INTRODUCTION

The report of the Murray Committee on Australian Universities recommended that a second medical school be established in New South Wales and that it might well be within the University of New South Wales (then known as the New South Wales University of Technology). In October, 1958, the New South Wales Parliament amended the University's Act of Incorporation to provide for the original name of the University to be altered to the University of New South Wales and for the inclusion of medicine in the courses offered by the University.

Subsequently, steps were taken to establish the medical school in the University of New South Wales, and new pre-clinical buildings (the Wallace Wurth Medical School) were constructed on the campus and opened by Her Majesty the Queen in March, 1963.

General teaching hospitals of the University include Prince Henry and Prince of Wales, St. George and St. Vincent's Hospitals. The Royal Hospital for Women is the headquarters for the teaching of obstetrics and gynaecology. Paediatrics teaching is centralized at Prince of Wales Hospital and psychiatry is taught in each of the general hospitals and at Callan Park. Lewisham, Bankstown, Sutherland and Canterbury are associated teaching hospitals of the University.

In 1961, the first students enrolled in the Faculty of Medicine and after completion of their six years' course the first graduates qualified at the end of 1966. Those who were successful in passing their final examinations in medicine, surgery, and obstetrics and gynaecology were eligible for registration in New South Wales and entered hospitals as junior residents in 1967. Representatives of the General Medical Council of the United Kingdom visited the University to study the curriculum and to inspect the facilities of its medical school and teaching hospitals, and their visit coincided with the first final examinations of the medical course. In March, 1967, the General Medical Council recognised the MB, BS degrees of the University. This enables graduates of the new school to take up postgraduate studies or to practise in other countries which normally enjoy reciprocity for these purposes.

The faculty has established a Curriculum Review Committee which studies and makes reports concerning developments in teaching and learning in the medical school. Currently attention is being given to possible changes consequent on the extended duration of secondary education in New South Wales. The desirability of integrating pre-registration training of graduates with their previous clinical teaching and training as undergraduates has been accepted. Ways and means of achieving this are being pursued.

CALENDAR OF DATES FOR 1973

JANUARY

Wednesday 3	6th year medical students re-enrol.
Thursday 4	5th year medical students re-enrol.
Friday 12	Last date for application for review of results of annual examinations.
Monday 15	First term commences—5th and 6th year medicine. Last day for acceptance of applications for admission to University degrees and diplomas.
Friday 19	Last day for application for deferred examinations. Last day for acceptance of applications to enrol by new students and students repeating first year.
Wednesday 24	4th year medical students re-enrol.
Monday 29	Australia Day—Public Holiday.
Tuesday 30	First term commences—4th year medicine. Deferred examinations begin.

FEBRUARY

Saturday 10	Deferred examinations end.
Monday 19	Enrolment period commences for new students and students repeating first year.
Wednesday 28	3rd year medical students re-enrol.

MARCH

Thursday 1	2nd year medical students re-enrol.
Friday 2	Last date for applications for review of deferred examination results.
Monday 5	Session 1 commences—1st, 2nd and 3rd year medicine.
Wednesday 14	Faculty of Medicine meeting, 4.30 p.m.
Friday 16	Last day for acceptance of enrolments of new students (late fee payable).
Saturday 24	First term ends—4th, 5th and 6th year medicine.

Friday 30	Last day for changes in course programmes.
Saturday 31	Last day for acceptance of enrolments of students re-enrolling (late fee payable).

APRIL

Monday 2	Second term commences—4th, 5th and 6th year medicine.
Friday 6	Last day for discontinuation without failure of subjects which extend over the first session only.
Thursday 19	Last day for acceptance of corrected enrolment details forms.
Friday 20 to Monday 23	Easter Holidays.
Wednesday 25	Anzac Day—Public Holiday.

MAY

Monday 7	Provisional timetable for June/July examinations published.
Sunday 13	May Recess begins—1st, 2nd and 3rd year medicine.
Sunday 20	May Recess ends. Last date for discontinuation without failure of subjects which extend over the academic year.

JUNE

Tuesday 5	Timetable for June/July examinations published.
Wednesday 6	Faculty of Medicine meeting, 4.30 p.m.
Saturday 9	Second term ends—4th, 5th and 6th year medicine.
Monday 11	Queen's Birthday—Public Holiday.
Saturday 16	Session 1 ends—1st, 2nd and 3rd year medicine.
Sunday 17	Midyear Recess commences—1st, 2nd and 3rd year medicine.
Monday 18	Third term commences—4th year medicine.
Tuesday 19	Midyear examinations commence—1st, 2nd and 3rd year medicine.

- Monday 25 Third term commences—5th and 6th year medicine.
Saturday 30 Last day for acceptance of applications for re-admission after exclusion under rules governing re-enrolment.

JULY

- Tuesday 3 Midyear examinations end—1st, 2nd and 3rd year medicine.
Sunday 22 Midyear Recess ends—1st, 2nd and 3rd year medicine.
Monday 23 Session 2 commences—1st, 2nd and 3rd year medicine.

AUGUST

- Thursday 2 Foundation Day.
Saturday 11 Third term ends—4th year medicine.
Sunday 12 to Sunday 26 August Recess—1st, 2nd and 3rd year medicine.
Wednesday 15 Faculty of Medicine meeting, 4.30 p.m.
Wednesday 22 Last day for acceptance of corrected enrolment details forms.
Friday 24 Last date for discontinuation without failure of subjects which extend over the session only.

SEPTEMBER

- Saturday 1 Third term ends—5th and 6th year medicine.
Monday 10 Provisional timetable for annual examinations published.
Monday 17 Fourth term commences—4th, 5th and 6th year medicine.

OCTOBER

- Monday 1 Eight-Hour Day—Public Holiday.
Wednesday 10 Faculty of Medicine meeting, 4.30 p.m.
Tuesday 30 Timetable for annual examinations published.

NOVEMBER

- Saturday 10 Session 2 ends—1st, 2nd and 3rd year medicine.

Tuesday 13 Annual examinations commence—1st, 2nd
and 3rd year medicine.

Saturday 24 Fourth term ends—4th, 5th and 6th year
medicine.

DECEMBER

Tuesday 4 Annual examinations end.

Tuesday 25 Christmas Day—Public Holiday.

Wednesday 26 Boxing Day—Public Holiday.

CALENDAR OF DATES 1973

FACULTY OF MEDICINE

First, Second and Third Year:

As for other Faculties.

Fourth Year:

Term 1 (8 weeks)	January 30 to March 24
Term 2 (10 weeks)	April 2 to June 9
Term 3 (8 weeks)	June 18 to August 11
Term 4 (10 weeks)	September 17 to November 24

Fifth Year and Sixth Year:

Term 1 (10 weeks)	January 15 to March 24
Term 2 (10 weeks)	April 2 to June 9
Term 3 (10 weeks)	June 25 to September 1
Term 4 (10 weeks)	September 17 to November 24

FACULTIES OTHER THAN MEDICINE

Session 1: March 5 to May 12

May Recess: May 13 to May 20

May 21 to June 16

Midyear Recess: June 17 to July 22

Session 2: July 23 to August 11

August Recess: August 12 to August 26

August 27 to November 10

CALENDAR OF DATES

1974

FACULTY OF MEDICINE

First, Second and Third Year:

As for other Faculties.

Fourth Year:

Term 1 (8 weeks)	January 29 to March 23
Term 2 (10 weeks)	April 1 to June 8
Term 3 (8 weeks)	June 17 to August 10
Term 4 (10 weeks)	September 16 to November 23

Fifth Year and Sixth Year:

Term 1 (10 weeks)	January 14 to March 23
Term 2 (10 weeks)	April 1 to June 8
Term 3 (10 weeks)	June 24 to August 31
Term 4 (10 weeks)	September 16 to November 23

FACULTIES OTHER THAN MEDICINE

Session 1: March 4 to May 19

May Recess: May 20 to May 26

May 27 to June 16

Midyear Recess: June 17 to July 21

Session 2: July 22 to August 25

August Recess: August 26 to September 1

September 2 to November 3

Study Recess: November 4 to November 10

THE ACADEMIC YEAR

The academic year is divided into two sessions, each containing 14 weeks for teaching. There is a recess of five weeks between the two sessions. In addition there are short recesses within the sessions—one week within Session 1 and two weeks within Session 2.

The first session commences on the first Monday of March.

FACULTY OF MEDICINE

DEAN—Professor F. F. Rundle

CHAIRMAN—Professor G. D. Tracy

SCHOOL OF ANATOMY

Professor of Anatomy and Head of School
Vacant

Associate Professor

B. R. A. O'Brien, BSc PhD Syd.

Senior Lecturers

C. G. dos Remedios, BSc PhD Syd.

S. D. A. Fernando, BVSc Ceyl., PhD Lond.

C. R. R. Watson, BSc(Med) MB BS Syd.

Lecturers

P. B. Paisley, BSc Belf., LRCPEd&Glas, LRCSEd&Glas

M. S. R. Smith, BSc PhD Cant.

Elizabeth Tedder, BA MB BS Syd.

D. R. Utley, MB BS Syd.

Senior Tutors

Mrs. Beverly A. Glucina, BSc Otago

R. J. Holst, BSc N.Z., BSc Adel.

Tutors

A. M. Babu, MB BS B'lore.

J. S. Brown, MB BS Syd.

Mary-Clare Holst, BSc A.N.U.

REQUIREMENTS FOR ADMISSION

A person who seeks to become a candidate for any degree of Bachelor of the University must first have qualified for matriculation and have satisfied the requirements for admission to the particular Faculty, course or subject chosen.

In addition to complying with these conditions candidates must be selected before being permitted to enrol in a course. In 1973 it will be necessary for the University to limit the number of students enrolling in all undergraduate courses.

Special Assistance for Aboriginal Students

The University may admit suitably qualified persons of Aboriginal descent outside of any quota restrictions.

Upon receipt of an application under this provision, the University will assess the applicant's potential to cope with University studies, and will make Student Counsellors available to discuss the choice of a course and subsequent career opportunities.

All enquiries relating to this scheme should be directed to the Registrar.

A candidate who has satisfied the conditions for matriculation and for admission to a course of study shall be classed as a "matriculated student" of the University, after enrolment.

A person who has satisfactorily met the conditions for admission may be provided with a statement to that effect on the payment of the prescribed fee.

