procedures utilized for its resolution; and evaluation of alternative systems of labour-management relations at the plant, industry and national level.

30,704 Industrial Relations 2B

Prerequisite: 30,703.

Institutional structures; policies and procedures in industrial relations conflict resolution under arbitration and bargaining method. Topics include: theoretical aspects problems and issues in arbitration and bargaining; models of bargaining and arbitration; compulsory arbitration in the context of collective bargaining and the relative merits of the two methods under varying standards for evaluation. Case studies and simulation exercise material may be used.

30,705 Industrial Relations 3A

S1 L2 T1.5

S2 L2 T1.5

Prerequisite: 30.704.

Introduction to social theory and concepts by reference to the work of Marx, Weber and Durkheim. Sociological analysis of industrialization. Social structure of Australia including the political-economic context of industrial relations institutions and processes. Corporate structure and managerial strategies. Workers' orientations and responses. Role of the State in industrial relations.

30.706 Industrial Relations 3B

S2 L2 T1.5

Commerce/Arts prerequisite: 30.705.

The nature and role of management behaviour and strategy in industrial relations, particularly vis-a-vis trade unions and unionism, but with attention also to several of the following: Theories of management behaviour and strategy; employer associations; plant level activity in pursuit of influence and control; national policies and strategies; the personnel function; international influences on industrial relations practice in Australian organisations.

30.720 Labour Market Economics

S1 L2 T1

Prerequisite: 15.102E.

Economics of the labour market. Theory of labour market operations and an evaluation in the light of a range of research evidence from Australia and overseas. Supply of labour, including work-leisure trade offs, hours of work, occupational choice and participation rates; demand for labour by the firm and industry with evaluation of the marginal productivity doctrine; unemployment, including the identification problem, Phillips Curve and manpower policy issues; under-employment in developed and less developed countries; labour mobility and migration; theory and structure of wages including the economic philosophy, history, and machinery of Australian wage determination, wage differentials, minimum wages and earnings drift; wages and incomes policies; and the economic theory and impact of trade unions including influence on GNP shares, relative wages, hours of work, employment and resource allocation.

30,721 Labour Market Policies

SS L2 T1

Prerequisite: 15.102E.

This subject may be offered in alternative years only.

Origins, evolution and operation of Australian labour market policy, compared and contrasted with policies overseas. A range of issues in the development and deployment of human resources, including: human capital theory and its application; training, retraining and work assistance schemes; mobility programs, covering industrial, geographical and vocational labour mobility; occupational choice, theory and practice; the

nature and human resource implications of various forms of unemployment, including structural, frictional, seasonal and disguised or hidden unemployment; redundancy; labour market projection and labour market planning at the national level; labour market discrimination, equal opportunity and anti-discrimination measures.

30.722 Industrial Relations Sociology S2 L2 T1 Prerequisite: 30.701.

This subject may be offered in alternative years only.

Sociological aspects of employer-employee relations and industrial work, referring to major sociological views and theories to examine a range of industrial relations issues. including; job satisfaction, dissatisfaction and worker alienation, the role of money as a motivator in the job context: the nature and impact of bureaucracies in industrial relations: social aspects of occupation and retirement, work group identification and affiliation, social aspects of labour market operation, wages and unemployment; and attitudes to work.

30,723 **Industrial Relations Theory**

SS L2 T1

Prerequisite: 30,704.

This subject may be offered in alternate years only.

Major theoretical developments within academic industrial relations. Theories of the labour movement, in particular the work of the Webbs, Lenin, Commons, Perlman and Hoxie. Developments within the tradition of grand theory, including Dunlop's systems model, Kochan's refinements, pluralism. marxism, corporatism and theories of regulation. Australian works are examined and analysed to relate discussion to the Australian scene.

30.724 Industrial Democracy Prerequisite: 30.701.

SS L2 T1

Different forms of worker involvement in management decisionmaking in Australia, Western Europe, Yugoslavia and North America. Concepts of industrial democracy, such as joint consultation, worker participation in management; industrial codetermination and worker self-management, contemporary theories of industrial democracy; West Germany's co-determination system; Sweden's model of 'disciplined' democracy in industry: joint consultation in British industry; worker self-management in industrial enterprises in Yugoslavia; and Scanlon Plans and other forms of union-management co-operation in the United States and Canada; and collective bargaining as an exercise in industrial democracy in the United Kingdom and the United States.

30.725 Labour History

S2 L2 T1

Prerequisite: 30.701 or any other approved Level 1 subject.

This subject may be offered in alternate years only.

The evolution of working class life in Australia from the arrival of the convicts to the present day, emphasizing the growth of trade unions, political parties and state regulation of the labour market. The development of class consciousness, segmentation of the labour market and changes in work processes and workers' control of production. The impact of immigration, technological change and the role of women in paid employment.

30.726 Industrial Law

S1 L2 T1

Prerequisite: 30.701.

Excluded: 90.503

Nature and purposes of the legal system and industrial law. the law concerning the contract of employment. Trade unions. Industrial law powers of Government. The Commonwealth Conciliation and Arbitration Systems, awards, penal sanctions for industrial law, industrial torts, topics and issues of importance in the industrial law field.

30.727 Industrial Conflict

SS L2 T1

Prerequisite: 30.701.

Conceptualization of industrial conflict. Theories of industrial and class conflict. International comparisons of collective action. Interindustry studies of strikes. Plant level analyses of management control and labour resistance. Case studies of strikes with emphasis on social psychological processes. Structures and procedures for the institutionalization of conflict with special reference to Australian materials. The mass media and the distortion of industrial reality.

30.728 Social Aspects of Work and Unionism

SS L2 T1

Prerequisite: 30.701.

Application of sociological principles to the study of trade unions and to the examination of the changing nature of work in industrial society. Authority structures in work situations; job re-design and enrichment; occupational structures; bureaucracy and democracy in trade unions; professionalism and the growth of white collar unionism, the social role of trade unions; worker and management attitudes to industrial relations issues; and discrimination and prejudice in the work context.

30.729 **Human Resource Management** S2 L2 T1

Commerce and Economics prerequisite: Nil. Arts prerequisite: 30.701.

Context of working in Australia. Contemporary management thinking. Issues in managing people - problem solving. leadership, power, communications. Managing in an organization - group dynamics and supervision, setting goals and performance appraisal, developing individual and organizational resources, career planning.

30.730 Industrial Relations Research Methods S2 L2 T1 Methods and Thesis Workshop

Prerequisite: 30,705 and permission of Head of School. Excluded: 30.733.

30.731 Wages and Incomes Policy

Prerequisite: 15.102E. Excluded 15.308E.

SS L2 T1

This subject may be offered in alternate years only. The relationship between movements in wage and salary incomes to desired economic objectives. Formulation and administration of wages and incomes policies, and the role of trade unions, employers and government institutions. Overseas experience and its implications for Australian practices, institutions and policies. The evolution of wage

concepts and standards; wage structure, relativities and

differentials; trade union pushfulness and product pricing decisions; earnings drift; and principles and criteria for wage fixation, including capacity to pay, 'needs' elements, productivity gearing, minimum and social wage levels and manpower issues.

30.732 Industrial Relations Methods S2 L2 T1 Prerequisite: 30.726

Methods and skills utilized in industrial relations practice. Content and character of industrial awards and agreements: preparation of logs of claims; industrial advocacy; tactics and techniques of negotiating and bargaining; data sources for wage, employment, productivity and other material important in industrial relations practice; and conciliation and arbitration procedures.

30.733 Industrial Relations Research S2 L2 T1 Methodology

Prerequisite: 30.705 and permission of Head of School. Excluded 30.730.

A range of principles, procedures, techniques and data sources used for research in the field of industrial relations.

30,740 Industrial Relations Case Studies A S1 L3 Prerequisite: 30,706.

Case studies highlight a range of industrial relations issues at the plant or local level. Students also prepare their own case study for seminar presentation.

30.741 Industrial Relations Case Studies B S2 L3 Prerequisite: 30.706.

Case studies highlight a range of industrial relations issues at the industry and national level. Students also prepare their own case study for seminar presentation.

30.742 Industrial Relations Project Seminar A S1 L3 Prerequisite: 30.706.

An in-depth examination of an established body of industrial relations literature. Subject to the availability of appropriate supervision, topics can be drawn from the mainstream of industrial relations literature or from the component disciplines including labour economics, industrial psychology, industrial law, industrial sociology and labour history.

30.743 Industrial Relations Project Seminar B S2 L3 Prerequisite: 30.706.

An in-depth examination of an established body of industrial relations literature. Subject to the availability of appropriate supervision, topics can be drawn from the mainstream of industrial relations literature or from the component disciplines including labour economics, industrial psychology, industrial law, industrial sociology and labour history.

30.744 Comparative Labour Relations: SS L3 Developed Economies

Prerequisite: 30,706.

Comparative analysis of industrial relations issues in a number of overseas countries in advanced stages of industrialization. Origins, evolution, structure, operation, problems and

philosophy of industrial relations in a select number of countries.

30.745 Comparative Labour Relations: SS L3 Developing Economies

Prerequisite: 30.706.

Comparative analysis of industrial relations issues in a number of countries at early and intermediate stages of economic development, focusing on: the development of industrial labour forces, the evolution and functioning of institutions important to industrial relations, the role of government in labour markets, and the emergence of alternative patterns of labour-management relations.

30.746 Thesis (Industrial Relations) S1 and S2

30.747 Industrial Relations Seminar S1 and S2

Servicing Subjects

These are subjects taught within courses offered by other faculties.

For further information regarding the following subject see the Faculty of Arts Handbook.

30.748 Industrial Relations 4 (Honours) F 6CCH

Prerequisites: A total of 60 credit points in respect of 30.701, 30.702, 30.703, 30.704, 30.705, 30.706, 30.120, 30.724, 30.725, 30.730 or any other subject approved by the Head, School of Industrial Relations and Organizational Behavlour.

Excluded: 30.740, 30.741, 30.742, 30.743, 30.744, 30.745.

For students in the Industrial Relations Honours program. A thesis and four of six segments, from: 1. Comparative Labour Relations: Developed Economies; 2. Industrial Relations Case Studies A, and 3. Industrial Relations Project Seminar A, offered in Session 1, and in Session 2; 4. Comparative Labour Relations: Developing Economies; 5. Industrial Relations Case Studes B, and 6. Industrial Relations Project Seminar B.

Department of Economic History

15.101H Australia in the International Economy in the 20th Century Prerequisite: HSC minimum

Prerequisite: HSC minimum mark required

2 unit English (General) or 60

2 unit Egnlish or 53

3 unit Egnlish 1

The international economy at the end of the 19th century: trade, factor flows, and payments arrangements. Problems of the international economy between the wars. The impact of World War II and the international economy in the post-war era. Australian economic development and its relationship with the international economy; economic fluctuations; problems of the inter-war period; growth of manufacturing; government policy and action; the importance of the mining industry; economic development and the distribution of income and wealth.

15.102H Australia and the Asia-Pacific S2 L2 T1.5 Economies: Historical Perspectives

Commerce and Economics prerequisite: 15.102E.

Arts prerequisite: HSC minimum mark required

Contemporary English 60
2 unit English (General) or 50
2 unit English or 53
3 unit English 1

Australia's economic relations with the countries of Asia and the Western Pacific since the 19th century, with particular emphasis on the period since the Second World War. Topics include: capital and trade flows, labour and immigration issues; the changing political structures; Australian colonial rule and economic development in Papua and New Guinea; the rise to economic power of Japan and its relations with Australia before the Second World War; resurgence of Japan in the 1950s and its dominance of Australia's trade; future relations with Japan; the emergence of the 'newly industrialising nations' in Asia and their impact on Australia; the ASEAN group's 'special relationship' with Australia; Sino-Australian economic relations; trans-Tasman economic integration; Australia's perceptions of Asia and the Pacific and obstacles to greater economic integration.

15.201H Management and Business Development

S1 L2 T1

Commerce and Economics prerequisite: 15.102E. Excluded 15.902.

Arts prerequisite: Any four Level 1 Arts subjects totalling 24 credit points.

Origins, evolution and attributes of modern business enterprise in Australia, Europe, America and Japan; strategy, structure and corporate performance; the economics of organization and the organization of work; theory and analysis of multinationals; integration, diversification and the marketing function; managerial hierarchies; decision management and decision control; entrepreneurship; public policy, social responsibility and the external business environment.

15.203H Economic Change In Modern S1 L2 T1 China 1700-1949

Commerce and Economics prerequisite: 15.102E.

Arts prerequisite: Any four Level 1 Arts subjects totalling 24 credit points.

May not be offered in 1990.

Evolution of the pre-industrial Chinese economy and an examination of its significant characteristics; agricultural development, population growth, the family farm, marketing and commercialization, distribution of wealth and income, and the role of the state. Interaction of indigenous forces of change and the impact of imperialism in transforming the Chinese economy in the late 19th and early 20th centuries. Emergence of alternative strategies, forces, and ideologies for national economic development in the 20th century with a close examination of the performance of the nationalist government during the Nanking decade 1927-1937 and the reasons for its failure and of the Communist government during the Yenan decade 1935-1945 and the reasons for its success.

15.204H Economic Transformation in the S2 L2 T1 People's Republic of China

Commerce and Economics prerequisite: 15.102E. Arts prerequisite: Any four Level 1 Arts subjects totalling 24 credit points.

The Chinese people's struggle to build socialism since 1949. Rehabilitation of the devastated economy, early socialist transformation of agriculture and industry, competing demands of ideology, political control and economic construction, and the rejection of the Soviet model. Evolution of a Chinese development model in the course of the Great Leap Forward, readjustment and recovery in the Post-Leap Collapse, the Great Proletarian Cultural Revolution, and the New Long March towards the Four Modernizations in the post-Mao era. Examination of changing priorities, exemplars, and strategies. Assessment of recent performance and emerging problems. Prospects for Australia in China's economic future.

15.205H Modern Asian Economic History S1 L2 T1

Commerce and Economics prerequisites: 15.101E and 15.102E. Arts prerequisite: Any four Level 1 Arts subjects totalling 24 credit points.

The contrasting histories of Asian economies in the modern period. Four major areas are considered - Japan, China, India and Indonesia. The nature of the Asian economies and the impact of the West prior to 1949; the history of planning in the four nations since the Second World War. Four specific themes: the impact of Japanese development on Asia; economic planning and policy in China; problems of the modern Indian economy; and planning for scientific and technological development in modern Asia.

15.207H Capitalism and Slavery

S1 L2 T1

Commerce and Economics prerequisite: 15.102E

Arts prerequisites: Any four Level I Arts subjects totalling 24 credit points.