SECTION A

GENERAL MATRICULATION AND ADMISSION REQUIREMENTS

1. A candidate may qualify for matriculation by attaining in recognised matriculation subjects at one New South Wales Higher School Certificate Examination or at one University of Sydney Matriculation Examination a level of performance determined by the Professorial Board from time to time.
2. The level of performance required to qualify for matriculation shall be
 - (a) passes in at least five recognised matriculation subjects, one of

which shall be English and three of which shall be at Level 2 or higher;

and

- (b) the attainment of an aggregate of marks, as specified by the Professorial Board, in not more than five recognised matriculation subjects, such marks being co-ordinated in a manner approved by the Board.
3. The following subjects, and such other subjects as may be approved by the Professorial Board from time to time, shall be recognised matriculation subjects:—

English	Greek	Chinese
Mathematics	Latin	Japanese
Science	French	Hebrew
Agriculture	German	Dutch
Modern History	Italian	Art
Ancient History	Bahasa Indonesia	Music
Geography	Spanish	Industrial Arts
Economics	Russian	

4. A candidate who has qualified to matriculate in accordance with the provisions of Clauses 1, 2 and 3 may be admitted to a particular Faculty, Course or Subject provided that:—

(a) his qualification includes a pass at the level indicated in the subject or subjects specified in Schedule A as Faculty, Course or Subject Prerequisites;

or

(b) the requirements regarding these particular Faculty, Course or Subject Prerequisites, as specified in Schedule A, have been met at a separate Higher School Certificate or University of Sydney Matriculation Examination.

5. Notwithstanding any of the provisions of Clauses 1 to 4, the Professorial Board may grant matriculation status to any candidate at the Higher School Certificate or University of Sydney Matriculation Examination who has reached an acceptable standard and may admit him to any Faculty, Course or Subject.

NOTE

- For the purposes of clause 2(a), Mathematics and Science BOTH PASSED at First Level or Second Level Full Course shall together count as three subjects.
- For the purposes of clause 2(b), Mathematics and Science TAKEN either singly or together at First Level or Second Level Full Course shall each count as one and one half subjects.

SCHEDULE A

FACULTY OR COURSE	FACULTY OR COURSE PREREQUISITES
Applied Science (excl. Applied Geography and Wool and Pastoral Sciences courses) Biological Sciences Engineering Industrial Arts course Medicine Military Studies (Engineering course and Applied Science course) Science Bachelor of Science (Education)	(a) Science at Level 2S or higher AND (b) either Mathematics at Level 2F or higher OR Mathematics at Level 2S, provided that the candidate's performance in this subject and his general level of attainment are at standards acceptable to the Professorial Board.
Architecture Applied Geography and Wool and Pastoral Sciences courses (Faculty of Applied Science) Sheep and Wool Technology (Education option) course	(a) Science at Level 2S or higher AND (b) Mathematics at Level 2S or higher
Arts Social Work Degree course	English at Level 2 or higher
Commerce	(a) Mathematics at Level 2S or higher AND (b) either English at Level 2 or higher OR English at Level 3, provided that the candidate's performance in this subject and his general level of attainment are at standards acceptable to the Professorial Board.
Law Combined Arts/Law Combined Commerce/Law Combined Jurisprudence/Law	Nil As for Arts As for Commerce Nil

FACULTY OR COURSE	FACULTY OR COURSE PREREQUISITES
Military Studies (Arts course)	English at Level 2 or higher; OR English at Level 3, provided that the candidate's performance in this subject and his general level of attainment are at standards acceptable to the Professorial Board, and provided that a candidate so qualified shall not enrol in a course of English literature.
SUBJECT	SUBJECT PREREQUISITES
1.011—Higher Physics I 1.001—Physics I 1.041—Physics IC	As for Faculty of Science

56.111—French I	French at Level 2 or higher
59.111—Russian I	Russian at Level 2 or higher
64.111—German I	German at Level 2 or higher
65.111—Spanish I	Spanish at Level 2 or higher
59.001—Russian IZ 64.001—German IZ 65.001—Spanish IZ	A foreign language, other than that in which enrolment is sought, at Level 2 or higher

SECTION B

Supplementary Provisions for Matriculation

Notwithstanding the provisions of Section A above, candidates may be accepted as “matriculated students” of the University under the conditions which are listed in the University Calendar.

CONDITIONS OF ADMISSION OF STUDENTS TO THE
MEDICAL COURSE AND PROGRESSION INTO
SECOND YEAR

1. Admissions to the medical course will be at two levels—first year and second year.
2. Admission to the first year shall be on the basis of the aggregate of marks received in not more than five matriculation subjects at the Higher School Certificate Examination with a provision for admitting at this level some students who have qualified by other means deemed to be of equivalent or higher standard.
3. Admission to second year shall be on the following basis:—
 - (a) students admitted to the first year of the medical course who have passed all the examinations of the first year will be admitted to second year of the medical course irrespective of their performance relative to that of applicants in other categories;
 - (b) students who have been enrolled in the second year of the medical course and who have failed at their examinations and who are still eligible to continue in the medical course will be entitled to a place in second year;
 - (c) the remainder of the places in second year will be allocated to applicants on the basis of their performance as non-medical students in the subjects of the first year of the medical course or on the basis of their performance at examinations deemed to be of equivalent or higher standard.*

*Any places available for allocation in this category will be small in number and are unlikely to exceed ten.

GENERAL INFORMATION

ADMISSIONS OFFICE

The Admissions Office which is located in the Chancellery on the upper campus provides intending students (both local and overseas) with information regarding courses, admission requirements, scholarships and enrolment. Office hours are from 9.00 a.m. to 1.00 p.m. and 2.00 p.m. to 5.00 p.m. Monday to Friday and an evening service is provided during the enrolment period.

Applications for special admission, admission with advanced standing and from persons relying for admission on overseas qualifications should be lodged with the Admissions Office. The Office also receives applications from students who wish to transfer from one course to another, resume their studies after an absence of twelve months or more, or seek any concession in relation to a course in which they are enrolled. It is essential that the closing dates for lodgment of applications should be observed.

Applications for admission to undergraduate courses from students who do not satisfy the requirements for admission (see section on "Requirements for Admission"), from students seeking permission with advanced standing, and from students who have had a record of failure at another University, are referred by the Admissions Office to the Admissions Committee of the Professorial Board.

Students seeking to register as higher degree candidates should discuss their proposals initially with the Head of the School in which they wish to register. An application is then lodged on a standard form and the Admissions Office, after obtaining a recommendation from the Head of the School, refers the application to the appropriate Faculty or Board of Studies Higher Degree Committee.

ADMISSIONS PROCEDURE

Details of the procedure to be followed by students seeking entry to first year courses at the University may be obtained from the Admissions Office or the Metropolitan Universities Admissions Centre.

Persons seeking entry to first year courses in one or more of the three Universities in the Sydney Metropolitan Area (Macquarie University, the University of New South Wales and the University of Sydney) are required to lodge a single application form with the Metropolitan Universities Admissions Centre, Third Floor, 13-15 Wentworth Avenue (near Museum Station), Sydney (Box 7049, G.P.O., Sydney, 2001). On the application form provision is made for applicants to indicate preferences for courses available in any of the three Universities. Students are notified individually of the result of their applications and provided with information regarding the procedures to be followed in order to accept the offer of a place at this University and complete their enrolment at the Enrolment Bureau, Unisearch House, 221 Anzac Parade, Kensington.

ENROLMENT PROCEDURE

In 1973 it will be necessary for the University to impose quotas in each Faculty and Board of Studies.

The enrolment procedure for the different classes of undergraduate students is as follows:—

First Enrolments

- (a) New South Wales residents already qualified for admission and persons who are applying for enrolment on the basis of qualifications gained or about to be gained outside New South Wales must lodge an application for enrolment with the Metropolitan Universities Admissions Centre, 13-15 Wentworth Avenue, Sydney (Box 7049, G.P.O., Sydney), by 27th October, 1972.
- (b) New South Wales residents qualifying for admission by the 1972 New South Wales Higher School Certificate Examination or the 1973 Sydney University Matriculation Examination and those who have attended a University in New South Wales in 1972 must apply for enrolment to the Metropolitan Universities Admissions Centre, 13-15 Wentworth Avenue, Sydney (Box 7049, G.P.O., Sydney), by 19th January, 1973.

Students whose applications for enrolment are accepted will be required to complete their enrolment at a specified appointment time before the beginning of Session 1. Fees must be paid on the day of the appointment. However, in special circumstances and provided class places are still available, students may be allowed to complete their enrolment after the prescribed week subject to the payment of a late fee.

ENROLMENT PROCEDURE FOR YEAR 1 REPEATS, YEARS 2, 3, 4, 5 and 6 MEDICAL STUDENTS

Students wishing to transfer to Medicine II from some other faculty (or university) should lodge an application through the Metropolitan Universities Admissions Centre, 13-15 Wentworth Avenue, Sydney (Box 7049, G.P.O., Sydney), by the appropriate closing date (see under First Enrolments).

Complete details on enrolment procedure (including the payment of fees) are set out in the booklet *Enrolment Procedure 1973 for Students Re-enrolling*.

To complete their enrolment, students are required to attend **Lecture Theatre 'D', Wallace Wurth School of Medicine**, on the dates set out below. Failure to do so will incur a late fee of \$10.

Fees should be paid at the time of enrolment, but they may be paid up to March 16, 1973, without a late fee being incurred. Fees will not be accepted after March 31 without the express approval of the Registrar, which will be given in exceptional circumstances only.

Medicine 1 (Repeats)

Students re-enrolling in subjects in First Year of the Medical Course in 1973 should attend *Unisearch House, 221 Anzac Parade (across from Main Campus)* on Thursday, March 1, 10.00 a.m. to 12.30 p.m.

Medicine 2

Students with surnames "A"- "J": 9.30 a.m. to 12 noon.

Students with surnames "K"- "Z": 2.00 p.m. to 4.30 p.m.

Medicine 3

Students with surnames "A"- "J": 9.30 a.m. to 12 noon.

Students with surnames "K"- "Z": 2.00 p.m. to 4.30 p.m.

Medicine 4

Students with surnames "A"- "J": 10.00 a.m. to 12 noon.

Students with surnames "K"- "Z": 2.00 p.m. to 4.00 p.m.

Medicine 5

Students with surnames "A"-"J": 10.00 a.m. to 12 noon.

Students with surnames "K"-"Z": 2.00 p.m. to 4.00 p.m.

Medicine 6

Students with surnames "A"-"J": 10.00 a.m. to 12 noon.

Students with surnames "K"-"Z": 2.00 p.m. to 4.00 p.m.

RESTRICTION UPON STUDENTS RE-ENROLLING

The University Council has adopted the following rules governing re-enrolment with the object of requiring students with a record of failure to show cause why they should be allowed to re-enrol and retain valuable class places. These rules apply retrospectively from January 1, 1971.