This subject is concerned with the growth and expansion of non-free labour systems and economic development in the world economy since the 17th century. Case studies are drawn from the Atlantic slave trade, slavery in the Caribbean and American mainland, serfdom in central and eastern Europe, convicts in Australia and America, indentured labour from Asia and the Pacific and forced labour in colonial Africa. Attention is focussed on the impact of non-free labour systems on the process of industrialisation in Britain, western Europe and America as well as on the effects in the societies from which labour carne.

15.208H British Imperialism in the 19th S2 L2 T1 and 20th Centuries

Commerce and Economics prerequisite: 15.102E.

Arts prerequisites: Any four Level I Arts subjects totalling 24 credit points.

Theories of imperialism; informal empire mid-19th century; imperial rivalry and the scramble for Africa; the nature of British colonial rule in the 20th century and comparisons with that of other imperial powers; racism and cultural imperialism; the impact of the Second World War and changes in the international economy after 1945; national liberation struggles and formal decolonization; imperialism without colonies.

15.209H Modern Capitalism: Crisis and Maturity

S1 L2 T1

Commerce and Economics prerequisite: 15.102E.

Arts prerequisites: Any four Level I Arts subjects totalling 24 credit points.

Comparative economic and social development in Britain, America and Western Europe from the 1920s including the 30s depression, war and post-1945 growth; poverty and income and wealth distribution, monopoly capitalism and multinational firms; economic and political dimensions; socialism, capitalism and the welfare state; changing role of the trade union movement; stagflation and current economic and social problems.

15.211H German Economy and Society since 1850

S2 L2 T1

Commerce and Economics prerequisite: 15.102E.

Arts prerequisites: Any four Level I Arts subjects totalling 24 credit points.

Origins, course and consequences of modern industrialization in Germany; the state and the industrial revolution; banking, industry and the emergence of finance capitalism, cartels and vertical integration; agriculture in an industrializing economy and society; imperialism and the origins of the First World War; hyperinflation and reparations in the 1920s; the impact of the Great Depression 1929-33; the Nazi economic recovery and social change; the German war economy and allied occupation; the economic and social development of East and West Germany since 1945.

15.212H The Industrial Revolution

S1 L2 T1

Commerce and Economics prerequisite: 15.102E.

Arts prerequisites: Any four Level I Arts subjects totalling 24 credit points.

Industrialization as a process of structural change; the pre-industrial economy and society; estimates and sources of growth agriculture, traditional and modern sectors; demographic factors; intersectoral productivity differentials and the efficiency of labour and capital markets; migration and urbanization; trade. Empire and war in relation to growth; capitalism and inequality; the uniqueness of British industrialization; legacies of the early start.

15.213H Australian Economic Development S2 L2 T1 in the 20th Century

Commerce and Economics Prerequisite: 15.201E or 15.221E.

Arts prerequisites: Any four Level I Arts subjects totalling 24 credit points.

Development of the Australian economy from the Long Boom and the Depression of the 1890s to the present day. Australian economic development and its main features: economic fluctuations and their consequences, especially the Depression of the 1930s; rise of Australian economic institutions; changes in the philosophy of development and the role of government; migration and the inflow of foreign capital; development strategies of the States; impact of war; growth of manufacturing and industry policy; development of the services sector; problems of the agrarian economy; changes in the standard of living. Australia's changing economic relations with other countries and the world

economy. Economic problems in the later 20th century in historical perspective.

15.214H Economic History of the Soviet Union S1 L2 T1

Commerce and Economics prerequisite: 15.102E.

Arts prerequisites: Any four Level I Arts subjects totalling 24 credit points.

The background to the October Revolution (1917); War Communism (1918-1921); New Economic Policy and the Industrialization Debate (1921-1928); the collectivization of agriculture and forced industrialization (1928-1940); the Soviet Union in the Second World War; the historical assessment of Stalin and the Soviet situation in 1953; economic reforms and industrial development since 1953; the agricultural problem and agricultural development; markets in the Soviet Union; the nature of the Soviet Union socialist, state, capitalist, convergence and divergence; the Soviet model and alternatives (Eastern Europe, China and Cuba).

15.215H The Economic History of Urbanization S2 L2 T1

Commerce and Economics prerequisite: 15.102E.

Arts prerequisites: Any four Level I Arts subjects totalling 24 credit points.

Growth of cities during the last two centuries in Britain, North America and Australia. Economic, social and institutional structures; networks and interrelations between urban centres; capital labour; residential patterns and mobility; political control. Theories of metropolis are tested, with particular reference to London, Chicago and Melbourne.

15.301H The History of Economic Analysis S1 L2 T1

Prerequisites: 15.201E or 15.221E, 15.202E or 15.222E, and 15.203M.

This subject traces the evolution of modern economics from the works of the Classical School and the contribution of Smith, Malthus and Ricardo through the later development of their ideas by J.S. Mill and Marx. The contributions of the early necclassical – Jevons, Menger, Walras and Marshall - are assessed. The further development of the ideas by Bohm-Bawerk, Pareto, Wicksell, Edgeworth and Pigou will be examined, leading to a discussion of Keynes and later contributions. The emphasis of the subject will be on the development of analysis as the response to empirical and theoretical problems and the issue of the day. Related to this, the subject will examine how economic ideas are developed and in time may lose some of their influence.

15,302H Classics of Economic Thought S2 L2 T1

Prerequisite: 15.201E or 15.221E, 15.202E or 15.222E, and 15.203M.

In-depth reading of some great classics of economic analysis. The list will vary, but there will be at least one Classical and Neoclassical work. The subject will be concerned with examining the theoretical developments and influences of the works being examined.

15.303H Transformation of the Japanese Economy

Commerce and economics prerequisite: 15.102E.

Arts prerequisites: Any four Level I Arts subjects totalling 24 credit
points.

Growth and sectoral change in the Tokugawa economy; cities, handicrafts and population. The low-level equilibrium trap. Dynamics of the Meiji Restoration, government, trade, development. The interpretation of 'relative backwardness', 1880-1914. Classical models and capitalist development. The economic history of political change during the inter-war years. Capitalism and colonies. 'Economic miracle' and structural change; exports, the yen and the international economy.

15.304H Australian Economic Development S1 L2 T1 in the 19th Century

Commerce prerequisite: 15.102E.

Arts prerequisites: Any four Level I Arts subjects totalling 24 credit points.

Excluded 15.324H.

Basic features of the growth of the colonial economies up to Federation. Areas of special attention include: consequences of the European conquest of the South Pacific and South-East Asia; growth of trade, production, of capital and labour markets; effects of the Gold Rushes and the Long Boom; causes and effects of major economic fluctuations; class structure; demographic change; and regional differences. Australia's relationship with the international economy, and some longer-run consequences of growth in this period.

15.305H Modern Australian Capitalism

S2 L2 T1

S2 L2 T1

Commerce and economics prerequisite: 15.304H.

Arts prerequisite: Any four Level I Arts subjects totalling 24 credit points.

Excluded 15.325H.

Analysis of the major features of the Australian economy in the 20th century. Interpretation of movements in the trade cycle; the path of growth; the open economy; dependency; structural adjustment; capital formation; labour markets; and distribution. Analysis of the process of transformation of economic policy, its outcomes and change in a historical framework from 1901 to the present day.

15.306H Comparative Economic Systems In SS L2 T1 Historical Perspective

Commerce and Economics prerequisite: 15.201E or 15.221E.

Arts prerequisite: Any four Level I Arts subjects totalling 24 credit points.

Comparative study of the economic history of selected nations. Similarities and contrasts in their experience of economic change and development. Variations in patterns or characteristics of industrial revolution, institutional change and social development. The use of formal models in comparative history and in the exploration of the notions of proto-industrialization, institutional context, industrial revolution and economic modernisation.

15.307H Multinationals: Theory and History SS L2 T1

Commerce and Economics prerequisites: 15.102E. Co-requisite: 15.201E or 15.221E.

Arts prerequisite: Any four Level I Arts subjects totalling 24 credit points.

The origin, evolution and attributes of international firms; growth patterns of American, European, Japanese and Australian transnationals; their structure, management and performance; general theories of the multinational enterprise, home and host country impacts of foreign direct investment; technology transfer; government, public policy and the multinationals, selected studies of investment in Asia and the Pacific; recent trends in international business.

15.324H Australian Economic Development S1 L2 T1 in the 19th Century (Advanced)

Commerce and Economics prerequisite: 15.102E
Arts prerequisites: Any two of 15.101H, 15.102H, 15.103H and

15.104H at Credit level or better. Excluded 15.304H

As for 15.304H with additional work.

15.325H Modern Australian Capitalism S2 L2 T1 (Advanced)

Prerequisite: 15.324H. Excluded 15.305H

As for 15.305H with additional work.

15.422H The International Economy S1 L2 T1 since 1850

Prerequisite: 15.325H.

Delineation and analysis of the main changes in the international economy since 1850. The migration of capital and labour, changes in the composition and pattern of international trade; international monetary arrangements; barriers to trade and efforts to reduce them; the effects of war on international economic relations; the emergence of economic regionalism; the North-South Dialogue; the rise of the Pacific Rim economies; the Socialist World and the international economic.

15.423H Approaches to Economic and S1 L2 T1 Social History

Prerequisite: 15.325H.

The perspectives, themes and tools involved in the study of modern economic and social history. Shows that the historian concentrates upon particular problems and methods of analysis which define the subject of history as a discipline in its own right. One function of the course is to provide a degree of unity to the varied knowledge gained by students in other economic history courses; another is to allow students to come to grips with important problems of a general nature.

15.424H Aspects of Australian Economic Developments

S2 L2 T1

S2 T3

Prerequisite: 15.325H.

Advanced topics in Australian economic development.

15.425 Seminar in Research Methods

Prerequisite: 15.325H.

15.427H Thesis S1 and S2

Honours students in their final year are required to prepare a thesis of not more than 20,000 words which must be submitted before the final examinations in November. The thesis topic must be approved by the Head of the Department of Economic History before the end of the August recess in the year

preceding the candidate's entry into the 7th and 8th sessions of study.

Servicing Subjects

These are subjects taught within courses offered by other faculties.

For further information regarding the following subjects see the Faculty of Arts Handbook.

15.103H Pre-Industrial Europe	S1 L2 11
Arts prerequisite:	HSC minimum mark required
Cont. English	60
2 unit English (General) or	60
2 unit English or	53
3 unit Fnalish	1

The economic and social development of Europe to 1800. Topics include: feudal economy and society in the Middle Ages; slavery, serfdom and wage-labour; demographic change and the Black Death; the growth of towns, trade and industry; the nature and function of marriage and the family; religion and the rise of capitalism; the overseas expansion of Europe from 1500 and the establishment of empires; the relative decline of eastern and southern Europe; the origins of the industrial revolution in England. Note: This subject may be counted towards a major sequence in history in the School of Spanish and Latin American Studies.

15.104H The Industrialisation of the S2 L2 T1 Modern World

Alls prerequisite:	mark required
Cont. English	60
2 unit English (General) or	60
2 unit English or	53
3 unit English	1

Centring upon the years since 1800, traces the history of industrialisation from the emergence of the British economy, through the industrialisation of European nations to the industrial transformation of Asia and the rest of the world. The core concern is with the process of structural change during early industrialisation and the impact upon this of forces exogenous to national economies, for example: foreign trade, external organizational influence foreign banking, transnational companies, technology transfers, human migration and foreign investment. The subject utilises ideas developed by economists and historians working in the area of economic development and structural change.

15.210H The Rise and Decline of Britain S2 L2 T1

Prerequisite: Any four Level I Arts subjects totalling 24 credit points.

The Industrial Revolution, mid-Victorian dominance and the decline of the Brilish economy; why capitalism bred inequality; Britain as workshop of the world; the loss of industrial, trade and financial leadership; the 'British Disease' and de-industrialisation after 1945; science, education and the waning of the industrial spirit; managerial failure, unions and industrial decline; Empire and decolonisation; class structure, social protest and urban unrest, 1750-1988; war depression

and the ruin of the regions; government policy; the Thatcher vears.

15.421H Economic History 4 (Honours)

Arts prerequisites: 15.325H and 15.102E.

Consists of a thesis and four subjects: The International Economy since 1850; Approaches to Economic and Social History, Aspects of Australian Economic Development; and Seminar in Research Methods.

School of Geography

Geography is the study of variations from place on the earth's surface arising from the spatial relationships of the phenomena which make up the world of humanity. Particular emphasis in human geography is placed on the spatial organization of human activities, especially within urban systems.

27.713 Marketing Geography

S2 L2 T2

F

Prerequisite: 28.042.

Organization and operation of the marketing function and trends in its performance. Merchandising strategies of wholesalers and retailers and the consequent location patterns of consumer oriented enterprises within cities. Retail feasibility studies and the structure and analysis of market areas in intra-urban areas. Consumer spatial behaviour, including search and decision processes. Shopping centre images and spatial choice models

School of Marketing

28,001 Managing New Service Products

S1 or S2 4CCH

Prerequisites: 28.022, 28.073.

Not offered in 1990.

The need for new service products in the hospitality sector. What constitutes a new product. The new product development process. Use of research methodologies. Economic analysis of new service concepts. Use of computer modelling procedures. Practical examples from Australian experience.

28.002 Resort Management

S2 4CCH

Prerequisite: 28.013.

Not offered in 1990.

Strategic and operational issues in resort management. Market positioning; growth strategies; organization; information systems design; staffing needs; management style. Examples from Australian resort industry.

28.003 Communication Strategy in the Hospitality Industry

S2 4CCH

Prerequisites: 28.013, 28.042.

Not offered in 1990.

Communication strategy as a component of overall marketing in the hospitality industry. Setting communication goals; assessing the context in which communication will occur; selection of target audience; choice of communication, channel and message; measuring effect; evaluation. Examples from resorts and hotel sectors in Australia.

28.009 Financial Management and Operational Control in the Hospitality Industry

S1 4CCH

Prerequisites: 14.501, 14.511 and satisfactory completion of studies in the TAFE sector.

Not offered in 1990.

Financial ratio analysis; workers, capital and cash budgeting; current and capital asset management; financing methods; cash flow management; valuation methods; feasibility studies; franchising and leasing. Budgeting; purchasing and receiving contracts; issuing, storage, producing and serving controls; labour cost controls and their implementation; sales income control and theft prevention. Course will include a control project report and feasibility valuation report.

28.010 Legal Aspects of Tourism

S2 4CCH

Prerequisite: Satisfactory completion of studies in the TAFE sector.

Not offered in 1990.

National and international laws relating to tourism. Legal environment of facilities, agents, operators. Interaction of community and developer needs. Consumer rights. Implication of national, local regulations governing sale and supply of hospitality services, including food.

28.012 Marketing Systems

S1 L2 T2

Prerequisite: Nil.

Conceptual introduction to marketing from the systems viewpoint. Evolution and characteristics of marketing systems, buyer behaviour, marketing channel flows (equalizing supply and demand, communication, ownership, finance, physical distribution), marketing activities in the firm (planning and marketing program, co-ordination and control of marketing activities, problem solving, product planning, promotion and pricing, physical distribution management), resources allocation by competition, the expanding role of government, social performance of marketing and social efficiency of marketing.

28.013 Hospitality Management 1

S1 4CCH

Prerequisite: 28.009.

Not offered in 1990.

A case based approach to operational and strategic issues in hospitality management. Includes managing the customer mix, and demand levels; the delivery of accommodation, food and related services; planning, organizing and implementing marketing effort. Courses will be drawn from the hotel, restaurant and resort sectors, where possible directly from Australian experience. Industry ethics. Course will include the planning, implementation and appraisal of a major field study oriented to a specific hospitality operation.

8.014 Hospitality Management 2

S2 4CCH

Prerequisite: 28.013.

Not offered in 1990.

Design and layout fit out. A detailed case study will be required in which each student will develop the detailed plans and specifications needed for a restaurant or similar operation. Plans will include critical path charts, cost and income analysis, a five year marketing plan and budget.

28.022 Marketing Models

S1 L2 T2

Prerequisites: 28.012 and 28.052.

Use of quantitative analysis in marketing decision-making in business situations. The derivative (pricing for profit maximization), inventory policy for cost minimization); linear programming designing programs to maximise profits; techniques of planning (product launch using PERT); probability (competitive bidding theory); market decision-making under conditions of uncertainty; assignment algorithm (allocation of salesmen to territories); physical distribution (total system costing, etc.). Provides students with the opportunity to develop their ability to apply quantitative methods to practical marketing problems.

28.032 Consumer Behaviour A

S1 L2 T2

Prerequisite: Nil.

Major concepts, research and applications from the study of behavioural sciences as applied to human behaviour in the marketplace. The nature and scope of the behavioural sciences; purchase behaviour; the perception and learning of brands: personality theory and applications to advertising; cognition and memory; involvement and decision making by consumers; behavioural methodologies for consumer analysis.

28.042 Consumer Behaviour B

S2 L2 T2

Prerequisite: 28.032.

Attitudes and motivation; the structure of consumer aggregates; interpersonal and mass media communications; groups, the family, social class and institutions in society; human values and culture; organizational buying behaviour; consumerism. Students undertake a major field research project.

28.052 Marketing Research

S2 L2 T2

Prerequisite: 15.421 or approved substitute.

Sources and types of marketing information. Design, conduct, analysis and reporting of market surveys and experiments. Technique of statistical inference.

28.063 Promotions Management

S2 L2 T2

Prerequisite: 28.012 and 28.042.

Behavioural and communication factors influencing the effectiveness of promotion, especially advertising research into media and messages. The management of promotion.

28.073 Strategic Marketing

S1 L2 T2

Prerequisites: 28.012 and 28.052.

Conceptual framework relevant to the practice of marketing management for the further development of an integrative understanding of the market function. Important extensions and limitations of customer orientation and the emergence of a broader concept of marketing; stages of development of a marketing operation, the central role of innovation in opportunity management and the concept of control; importance of product life cycle concept to the formulation of marketing strategy; relationships between corporate and marketing strategy; marketing strategy, future analysis and scenario construction.

28.083 Managerial Marketing

S2 L2 T2

Prerequisite: 28.073.

Application of theoretical marketing concepts developed in 'Strategic Marketing' and quantitative techniques developed in 'Marketing Models'. Based on the planning, implementation and appraisal of a major field study.

28.093 Marketing Information Management S2 L2 T2 Prerequisite: 28.073.

Design and use of marketing information systems. The role of marketing research. Development and implementation of marketing plans.

28.143 Marketing Research Honours

S2 T2

Admission with approval of Head of School.

Relationship between theory and research. Treatment in depth of research formulation and the use of survey data. Introduction to experimentation.

28.203 Seminar in Marketing Theory 1 S1 or S2 T4

Prerequisite: 28.143.

As for 28,926G.

28,204 Thesis

28.205 Methods of Marketing Research S1 or S2 T4 Prerequisite: 28.143.

As for 28,927G

28.206 Seminar in Marketing A

S1 or S2 T4

Prerequisites: 28.012, 28.042 and 28.052.

Issues in current marketing and practice. Industrial marketing. Marketing distribution systems. The market environment. Product management.

28.207 Seminar in Marketing B

S1 or S2 T4

Prerequisites: 28.012, 28.042 and 28.052.

Aspects of one or more of the following areas - marketing in economic development, physical distribution management, retailing strategy and operations, advertising theory and practice, mathematical model building in marketing.

28.208 Channels of Distribution

S1 or S2 T4

Prerequisites: 28.012 and 28.022 and 28.042.

1. Channels of distribution as sub-systems of the marketing system of a society. Economic and behavioural theories are used to explain the structure and functioning of distribution channels. 2. Channels of distribution as an element of a firm's marketing strategy. Ideas developed in 1. are used to understand how individual firms and households seek to

achieve their objectives through the management of the channels of distribution for their products and services

28.209 Buyer Behaviour

S1 or S2 T4

Prerequisite: 28.143.

As for 28.901G. See Graduate Study: Subject Descriptions.

28.809 Introductory Japanese A

S1 L3 T2

Prerequisite: Nil. Excluded: 15.103E

Introduction to modern Japanese speaking, listening, reading and writing using communicative methodology. Emphasis on oral-aural skills with reinforcement through the use of the language laboratory. Hiragana and Katakana and some Kanji are introducted and developed through progressive practice.

28.810 Introductory Japanese B

S2 L3 T2

Prerequisite 28.809. Excluded 15.104E.

Supplementary materials and extension of all language skills with emphasis on the language needed for social science applications.

28.811 Intermediate Japanese A

S1 L2 T3

Prerequisite: 28.810.

Core language subjects designed for students who have acquired a sound knowledge of basic Japanese. Consolidates oral/aural skills and builds and develops reading/writing skills.

28.812 Intermediate Japanese B

S2 L2 T3

Prerequisite: 28.811

Core language subjects designed for students who have acquired a sound knowledge of basic Japanese. Consolidates oral/aural skills and builds and develops reading writing/skills.

28.813 Advanced Japanese A

S1 L3 T2

Prerequisite: 28.812

Advanced instruction in the Japanese language for the purpose of business and other related areas of communication.

28.814 Advanced Japanese B

S2 L3 L2

Prerequisite: 28.813.

Course material emphasises the rapid acquisition of advanced reading and writing skills, high level listening, comprehension and oral presentation in Japanese.

Law

90.101 Litigation

F Hpw4 C6

An introduction to issues and problems in three areas: Civil procedure: focus on selected topics—parties to an action; pleadings and the discovery and exchange of information. Rules are examined to determine the extent to which ehey facilitate just, accurate and speedy resolution of disputes. Criminal procedure: the law and related issues associated with arrest, the use of warrants, police searches, interrogation

and the formulation of pleadings. Comparisons drawn between the civil and criminal pre-trial processes. Evidence: A fundamental understanding of the legal and philosophical principles related to the presentation of evidence in court. In particular, examination of the rules designed to protect the accused at trial; the rule against hearsay evidence; the use of expert evidence; the treatment of unreliable evidence and some analysis of the philosophy of proof and probability theory.

The effect of pre-trial procedures on the final outcome at trial highlighted.

90.112 Legal System - Torts F Hpw4 C6

The legal significance of the arrival of the British in Australia: the principal institutions of the legal system, particularly the courts, the legislature, and the executive arms of government: the judiciary; the legal profession; their history, roles, interrelationships, operation and techniques; general constitutional principles and institutions; the notion and consequences of federalism; Bill of Rights proposals; precedent and statutory interpretation, practice and theory: sources of Australian law, including the past and present status of Aboriginal customary law; origins of the common law; classifications within the common law; jurisdiction of Australian courts; the development of compensation law, with particular reference to workers' compensation and occupational health and safety; modern statutory compensation schemes; the rules and concepts of the law of torts, their origins, growth, operation and limitations; tort law protection from assault, injury and death; negligence; interests in another's life and services; false and misleading statements affecting economic interests; loss distribution; employers' liability; occupiers' liability; causation; remoteness of damage; product liability; interference with interest in land; interference with personal liberty. Some of these topics are dealt with in outline only.

90.141 Contracts F Hpw4 C6

The legal protection given to those who enter into promissory arrangements, eg those cases which explain mutual intention and consideration, both of which are necessary for the formation of an enforceable contract, the interpretation of contract terms and conditions, the effect of changed circumstances, misrepresentation, illegality, privity and discharge. Remedies which the law provides for breach of contract. Readings provided which encourage students to examine the role of contract law in society from an historical and contemporary standpoint.

90.161 Criminal Law F Hpw4 C6

The principles of criminal law and criminal liability. Aims to: promote and refine research and social policy analysis skills; develop a rigorous analytic and socially oriented approach to the study of criminal law; investigate the constitution of concepts like crime, criminal and criminal law; question traditional approaches which assume a unified set of general principles and to suggest an approach to criminal law as a number of diverse fields of regulation; acknowledge the importance of forms of regulation outside the criminal law; examine empirical material on the actual operation of the

N.S.W criminal process such as court statistics and a court observation exercise; examine the substantive rules developed in selected criminal offence areas; stress the importance and relevance of criminal law in an understanding of law, even and especially for those who do not intend to practice in the area. Topics include: the phenomenon of crime, the criminal process, criminal responsibility, homicide offences, public order offences, drug offences, offences against the person, offences of dishonest aquisition, general defences, complicity, conspiracy, motor traffic offences.

90.215 Federal Constitutional Law S1 S2 Hpw4 C3

Federal constitutional law, stressing the legislative and judicial powers of the Commonwealth and the judicial interpretation by the High Court of the extent of those powers, in particular: trade and commerce, external affairs, corporations, appropriation, grants and taxation powers, family law and industrial law powers, inconsistency of Commonwealth and State laws, freedom of interstate trade and commerce, excise and implied limitations on Commonwealth and State powers. Techniques and approaches adopted by the High Court in interpreting the Australian Constitution, and occasionally, federal executive power.

Further study of constitutional law may be undertaken in 90.210 The High Court of Australia.

90.216 Administrative Law S1 S2 Hpw4 C3

Principles and procedures for review of administrative action. Topics: relations between different agencies of government (legislative, administrative, judicial): delegated legislation; judicial power; the Ombudsman: the Administrative Appeals Tribunal; principles of judicial review (denial of natural justice, going beyond power, error of law); procedures for judicial review; the Administrative Decisions (Judicial Review) Act, 1977 (Cth.).

90.301 Property and Equity F Hpw4 C6

The basic principles of the law of property, transcending the traditional boundaries of real and personal property. For reasons of time and convenience, most topics are those usually considered under the rubric of 'real property'. Enquiry into the meaning of the concepts of property and the purposes that are or ought to be fulfilled by the law of property. Some of the traditional concepts and classifications adopted by the common law in the content of the study of fixtures. The impact of the Commonwealth Constitution upon the law of property. Topics: possession as a proprietary interest in land and goods; some basic concepts such as seisin and title; the fragmentation of proprietary interests, including the doctrines of tenure and estates, an introduction to future interests; the development of legal and equitable interests, including a comparative treatment of their nature, extent and sphere of enforceability and an introduction to trusts; legal and equitable remedies; the statutory regulation of proprietary interests in land, including an examination of the Torrens and deeds registration systems; co-ownership; an introduction to security interests; the acquisition of proprietary interests; the alienability of interests including trusts for sale: commercial transactions involving leasehold estates in land and bailment of goods; private planning in relation to land by means of easements and restrictive covenants.

90.621 Law, Lawyers and Society S1 S2 Hpw4 C3

1. The lawyer-client relationship, including who exercises control and the lawyers' duties to accept work, to keep client confidences to act competently and to avoid conflicts of interest; the social implications of lawyers' professional behaviour. 2. The adversary system of litigation and the lawyers' role therein, both generally and specifically as defence counsel and as prosecutor in criminal cases. 3. The structure of the profession and methods of regulation including discussion of the concept of professionalism, control of admission, discipline generally and conduct in court specifically; selection and control of the judiciary. 4. Issues relating to the delivery of legal services, including advertising and solicitation by lawyers, specialization in lawyers' practice, the structure and availability of legal aid, the regulation of lawvers' fees, the extent of the lawvers' monopoly and the role of non-lawyers in delivering legal services.

90.741 Legal Research and Writing 1 F Hpw2 C2

The literature, both legal and non-legal, relevant to the law in Australia. The contents of a law library, how it works and is ordered and how lawyers go about using it to find the law. Practice in handling the principal legal materials in the law library, notably law reports, collections of statutes, digests and material on law reform. An introduction to case analysis and statutory interpretation. An introduction to the use of computerized legal research methods. The methods and objectives of legal and empirical research.

90.742 Legal Research and Writing 2 S1 S2 Hpw2 C1

A revision of legal research skills acquired in 90.741 Legal Research and Writing 1, particularly the use of Australian digests, law reform materials and indexes to legal periodicals. Practice in ascertaining delegated legislation, in using English, Commonwealth and US digests and in tracing recent amendments to case-law, statutes and regulations. Further instruction on the use of computers for retrieval of legal materials, and for manipulating legal texts.

90.743 Research Component

This subject must be taken either concurrently with or after 90.742 Legal Research and Writing 2, but students are advised where possible to complete Legal Research and Writing 2 first so that they have a command of the relevant research techniques. Students are required to write an essay or present an argument in a moot, on the basis that their performance in conducting research carefully and thoroughly for the essay or moot is assessed by the subject teacher on a pass-fail basis. This assessment of the quality of the research will be made in addition to a separate assessment, in the normal fashion, of the standard of an essay or moot performance for the purposes of awarding a mark in the subject as a whole. The subject to which this requirement applies will be chosen by the student, and all subjects offered in the Law School are prima facie available to Research Component students for this purpose. Where for compelling reason no provision for a suitable essay or moot is or can be made in the program of assessment of a particular subject, the teacher of that subject may ask the student to select another subject. There is no formal teaching in 90.743

Research Component and no credit points are awarded for it. It is compulsory for all students except those taking any one or more of the Research Thesis electives 90.651, 90.652, 90. 653.