- 1 (i) A student shall show cause why he should be allowed to repeat a subject in which he has failed more than once. (Failure in a deferred examination as well as in the annual examination counts, for the purpose of this regulation, as one failure.) Where such subject is prescribed as a part of the student's course he shall be required to show cause why he should be allowed to continue the course.

Notwithstanding the provisions of Clause 1 (i)

- (ii) A student enrolled in the first year or first stage of any course, other than the Medical course, who has failed in more than half the programme in which he is enrolled for that year or stage shall be required to show cause why he should be allowed to continue in the course.
- (iii) A student enrolled in the first year of the Medical course who has failed in more than one subject of that year shall be required to show cause why he should be allowed to continue in the Medical course.
- (iv) The provisions of sections (ii) and (iii) of this rule shall be deemed to apply to any student on transfer from another course or institution whose programme of studies in the first year of enrolment immediately following transfer is comprised of subjects so chosen that half or more of such subjects are listed in the University Calendar as first year subjects.

- 2 Notwithstanding the provisions of clause 1, a student shall be required to show cause why he should be allowed to continue a course which he will not be able to complete in the time set down in the following schedule:

Number of years in course	Total time allowed from first enrolment to completion (years)
3	5
4	6
5	8
6	9
7	11
8	12

- 3 No full-time student shall, without showing cause, be permitted to continue a course unless all subjects of the first year of his course are completed by the end of his second year of attendance. No student in the Faculty of Arts shall, without showing cause, be permitted to continue a course unless he completes four subjects by the end of his second year of attendance. No full-time student in the Bachelor of Social Work course shall without showing cause be permitted to continue with the course unless he completes the equivalent of four full subjects by the end of his second year of attendance.

No part-time student in a course in which progression is by stage shall without showing cause be permitted to continue a course in which he will not be able to complete all subjects of the first two stages by the end of his fourth year of attendance and all subjects of the third year and fourth stages of his course by the end of his seventh year of attendance.

No part-time student in the Science course shall without showing cause be permitted to continue a course in which he will not be able to complete level one Mathematics and six other level one units by the end of his fourth year of attendance and fourteen units inclusive of at least three at level two of his course by the end of his seventh year of attendance.

No student in the Faculty of Medicine shall, without showing cause, be permitted to continue with the medical course unless he completes the second year of the course by the end of his third year of attendance, and the third year of the course by the end of his fourth year of attendance.

- 4 A student who has a record of failure in a course at another University shall be required to show cause why he should be admitted to this University. A student admitted to a course at this University following a record of failure at another University shall be required to show cause, notwithstanding any other provisions in these rules, why he should be permitted to continue in that course if he is unsuccessful in the annual examinations in his first year of attendance at this University.
- 5 Any student excluded under any of the clauses 1-3 may apply for re-admission after two academic years and such application shall be considered in the light of any evidence submitted by him.
- 6 A student wishing "to show cause" under these provisions shall do so in writing to the Registrar. Any such application shall be considered by a committee, hereinafter referred to as the Re-enrolment Committee, appointed by the Professorial Board, which shall determine whether the cause shown is adequate to justify his being permitted to continue his course or re-enrol as the case may be.
- 7 The Vice-Chancellor may on the recommendation of the Re-enrolment Committee exclude from attendance in a course or courses any student who has been excluded from attendance in any other course under the rules governing re-enrolment and whose record at the University demonstrates, in the opinion of the Re-enrolment Committee and the Vice-Chancellor, the student's lack of fitness to pursue the course nominated.
- 8 A student who has failed, under the provisions of clause 6 of these rules, to show cause acceptable to the Re-enrolment Committee why he should be permitted to continue in his course, and who has subsequently been permitted to re-enrol in that course or to transfer to another course, shall also be required to show cause, notwithstanding any other provisions in these rules, why he should be permitted to continue in that course if he is unsuccessful in the annual examinations immediately following the first year of resumption or transfer of enrolment as the case may be.
- 9 Any student who is excluded from attendance in any course or subject under the provisions of these rules may appeal to an Appeal Committee constituted by Council for this purpose. The decision of the Appeal Committee shall be final.

- 10 The notification to any student of a decision by the Re-enrolment Committee to exclude the student from attendance in any course or subject shall indicate that the student may appeal against the decision to an Appeal Committee. In lodging such appeal the student shall ensure that a complete statement is furnished of all grounds on which the appeal is based and shall indicate whether or not the student wishes to appear in person before the Appeal Committee.

In considering an appeal the Appeal Committee, on the basis of the student's academic record and the stated grounds of appeal, shall decide:

- (i) whether these are grounds which justify the Committee seeing the student in person, or
 - (ii) whether there is sufficient information available to the Committee to allow decision without seeing the student in person
- and so proceed to determine the application accordingly.

FEES

Fees quoted in this schedule are current at the time of publication and may be amended by the Council without notice.

COURSE FEES

Medical Course (M.B., B.S.)		<i>Per Annum</i>
		\$
Year	I (2 sessions)	540
	II (2 sessions)	540
	III (2 sessions)	540
	IV (4 terms)	540
	V (4 terms)	540
	VI (2 terms)	360

Course fees may be paid by the year or in two instalments in each year as in other faculties.

Note: Students are required to pay accommodation charges direct to teaching hospitals in respect of those sections of the course where they are required to be in residence.

Bachelor of Science (Medicine) (B.Sc.(Med.)) Course

One Year Course: \$540, or two payments of \$270.

OTHER FEES

In addition to the course fees set out above, all registered undergraduates will be required to pay—

Matriculation Fee — \$11 — payable at the beginning of first year.

Library Fee — \$19 — annual fee.

University Union* — \$20 — entrance fee.

Student Activities Fees—

University Union* — \$30 — annual subscription.

Sports Association* — \$4 — annual subscription.

Students' Union* — \$7 — annual subscription.

Miscellaneous — \$17 — annual fee.

Total — \$58.

Graduation fee — \$11 — per degree — payable at the completion of the course.

Depending on the course being taken, students may also be required to pay—

Biochemistry Kit Hiring Charge — \$4 per kit. Additional charge for breakages and losses in excess of \$1 may be required.

Chemistry Kit Hiring Charge — \$4 per kit. Additional charge for breakages and losses in excess of \$1 may be required.

Excursion Fee — \$2 per subject (plant morphology, plant taxonomy, environmental botany).

Anatomy Dissection Manual and Histology Slides deposit — \$10. (Refundable on return in satisfactory condition.)

Pathology Instrument Kit—\$10. (Refundable on return in satisfactory condition.)

Special Examination Fees—

Deferred examination — \$8 for each subject.

Examinations conducted under special circumstances — \$11 for each subject.

Review of examination result — \$11 for each subject.

* Life members of these bodies are exempt from the appropriate fee or fees.

LATE FEES**Session 1—First Enrolments**

Fees paid on the late enrolment session and before the commencement of Session 1	\$10
Fees paid during the 1st and 2nd weeks of Session 1	\$20
Fees paid after the commencement of the 3rd week of Session 1 with the express approval of the Registrar and Head of the School concerned	\$40

Session 1—Re-Enrolments

Failure to attend enrolment centre during enrolment week	\$10
Fees paid after the commencement of the 3rd week of Session 1 to March 31	\$20
Fees paid after March 31 where accepted with the express approval of the Registrar	\$40

Session 2—All Enrolments

Fees paid in 3rd and 4th weeks of Session 2	\$20
Fees paid thereafter	\$40
Late lodgement of corrected enrolment details forms (late applications will be accepted for three weeks only after the prescribed dates)	\$8

Students withdrawing from a course are required to notify the Registrar in writing. Fees for the course accrue until a written notification is received.

COSTS IN ADDITION TO FEES

As the student may not be aware when embarking on his degree of the incidental costs which will occur from time to time in the course of his six years' study, the following is an estimate, based on students' experience, of the expenditure which is likely to be incurred over the full length of the course. The amounts quoted will, of course, be subject to some fluctuation and to some individual variation.

	<i>\$ approx.</i>
Textbooks	600
Skeleton	40
Stethoscope	10
Seven coats	35
Miscellaneous (papers, pens, kits (pathology, biochemistry, histology), torch, etc.)	80
Residency (18 weeks)	175
Special travel	100
	<hr/>
	\$1,040
	<hr/>

PAYMENT OF FEES

Fees should be paid during the prescribed enrolment period but will be accepted during the first two weeks of Session 1. (For late fees see above.) No student is regarded as having completed an enrolment until fees have been paid. Fees will not be accepted (i.e. enrolment cannot be completed) from new students after the end of the second week of Session 1 (i.e. March 16, 1973), and after March 31 from students who are re-enrolling, except with the express approval of the Registrar, which will be given in exceptional circumstances only.

First year students (including students repeating first year) must complete enrolment (including fee payment) before they are issued with class timetables or permitted to attend classes. A first year student who has been offered a place in a course to which entry is restricted and fails to complete enrolment (including fee payment) at the appointed time may lose the place allocated.

Payment of Fees by Session

Although the structure of the academic year in Medicine differs from that followed in other courses, medical students in common with other students are given the choice of paying fees by the year or in two instalments during the year. The first payment should be made on enrolment at the commencement of the year and the remaining payments on receipt of an account from the University.

The dates by which fee instalments must be paid, if a late fee is to be avoided, are the same for all courses. The final dates are:

1st payment	by March 16, 1973
2nd payment	by August 3, 1973

Assisted Students

Scholarship holders or Sponsored Students who have not received an enrolment voucher or appropriate letter of authority from their sponsor at the time when they are enrolling should complete their enrolment paying their own fees. A refund of fees will be made when the enrolment voucher or letter of authority is subsequently lodged with the Cashier.

Extension of Time

Any student who is unable to pay fees by the due date may apply in writing to the Deputy Registrar (Student Services) for an extension of time. Such application must state year or stage, whether full-time or part-time, and the course in which the applicant wishes to enrol, describe clearly and fully the reasons why payment cannot be made and the extension sought, and must be lodged before the date on which a late fee becomes payable. Normally the maximum extension of time for the payment of fees is one month for fees due in Session 1 and for one month from the date on which a late fee becomes payable in respect of the second payment.

Where an extension of time is granted to a first year student in Session 1, such student may only attend classes on the written authority of the Registrar, but such authority will not normally be given in relation to any course where enrolments are restricted.

Failure to Pay Fees

Any student who is indebted to the University and who fails to make a satisfactory settlement of his indebtedness upon receipt of due notice ceases to be entitled to membership and privileges of the University. Such a student is not permitted to register for a further term, to attend classes or examinations, or to be granted any official credentials.

No student is eligible to attend the annual examinations in any subject where any portion of his course fees for the year is outstanding after August 17, 1973.