90.832 Legal Theory

S1 S2 Hpw4 C3

Introduction to theoretical questions which underline the practical workings of the law. Three different though overlapping questions are addressed: questions about the nature and character of judging; questions about the nature of law; moral and evaluative questions about the operations of law in general, and about particular legal activities. Topics: the character and aims of legal theory; the nature of adjudication and its significance for an understanding of law; Legal Positivists' and Natural Lawyers' accounts of the nature of law and the relationship of law to morals; evaluation of punishment, laws designed to redistribute social goods and other areas of legal intervention into social life.

90.882 Law and Social Theory S1 S2 Hpw4 C3

Examination of common assumptions about law, about society, and about the relationships between law, legal institutions and social ordering. The nature of social ordering and the place of law in that ordering, the extent to which different areas of law contain implicit social theories, and the importance which social theories have attached to law in their explanations of social structure and social change. First section: Common assumptions about the nature and social role of law are discussed in the light of the work of writers in the law and society movement. Second section: The rule of law is considered as a general rationale of law and in the context of selected areas of law: contract, crime and administrative law. Third section: The work of major social theorists Marx, Weber, Durkheim and Foucault and the implications of their work for law are discussed.

90.832 and 90.882 form part of the compulsory core of the LLB and BJuris degree courses with respect to students who entered the Faculty in 1981 or later. Students are required to take one of these two subjects to fulfil compulsory requirements and are permitted to take the other as an elective. For intakes earlier than 1981, it is an elective only.

Electives

All Commerce Law students must also complete Law Electives sufficient to comply with **Rule 7.(1)** (a) of the Rules Applicable to Candidates for the Degrees of Bachelor of Laws and Bachelor of Jurisprudence (see Rules for Award of Degrees in the Faculty of Law Handbook.)

Students in Commerce Accounting Law and Commerce Accounting, Finance and Systems Law courses must complete the subjects 90.401 Business Associations 1 and 90.402 Business Associations 2 and at least two other electives from the field of Business Law.

Subject descriptions for law electives referred to in **Rule 30** Rules Relating to the Bachelor of Commerce Bachelor of Laws Course are set out below.

90.223 Communications Law

SS Hpw4 C3

The statutory and common law controls over mass media and telecommunications in Australia. Matters likely to engage the skills of lawyers rather than pure theoretical analysis or law for journalists. Among the general legal issues considered in the particular communications context are: economic regulation and protectionism; licensing law and policy; legal provision for technological change; regulation of corporate control; and self-regulation. Topics may be roughly divided into two main groups: 1. Defamation; contempt of court and parliament; rights of court reporting; restrictions on the content of printed and electronic media, including voluntary industry codes as well as law strictly so called. 2. Electronic media: the operation of the commercial and public station licensing system; planning powers; ownership and control of stations; the regulation of programs; domestic law affecting satellite communication; videotext; cable and pay-TV media.

Students who have completed 90.222 Mass Media Law are not permitted to take this subject for credit.

90,303 Trusts

S1 S2 Hpw4 C3

The nature, history and classification of trusts; the use of trusts in modern law; social control through trusts; express private trusts; purpose trusts; discretionary and protective trusts; the creation and variation of private trusts; in commerce trusts; resulting and constructive trusts; charitable and public trusts; the significance of charitable status; powers and duties of trustees. A useful introduction to 90.305 Succession which develops a number of themes which are raised by a consideration of the law of trusts.

90.305 Succession

S1 S2 Hpw4 C3

Prerequisite: 90.301

The law governing succession to property on death including the rules relating to wills, administration of assets, family provision and intestate succession. Equitable doctrines relating to the law of wills and administration of estates, including construction of wills, marshalling, satisfaction, ademption, and donationes mortis causa. Although the rules of equity constitute a theme common to this subject and 90.302 and 90.303, there is no significant overlap. Students interested in both the law of trusts and the law of succession should do both 90.303 and 90.305, in that event it is preferable to do 90.303 first.

90.401 Business Associations 1 S1 S2 Hpw4 C3

An introduction to the legal principles governing the partnership and the registered company. The partnership component deals with the formation and constitution of the partnership; the relations between partners and those dealing with their firm; the fiduciary duties partners owe to one another; the partnership property and capital; the dissolution of the partnership.

The company law component of the subject falls into two parts. The first deals with the process and incidents of incorporation. The topics dealt with in this part include the derivation of the modern company; an introduction to the regulatory structures for companies and the securities inclustry in Australia; the formation of the company; the privileged position of the private company; an introduction to the corporate constitution, organs and capital; promoters' duties; pre-incorporation contracts; the separate personality of the corporation and its exceptions; corporate liability in crime.

The balance of the subject is concerned with the structure and governance of the company. It examines the corporate organs

the board of directors and the general meeting and the division of corporate powers between them; the duties and liabilities of directors and other officers; the remedies available to shareholders for the enforcement of directors' duties and protection against oppression or over-reaching by controllers.

While much of this company law doctrine is equally applicable to the large company as to the small enterprise, the subject stresses the problems, processes and transactions typically encountered by small incorporated business.

Students are advised to complete 90.301 Property and Equity before undertaking Business Associations 1.

90.402 Business Associations 2 S2

S2 Hpw4 C3

Prerequisite: 90.401.

Areas of company law and securities regulation not covered in 90.401 Business Associations 1, and particularly those of relevance to larger enterprises including public companies. Students who wish to complete a comprehensive study of company law and securities regulation are advised to take this subject in addition to 90.401.

The subject deals with topics within the fields of corporate finance and securities regulation (including the regulation of takeovers). Topics studied will be drawn from the following: 1. corporate finance including classes of shares, company accounts and audit, the protection of share capital and the law on dividends; 2. securities markets and their regulation including insider trading and other market abuse, and the hearing and investigative powers of the National Companies and Securities Commission; 3. Public issues of corporate securities including philosophy of new issue regulation, listing and quotation, prospectus requirements, liability for prospectus contents, and prescribed interests; 4. the regulation of takeovers; 5. corporate insolvency.

90.403 The Modern Corporation SS Hpw4 C3

Examines on a comparative basis selected issues in law and social policy arising from the modern emergence of the large business corporation as a dominant institution in western economies. The object is to develop a critical understanding of corporate structures and operations and of regulatory systems. The central theme concerns corporate control and governance. Topics include: 1. the distribution of corporate ownership and control - modern patterns and their significance; 2. institutional share ownership - recent developments and control implications: 3, the regulation of financial intermediaries; 4. networks of influence inter-company and business-government interlocks; 5. legal responses to the separation of corporate ownership and control with particular reference to the identification and transfer of corporate control; 6. structure, process and function in the public company board of directors; 7. corporate social responsibility; 8. industrial democracy: 9. employee participation in corporate capital formation: 10. state intervention in business - industrial strategy, corporatism and managerial prerogatives; and 11. the regulation of multi-national enterprise.

Students who have completed 90.4032 The Modern Corporation are not permitted to take this subject.

90.424 industrial and intellectual Property

S1 S2 Hpw4 C3

Areas of the law relating to concepts of intangible property including the law of patents, trademarks, trade designs, copyright, confidentiality, passing off and the protection of business reputation.

90.426 Regulation of Economic Activity SS Hpw4 C3

Theories, economics and politics of regulation. The role of competition policy; the case of exemption. Regulation v self-regulation. Regulatory reform. Selected case studies in economic regulation.

Students who have completed 90.433 Economic Regulation are not permitted to take this subject for credit.

90,434 Trade Practices

S1 S2 Hpw4 C3

The competitive process and the extent to which departures from competition should be regulated. Focus is put on the Trade Practices Act and the decisions of the Trade Practices Commission, the Trade Practices Tribunal and the Federal Court thereunder. Comparative US, English and EEC decisions in the trade practices area are considered.

90.435 Insurance Law

SS Hpw4 C3

Basic principles of insurance law. *Topics:* 1. *Principles of insurance law;* insurable interest, indemnity, good faith, subrogation, contribution; 2. *Insurance contracts:* formation, warranties and conditions, cover, claims, brokers and agents; 3. *The changes* effected by the relevant legislation and the residual problems.

90.437 Commercial Law A S1 S2 Hpw4 C3

Aims, with 90.438 Commercial Law B, to provide an introduction to principal areas of commercial law of relevance to legal practice. *Topics:* 1, the law on sale of goods; 2, an introduction to consumer protection; 3, an introduction to the law on consumer credit.

Students wishing to complete an introductory study of commercial law are advised to take 90.438 Commercial Law B. More advanced study of consumer protection is available in 90.439 Consumer Protection Law. Other areas of commercial law are dealt with in 90.454 International Trade and 90.480 The Law of Banking.

Students who have completed 90.431 Commercial and Consumer Transactions 1 are not permitted to take this subject for credit.

90,438 Commercial Law B

S1 S2 Hpw4 C3

Aims, with 90.437 Commercial Law A, to provide an introduction to principal areas of commercial law of relevance to legal practice. Topics: 1. negotiable instruments, including a study of commercial bills against the background of a description of the operation of the commercial bills and money markets; 2. secured transactions. Students are introduced to the law on securities over personal property including priorities. Reference is made to credit arrangements in use in the distribution and sale of goods and services; 3. introduction to law of bankruptcy.

It is recommended that students complete 90.437 Commercial Law A before taking this subject. Other areas of commercial law are dealt with in 90.439 Consumer Protection

Law, 90.454 International Trade and 90.480 the Law of Banking.

Students who have completed 90.432 Commercial and Consumer Transactions 2 are not permitted to take this subject for credit.

90.439 Consumer Protection Law SS Hpw4 C3

Legislative strategies for the protection of consumers and the effect of this legislation upon marketers. The following protective strategies are considered: regulation of consumer contracts; the imposition of informational requirements on persons dealing with consumers; the promulgation of standards with which goods and services have to comply; the licensing of persons dealing with consumers; the establishment of statutory funds against which consumers can claim; the creation of consumer tribunals and the establishment of consumer protection bureaux.

90.444 Elements of Income Tax Law S1 S2 Hpw4 C3

1. Introduction: the policies served by taxation with particular reference to distributional and economic objectives; the uniform tax system: the structure of the current Income Tax Assessment Act and its administration. 2. A critical analysis of the principal concepts of the law of income taxation and the taxation of capital gains and fringe benefits; the law on income and deductions as applicable to individuals; the trading stock provisions and tax accounting; concepts of residence and source. 3. The judicial interpretation of taxing statutes; policy questions concerning tax avoidance.

Students who have completed 90.442 Taxation 1 are not permitted to take this subject for credit.

90.445 Advanced Revenue Law S2 Hpw4 C3

Prerequisite: 90.444.

Areas of income tax introduced in 90.444 Elements of Income Tax Law in greater depth. Several areas of income tax law and other revenue lawnot touched on in the earlier subject. Topics: 1. taxation of partnerships, trusts and companies; 2. assignment of income; 3. tax avoidance and evasion—analysis of general, and specific, anti-avoidance legislation and penalties legislation; 4. an introduction to aspects of international tax including some international tax agreements; 5. more specialized work on aspects of capital gains tax. 6. tax decision-making and review in the context of a mass decision making process. Students should have completed 90.401 Business Associations 1 or be taking that course concurrently with 90.445.

Students who have completed 90.443 Taxation 2 are not permitted to take this subject for credit.

90.454 International Trade SS Hpw4 C3

A study of international business transactions. An economic overview of international trade. Structural aspects of international business including: different methods of doing business internationally; foreign investment in Australia; the territorial reach of anti-trust laws; international taxation; international finance; international transport law. Attention is focussed on transactional aspects of international business law, namely, sale of goods, international payments, and

customs, dumping and subsidies. It is recommended that students taking this course should either have studied, or be studying concurrently, the following subjects: Commercial Law A and B. Elements of Income Tax and Conflict of Laws.

Students who have completed 90.4512 International Trade are not permitted to take this subject for credit.

90.462 Computer Applications to Law SS Hpw4 C3

A 'hands-on' introduction to the uses lawyers can make of computer technology, particularly database and knowledge-based technologies. The use of databases for text retrieval systems, court and legal data registry systems, litigation support systems and office administration. The strengths and limitations of database technologies. The use of knowledge-based technologies in legal document generators, expert systems (systems that give legal advice) and 'conceptual text retrieval'. Implications of the nature of legal reasoning for these technologies.

Students will design and create their own legal databases, document generators and expert systems using programs provided. No prior computer knowledge is required, as the course commences with a brief introduction to microcomputer use. Some experience in the use of microcomputers and particularly wordprocessing, would be an advantage. The course is taught in the Faculty Microcomputer Lab and enrolment is therefore limited to 25.

90.500 The Law of Employment S1 S2 Hpw4 C3

A branch of the law which treats persons in their capacity as workers. The employer-employee relationship with particular attention to the individual contract of employment on which that relationship rests, the legal concept of a 'worker', incidents of the employment relationship, the mutual rights and duties of the employer and the employee; the rights and obligations of public employees; incidents of the employment relationship as regards third parties, the employer's liability to third parties, the employee's liability to third parties and the liability of third parties towards the employment relationship; the termination of the relationship with particular reference to the discharge of the contract of employment by performance, by notice and for cause and the remedies for wrongful termination; the relationship between an individual contract of employment and the relevant Award or Industrial Agreement; the usual matters dealt with in Awards and Agreements with particular emphasis on job security and personal grievances; social security aspects of employment, the legislation which is designed to protect wages, hours and various leave entitlements; legislation with respect to Anti-Discrimination; programs for Equal Employment Opportunity and Affirmative Action.

90.503 Industrial Law

SS Hpw4 C3

An analysis of the legislation, commonwealth and state, which regulates the activities of trade and industrial unions including their internal administration; the common law relevant to trade unions and industrial disputes; the legislation, commonwealth and state, governing the conduct of industrial disputes; practical aspects of dispute settlement in Australian industrial relations systems.

Graduate Study

The Faculty of Commerce and Economics includes the Schools of Accounting, Banking and Finance, Economics, Industrial Relations and Organizational Behaviour, Information Systems, and Marketing, and the Department of Legal Studies and Taxation.

Suitably qualified candidates may enrol to study for the degree of Doctor of Philosophy. In addition, courses are available leading to the award of the degrees of Master of Commerce Honours and Master of Commerce. These are offered in Accounting, Banking and Finance, Economics, Economic History, Econometrics, Industrial Relations and Organizational Behaviour, Information Systems, Legal Studies and Taxation, and Marketing. Normally all applicants for registration for the degree of Master of Commerce Honours should be graduates in Commerce or Economics seeking advanced specialization in their own discipline, although there is provision for non-Commerce or Economics graduates to be admitted in special cases, usually subject to a qualifying program.