In very special cases the Registrar may grant exemption from the disqualification referred to in the two preceding paragraphs upon receipt of a written statement setting out all relevant circumstances.

WITHDRAWAL FROM COURSE

1. Students withdrawing from a course are required to notify the Registrar in writing. Fees for the course accrue until a written notification is received.
2. Where notice of withdrawal from a course is received by the

Registrar before the first day of Session 1 a refund of all fees paid other than the matriculation fee will be made.

3. Where a student terminates for acceptable reasons a course of study within 30 days of the commencement of first session a refund of fees paid, less a sum of \$39, may be made in respect of all fees except the University Union Entrance and membership fees, the University of New South Wales Students' Union fee and the University of New South Wales Sports Association fee, in regard to which fees refunds may be made as shown hereunder.
4. Where a student terminates for acceptable reasons a course of study: (1) after the lapse of 30 days and before the lapse of half the first session, one half of each of the course fee, the library fee and the miscellaneous student activities fee may be refunded; (2) before the lapse of half the second session one half of the session's course fee may be refunded.
5. Where a student terminates a course of study after half a session has elapsed, no refund may be made in respect of that session's fees.
6. No portion of the Matriculation fee is refundable on withdrawal.
7. On notice of withdrawal a partial refund of the University Union Entrance Fee is made on the following basis: any person who has paid the entrance fee in any year and who withdraws from membership of the University Union after the commencement of Session 1 in the same year, or who does not renew his membership in the immediately succeeding year may on written application to the Warden receive a refund of half the entrance fee paid.
8. On notice of withdrawal a partial refund of the Student Activities Fees is made on the following basis:
University Union—\$7.50 in respect of each half session.
University of New South Wales Students' Union—where notice is given prior to the end of the fifth week of Session 1, \$3.50, thereafter no refund.
University of New South Wales Sports Association—where notice is given prior to 30th April a full refund is made, thereafter no refund.
9. Where initial registration is made at commencement of Session 2 in any year and the student subsequently withdraws, a refund of fees based on the above rules may be made.

ANNUAL EXAMINATIONS

Most annual examinations are held in November-December and examinations in many subjects are also held during the mid-year recess. Timetables indicating the dates and times of examinations and notices of the location of examinations are posted on the central notice boards in the Wallace Wurth Medical School, Biological Sciences Building, the Chancellery, Central Lecture Theatre Block, Dalton (Chemistry) School, Main Building (Mining and Physics), outside the Science Theatre and in the Western Grounds Area.

Misreading of the timetable is not an acceptable excuse for failure to attend an examination.

A student suffering from a physical disability which puts him at a disadvantage in written examinations should apply to the Registrar in writing, as early as possible, for special provisions to be made for him to take examinations. The request should be supported by medical or other evidence.

Examinations are conducted in accordance with the following rules and procedure:

- (a) Candidates are required to obey any instruction given by an examination supervisor for the proper conduct of the examination.
- (b) Candidates are required to be in their places in the examination room not less than ten minutes before the time for commencement.
- (c) No bag, writing paper, blotting paper, manuscript or book, other than a specified aid, is to be brought into the examination room.
- (d) No candidate shall be admitted to an examination after thirty minutes from the time of commencement of the examination.
- (e) No candidate shall be permitted to leave the examination room before the expiry of thirty minutes from the time the examination commences.
- (f) No candidate shall be re-admitted to the examination room after he has left it unless during the full period of his absence he has been under approved supervision.
- (g) A candidate shall not by any improper means obtain, or endeavour to obtain, assistance in his work, give, or endeavour to give, assistance to any other candidate, or commit any breach of good order.
- (h) Smoking is not permitted during the course of examinations.

- (i) All answers must be in English unless otherwise directed. Foreign students who have the written approval of the Officer-in-Charge of Examinations may use standard translation dictionaries.
- (j) A candidate who commits any infringement of the rules governing examinations is liable to disqualification at the particular examination, to immediate expulsion from the examination room and to such further penalty as may be determined in accordance with the By-laws.

A student who through serious illness or other cause outside his control is unable to attend an examination is required to bring the circumstances (supported by a medical certificate or other evidence) to the notice of the Registrar not later than seven days after the date of the examination, and may be required to submit to medical examination. A student who attempts an examination yet claims that his performance is prejudiced by sickness on the day of the examination, must notify the Registrar or Examination Supervisor, before, during or immediately after the examination and may be required to submit to medical examination.

A student who believes that his performance at an examination has been affected by serious illness during the year or by other cause outside his control, and who desires these circumstances to be taken into consideration in determining his standing is required to bring the evidence (supported by medical certificates or other evidence) to the notice of the Registrar not later than seven days after the date of the examination.

In the assessment of a student's progress, consideration is given to work in laboratory and class exercises and to any term or other tests given throughout the year, as well as to the results of written examinations.

Examination results are posted to the term addresses of students and it is therefore essential that any change of address be advised to the Examination and Student Records Section. Results are also posted on School notice boards. No examination results will be given by telephone.

Examination results may be reviewed for a fee of \$11.00 a subject, which is refundable in the event of an error being discovered. Such a review will consist primarily in ensuring that all questions attempted by candidates have been marked and that the total of all marks awarded are correct. Applications for review must be submitted on the appropriate form to the Examinations and Student Records Section, together with the necessary fee by the date indicated on the notification of results.

Examination Results

Graded Passes:

Passes will be graded as follows:

High Distinction (indicates a quite superior performance).

Distinction (indicates a superior performance).

Credit (indicates a good but not superior performance).

Pass (indicates the achievement of an acceptable minimum level of competence in relation to the course objectives).

Pass Conceded:

A pass conceded may be granted to students where the mark in the subject is slightly below the required standard and whose overall performance warrants it.

Terminating Pass:

A terminating pass may be granted where the mark for the subject is below the required standard. A terminating pass will not permit a student to progress further in the subject or to enrol in any other subject for which a pass in the subject is a co-requisite or pre-requisite. A student granted a terminating pass may attempt a deferred examination, if available, to improve his performance, but if the student fails the deferred examination, the terminating pass will stand.

DEFERRED EXAMINATIONS

Deferred examinations may be granted in the following cases:

- (i) When a student through illness or some other acceptable circumstances has been prevented from taking the annual examination or has been placed at a serious disadvantage during the annual examinations. Applications for deferred examination in this category must be lodged with the Registrar with appropriate evidence of the circumstances (e.g., medical certificate) not later than seven days after the examination concerned.

All such applications shall be reported to the Head of the School responsible for the subject. Before a deferred examination is granted on medical grounds, regard shall be paid to the student's class and assignment work in the subject, to his general performance in the year, and to the significance of the annual examination in compiling the composite mark.

- (ii) To help resolve a doubt as to whether a student has reached the required standard in a subject.

- (iii) To allow a student by further study to reach the required standard in a subject. The granting of a deferred examination in such cases will be based on the general quality of the student's performance.
- (iv) Where a student's standing at the annual examinations is such that his progression or graduation could depend on his failure in one subject only, then his position in that subject shall be again reviewed with a view to determining whether a deferred examination may be granted notwithstanding his failure otherwise to qualify for such concession.

Deferred examinations must be taken at the centre in which the student is enrolled, unless he has been sent on compulsory industrial training to remote country centres or interstate. An application to take an examination away from the centre in which enrolled must be lodged with the Registrar immediately examination results are received. Normally, the student will be directed to the nearest University for the conduct of the deferred examination.

A student eligible to sit for a deferred examination must lodge with the Accountant an application accompanied by the fee of \$8 per subject, by the date indicated on the notification of results.

APPLICATION FOR ADMISSION TO DEGREE

Applications for admission to a degree of the University must be made on the appropriate form by January 15.

GENERAL CONDUCT

Acceptance as a member of the University implies an undertaking on the part of the student to observe the regulations, by-laws and other requirements of the University, in accordance with the declaration signed at the time of the enrolment.

In addition students are expected to conduct themselves at all times in a seemly fashion. Smoking is not permitted during lectures, in examination rooms or in the University Library. Gambling is also forbidden.

Members of the academic staff of the University, senior administrative officers, and other persons authorised for the purpose, have authority, and it is their duty, to check and report on disorderly or improper conduct or any breach of regulations occurring in the University.

ATTENDANCE AT CLASSES

Students are expected to be regular and punctual in attendance at all classes in the course or subject in which they are enrolled. All applications for exemption from attendance at lectures or practical classes must be made in writing to the Registrar.

In the case of illness or of absence for some other unavoidable cause a student may be excused by the Registrar from non-attendance at classes for a period of not more than one month, or on the recommendation of the Dean of the appropriate Faculty, for any longer period.

Applications to the Registrar for exemption from re-attendance at classes, either for lectures or practical work, may only be granted on the recommendation of the Head of the appropriate School. The granting of an exemption from attendance does not carry with it exemption from payment of fees.

Application forms for exemption from lectures are available at the Admissions Office and should be lodged there (with a medical certificate where applicable). If term examinations have been missed this fact should be noted in the application.

Where a student has failed a subject at the annual examinations in any year and re-enrols in the same course in the following year, he must include in his programme of studies for that year the subject in which he has failed. This requirement will not be applicable if the subject is not offered the following year; is not a compulsory component of a particular course; or if there is some other cause, which is acceptable to the Professorial Board, for not immediately repeating the failed subject.

Where a student has attended less than eighty per cent of the possible classes, he may be refused permission to sit for the examination in that subject.

ADMISSION WITH ADVANCED STANDING

Any person who makes application to register as a candidate for any degree or other award granted by the University may be admitted to the course of study leading to such degree or award with such standing on the basis of previous attainments as may be determined by the Professorial Board.

Students should consult the University Calendar for complete details regarding "Admission with Advanced Standing".

COURSE TRANSFERS

Students wishing to transfer from one course to another must apply on an application form obtainable from the Admissions Office, Chancellery, by Friday, January 19. As quotas will operate on entry to all Faculties and the Board of Vocational Studies, failure to apply by January 19, 1973, will probably result in the application for transfer being unsuccessful.

Students whose applications to transfer are successful are required to comply with the enrolment procedures for the year/stage of the new course in which they expect to enrol. Unless otherwise instructed they must present the letter granting approval of the transfer to the enrolling officer.

Students who have not received advice regarding their application to transfer before the date on which they are required to enrol should check with the Admissions Office.

Students should also advise the Enrolling Officer of the School in which they are enrolled of their intention to transfer.

RE-ADMISSION AFTER EXCLUSION

Applications for re-admission must be made on the standard form and lodged with the Registrar not later than June 30 of the year prior to that for which re-admission is sought. An application should include evidence of appropriate study in the subjects (or equivalents) on account of which the applicant was excluded. In addition, evidence that the circumstances which were deemed to operate against satisfactory performance at the time of exclusion are no longer operative or are reduced in intensity, should be furnished. An applicant may be required to take the annual examinations in the relevant subjects as qualifying examinations in which case re-admission does not imply exemption from the subject. Late applications cannot be considered where, in the opinion of the University, insufficient time will be available for the student to prepare himself for any qualifying examinations which may be required.

It should be noted that a person under exclusion may not be enrolled in miscellaneous subjects unless he has received the approval of the Professorial Board on the recommendation of the Admissions Committee.

Persons who intend applying for re-admission to the University at a future date may seek advice as to ways in which they may enhance their prospects of qualifying for re-admission. Enquiries should be made on a form obtainable from the Examinations Branch, and lodged with the Registrar.

CHANGES IN COURSE PROGRAMMES AND WITHDRAWAL FROM SUBJECTS

Students seeking approval to substitute one subject for another, add one or more subjects to their programme or discontinue part or all of their programme must make application to the Registrar through the Head of the School responsible for the course on forms available from School offices. The Registrar will inform students of the decision. Application to enrol in additional subjects must be submitted by March 31.

Approval of withdrawal from subjects is not automatic, each application being determined after considering the circumstances advanced as justifying withdrawal.

It is emphasized that:

1. withdrawal from a subject, tuition in which extends over the academic year, at any time after the May recess;
2. withdrawal from a subject, tuition in which extends over only one session, at any time after one month from the commencement of the subject; or
3. failure to sit for the examinations in any subject in which the student has enrolled,

shall be regarded as failure to satisfy the examiners in the subject, unless written approval to withdraw without failure has been obtained from the Registrar.

STUDENT RECORDS

All students will receive enrolment details forms by April 4 and August 7. It is not necessary to return the forms unless any information recorded thereon is incorrect. Amended forms must be returned to the Examinations and Student Records Section by April 19 and August 22 respectively. Amendments notified after the closing date will not be accepted unless exceptional circumstances exist and approval is obtained from the Registrar. Where a late amendment is accepted, a late fee of \$8.00 will be payable. Amended forms returned to the Registrar will be acknowledged in writing within fourteen days.

RESUMPTION OF COURSES

Students wishing to resume their studies after an absence of twelve months or more are required to apply to the Admissions Office for permission to re-enrol by January 19, 1973. Students re-enrolling in this way will normally be required to satisfy conditions pertaining to

the course at the time of re-enrolment. This condition applies also to students who have been re-admitted to a course after exclusion under the rules restricting students re-enrolling.

UNIVERSITY UNION CARD

All students other than miscellaneous students are issued with a University Union membership card. This card must be carried during attendance at the University and shown on request.

The number appearing on the front of the card above the student's name is the student registration number used in the University's records. *This number should be quoted in all correspondence.*

The card must be presented when borrowing from the University libraries, when applying for travel concessions and when notifying a change of address. It must also be made valid for the year and returned. Failure to present the card could result in some inconvenience in completing re-enrolment.

A student who loses a Union card must notify the University Union as soon as possible.

New students will be issued with University Union cards at the University Union Enquiry Desk as soon as practicable after payment of fees. In the meantime, fees receipt form should be carried during attendance at the University and shown on request. A period of at least three weeks should be allowed to elapse after payment of fees before making application for the card. Cards will not be posted under any circumstances.

OWNERSHIP OF STUDENTS' WORK

The University reserves the right to retain at its own discretion the original or one copy of any drawings, models, designs, plans and specifications, essays, theses or other work executed by students as part of their courses, or submitted for any award or competition conducted by the University.

INDEBTEDNESS TO THE UNIVERSITY

Any student who is indebted to the University and who fails to make a satisfactory settlement of his indebtedness upon receipt of due notice ceases to be entitled to membership and privileges of the University. Such a student is not permitted to register for a further session, to attend classes or examinations, or to be granted any official credentials.

In very special cases the Registrar may grant exemption from the disqualification referred to in the preceding paragraph upon receipt of a written statement setting out all relevant circumstances.

PARKING WITHIN THE UNIVERSITY GROUNDS

Because of the limited amount of parking space available, only the following categories of students may apply for a permit: motor cycle owners (annual fee \$3.90); higher degree students (limited issue, annual fee \$7.80); postgraduate, and senior undergraduate students who have completed three years of a full-time or part-time course (annual fee \$3.90). A permit will allow access to the campus between 5 p.m. and 11 p.m. on weekdays and during library hours on Saturdays, Sundays and public holidays. Enquiries should be made to the Property Section, Room 240, The Chancellery Building, or telephone 663-0351, extension 2920. It should be noted that increasing demand for parking space may require the imposition of further restrictions.

CHANGE OF ADDRESS

Students are requested to notify the Student Records Section of the Registrar's Division of any change in their address, as soon as possible. Failure to do this could lead to important correspondence not reaching students. The University cannot accept responsibility if official communications fail to reach students who have not notified their change of address. A Change of Address Advice form is available at Faculty and School offices and at the Enquiry Counters on the Ground Floor of the Chancellery Building.

NOTICES

Official University notices are displayed on the notice boards and students are expected to be acquainted with the contents of those announcements which concern them.

LOST PROPERTY

All enquiries concerning lost property should be made to the Superintendent on Extension 2503 or to the Lost Property Office at the Union.

APPLICATION OF RULES

General

Any student who requires information on the application of these rules or any service which the University offers, may make enquiries from the Admissions Office, the Student Counselling Centre or the Registrar.

Appeals

Section 5(c) of Chapter III of the By-laws provides that "Any person affected by a decision of any member of the Professorial Board (other than the Vice-Chancellor) in respect of breach of discipline or misconduct may appeal to the Vice-Chancellor, and in the case of disciplinary action by the Vice-Chancellor, whether on appeal or otherwise, to the Council".

380. MEDICAL COURSE (MB, BS)

The medical course extends over six years of full-time study leading to the degrees of Bachelor of Medicine (M.B.) and Bachelor of Surgery (B.S.) which have been recognised (1967) by the General Medical Council of the U.K. These degrees may be awarded in the following grades: Honours Class I; Honours Class II, Division I; Honours Class II, Division II, or Pass level.

The course consists of one year of pre-medical studies, followed by two years of mainly pre-clinical studies, and three years devoted mainly to clinical studies.

Throughout the curriculum there will be an emphasis on co-ordination and integration of teaching, both between the various pre-clinical subjects and between the pre-clinical and the clinical subjects. Classes will, where possible, be kept to small groups, and teaching methods will place great reliance on group tutorial teaching, both in the laboratories and at the bedside.

YEAR 1		Hours per Week for 28 Weeks		
Pre-medical		Lec.		Lab./Tut.
1.061	Physics IM	3	—	3
2.001	Chemistry I	2	—	4
17.001	General and Human Biology ...	2	—	4
One Elective* or two General Studies Electives.				

*Elective Subjects**

The elective subjects may be any one of those set out below, provided that:

- (i) the elective can be satisfactorily timetabled in relation to the other first year subjects;
- (ii) the student has satisfied the prerequisites, if any, for the elective;
- (iii) the student has obtained the approval of the Head of the School responsible for the elective; and
- (iv) in satisfying the General Studies requirements in the later years of the Medical course, a student shall not take a subject in the same area as the elective subject chosen in first year, unless he takes it at a higher level than the electives originally chosen.
- (v) The approved electives are: 5.001 Engineering I, 10.011 Higher Mathematics I, 10.001 Mathematics I, 10.021 Mathematics IT,

12.001 Psychology I, 14.111 Accounting I, 15.101 Economics I, 25.001 Geology I, 27.001 Geography I, 50.121T English, 51.111 History I, 52.111 Philosophy I, 53.121 Sociology IT, 54.111 Political Science I, 56.111 French I, 64.001 German IZ, 64.111 German I, 65.001 Spanish IZ, 65.111 Spanish I, 57.211 Drama I, 59.111 Russian I, 62.111 History and Philosophy of Science I.

- (vi) If the elective is chosen in accordance with the provisions set out in Section B (Substitution of Arts subjects for General Studies) of the Calendar, the completion of the subject will satisfy the requirements of two general studies subjects of which four must be completed prior to Year 6. Alternatively, two general studies subjects may be taken in lieu of the elective.

Years 2 and 3—Pre-clinical

After enrolment in second year, students receive full-time instruction in the subjects of the pre-clinical and clinical courses. Final examinations in each of the three subjects in second year are held at the end of second year. There is an examination in Medical Statistics and Human Genetics during the midyear recess, and examinations in each of the other six subjects taught in third year.

YEAR 2

Hours per Week for 2 Sessions

41.121 Biochemistry	3	—	5
70.111 Human Anatomy	0†	—	12*
General Studies Elective	1	—	$\frac{1}{2}$
	<hr/>		
	4	—	17 $\frac{1}{2}$

* This period includes dissecting room instruction, demonstrations and tutorial classes in topographical, living, and radiological anatomy.

† There will be an occasional lecture in anatomy.

YEAR 3

Hours per Session

		SESSION 1		SESSION 2	
		Lec.	Other	Lec.	Other
12.131 Psychology*	28	9	27	10
44.211 Microbiology	42	15	28	42
72.211 General Pathology	14	20	28	28
73.111 Physiology	70	84	37	64
73.211 Pharmacology	14	0	28	9
78.111 Medical Statistics and Human					
Genetics	28	28	0	0
General Studies Elective*	14	7	14	7
		<hr/>		<hr/>	
		210	163	162	160

* 26.121 Psychology may not be taken as a general studies elective by medical students.

Allocation to Hospitals

At the end of Year 3, students are asked to list their preferences regarding assignment to teaching hospitals. This, together with the student's term address, sex, and academic record, is taken into account in the final allocation which is made after the Year 3 examinations. A student representative is a member of the committee which makes the allocations.

The Clinical Years (Years 4, 5 and 6)

The clinical curriculum includes instruction in medicine, surgery, obstetrics and gynaecology, paediatrics, psychiatry, pathology and human genetics.

These subjects will be taught largely in the teaching hospitals of the University. Instruction will be chiefly by bedside teaching and tutorials. Active student participation will be ensured by arranging for all students to serve as clinical clerks for a period of some two years.

The three clinical years are each made up of four terms. With the exception of the first and third terms of fourth year, which are of eight weeks' duration, all terms are of ten weeks. The amount of rostered time will be restricted to not more than 27 hours each week. This should allow at least one half-day of free time each week. In addition, electives may be offered in the final two years of the course.