The requirements for the Master of Commerce Honours degree may be satisfied by a program of study emphasizing either a thesis or formal courses, but in all cases a small research project, at least, must be undertaken. The degree of Master of Commerce may be pursued by graduates or other approved entrants from both commerce and non-commerce disciplines, either primarily in the form of study and professional development in a single field, or as a broader integrated course embracing several of the disciplines offered in the Faculty. The requirements for this degree are satisfied by successful study in formal courses.

The conditions governing the award of higher degrees are set out later.

Faculty of Commerce and Economics Enrolment Procedures

All students enrolling in graduate courses should obtain the leaflet *Re-Enrolling 1990 for Postgraduate Students*, available from School Offices and the Admissions Office. These sheets provide detailed information on enrolment procedures and fees, enrolment timetables by Faculty and course, enrolment in miscellaneous subjects, locations and hours of Cashiers and late enrolments.

Course Requirements for the Degree of Master of Commerce (Honours)

A program of studies is generally pursued by full-time students over four sessions and by part-time students over six or seven sessions. Daytime attendance, to the extent of one afternoon a week, may be required for up to four sessions of the part-time program.

The detailed course requirements are set out below. In each case certain units are designated core units. Full-time students will normally include the core units among the units studied in the first four sessions. The choice of electives is subject to the approval of the Head of the School in which the candidate is enrolled and of the Head of the School offering the elective chosen.

School of Accounting

2630

Master of Commerce (Honours) MCom(Hons)

- 1. All students shall study the following core units:
- 14.951G Current Developments in

Accounting Research - Financial

- 14.952G Current Developments in
- Accounting Research Managerial

 14.909G Current Developments in Auditing Research
- 14.997G Seminar in Research Methodology
- 14.967G Special Topic in Accounting
- 14.904G Development of Accounting Thought
- 2. In addition to completing the subjects listed in 1., students shall either (a) submit a thesis on an approved topic and take such units as prescribed by the Higher Degree Committee to support that thesis, or (b) submit a project report on an approved topic and study four further units including two units chosen from the following list:
- 14.901G Advanced Studies in Financial Accounting 1
- 14.902G Advanced Studies in Financial Accounting 2
- 14.903G Regulation of Accounting
- 19.905G Information Systems Auditing
- 14.956G Management Planning and Control
- 14.915G Individual Judgement and Choice
- 14.916G Accountability, Accounting and Auditing
- 14.917G Strategic Management: Systems and Processes
- 14.910G Financial Statement Analysis
- 14.929G Organization Design
- 3. Units chosen shall be approved by the Head of the School and will normally be selected from advanced graduate units offered by the Faculty or, with the permission of the Higher Degree Committee, introductory graduate units offered by the Faculty or other graduate units offered by the University.

School of Banking and Finance

2631

Master of Commerce (Honours) MCom(Hons)

- 1. All students shall study the following core units:
- 98.975G Seminar in Finance
- 98.976G Business Finance 4A
- 98.977G Business Finance 4B
- 98.979G Empirical Research in Finance
- Two further units chosen from the following list:
- 14.910G Financial Statement Analysis 99.911G Legal Aspects of Finance
- 98.925G Financial Institutions Management
- 98.885G Risk and Insurance
- 98.886G Real Estate Finance and Investment
- 98.887G Lending and Liquidity Management
- 98.888G Option, Futures and Risk Management Techniques

- 2. In addition to completing the subjects listed in 1., students shall either (a) submit a thesis on an approved topic and take such units as prescribed by the Higher Degree Committee to support that thesis, or (b) submit a project report on an approved topic and take four further units.
- 3. Units chosen shall be approved by the Head of the School and will normally be selected from advanced graduate units offered by the Faculty or, with the permission of the Higher Degree Committee, introductory graduate units offered by the Faculty or other graduate units offered by the University.

School of Economics

Department of Economic History

2590

Master of Commerce (Honours) MCom(Hons)

- 1. All students shall study the following core units:
- 15,951G The International Economy Since 1850
- 15.953G Approaches to Economic and Social History
- 15.954G Seminar in Research Methods
- 15.955G Aspects of Australian Economic Development
- In addition, students shall submit a thesis and take such units as are prescribed by the Higher Degree Committee to support the thesis. Such units will normally be selected from the following list:
- 15.952G The Modern Business Corporation
- 15.957G Comparative Economic History
 15.965G Science, Technology and Economic Development
- 60.554G American Labour 1880-1980
- 3. All students shall enrol in 15.959G Research Seminar for at least one session. Students may enrol in the Research Seminar while they are enrolled for 15.960G Thesis.

Department of Econometrics

2600

Master of Commerce (Honours) MCom(Hons)

- 1. All students shall study the following core units:
- 15.437G Econometric Methods A
- 15,447G Econometric Methods B
- 15.440G Applied Econometrics A
- 15.441G Applied Econometrics B

Two further units must be chosen from the following list:

- 15.432G Linear Economics
- 15.442G Economic Optimitization and Dynamics
- 15.474G Mathematical Economics A
- 15.484G Mathematical Economics B
- 2. (a) Students taking the degree by course work shall in addition submit 15.499G Project Report and take four additional units of which at least two must be chosen from:
- 15.415G Advanced Econometrics A
- 15.425G Advanced Econometrics B
- 15.435G Advanced Mathematical Economics A
- 15.445G Advanced Mathematical Economics B
- the remainder being electives.

- (b) Students taking the degree by thesis shall in addition submit a thesis and take such units as are prescribed by the Higher Degree Committee to support that thesis.
- 3. The electives referred to in clause 2. must be approved by the Head of the Department of Econometrics and shall normally be chosen for graduate units offered by the School of Economics (except 15.448G Business Econometrics and Forecasting and 15,443G Operations Research and subjects listed in clause 1, of the Course Requirements for the Degree of Master of Commerce) or from graduate units, or fourth year Honours units offered by the School of Mathematics.
- 4. All students must enrol in 15.498G Econometrics Research Seminar while they are also enrolled for either 15.499G Proiect Report or 15,497G Thesis.
- 5. Except for exceptional circumstances the report on the project shall be submitted not later four sessions after the completion of the formal course work component of the degree as set out in paragraphs 1. and 2.

Department of Economics

2640 Master of Commerce (Honours) MCom(Hons)

- 1. All students shall study the following core units:
- 15,154G Microeconomic Analysis 1
- 15.155G Microeconomic Analysis 2 15.314E Economic Methodology
- 15.174G Macroeconomic Analysis 1
- 15.184G Macroeconomic Analysis 2
- 15.407G Elements of Econometrics
- 2. In addition to completing the subjects listed in 1., candidate must either: (a) submit a thesis on an approved topic and take additional subjects as prescribed by the Higher Degree Committee, or (b) submit a project report on an approved topic, complete the subject 15,205G Seminar in Advanced Economic Analysis, together with three other subjects, of which at least two must be chosen from 15.214G International Trade, 15.215G International Finance, 15.234G Monetary Theory and Policy or subjects available as options in the MComHons course in Econometrics.
- 3. The contents of the subjects contained in 1. assume that candidates have a knowledge of quantitative analysis equivalent to that contained in 15.417G Quantitative Analysis A and 15.427G Quantitative Analysis B. Candidates who have not reached this level will be required to take 15.417G and or 15.427G as qualifying subjects. Subject to approval of the Head of the Department of Economics, candidates may be permitted to take 15.417G and or 15.427G concurrently with other subjects.
- 4. Students are required to attend 15.298G Economics Research Seminar and complete either 15,297G Project Report or 15.299G Thesis.

School of industrial Relations and Organizational Behaviour

2540 Industrial Relations Master of Commerce (Honours) MCom(Hons)

- 1. All students shall study five of the following core units:
- 30,742G Comparative Industrial Relations:
 - **Developed Economies**
- 30.707G Industrial Relations Case Studies A
- 30.743G Comparative Industrial Relations:
 - **Developing Economies**
- 30,708G Industrial Relations Case Studies B
- 30,740G Industrial Relations Project Seminar A
- 30,741G Industrial Relations Project Seminar B
- 2. All students shall enrol in 30.709G Industrial Relations Seminar
- 3. In addition to completing the subjects listed in 1., candidates must either (a) submit a thesis on an approved topic and take additional subjects as prescribed by the Higher Degree Committee, or (b) submit a project report on an approved topic and study four further units from:
- 30.721G Labour Market Policies
- 30.731G Wages and Income Policy
- 30.727G Industrial Conflict
- 30.728G Social Aspects of Work and Unionism
- 30.723G Industrial Relations Theory
- 30.732G Industrial Relations Methods
- 30.733G Industrial Relations Research Methodology
- 30.745G Leisure in Society
- 30.938G Japanese Employment and Productivity
- 30.960G Technological Change and

Organizational Participation

2525 Organizational Behaviour Master of Commerce (Honours) MCom(Hons)

- 1. All students shall study the following core units
- 30.970GAdvanced Seminar in Organizational Behaviour A 30.971GAdvanced Seminar in Organizational Behaviour B

Two further units chosen from the following list:

- 30.938G Japanese Employment and Productivity
- 30.942G Organization and Society
- 30.955G Human Potentialities
- 30.958G Organizational Communications
- 30.960G Technological Change and
 - Organizational Participation
- 30.965G New Directions in Organization Theory
- 2. In addition, students shall submit a thesis and take such units as are prescribed by the Higher Degree Committee of the Faculty to support that thesis.
- 3. All students shall enrol in 30.972G Postgraduate Research Seminar for at least one session. Students may enrol in the research seminar while they are enrolled in 30.999G Thesis.

School of Information Systems

2632

Master of Commerce (Honours) MCom(Hons)

- 1. All students shall study the following core units:
- 19.926G Advanced Data Management
- 19.983G Information Systems and Telecommunications
- 19.986G Research Topics in Information Systems 1 19.987G Research Topics in Information Systems 2
- 19.993G Special Topic in Information Systems
- 19.991G Decision Support Systems
- 2. In addition to completing the subject listed in 1., students shall either (a) submit a thesis on an approved topic and take such units as prescribed by the Higher Degree Committee to support that thesis, or (b) submit a project report on an approved topic and take four further units.
- 3. Units chosen shall be approved by the Head of the School and will normally be selected from advanced graduate units offered by the Faculty or, with the permission of the Higher Degree Committee, introductory graduate units offered by the University.

School of Marketing

2530

Master of Commerce (Honours) MComHons

- 1. All students shall study the following core units:
- 28.926G Seminar in Marketing Theory 1
- 28.927G Methods of Marketing Research
- 28.901G Buyer Behaviour
- 28.907G Seminar in Contemporary Marketing Issues.
- In addition, students must either submit a project report and take 28.929G Marketing Planning and Policy, and 28.905G Marketing, Strategy, plus three graduate or fourth year Honours electives.

or

submit a thesis and take such units as are prescribed by the Higher Degree Committee to support that thesis.

- 3. The two electives may be chosen from any graduate units taught by the Faculty or any other graduate units, with the exception of subjects listed in clause 1. of the Course Requirements for the Degree of Master of Commerce, or fourth year Honours units within the University approved by the Head of School. Electives offered by the School of Marketing are 28.925G Comparative Marketing Systems and 28.903G International Marketing, 28.921G Sales Management, 28.922G Industrial Marketing.
- 4. All students shall enrol in 28.998G Research Seminar for at least one session. Students may only enrol in the Research Seminar while they are enrolled for either 28.999G Project Report or 28.994G Thesis.
- 5. Except for exceptional circumstances the report on the project shall be submitted not later than four sessions after the completion of the formal coursework component of the degree as set out in paragraphs 1, to 4.

Course Requirements for the Degree of Master of Commerce

- The program shall consist of twelve units. Candidates may be given exemption from up to four units on the basis of prior study at an appropriate level in the disciplines listed in Clause 2.
- 2. The twelve units including any exemptions shall include at least two units in each of two of the following disciplines:

 Accounting

Econometrics

Economic History

Economics Finance

Industrial Relations

Information Systems
Legal Studies and Taxation

Marketing

Organizational Behaviour

Students shall study a program approved by the Higher Degree Committee which includes a major of at least eight units or two sub-majors of at least four units each.

Approved Programs

These programs allow students to meet the requirements of a major strand of at least eight units from one of the ten disciplines offered by the Faculty as well as at least two units from one of the other disciplines, or two sub-majors of at least four units selected from two of the disciplines.

19.926G Advanced Data Management

19.972G Knowledge Based Information Systems 19.928G Management Systems Design

14.955G Design of Cost Management Systems

15.448G Business Econometrics and Forecasting

4.3 Four further units chosen from the above list or from other graduate units offered by the Faculty.

Disciplinary Specialization in Advanced Accounting Course code 8466

5.1 Compulsory units:

14.915G Individual Judgement and Choice

14.956G Management Planning and Control

14.903G Regulation of Accounting

14.951G Current Developments in Accounting Research –

14.952G Current Developments in Accounting Research -Managerial 14.909G Current Developments in Auditing Research

5.2 At least two subjects from the following list:

14.916G Accountability, Accounting and Auditing

14.917G Strategic Management: Systems and Processes 14.901G Advanced Studies in Financial Accounting 1

14.902G Advanced Studies in Financial Accounting 2

14.910G Financial Statement Analysis

14.904G Development of Accounting Thought

19,905G Information Systems Auditing 19.957G Operations Research for Management 1

5.3 Four further units chosen from the above list or from other graduate units offered by the Faculty.

6. Advanced Professional Program in Accounting Course code 8471

6.1 Compulsory units:

14.916G Accountability, Accounting Auditing

14.902G Advanced Studies in Financial Accounting 2

14.903G Regulation of Accounting

99.922G Advanced Taxation: Concepts and Systems

6.2 Four subjects from the following groups with at least two subjects from one of the listed groups.

Group A (Financial Accounting and Auditing)

14.901G Advanced Studies in Financial Accounting 1 14.951G Current Developments in Accounting Research -

Financial

14.909G Current Developments in Auditing Research

14.915G Individual Judgement and Choice

Group B (Legal Studies and Taxation)

99.923G Advanced Taxation: Organizations and **Transactions**

99.924G Advanced Taxation: Contemporary Issues 99,966G Advanced Studies in Company Law

99.911G Legal Aspects of Finance

Group C (Information Systems)

19.989G Information Systems B

19.905G Information Systems Auditing

19.953G Advanced Systems Management

19.991G Decision Support Systems

Any other advanced graduate information systems subject approved by the Head of the School of Information Systems.