YEAR 4

		Hours per term			
		Term 1 (8 weeks)	Term 2 (10 weeks)	Term 3 (8 weeks)	Term 4† (10 weeks)
		Lec. Other*	Lec. Other*	Lec. Other*	
71.111	Introductory Medicine including Applied Pharmacology, Parasitology and Tropical Medicine	18 — 48	60 — 60	40 — 36	
72.091	Clinical Laboratory Methods	0 — 0	0 — 0	0 — 25	
72.111	Pathology	30 — 30	35 — 40	36 — 8	
74.111	Introductory Surgery	0 — 0	0 — 40	0 — 36	
75.111	Introductory Obstetrics & Gynaecology	10 — 0	0 — 0	0 — 0	
76.111	Introductory Paediatrics	16 — 0	0 — 0	0 — 0	
77.111	Introductory Psychiatry	18 — 0	0 — 0	0 — 0	
	General Studies Elective	42 hours spread over four terms (if not otherwise completed)			

*Includes tutorials, laboratory work and, where applicable, tutorial time in wards and clinics

†In Term 4 in Year 4 students enter the first blocks of clinical teaching as shown hereafter under "Block Teaching Arrangements".

BLOCK TEACHING ARRANGEMENTS

Year 4 (Term 6) to Year 6

Under these arrangements the syllabus will not be fragmented, but instead individual fields will be compacted to form blocks of teaching, and in place of studying a number of subjects concomitantly, students will concentrate on one subject for a whole term. For this purpose, on entering Term 4 in fourth year, students will be allocated to a particular group—Group A, B, C, or D—and will follow the programme of that group for four terms. On entering Term 5.4 another cycle of activities will be pursued.

A teaching block will consist of all working days except Wednesday mornings in a ten-week term.

The following should be noted:

1. Students will be required to attend autopsy demonstrations totalling 40 hours during Fifth and Sixth Years.
2. Residency periods will be offered in each of the clinical subjects.
3. Electives may be offered.

TEACHING BLOCKS

GROUP	A.	B.	C.	D.
Term 4.4	Medicine	Surgery	Paediatrics	Psychiatry
Term 5.1	Paediatrics	Psychiatry	Medicine	Surgery
Term 5.2	Surgery	Paediatrics	Psychiatry	Medicine
Term 5.3	Psychiatry	Medicine	Surgery	Paediatrics
Term 5.4	Medicine	Surgery	Obstetrics & Gynaecology	Residency*
Term 6.1	Surgery	Obstetrics & Gynaecology	Residency*	Medicine
Term 6.2	Obstetrics & Gynaecology	Residency*	Medicine	Surgery
Term 6.3	Residency*	Medicine	Surgery	Obstetrics & Gynaecology
Term 6.4	Final Re-vision and Examination	Final Re-vision and Examination	Final Re-vision and Examination	Final Re-vision and Examination

*Subject to the approval of the clinical school involved, an elective may be taken in any of the clinical terms.

BACHELOR OF SCIENCE (MEDICINE)

Conditions for the Award of the Degree

The following conditions have been approved for the award of the degree of Bachelor of Science (Medicine)—BSc(Med):

- (i) medical students may enrol for the degree of Bachelor of Science (Medicine) in one of the following subjects of the medical curriculum:
Anatomy, Biochemistry, Human Genetics, Microbiology, Pathology, Pharmacology or Physiology;
- (ii) the student's performance in the subject of his choice shall have been of a high standard and the student may register as a candidate for the degree, subject to the permission of the Head of the School concerned;
- (iii) enrolment may be effected at the end of the third year or at the end of the third or fourth term of the fourth year in any of the above subjects, but students intending to enrol in the subjects Anatomy or Biochemistry may lodge applications at the end of the second year of the course.
- (iv) the course in each subject shall be a special course designed to introduce the student to research in the particular discipline and shall consist of such formal and special work and such examinations as the Head of the School shall prescribe;
- (v) the award upon completion of the course shall be Bachelor of Science (Medicine) Honours Class I, Honours Class II, Division I, Honours Class II, Division II or pass level; if the performance of the student has been unsatisfactory, no award shall be made;
- (vi) the duration of the course shall be one year;
- (vii) a student may qualify for the award of the degree of Bachelor of Science (Medicine) at the conclusion of such year.

THE TEACHING HOSPITALS

Medical students in the clinical years (Years IV-VI) receive most of their instruction in the teaching hospitals of the University.

The Prince Henry-Prince of Wales-Eastern Suburbs complex.—The hospitals are on different sites but function and are staffed as one unit. Altogether they have 1,405 beds, and 195,000 out-patient attendances annually

General medicine, surgery, diagnostic radiology, radiotherapy, anaesthetics, paediatrics, psychiatry and rehabilitation are taught.

St. Vincent's Hospital has 650 beds and 157,000 out-patient attendances annually.

Instruction is provided in medicine and tropical medicine, surgery, cardio-thoracic medicine and surgery, endocrinology, clinical pharmacology, surgery, psychiatry, diagnostic radiology, radiotherapy, anaesthetics and pathology.

The St. George Hospital has 537 beds and 120,000 out-patient attendances annually.

Medicine, surgery, obstetrics and gynaecology, psychiatry, anaesthetics and clinical haematology are taught.

Sutherland, Canterbury, Bankstown and Lewisham Hospitals are four associated teaching hospitals and are linked with the principal hospitals (above) for residential teaching and training.

The Royal Hospital for Women has 240 beds and 41,000 out-patient attendances annually.

It is the headquarters for the teaching of obstetrics and gynaecology.

Callan Park.—Some instruction in psychiatry is given at this hospital.

DESCRIPTIONS OF SUBJECTS

SCHOOL OF PHYSICS

1.061 Physics IM

A terminating subject taken only by students in the Faculty of Medicine.

Mechanics I Kinematics. Centripetal acceleration. Newton's laws of motion. Momentum. Impulse. Work, energy and power. Friction. Conditions of equilibrium.

Wave Motion Simple harmonic motion. Equation of wave motion. Longitudinal and transverse waves. Sound waves. Superposition of waves. Energy current. Stationary waves. Resonance. Beats, Doppler effect.

Optics Electromagnetic spectrum. Huygens' wave principle, reflection, plane and spherical mirrors. Refraction. Lenses. Dispersion. Aberrations. Optical instruments. Interference. Diffraction. Resolution. Grating. Plane polarized light.

Properties of Matter Hydrostatics. Pressure. Pascal's and Archimedes' principles. Hydrodynamics. Bernoulli's theorem. Viscosity. Surface tension. Elasticity. Young's bulk and shear moduli. Poisson's ratio.

Electrostatics, Electromagnetism, and D.C. Circuits Coulomb's law. Electric field and potential capacitance. Electric energy sources. Conductors. Resistivity. Atomic view of conduction. E.M.F. Kirchhoff's Laws. Magnetic induction. Torque on a coil in magnetic field. Moving coil meters. Wheatstone's bridge. Potentiometer. Faraday's Law. Transient circuits.

A.C. Circuits Series LRC circuits. Reactance and impedance. Power factor. Phase amplitude diagram and complex notation. Series and parallel resonance. Transformer. A.C. instruments.

Electronics Diode as rectifier. Filters. Triodes, and triode parameters. Load line. Triode as amplifier and oscillator. Transistor amplifier. Instruments.

Biophysics Radioactivity, detectors, radioisotopes. Radiation, radiation biology. X-ray methods, structure of macromolecules. Mechanical and electrical properties of muscle. The nerve impulse.

TEXTBOOKS

Dunlop, J. I., & Mann, K. *Introductory Electronics*. Clarendon.

George, E. P. *Biophysics*. N.S.W.U.P.

SCHOOL OF PSYCHOLOGY

12.131 Introductory Psychology

Designed to provide medical students with a basic understanding of the psychological make-up of patients as persons. The psychological processes of learning, motivation and information processing, the nature of individual differences, and the social forces shaping patients' behaviour. The psychological consequences of illness for the patient. The professional psychologist's special skills which may be drawn on by the medical practitioner.

REQUIREMENTS FOR PRACTICAL WORK

A list of equipment required for practical work will be posted on the notice board in the ground floor of the Biological Sciences Building. Students must purchase this material *before* the first practical class.

SCHOOL OF BIOCHEMISTRY

41.121 Biochemistry

Is aimed at preparing the preclinical student for his later clinical studies. It is seen as part of the overall course which by the end of third year, together with Anatomy and Physiology, gives the student a background of

human biology on which to build his later studies of human disease and the practice of medicine and surgery. The principal topics to be covered are as follows:

Physical and chemical properties and functional roles of the principal biological constituents of man. Enzymology, energetics, metabolism of principal cell constituents in the organs and tissues of man, multicellular organization, metabolic and hormonal regulation and whole body metabolism. The biochemistry of body fluids and specialized tissues. Energy storage in man, whole body metabolic economy and nutrition. Practical work to illustrate the lecture course.

SCHOOL OF MICROBIOLOGY

44.211 Microbiology

Treatment and prevention of human disease caused by microorganisms (bacteria, viruses and fungi) is a major responsibility of the medical practitioner.

The course in Microbiology is designed to provide an understanding of all aspects of interactions between the host and the parasite. The outcome of these interactions determines the nature of a disease process. As a starting point basic structure, growth, physiological activity and genetic characteristics of bacteria, viruses and fungi are considered. It is then possible to discuss the means by which these microorganisms exist in association with man and his environment, the ways in which they gain access to tissues and produce disease and the nature of their responses to a wide variety of physical, chemical and antibiotic agents which interrupt their normal function.

Understanding microbial behaviour is only half-way to appreciating the nature of a microbial infection, for the animal (and human) body may respond in many ways to microbial invasion and multiplication. These aspects are considered within the context of a general discussion on Immunology in which the basis of cellular and humoral reactions of animals to foreign agents is considered. A background knowledge of this subject is not only important in understanding microbial disease but also in applying its basic principles to treatment and prevention of specific diseases. This course also serves as an introduction to other medical problems in which immunological phenomena are of primary importance, e.g. allergy, auto-immune diseases and organ transplantation.

With the development of specialization in medicine and the increase in the scope of diagnostic services, it is becoming less important for medical students or practitioners to become experienced in the techniques of laboratory diagnosis. Nonetheless, it is essential that they should understand how the clinical microbiologist and the service he offers can assist in diagnosis and treatment of disease. Only a small proportion of microbial infections can be diagnosed clinically while a smaller proportion can be universally treated by a standard procedure; for the rest, the clinical microbiologist must serve as an essential member of the medical team. The results he obtains in the laboratory often establish or confirm a clinical diagnosis; his findings will usually determine the nature of treatment and may be used to judge its success or failure. His counterpart in the public health field is essential in establishing the existence of infectious (transmissible) disease, its epidemiological characteristics and most appropriate means of prevention. It is an important role of the Microbiology course to demonstrate how these services can be used and, more importantly, to understand the significance of laboratory findings in so far as their application to clinical situations is concerned. Without this background it is unlikely that the medical practitioner will be able to offer the full advantages of modern medical practice to his patients.

Weir, D. M. *Immunology for Undergraduates*. 2nd ed. Livingstone, 1971. (\$2.50)

SCHOOL OF ANATOMY

70.111 Human Anatomy

The Anatomy course provides the student with a grounding in and an understanding of the macroscopic structure, microscopic structure and development of the human body. Function is emphasized in relation to structure throughout the course in an attempt to present the anatomical basis for future understanding of the human body in both health and disease. An important part of the course is the study, in relatively small

tutorial groups. of pre-dissected specimens. The information gained is reinforced by concurrent study of radiological anatomy and living anatomy. During tutorial sessions the student is introduced to elements of routine physical examination and uses standard instruments for the examination of the eye, ear, nose and throat. Lectures and laboratory study in the microscopic examination of the basic tissues and organ systems relates function to structure at the microscopic level. Instruction in the development of organ systems is synchronised with relevant gross and microscopic anatomy. A course in functional neuroanatomy is presented in which the macroscopic and microscopic structure of the central and peripheral nervous systems are studied.

Craigmyle, M. B. L. *Embryology*. Balliere, Tindall & Cassell, 1966. (\$5.00)

ESSENTIAL EQUIPMENT

Three long white coats exclusively for use in the School of Anatomy.

Instruments: Two pairs of 5" dissecting forceps.

One disarticulated half-skeleton. This may be purchased through the School of Anatomy by arrangement.

SCHOOL OF MEDICINE

71.111 Introductory Medicine

The objective of this course is to acquire a level of knowledge and competence in information-gathering skills so as to be able to develop rapport with patients, obtain and record a history, systemically examine patients and understand the correlation of symptoms and normal and abnormal physical signs with patho-physiology. The course consists of: a) a lecture course on the campus (4.1 to 4.3); b) tutorials and demonstrations in the wards at hospital, designed to illustrate the symptomatology of disease, the mode of production of symptoms and the essentials of physical examination.

71.112 Medicine and Therapeutics

The object of this course is to develop further skill in history taking, physical examination, diagnosis and treatment of disease, so as to be able to understand and state concisely the problem in an individual patient. Equally strong emphasis is placed on the pathologic physiology, the mode of production of symptoms and signs and the manner in which these are modified by therapeutic agents. The clinical clerkship is supplemented by a course of lectures, seminars and tutorials on important topics and attendance at post-mortem examinations. There will be a residency period during which students will be expected to participate as fully as possible in the clinical work of the hospital. The emphasis throughout the course is on insight into the mechanisms of common diseases, their diagnosis and treatment. Students will be expected to have a lively interest in the preventative social, environmental, genetic and personality factors in disease processes.

TEXTBOOKS

As for 71.111 Introductory Medicine

SCHOOL OF PATHOLOGY

Teaching in Pathology begins in Third Year with *General Pathology* dealing with the principles and mechanisms of disease processes, as well as the effects of these processes on the structure and function of tissue. Against this background, *Pathology* in Fourth Year deals with the effects of the main disease processes on the various anatomical effects of the main systems of the body (systemic pathology). In the third term of Fourth

Year a short course on Clinical Laboratory Methods is organized by the School of Pathology, with participation by staff from various Schools of the Faculty. For the remainder of the Medical Course, teaching in Pathology is integrated with Medicine, Surgery, Obstetrics and Gynaecology, and Paediatrics. Students should attend autopsy demonstrations totalling forty hours during Fifth and Sixth Years.

72.211 General Pathology

A course in Third Year of 90 hours of lectures, seminars, tutorials on gross pathology, and practical classes on histopathology and experimental pathology. The course covers:

Cell degeneration and necrosis: Acute and chronic inflammation, including the inflammatory response and its causes, *Healing and repair, regeneration, hypertrophy, hyperplasia and metaplasia.* *Disorders of circulation:* circulatory failure, haemorrhage, shock, thrombosis embolism and infarction. *Neoplasia:* the biology of the neoplastic cell, causes and effects of neoplasia. *Immunopathology:* the principles and disorders of the immune response.

72.091 Clinical Laboratory Methods

A course of 25 hours of practical classes in the Third Term of Fourth Year. The course includes:

(1) Estimations of haemoglobin, packed cell volume, erythrocyte and leucocyte counts, reticulocyte count, erythrocyte sedimentation rate. Preparation and examination of blood films in health and haematological disorders. Examination of bone marrow films. (2) Blood grouping and blood transfusion procedures, including the Coombs test. (3) Examination of urine (biochemical, cytological and microbiological), cerebro-spinal fluid, faeces, as well as blood and faeces for parasites. This course is given in Fourth Year Medicine.

Eastham, R. D. *Biochemical Values in Clinical Medicine*. Wright, Bristol. (\$3.65)

SCHOOL OF PHYSIOLOGY AND PHARMACOLOGY**73.111 Medical Physiology**

The course in physiology is designed to give the student an overall understanding of the functioning of the body. The various systems are studied individually with an emphasis on the aspects likely to be of importance to the student in his subsequent studies of disordered function. Stress is also laid on the fundamental principles and on the lines which future development of the subject may follow. The course is primarily in human and mammalian physiology but important principles are illustrated by study of lower forms where appropriate.

The subject is presented in several ways. Systematic lectures and prescribed reading are designed to give a general coverage of the field. Practical classes are given in which the student can carry out human and animal experiments. These show the experimental and living nature of the subject, and introduce the students to the use of recording and analytical apparatus. With the increasing use of physiological monitoring and investigation in hospitals, the practical work is a valuable part of both the medical and scientific training of the student. Finally, at appropriate stages, clinical demonstrations are given to indicate the relevance of the physiological principles in the understanding of diseased states.

The topics covered include the following:

Blood: Function of blood plasma; development and function of red cells, white cells, and platelets; blood coagulation; blood groups and principles of blood transfusion. *Circulation:* Physical principles of flow of blood; fluid flow in arteries, capillaries, veins, and lymphatic vessels; the arterial and venous pulse; properties of heart muscle; the cardiac cycle; nervous and humoral control of heart and blood vessels; the coronary circulation. *Respiration:* Subdivisions of lung volume; ventilation of the lungs; exchange of gases between alveoli and blood in the lungs; carriage of oxygen and carbon dioxide by the blood; pulmonary circulation and ventilation/perfusion ratios in the lung; pulmonary mechanics; nervous and chemical control of respiration. *Kidney and Body Fluids:* Functional anatomy of the nephron; filtration of plasma at the glomerulus; transport in renal tubules; overall regulation of volume and composition of body fluids. *Gastro-intestinal Tract:* Principles of regulation of food intake; ingestion, digestion, and absorption of food constituents; secretion and motility in the digestive tract; deglutition and vomiting; role of liver in metabolic processes. *Nervous System:* Electrical characteristics of the nerve cell and fibre; conduction in nerve fibres; transmission of nerve impulses; muscular contraction; organization in the spinal cord; sensory perception and organs of special sense; control of posture and movement; functional importance of regions of the brain; higher functions of the nervous system. *Endocrinology and Reproduction:* Nature and action of hormones of thyroid, pituitary, adrenal and parathyroid glands; control of carbohydrate metabolism; actions of the sex hormones; the menstrual cycle; pregnancy; lactation; production of sperm and seminal fluid in the male; central role of anterior pituitary and hypothalamus in control of endocrine glands.

TEXTBOOK

Guyton, A. C. *Textbook of Medical Physiology*. 4th ed. Saunders, 1971. (\$18.50)

73.211 Medical Pharmacology

An extension of the application of physiological principles to the study of drugs. Emphasis is placed on the general principles of drug actions with particular reference to those drugs of clinical importance. Topics covered include the absorption, distribution, biotransformation and excretion of drugs. This is followed by consideration of the more important

classes of drugs including those affecting the autonomic and central nervous systems, the cardiovascular system and diuretics. Methods of screening new compounds for pharmacological activity and the principles of conducting clinical trials are also discussed.

TEXTBOOK

Goth, A. *Medical Pharmacology*. 5th ed. Mosby, 1970. (\$18.15)

SCHOOL OF SURGERY

74.111 Surgery

Extends through Years 4, 5 and 6. Sets out to provide a sound knowledge and understanding of common surgical conditions, with the emphasis on clinical experience rather than didactic teaching. In year 4, there are tutorials in history-taking and the elicitation of physical signs. During Years 5 and 6 students spend periods fully engaged in the clinical activities of general surgical units. They also have clinical experience and tutorial instruction in most of the specialized aspects of surgery, including anaesthesia. Further practical experience is provided, particularly in acute surgery, during the period of associated hospital residency.

SCHOOL OF OBSTETRICS AND GYNAECOLOGY

75.111 Obstetrics and Gynaecology

In *normal obstetrics*, the physiology of pregnancy, labour and the puerperium will be covered by lectures, tutorials and demonstrations. Special emphasis will be placed on developing the cognitive, affective and psychomotor skills in those areas of the course considered important and relevant for the future practice of obstetrics and gynaecology, and these skills will be developed by planned instruction during which students will deliver infants, examine and manage patients under supervision and assist in provision of health care to the patient. Ten hours of introductory lectures will be given in fourth year.

Abnormal Obstetrics. During the obstetrical and gynaecological term in late fifth year and sixth year, all students will spend a minimum of five weeks in residence. Students will attend daily teaching rounds, outpatient departments, tutorials and labour ward where they will present to and discuss with their teachers the histories, clinical features, diagnosis and management of patients in their wards and clinics.

Gynaecology will be taught concurrently with obstetrics in fifth and sixth years by means of a series of tutorials, clinico-pathological conferences, outpatient demonstrations and clinical clerking.

Revision. In the elective term in fifth and sixth years, students will undertake clinical clerking in obstetrics and gynaecology for two weeks.

SCHOOL OF PAEDIATRICS**76.111 Paediatrics**

Normal growth and development are taught during the first term of fourth year, including emotional and physical aspects of development. In fifth year one term is devoted to paediatric medicine and surgery including studies of social aspects of paediatrics, and the prevention of disease and accidents. There is emphasis on clinical clerking both on inpatients and outpatients. Approximately one-quarter of the time is spent in residence. During the sixth year studies in newborn physiology and disease are commenced during the obstetrics term.

SCHOOL OF PSYCHIATRY

77.111 Psychiatry

A brief introduction to the principles of psychiatry is given in the first term of fourth year.