Group D (Finance)

98.964G Australian Capital Markets

14.910G Financial Statement Analysis

98.984G Finance Theory and Evidence

98.868G Investment Analysis and Management

Any other advanced graduate finance subject approved by the Head of the School of Banking and Finance.

Group E (Management Accounting)

14.917G Strategic Management: Systems and Processes

14.949G Management of Technical Specialities

14.952GCurrent Developments in Accounting Research -Managerial

14.956G Management Planning and Control

14.955G Design of Cost Management Systems

6.3 Four further units chosen from the above groups or from other graduate units offered by the Faculty.

Banking and Finance

1. Advanced Disciplinary Specialization in Finance Course code 8467

1.1 Compulsory units:

98.984G Finance Theory and Evidence

98.883G Finance A

98.884G Finance B

98.868G Investment Analysis and Management

98.982G International Corporate Finance

98.964G Australian Capital Markets

1.2 At least two subjects from the following units:

14.910G Financial Statement Analysis 99.911G Legal Aspects of Finance

98.925G Financial Institution Management

98.885G Risk and Insurance

98.886G Real Estate Finance and Investment

98,887G Lending and Liquidity Management

98.888G Option, Futures and Risk Management Techniques

Any other graduate subject approved by the Head of the School of Banking and Finance.

1.3 Four further units chosen from the above list or from other graduate units offered by the Faculty.

Advanced Professional Specialization Accounting - Treasury Course code 8465

2.1 Compulsory units:

98.984G Finance Theory and Evidence

98.883G Finance A

98.884G Finance B

98.868G Investment Analysis and Management

98,982G International Corporate Finance

98.964G Australian Capital Markets

2.2 At least two subjects from the following list:

98.925G Financial Institution Management

98.885G Risk and Insurance

98.886G Real Estate Finance and Investment

98.887G Lending and Liquidity Management

98.888G Options, Futures and Risk Management Techniques

14.915G Individual Judgement and Choice

14.956G Management Planning and Control

Economics

1. Economic History Course code 8480

1.1 Compulsory units:

15.952G The Modern Business Corporation

15.951G The International Economy Since 1850

15.954G Seminar in Research Methods

15.965G Science, Technology and Economic Development

15.953G Approaches to Economic and Social History

60.554G American Labour 1850-1980 15.957G Comparative Economic History

15.955G Aspects of Australian Economic Development

 ${\bf 1.2}$ Four further units chosen from other graduate units offered by the Faculty.

2. Economics and Econometrics Course code 8481

2.1 Compulsory units:

15.114G Economics A

15.125G Economics B

15.417G Quantitative Analysis A

15.427G Quantitative Analysis B

15.407G Elements of Econometrics

15.154G Microeconomic Analysis 1

15.174G Macroeconomic Analysis 1 15.204G International Economics

2.2 Two units chosen from graduate units offered by the Department of Econometrics.

2.3 Two further units chosen from graduate units offered by the Faculty.

3. Economics and Finance

Course code 8482

3.1 Compulsory units:

15.114G Economics A

15.125G Economics B

15.154G Microeconomic Analysis 1

15.174G Macroeconomic Analysis 1

98.984G Finance Theory and Evidence

98.883G Business Finance A 98.884G Business Finance B

98,868G Investment Analysis and Management

3.2 Two units chosen from the following list: 98.982G International Corporate Finance 98.964G Australian Capital Markets 14.910G Financial Statement Analysis 99.911G Legal Aspects of Finance 98.925G Financial Institution Management

98.885G Risk and Insurance

98.896G Real Estate Finance and Investment 98.887G Lending and Liquidity Management 98.888G Options, Futures and

Risk Management Techniques

15.204G International Economics 15.234G Monetary Theory and Policy

15,208G Public Finance

15.407G Elements of Econometrics*

3.3 Two further units chosen from the above list or from other graduate units offered by the Faculty. *Students taking this subject should do so as early as possible in their program.

4. Economics and Industrial Relations Course code 8483

4.1 Compulsory Units:

15.114G Economics A 15.125G Economics B

30.565G Industrial Relations A

30.575G Industrial Relations B 30.577G Manpower Policy or

30.578G Wages and Incomes Policy 15.206G Economics of Labour Markets

4.2 Six further units chosen from graduate units offered by the Faculty of which at least two units must be chosen from each of Industrial Relations and Economics.

5. Economics Course code 8484

5.1 Compulsory units: 15.114G Economics A

15.125G Economics B 15.417G Quantitative Analysis A

15.427G Quantitative Analysis B

15.154G Microeconomic Analysis 1 15.174G Macroeconomic Analysis 1

5.204G International Economics

15.407G Elements of Econometrics

5.2 Two units chosen from graduate units offered by the Department of Economics.

5.3 Two further units chosen from graduate units offered by the Faculty.

6. Economics with Specialization in Development **Economics**

Course code 8485

6.1 Compulsory units:

15.114G Economics A

15.125G Economics B

15.417G Quantitative Analysis A

15.427G Quantitative Analysis B

15.154G Microeconomic Analysis 1

15.174G Macroeonomic Analysis 1

15.204G International Economics

15.407G Elements of Econometrics

15.207G Development Economics

15.310E Economic Growth and Development B

15.224G Public Sector Economics

6.2 One further unit chosen from graduate units offered by the Faculty.

7. Economics with Specialization in Natural Resource Economics Course code 8486

7.1 Compulsory units:

15.114G Economics A

15.125G Economics B

15.417G Quantitative Analysis A

15.427G Quantitative Analysis B

15.154G Microeconomic Analysis 1 15.174G Macroeconomic Analysis 1

15.204G International Economics

15,407G Elements of Econometrics

15.244G Resource Economics 15,224G Public Sector Economics

15.456G Operations Research in Economics

7.2 One further unit chosen from graduate units offered by the Faculty.

Economics with Specialization Macroeconomics and Public Policy Course code 8487

8.1 Compulsory units:

15.114G Economics A

15.125G Economics B

15.417G Quantitative Analysis A

15.427G Quantitative Analysis B

15.154G Microeconomic Analysis 1

15.174G Macroeconomic Analysis 1

15.204G International Economics

15,407G Elements of Econometrics

15.184G Macroeconomic Analysis 2

8.2 Two units chosen from:

15.303E Monetary Economics A

15,208G Public Finance

15,224G Public Sector Economics

15.225G Economics of Trade Practices, Regulations and Competition Policy

15.234G Monetary Theory and Policy

8.3 One further unit chosen from graduate units offered by the Faculty.

9. Econometrics Course code 8488

9.1 Compulsory units:

15.114G Economics A

15.125G Economics B

15.417G Quantitative Analysis A

15.427G Quantitative Analysis B

15.407G Elements of Econometrics

9.2 Five units chosen from graduate units offered by either the Department of Econometrics or Economics, at least three of which must be from the Department of Econometrics.

9.3 Two further units selected from graduate units offered by the Faculty or approved units offered by the School of Mathematics.

Marketing

1. Marketing Course code 8490

1.1 Compulsory Units 28.911G Marketing A 28.912G Marketing B 28.901G Buyer Behaviour

28.928G Quantitative Analysis in Marketing

28.913G Marketing Management 28.914G Marketing Research

28.929G Marketing Planning and Policy

1.2 One unit chosen from:

28.903G International Marketing

28.905G Marketing Strategy 28.907G Seminar in Contemporary Marketing Issues

28.921G Sales Management 28.922G Industrial Marketing

1.3 Four further units chosen from graduate units offered by the Faculty.

Industrial Relations and Organizational Behaviour

1. industrial Relations Course code 8489

1.1 Compulsory units:

30.701G Industrial Relations A 30,702G Industrial Relations B

30,707G Industrial Relations Case Studies A

30.708G Industrial Relations Case Studies B

1.2 Four units chosen from:

30.743GComparative Labour Relations -Developing Economies

30.721G Labour Market Policy 30.731G Wages and Incomes Policy

30.728G Social Aspects of Work and Unionism

30.727G Industrial Conflict

30.723G Industrial Relations Theory

30.732G Industrial Relations Methods

30.742G Comparative Industrial Relations -

Developed Economies

30.740G Project Seminar A

30.741G Project Seminar B

1.3 Four further units chosed from graduate units offered by the Faculty.

2. Organizational Behaviour Course code 8495

2.1 Compulsory units:

30.935G Organizational Behaviour

30.942G Organization and Society

30.936G Organizational Change and Development

30.965G New Directions in Organizational Theory

2.2 Four units chosen from the following list:

30.955G Human Potentialities

30.958G Organizational Communications

30.960G Technological Change and Organizational **Participation**

30.938G Japanese Employment and Productivity 30.959G Special Topic in Organizational Behaviour

15.952G The Modern Business Corporation

14.915G Individual Judgment and Choice

14.917G Strategic Management: Systems and Processes

14.949G Management of Technical Specialties

14.956G Management Planning and Control

14.929G Organization Design

2.3 Four further units chosen from the above list or from other graduate units offered by the Faculty.

Industrial Relations and Organizational Behaviour Course Code 8496

3.1 Compulsory Units

30.701G Industrial Relations A

30,702G Industrial Relations B

30.935G Organizational Behaviour

30.942G Organizations and Society

3.2 Eight further units chosen from graduate units offered by the Faculty of which at least three must be chosen from each of the specialisations in Industrial Relations and Organizational Behaviour.

Graduate Subject Prerequisites

A candidate may not enrol in any subject without having satisfied any prerequisite requirement. The details of prerequisite requirements are set out in the section dealing with subject descriptions.

Subject Descriptions

Identification of Subjects by Number

A subject is defined by the Professorial Board as 'a unit of instruction approved by the University as being a discrete part of the requirements for a course offered by the University'.

Each approved subject of the University is identifiable both by number and by name as this is a check against nomination of a subject other than the one intended.

Subject numbers are allocated by the Registrar and the system of allocation is based on the following guidelines:

- The authority offering the subject, normally a School of the University, is indicated by the number before the decimal point.
- 2. Each subject number is unique and is not used for more than one subject title.
- 3. Subject numbers which have previously been used are not used for new subject titles.
- 4. Graduate subjects are indicated by a suffix 'G' to a number with three digits after the decimal point. In other subjects three or four digits are used after the decimal point.

Subjects taught are listed in full in the handbook of the faculty or board of studies responsible for the particular course within which the subjects are taken. Subject descriptions are contained in the appropriate section in the handbooks.

Appropriate subjects for each school appear at the end of each school section.

The identifying numerical prefixes for each subject authority are set out on the following page.

Servicing Subjects are those taught by a school or department outside its own faculty. Their subject descriptions are published in the handbook of the faculty which originates the subject and are also published in the handbook of the faculty in which the

subject is taught. These subjects will be found at the back of this handbook.

The following pages contain descriptions for most of the subjects offered for the courses described in this book, the exception being General Education subjects. For General Education subjects see the General Education Handbook which is available free of charge.

HSC Exam Prerequisites

Subjects which require prerequisites for enrolment in terms of the HSC Examination percentile range, refer to the 1978 and subsequent Examinations.

Candidates for enrolment who obtained the HSC in previous years or hold other high school matriculation should check with the appropriate school on what matriculation status is required for admission to a subject.

Information Key

The following is the key to the information which may be supplied about each subject:

\$1 Session 1, \$2 Session 2

F Session 1 plus Session 2, ie full year

S1 or S2 Session 1 or Session 2, ie choice of either session

SS single session, but which session taught is not known at the time of publication

CCH class contact hours

L Lecture, followed by hours per week

T Laboratory/tutorial, followed by hours per week

hpw hours per week

C credit or Credit units

CR Credit level

DN Distinction

HD High Distinction

28.911G Marketing A

Prerequisite: Nil.

Some of the major theories and concepts in psychology, sociology, and social psychology provide a background for the study of consumer behaviour. Behavioural topics include measurement and scaling, attitudes, motivation, peer group influences, social institutions, and culture. Deterministic models of consumer behaviour including the purchase decision process, advertising and communication, and consumer segmentation. Stochastic models of consumer behaviour.

28.912G Marketing B

6010

S1 L3

Prerequisite: Nil.

Systems oriented, not primarily concerned with marketing management Exchange; the institutions that channel exchange; the environment of marketing systems and the changes brought about by internal and external pressures. Principal components of a marketing system manufacturers, distributors, consumers and the roles of secondary components such as government, regulating bodies, advertising agencies, including Power and the role of political processes. The particular impact of Trade Practices and consumerism at State and Federal levels in Australia.

28.913G Marketing Management

S1 L3

Prerequisites: 28.911G and 28.912G or corequisite or equivalents.

Conceptual framework relevant to the practice of marketing management developing an understanding of the market function. Emergence of a broader concept of marketing: relationship between corporate and marketing strategy; the marketing environment; market segmentation; marketing planning; determination of product, price channel, advertising and salesforce policies; marketing control.

28.914G Marketing Research

S2 L3

Prerequisites: 28.911G and 28.912G or corequisite or equivalents.

Practical introduction to marketing research. Tools and techniques of research and their use in the project approach to information gathering. Problem definition and research design, questionnaire design, sampling, interviewing, interpretation and reporting. Quantitative techniques of data analysis and significance testing.

28.921G Sales Management

S1 or S2 L3

Prerequisites: 28.929G or corequisite or Head of School's approval. Note: Different prerequisites apply for MCom(Hons) degree course.

Methods of determining the size and disposition of the salesforce; organization of territory call cycles and management; development of selling strategies and the formulation of tactical plans. Identifying the arranging initial and continuous sales and product training. Techniques of analyzing transactions and options at any stage of the transaction; stimulating creativity in selling; understanding the concepts of field salesforce control, standard setting, assessment and counselling and man management.

28.922G Industrial Marketing

S1 or S2 L3

Prerequisites: 28.929 or corequisite or Head of School's approval.

Note: Different prerequisites apply for MCom(Hons) degree course.

Special features of the industrial market; demand for industrial goods; the industrial buying decision; industrial market segmentation; industrial marketing research; product

planning and development; marketing channels and physical distribution; pricing industrial goods; promoting industrial goods; personal selling and sales organization, industrial advertising, industrial shows and exhibits, publicity, public relations; customer service and relations; industrial marketing management and control.

28.925G Comparative Marketing Systems

S1 or \$2 L3

Prerequisite: 28.929G or corequisite or Head of School's approval.

Note: Different prerequisites apply for MCom(Hons) degree course.

Comparative study of the marketing systems of countries at various levels of economic development, involving a consideration of the relation between social conditions and the manner in which marketing takes place; the nature and operation of the marketing system itself, and the patterns of personal behaviour and interaction in the socio-marketing activity. Problems and possibilities of international marketing.

28.926G Seminar in Marketing Theory 1 S1 or S2 L3

Note: Different prerequisites apply for MCom(Hons) degree course.

Nature and development of scientific theories. Formal requirements Concepts of power and range. Critical analysis of theories dealing with: product decision-making, distribution, advertising, buyer behaviour.

28.927G Methods of Marketing Research S2 L3

Note: Different prerequisites apply for MCom(Hons) degree course.

Treatment in depth of topics briefly covered in 28.052 Marketing Research: research design, psychometric attributes of measuring instruments, univariate and multivariate analysis. Investigation in the form of a project as an exercise in the application of methods studied in the seminar.

28.928G Quantitative Analysis in Marketing

S1 L3

Prerequisites: 28.911G and 28.912G or corequisite or equivalents.

Mathematics as a language for model building; networks and trees; dynamic programming and resource allocation; decision analysis; linear and non-linear optimization models; simulation; use of micro computers in marketing decision making.

28.929G Marketing Planning and Policy S1 or S2 L3

Prerequisites: 28.928G, 28.914G, 28.913G and 28.901G or equivalents.

Case analyses of marketing planning and policy, including environmental appraisal, organizational response, product policy, pricing, distribution, promotion and issues relating to consumerism and the development of legislation. Examples are drawn from the public and the private sectors.

28.994G Thesis

28.998G Research Seminar

F Sem4

Co-requisite: 28.999G or 28.994G.

28.999G Project Report

School of Industrial Relations and Organizational Behaviour

30.742G Comparative Industrial Relations – Developed Economies

SS L3

Prerequisites: 30.701G or equivalent.

Detailed comparative analysis of industrial relations issues in a number of overseas countries in advanced stages of industrialization. Extension of material in 30.541 Comparative Industrial Relations: Developed Countries, with emphasis on the origins, evolution, structure, operation, problems and philosophy of industrial relations in a select number of countries.

30.707G Comparative Industrial Relations – SS L3 Developed Economies

Prerequisites: 30.701G or equivalent.

A formal course of advanced lectures on an aspect of Australian Industrial Relations.

30.743G Comparative Industrial Relations -Developing Economies

S\$ L3

Prerequisite: 30,701G or equivalent.

A detailed comparative analysis of industrial relations issues in a number of countries at early and intermediate stages of economic development. Extension of material covered in 30.547 Comparative Industrial Relations: Less Developed Countries, focusing on: the development of industrial labour forces; the evolution of functioning of institutions important to industrial relations; the role of governments in labour markets; and the emergence of alternate patterns labour-management relations.

30.708G Industrial Relations Case Studies B S2 L3

Prerequisite: 30.701G or equivalent.

A formal course of advanced lectures on an aspect of Australian Industrial Relations.

30,740G Industrial Relations Project Seminar A S1 L3 Prerequisite: 30,701G or equivalent.

In-depth examination of an established body of industrial relations literature. Extension of 30.546 Industrial Relations Project Seminar A. Subject to the availability of appropriate supervision, topics can be drawn from the mainstream of industrial relations literature or from the component disciplines including labour economics, industrial psychology, industrial law, industrial soci-ology and labour history.

30.701G Industrial Relations A

S1 L3

Prerequisite: Nil.

Concepts and issues in Australian industrial relations at the macro or systems level, with overseas comparisons where appropriate. Labour movements and the evolution of employee- employer relations in the context of industrialization and change; origins and operations of industrial tribunals at the national and state levels; structure, operation and objectives of Australian trade unions and employer bodies; role of

governments and their instrumentalities; nature of industrial conflict and procedures for conflict resolution such as arbitration and bargaining; and national wage policy.

30.702G Industrial Relations B S2 L3

Prerequisite: 30.701G or equivalent.

Concepts and issues in Australian industrial relations at the plant or work place level, with overseas comparisons where appropriate. The meaning of work; alienation in the work place; technological determinism; retraining, job restructuring and job enrichment schemes; worker participation and control; productivity bargaining; and union and employer body operation at the plant level.

30.741G Industrial Relations Project Seminar B S2 L3

Prerequisite: 30.701G or equivalent.

In-depth examination of an established body of industrial relations literature. Extension of 30.549 Industrial Relations Project Seminar B. Subject to the availability of appropriate supervision, topics can be drawn from the mainstream of inclustrial relations literature or from the component disciplines including labour economics, industrial psychology, industrial law, industrial sociology, and labour history.

30.721G Manpower Policy

SS L3

SS L2 T1

Prerequisite: 30.701G or equivalent.

Origins, evolution and operation of Australian manpower policy, compared and contrasted with policies overseas. Extension of 30.556 Labour Market Strategies and Policies to examine issues in the development and deployment of human resources, including; human capital theory and its application; training, retraining and work assistance schemes; mobility programs, covering industrial, geographic and vocational labour mobility; occupational choice theory and practice: nature and manpower implications of various forms of unemployment, including structural, frictional, seasonal and disguised or hidden; manpower projections and manpower planning, at the enterprise and national level; and labour market discrimination.

30,731G Wages and Incomes Policy SS L2 T1

Prerequisite: 15.125G or 30.575G or equivalent.

Relationships between movements in wage and salary incomes to desired economic objectives. Extension of 30.557 Wages and Income Policy. Formulation and administration of wages and incomes policies, and the role of trade unions, employers and government institutions. Overseas experience implications for Australian practices, institutions and policies. Evolution of wage concepts and standards; wage structure, relativities and differentials; trade union pushfulness and product pricing decisions; earnings drift; and principles of criteria for wage fixation, including capacity to pay, needs' elements, productivity gearing, minimum and social wage levels and manpower issues.

30,727G Industrial Conflict

Prerequisite: 30.701G or equivalent.

Extension of 30.566 Industrial Conflict. Conceptualization of industrial conflict. Theories of industrial and class conflict. International comparisons of collective action. Inter-industry studies of strikes. Plant level analyses of management control and labour resistance. Case studies of strikes with emphasis.

on social psychological processes. Structures and procedures for the institutionalization of conflict with special reference to Australian materials. The mass media and the distortion of industrial reality.

30.728G Social Aspects of Work and Unionism

SS L3

Prerequisite: 30.701G or equivalent.

Application of sociological principles to the study of trade unions and to the examination of the changing nature of work in industrial society. Extension of 30.567 Social Aspects of Work and Unionism. Authority structures in work situations; occupational structures; bureaucracy and democracy in trade unions; profes- sionalism and the growth of white collar unionism; the social role of trade unions; worker and management attitudes to industrial relations issues; and discrimination and prejudice in the work context.

30.723G Industrial Relations Theory

SS L2 T1

Prerequisite: 30.575G or equivalent.

Major theoretical developments within academic industrial relations. Theories of the labour movement, in particular the work of the Webbs, Lenin, Commons, Perlman and Hoxie. Developments within the tradition of grand theory, including Dunlop's systems model, Kochan's refinements, pluralism, marxism, corporatism and theories of regulation. Australian works are examined and analyzed to relate discussions to the Australian scene.

30.732G Industrial Relations Methods

S2 L2 T1

Prerequisite: 30.701G or equivalent.

Evaluation and acquisition of skills utilized by industrial relations practitioners. Extension of 30.574 industrial Relations Methods: content and character of industrial awards and agreements; preparation of logs of claim; industrial advocacy; tactics and techniques of negotiating and bargaining; data sources of wage, employment, productivity and other material important in industrial relations practice; conciliation and arbitration procedures.

30.733G Industrial Relations Research Methodology

S1 L2 T1

Prerequisite: 30.701G or equivalent.

Principles, procedures, techniques and data sources used for research in industrial relations. Extension of 30.575 Industrial Relations Research Methodology.

30.745G Leisure in Society

SS L3

Prerequisite: 30,701G or equivalent,

Role of leisure in society; historical account of the growth of recreation facilities, emphasizing the role of urbanization, technological environment, income distribution and working hours; commercialization of leisure with particular reference to the eco-nomics of sports and the performing arts; sociological role of leisure; industrial relations of professionalism; and the future of leisure with particular reference to the government's involvement.

30.709G Seminar in Contemporary Industrial Relations Issues

A non-credit subject available to students only at the direction of the Head of the School of Industrial Relations and Organizational Behaviour. Visiting industrial relations specialists from trade unions, employers, government departments and other universities lead seminar discussion on issues of contemporary interest.

30.744G Thesis Industrial Relations

30.935G Organizational Behaviour

30,746G Industrial Relations Research Seminar

Prerequisite: Nil.

Relationships between individuals and organizations. Individual behaviour-personality, perception, motivation, learning, performance. Organizations as settings for individual behaviour- types of organization, work organizations. Interaction, groups and work groups. Organizational influences on work behaviour: structural factors and the design of work; reward systems; organizational cultures and social influences. The development of individual-organization relationships: participation, socialization, careers; conflict, stress and adaptation; organizational effectiveness.

30.936G Organizational Change and Development

Prerequisite: 30,942G or 14,956G or equivalents.

The theory and practice of change in organizations with special attention to the behavioural and social science methods available for achieving planned change objectives and sustained improvements in organizational performance at the individual, group and system levels. Nature and use of diagnostic tools- questionnaires, survey and feedback, data collection methods, resistance to change, group problem-solving, participative re-design, evaluation and the recursive process. Case studies in organizational change.

30.938G Japanese Employment and S1 L3 Productivity

Prerequisite: 30.935G or 30.701, or equivalent.

Japanese organisational studies relevant to the inter-relationship of employment and productivity and their influence in Australia. Key issues discussed include: adaptation to change, organisational concepts and concerns, contributions to dynamic comparative advantage, skill formation and work organisation, organisational participation and learning and the processes and barriers to the transfer of technocultures.

30.942G Organization and Society

S2 L3

S1 L3

S1 L3

Prerequisite: 30.935G or equivalent.

The relationships between major socio-cultural institutions and the structure, control and management of private and public organizations. The way changes in those institutions affect organizations and their ways of working through the actions of interest groups, variations in property rights, economic developments, governmental regulation, employee participation in managerial decision-making, etc.

30,955G Human Potentialities

Prerequisite: 30,935G or equivalent.

Development of core skills in identifying and realising human potentialities, enabling participants to formulate and experiment with strategies for personal development attuned to their own talents and opportunities. Issues include dominance and assertion, management of stress, the nature and dynamics of awareness, creativity and skill, peak experiences and flow experiences, approaches to self realization, including gestalt, analytic approaches, biofeedback and guided imagery.

30,958G Organizational Communications

S2 L3

S2 L3

Prerequisite: 30.935G or equivalent.

Communication is both an end and a means to an end for members of complex organizations. As an end, the patterned inputting, processing and outputting of information is the network of interdependent relationships that we come to call an organization. Thus communication is organizing. As a means to an end, communication suggests the ways that govern the interaction of organizational members exchanging messages in service of such outcomes as decision making, innovation, etc. Organizational communication therefore is the study of the flow of messages in an information network as well as the uses made of those messages by network participants for the overall attainment of organizational goals.

30.959G Special Topic In Organizational S1 or S2 L3 Behaviour

Prerequisites: 30.936G or equivalent, and permission of the Head of Program.

This subject is available only to final-year students specializing in organizational behaviour who have a distinguished record and who wish to carry out a specific investigation or project. Approval from the co-ordinator of the program must be obtained prior to enrolling in this subject. However, before approaching the co-ordinator for approval, a student must have discussed his or her proposal with a member of the staff who might be expected to supervise the project.

30,960G Technological Change and Organizational Participation

S1 L3

Prerequisite: 30,942G or 14,956G or 30,701 or equivalent.

The complex relationships between technological transfers change and organizational participation in societies using advanced technology, with particular reference to Australia, California, Japan, Germany and the Nordic nations. Key issues include: the relationship between technological change and sociotechnical systems, skill formation, organizational learning, industrial relations, humanization of work, organizational equity, participation, and power.

30.965G New Directions in Organization Theory S2 L3 Prerequisites: 30.936G or 14.949G or equivalent.

A review of important historical phases in the development of Organization Theory as a basis for viewing new directions. Internationalism and segmentation in developments eg trends in U.S.A. versus Europe. Paradigmatic arrangement of developments. Review of the recent literature. Concentrated examination of a few emerging substantive, theoretical or

methodological issues eg inter-organization studies, inter-cultural studies, organizational cultures and symbolism, power in and around organizations, dialectical theories, naturalistic research.

30,970G Advanced Seminar In Organizational S1 L3 Behaviour A

Available to MCom(Hons) degree course students only.

Advanced topics chosen each year from recent developments in theories of organizational behaviour.

30.971G Advanced Seminar in Organizational S2 L3 Behaviour B

Prerequisite: 30,970G or equivalent.

Recent advances in organization theory: development of increased personal maturity and interpersonal skills: small group theory and its application to work groups; strategies for the management of organizational change, including conflict management, intergroup co-ordination and organizational design; sociotechnical systems theory. Advanced topics chosen from recent developments in theories of organizational behaviour.

30.972G Organizational Behaviour GraduaterS1 or S2 L3 Research Semina

Available to MCom(Hons) and PhD degree course students only.

Research methods and research design for studies in organizational behaviour; critique of thesis work in progress.

30.999G Thesis (Organizational Behaviour)

Graduate Study

Conditions for the Award of Higher Degrees

Rules, regulations and conditions for the award of first degrees are set out in the appropriate Faculty Handbooks.

For the list of undergraduate courses and degrees offered see Faculty (Undergraduate Study) in the Calendar.

The following is the list of higher degrees and graduate diplomas of the University, together with Higher Degrees the publication in which the conditions for the award appear.

For the list of graduate degrees by research and course work, arranged in faculty order, see Table of Courses (by faculty): Graduate Study in the Calendar.

For the statements Preparation and Submission of Project Reports and Theses for Higher Degrees and Policy with respect to the Use of Higher Degree Theses see later in this section.

Higher Degrees

Doctor of Philosophy (PhD) (under review)

Qualifications

Enrolment and Progression

- 1. The degree of Doctor of Philosophy may be awarded by the Council on the recommendation of the Higher Degree Committee of the appropriate faculty or board (hereinafter referred to as the Committee) to a candidate who has made an original and significant contribution to knowledge.
- 2. (1) A candidate for the degree shall have been awarded an appropriate degree of Bachelor with Honours from the University of New South Wales or a qualification considered equivalent from another university or tertiary institution at a level acceptable to the Committee
- (2) In exceptional cases an applicant who submits evidence of such other academic and professional qualifications as may be approved by the Committee may be permitted to enrol for the degree.
- (3) If the Committee is not satisfied with the qualifications submitted by an applicant the Committee may require the applicant to undergo such assessment or carry out such work as the Committee may prescribe, before permitting enrolment as a candidate for the degree.
- 3. (1) An application to enrol as a candidate for the degree shall be made on the prescribed form which shall be lodged with the Academic Registrar at least one calendar month before the commencement of the session in which enrolment is to begin.
- (2) In every case, before permitting a candidate to enrol, the head of the school* in which the candidate intends to enrol shall be satisfied that adequate supervision and facilities are available.
- (3) An approved candidate shall be enrolled in one of the following categories:
- (a) full-time attendance at the University;
- (b) part-time attendance at the University.
- (4) A full-time candidate shall be fully engaged in advanced study and research except that the candidate may undertake not more than five hours per week or a total of 240 hours per year on work which is not related to the advanced study and research.

- (5) Before permitting a part-time candidate to enrol, the Committee shall be satisfied that the candidate can devote at least 20 hours each week to advanced study and research for the degree which (subject to (8)) shall include regular attendance at the school* on an average of at least one day per week for 48 weeks each year.
- (6) A candidate shall be required to undertake an original investigation on an approved topic. The candidate may also be required to undergo such assessment and perform such other work as may be prescribed by the Committee.
- (7) The work shall be carried out under the direction of a supervisor appointed from the full-time academic members of the University staff
- (8) The work, other than field work, shall be carried out in a school of the University except that the Committee:
- (a) may permit a candidate to spend not more than eighteen months of the program in advanced study and research at another institution provided the work can be supervised in a manner satisfactory to the Committee;
- (b) may permit a candidate to conduct the work at other places where special facilities not possessed by the University may be available provided the direction of the work remains wholly under the control of the supervisor;
- (c) may permit a full-time candidate, who has been enrolled as a full-time candidate for at least six academic sessions, who has completed the research work and who is writing the thesis, to transfer to part-time candidature provided the candidate devotes at least 20 hours each week to work for the degree and maintains adequate contact with the supervisor.
- (9) The progress of a candidate shall be reviewed annually by the Committee following a report by the candidate, the supervisor and the head of the school* in which the candidate is enrolled and as a result of such review the Committee may cancel enrolment or take such other action as it considers appropriate.
- (10) No candidate shall be awarded the degree until the lapse of six academic sessions from the date of enrolment in the case of a full-time candidate or eight academic sessions in the case of a part-time candidate. In the case of a candidate who has had previous research experience the committee may approve remission of up to two sessions for a full-time candidate and four sessions for a part-time candidate.
- (11) A full-time candidate for the degree shall present for examination not later than ten academic sessions from the date of enrolment. A part-time candidate for the degree shall present for examination not later than twelve academic sessions from the date of enrolment. In special cases an extension of these times may be granted by the Committee.

Thesis

- 4. (1) On completing the program of study a candidate shall submit a thesis embodying the results of the investigation.
- (2) The candidate shall give in writing to the Academic Registrar two months notice of intention to submit the thesis.
- (3) The thesis shall comply with the following requirements:
- (a) it must be an original and significant contribution to knowledge of the subject;
- (b) the greater proportion of the work described must have been completed subsequent to enrolment for the degree;
- (c) it must be written in English except that a candidate in the Faculty of Arts may be required by the Committee to write a thesis in an appropriate foreign language;
- (d) it must reach a satisfactory standard of expression and presentation;
- (e) it must consist of an account of the candidate's own research but in special cases work done conjointly with other persons may be accepted provided the Committee is satisfied about the extent of the candidate's part in the joint research.
- (4) The candidate may not submit as the main content of the thesis any work or material which has previously been submitted for a university degree or other similar award but may submit any work previously published whether or not such work is related to the thesis.
- (5) Four copies of the thesis shall be presented in a form which complies with the requirements of the University for the preparation and submission of theses for higher degrees.

Or department where a department is not within a school, or schools or departments where the research is being undetaken in more than one school or department.

- (6) It shall be understood that the University retains the four copies of the thesis submitted for examination and is free to allow the thesis to be consulted or borrowed. Subject to the provisions of the Copyright Act, 1968, the University may issue the thesis in whole or in part, in photostat or microfilm or other copying medium.
- 5. (1) There shall be not fewer than three examiners of the thesis, appointed by the Academic Board on the recommendation of the Committee, at least two of whom shall be external to the University.
- (2) At the conclusion of the examination each examiner shall submit to the Committee a concise report on the thesis and shall recommend to the Committee that:
- (a) the candidate be awarded the degree without further examination; or
- (b) the candidate be awarded the degree without further examination subject to minor corrections as listed being made to the satisfaction of the head of the school*; or
- (c) the candidate be awarded the degree subject to a further examination on questions posed in the report, performance in this further examination being to the satisfaction of the Committee;
- (d) the candidate be not awarded the degree but be permitted to resubmit the thesis in a revised form after a further period of study and/or research; or
- (e) the candidate be not awarded the degree and be not permitted to resubmit the thesis.
- (3) If the performance at the further examination recommended under (2)(c) above is not to the satisfaction of the Committee, the Committee may permit the candidate to re-present the same thesis and submit to further examination as determined by the Committee within a period specified by it but not exceeding eighteen months.
- (4) The Committee shall, after consideration of the examiners' reports and the results of any further examination, recommend whether or not the candidate may be awarded the degree. If it is decided that the candidate be not awarded the degree the Committee shall determine whether or not the candidate be permitted to resubmit the thesis after a further period of study and/or research.
- 6. A candidate shall pay such fees as may be determined from time to time by the Council.
- Fees

Examination

- The degree of Master of Commerce (Honours) may be awarded by the Council on the recommendation of the Higher Degree Committee of the Faculty of Commerce (hereinafter referred to as the Committee) to a candidate who has satisfactorily completed a program of advanced study.
- 2. (1) A candidate for the degree shall have been awarded an appropriate degree of Bachelor from the University of New South Wales or a qualification considered equivalent from another university or tertiary institution at a level acceptable to the Committee.
- (2) In exceptional cases an applicant who submits evidence of such other academic and professional qualifications as may be approved by the Committee may be permitted to enrol for the degree.
- (3) If the Committee is not satisfied with the qualifications submitted by an applicant the Committee may require the applicant to undergo such assessment or carry out such work as the Committee may prescribe, before permitting enrolment.
- 3. (1) An application to enrol as a candidate for the degree shall be made on the prescribed form which shall be lodged with the Academic Registrar at least two calendar months before the commencement of the session in which enrolment is to begin.
- (2) In every case, before permitting a candidate to enrol, the head of the school in which the candidate intends to enrol shall be satisfied that adequate supervision and facilities are available.
- (3) An approved candidate shall be enrolled in one of the following categories:
- (a) full-time attendance at the University;
- (b) part-time attendance at the University;
- (c) external not in regular attendance at the University and using research facilities external to the University. Before permitting a candidate to enrol externally, the head of the school in which the candidate intends to enrol shall be satisfied that the candidate can be adequately supervised on an external basis. Formal subjects may not be taken externally.
- Or department where a department is not within a school, or schools or departments where the research is being undetaken in more than one school or department.

Master of Commerce (Honours) (MCom(Hons))

Qualifications

Enrolment and Progression

- (4) A candidate shall undertake such formal subjects and, except in exceptional circumstances, pass at the first attempt such assessment as prescribed, and shall:
- (a) submit a project report on a topic approved by the Committee, or
- (b) demonstrate ability to undertake research by the submission of a thesis embodying the results of an original investigation on a topic approved by the Committee.
- (5) A candidate shall maintain an average of credit or better in the formal subjects prescribed for the degree. A full-time candidate shall undertake not more than four subjects in any session. A part-time candidate shall undertake not more than two subjects in any session.
- (6) A candidate may also be required to undergo such assessment and perform such other work as may be prescribed by the Committee.
- (7) The work on the topic shall be carried out under the direction of a supervisor appointed by the Committee from the full-time academic members of the University staff.
- (8) The progress of a candidate shall be reviewed annually by the Committee following a report by the candidate, the supervisor and the head of the school in which the candidate is enrolled and as a result of such review the Committee may cancel enrolment or take such other action as it considers appropriate.
- (9) No candidate shall be awarded the degree until the lapse of four academic sessions from the date of enrolment in the case of a full-time candidate or six academic sessions in the case of a part-time or external candidate. In the case of a candidate who has been awarded the degree of Bachelor with Honours or a qualification considered equivalent or who has had previous research experience the Committee may approve remission of up to two sessions for a full-time candidate and three sessions for a part-time or external candidate.
- (10) A project report shall be submitted not later than two sessions after the completion of the prescribed formal subjects and a thesis shall be submitted not later than five sessions after the completion of the prescribed formal subjects. In special cases an extension of these times may be granted by the Committee.

Project Report/ Thesis

- 4. (1) On completing the program of study a candidate shall submit a project report or thesis embodying the results of the investigation.
- (2) The candidate shall give in writing to the Academic Registrar two months notice of intention to submit the project report or thesis.
- (3) The project report or thesis shall present an account of the candidate's own research. In special cases work done conjointly with other persons may be accepted, provided the Committee is satisfied about the extent of the candidate's part in the joint research.
- (4) The candidate may also submit any work previously published whether or not such work is related to the project report or thesis.
- (5) Three copies of the project report or thesis shall be presented in a form which complies with the requirements of the University for the preparation and submission of project reports and theses for higher degrees.
- (6) It shall be understood that the University retains the three copies of the project report or thesis submitted for examination and is free to allow it to be consulted or borrowed. Subject to the provisions of the Copyright Act, 1968 the University may issue the project report or thesis in whole or in part, in photostat or microfilm or other copyring medium.

Examination of Project Report

- (1) There shall be not fewer than two examiners of the project report, appointed by the Academic Board on the recommendation of the Committee.
- (2) At the conclusion of the examination each examiner shall submit to the Committee a concise report on the project report and shall recommend to the Committee that:
- (a) the project report be noted as satisfactory; or
- (b) the project report be noted as satisfactory subject to minor corrections as listed being made to the satisfaction of the head of the school; or
- (c) the project report be noted as unsatisfactory but that the candidate be permitted to resubmit it in a revised form after a further period of study and/or research, or
- (d) the project report be noted as unsatisfactory and that the candidate be not permitted to resubmit it.
- (3) The Committee shall, after considering the examiners' reports and the candidate's results of assessment in the prescribed formal subjects, recommend whether or not the candidate may be awarded the degree. If it is decided that the project report is unsatisfactory the Committee

shall determine whether or not the candidate may resubmit it after a further period of study and/or research.

- **6.** (1) There shall be not fewer than two examiners of the thesis, appointed by the Academic Board on the recommendation of the Committee, at least one of whom shall be external to the University unless the Committee is satisfied that this is not practicable.
- (2) At the conclusion of the examination each examiner shall submit to the Committee a concise report on the thesis and shall recommend to the Committee that:
- (a) the candidate be awarded the degree with Honours without further examination; or
- (b) the candidate be awarded the degree with Honours without further examination subject to minor corrections as listed being made to the satisfaction of the head of the school; or
- (c) the candidate be awarded the degree with Honours subject to a further examination on questions posed in the report, performance in this further examination being to the satisfaction of the Committee: or
- (d) the candidate be not awarded the degree but be permitted to resubmit the thesis in a revised form after a further period of study and/or research;

٥r

- (e) the candidate be not awarded the degree and be not permitted to resubmit the thesis.
- (3) If the performance at the further examination recommended under (2)(c) above is not to the satisfaction of the Committee, the Committee may permit the candidate to re-present the same thesis and submit to further examination as determined by the Committee within a period specified by it but not exceeding eighteen months.
- (4) The Committee shall, after consideration of the examiners, reports and the results of any further examination or prescribed course of study, recommend whether or not the candidate may be awarded the degree. If it is decided that the candidate be not awarded the degree the Committee shall determine whether or not the candidate may resubmit the thesis after a further period of study and/or research.
- 7. A candidate shall pay such fees as may be determined from time to time by the Council.

Fees

Examination

of Thesis

- The degree of Master of Commerce may be awarded by the Council to a candidate who has satisfactorily completed a program of advanced study.
- 2. (1) A candidate for the degree shall have been awarded an appropriate degree of Bachelor from the University of New South Wales or a qualification considered equivalent from another university or tertiary institution at a level acceptable to the Higher Degree Committee of the Faculty of Commerce (hereinafter referred to as the Committee). Except in exceptional circumstances a candidate who has completed a three-year course shall be expected to have had at least one year's appropriate experience subsequent to graduation.
- (2) In exceptional cases an applicant who submits evidence of such other academic and professional qualifications as may be approved by the Committee may be permitted to enrol for the degree.
- (3) If the Committee is not satisfied with the qualifications submitted by an applicant the Committee may require the applicant to undergo such assessment or carry out such work as the Committee may prescribe, before permitting enrolment.
- 3. (1) An application to enrol as a candidate for the degree shall be made on the prescribed form which shall be lodged with the Academic Registrar by 30 November of the year before the year in which enrolment is to begin.
- (2) A candidate for the degree shall be required to undertake a course of formal study prescribed by the Committee as set out in the course requirements for the Master of Commerce degree and, except in exceptional circumstances, pass at the first attempt such assessment as prescribed.
- (3) Except in exceptional circumstances a full-time candidate shall undertake three subjects in each session of enrolment and a part-time candidate shall undertake two subjects in each session of enrolment.
- (4) The progress of a candidate shall be reviewed at least once annually by the Committee and as a result of its review the Committee may cancel enrolment or take such other action as it considers appropriate.
- 4. A candidate shall pay such fees as may be determined from time to time by the Council.

This Handbook has been specifically designed as a source of reference for you and will prove useful for consultation throughout the year.

For fuller details about the University – its organization, staff membership, description of disciplines, scholarships, prizes, and so on, you should consult the Calendar.

The Calendar and Handbooks also contain a summary list of higher degrees as well as the conditions for their award applicable to each volume.

For detailed information about courses, subjects and requirements of a particular faculty you should consult the relevant Faculty Handbook.

Separate Handbooks are published for the Faculties of Applied Science, Architecture, Arts, Commerce and Economics, Engineering, Law, Medicine, Professional Studies, Science (including Biological and Behavioural Sciences and the Board of Studies in Science and Mathematics), and the Australian Graduate School of Management (AGSM).

The Calendar and Handbooks, which vary in cost, are available from the Cashler's Office.