In the final term of fourth year and the first three terms of fifth year each of four groups of students receives clinical instruction for one term. The main topics include psychiatric examination, mental sub-normality, psychoneuroses, psychopathy, affective disorders, schizophrenia, alcoholism and drug addiction, mental illness associated with brain disease, epilepsy, ageing and the mental disease of the aged, psychotherapy, psychopharmacology, methods of physical treatment, and sociotherapy. Revision in fourth term of sixth year.

A period of residence is provided and visits are arranged to community psychiatric services.

SCHOOL OF HUMAN GENETICS

78.111 Medical Statistics and Human Genetics*(i) Human Genetics.*

An elementary course in which the following topics are considered: Genic action, single gene inheritance, multifactorial inheritance, genetics of populations, twin studies, mutations, radiation effects on gene material, environmental modification of genetic expression, selection in relation to genetic constitution. The lectures will be illustrated by clinical demonstrations.

(ii) Medical Statistics. The course, which is concerned with the collection and interpretation of biological and medical data, introduces the following topics: Sample selection, presentation of data by means of diagrams and descriptive measures, estimates and tests of significance relating to averages, proportions, contingency tables and correlation, and problems of statistical inference in medicine.

PUBLIC HEALTH AND SOCIAL MEDICINE**79.111 Public Health and Social Medicine**

This course is under review at present.

DEPARTMENT OF GENERAL STUDIES

Details regarding courses offered by the Department of General Studies may be found in their handbook which is available free of charge.

SCHOLARSHIPS

Commonwealth Scholarships

Students enrolling in the medical course are eligible to apply for the award of a Commonwealth Scholarship in accordance with the rules laid down under the Commonwealth Scholarship Scheme. Benefits include payment of all tuition fees and other compulsory University fees; a living allowance is also payable if the applicant satisfies a means test. The closing date for applications is September 30 in the year immediately preceding that for which the scholarship is desired. Applications for renewal of scholarships must be made before October 31 each year. Full particulars and application forms may be obtained from the Department of Education and Science, La Salle Building, 70 Castlereagh Street, Sydney, 2000. (Telephone 2-0323.)

University Scholarships

The University annually awards up to fifteen scholarships tenable in degree courses to students who have matriculated at the Higher School Certificate Examination; ten scholarships to students who have completed certificate courses (Department of Technical Education); ten scholarships to students who have completed Trade Courses (Department of Technical Education); and ten scholarships to part-time students who have taken the Diploma Entrance course of the Department of Technical Education. The scholarships are tenable in any faculty and exempt the holder from payment of course fees during the currency of the scholarship. Scholarships will be awarded in order of merit on Higher School Certificate Examination results. They may be held only by persons who do not hold another award. Applications must be lodged within seven days of the publication of the award of Commonwealth University Scholarships.

National Heart Foundation of Australia Undergraduate Medical Research Scholarships

The National Heart Foundation offers a number of Vacation Scholarships designed to give selected undergraduates an opportunity to participate during the Summer Recess in research projects, broadly related to cardiovascular function and disease. The scholarships are valued at \$30 per week and are tenable for four to eight weeks during the vacation.

Applications should be made by letter to the Registrar, P.O. Box 1, Kensington, N.S.W. 2033.

National Health and Medical Research Council Scholarships

The National Health and Medical Research Council offers a number of scholarships annually to students entering the Bachelor of Science (Medicine) course. The scholarships have a value of \$260-\$400 and may be held concurrently with a Commonwealth Scholarship.

The Asthma Foundation of New South Wales

The Board of the Asthma Foundation of New South Wales has made available the sum of \$1000 to support undergraduate work broadly related to asthma. This could take the form of vacation or BSc(Med) scholarships.

PRIZES

FIELD	TITLE	VALUE	QUALIFICATIONS
GENERAL	The Wallace Wurth Prize for general proficiency at graduation.	\$200 annually	Awarded to the final year student who at graduation has shown the highest general proficiency throughout the course.
SURGERY	The Graduation Prize for surgery.	\$100 annually	Awarded to the best student in surgery in the sixth year.
ANATOMY	The Prize in Practical Anatomy.	\$30 annually	Awarded to the second year student who most excels in practical anatomy (including Radiological Anatomy).
OBSTETRICS and GYNAECOLOGY	F. J. Browne Memorial Prize for Obstetrics and Gynaecology.	\$50 annually	Awarded to student with highest standing in the final written and practical examinations in obstetrics and gynaecology.
OBSTETRICS and GYNAECOLOGY	The Gordon Lowe Memorial Prize in Clinical Obstetrics and Gynaecology.	\$50 (approx.) annually	Awarded to final year student for general proficiency in the clinical and oral examination in obstetrics and gynaecology.

FIELD	TITLE	VALUE	QUALIFICATIONS
OPHTHALMO- LOGY	The Australian College of Ophthalmologists' prize.	\$50 annually	Awarded to final year student for best essay on a nominated ophthalmological subject.
GENERAL MEDICINE	The Medical Staff Association prize.	\$100 annually	Awarded to final year student for best general proficiency in the clinical years.
MEDICINE	The W. G. Telleson Memorial Prize in Medicine.	At least \$31.50 annually	Awarded to the best fourth year student in medicine.
	Royal Australian College of General Practitioners.	\$50.00	Medicine, Year VI—Essay.
PRE-CLINICAL	The Prince of Wales Hospital Ladies' Auxiliary prize.	\$100 annually	Awarded to third year student for general proficiency in the second and third years of the medical course.

STUDENT ACTIVITIES

STUDENT REPRESENTATION ON FACULTY

A three-year trial period of student membership of faculties has been adopted by the University Council.

The resolution provides for one student member for every 500 registered students in a faculty, the minimum number per faculty being three.

Both degree and postgraduate diploma students are to elect the representatives, and where possible the members elected are to include at least one undergraduate and one higher degree or postgraduate diploma student.

Selection of student members will be by direct vote.

THE UNIVERSITY OF NEW SOUTH WALES MEDICAL SOCIETY

The Medical Society is the representative body of the medical students of the University. Its function is to provide amenities and social stimulation and so contribute to giving the student a sense of belonging to the faculty. The official body representing the Society consists of: a president, two vice-presidents, a secretary, a treasurer, and year representatives. The existence of two vice-presidents means that both clinical and pre-clinical groups of students are represented.

Among the social functions held annually are the med. dinner, the annual ball, and for the sake of 1st year students the orientation orgy.

The medsoc shop is a major facility provided by the Society. White coats and instruments may be bought cheaply, and second-hand books are on display. The shop is situated on the top floor of the Wallace Wurth School of Medicine at the back of the Pathology museum.

Other amenities include the production of a quarterly magazine, *Anal Colic*, to which students are asked to contribute in the way of articles, and more importantly in letters to the editor. An annual magazine, *Nungari*, is also produced and sent to medical schools throughout Australia as well as to the National Library in Canberra.

STUDENT SERVICES

THE LIBRARY

The University Library is located on the Upper Campus adjacent to the Chancellery, the Commerce Building and the Arts Building.

The Library's Undergraduate Collection covers the teaching and research interests of the Faculty, and students are expected to read widely and critically from it.

It is recommended that students attend the *Introduction to the Library* which is held at advertised times during Orientation Week and the first week of term. The *Introduction* uses audio-visual aids to describe the physical layout of the undergraduate library and the services available to readers.

Copies of the booklet *Guide to the Library* are available on request.

Students who are interested in a subject approach to information may attend a course which outlines methods of searching for information in libraries. This course runs for eight hours over a period of one week.

Individual assistance for readers with specific library problems is provided by the *Reader Assistance Unit* which is located in the foyer.

The Biomedical Library

The Biomedical Library system, which is an integral part of the University Library, provides library services for the Faculties of Medicine and the Biological Sciences. It is composed of the Central Biomedical Library, which is situated on the 6th floor of the Biological Sciences building, and the libraries in the Teaching Hospitals.

Medical students generally use the Biomedical Library in the second and following years of their courses. Library services for first year medical students are provided by the Main University Library.

Instruction is offered early in the year to second year medical students in the general use of the library, and at appropriate times to senior medical students in the use of medical indexes for research. The facilities of the Biomedical Library are described in pamphlets available at the library desk and in the booklet *Guide to the Library*.

At present because of lack of room for expansion, the Biomedical Library cannot at various times seat all the students who may wish

to study there. Alternative study areas have been provided in schools located in the Biological Sciences and Wallace Wurth Medical Buildings. Details of these alternative study areas are prominently displayed in the Biomedical Library.

THE STUDENTS' UNION

The Students' Union was formed in 1952 as an organization, duly recognized by the University Council, to represent the student body and to provide a central organization for the administration of student activities. In the words of its constitution, "The Union is formed for the purpose of advancing the interests of University men and women, facilitating their general scientific and technical education, and fostering a University spirit among them".

The Union affords a recognized means of communication between the student body and the University authorities, and represents its members in all matters affecting their interests. It aims to promote the cultural, educational and recreational life of the University and to encourage a permanent interest among graduates in the life and progress of the University.

Membership of the Union is compulsory for all registered students of the University and is open to graduates of the University and to members of its academic staff. The annual subscription is \$7.

The Union is governed by a Council consisting of student representatives from the various faculties of the University, representatives of Life Members, overseas students, and of the University and the Sports Association. The Council is elected annually.

THE SPORTS ASSOCIATION

The Sports Association is a student organization within the University, and it caters for a variety of competitive sports for both men and women.

In December 1952 the University Council approved the establishment of the Sports Association which consisted of five clubs. As the University has grown, the Association has expanded, and today includes over thirty clubs.

The controlling body of the Association is the General Committee which consists of a President, Secretary, Treasurer, eight Vice-Presidents and two delegates from each of the affiliated clubs.

Membership of the Association is compulsory for all registered students, and the annual subscription is \$4.

STUDENT CLUBS AND SOCIETIES

Students have the opportunity of joining a wide range of clubs and societies. Affiliated with the Students' Union are the School and Faculty associations, and the numerous religious, social and cultural clubs. There are also many sporting clubs (33) affiliated with the Sports Association.

Clubs and societies seeking to use the name of the University in their title, or seeking University recognition, must submit their constitutions either to the Students' Union or the Sports Association if they wish to be affiliated with either of these bodies, or to the Registrar for approval by the University Council.

THE UNIVERSITY UNION

The University Union, housed in the circular building and joined by a courtyard to an adjacent rectangular building, is located near the entrance to the Kensington campus from Anzac Parade. The third building in the Union complex was completed in 1971. Membership of the Union is compulsory for all registered students of the University and is also open to all members of staff and graduates of the University.

The full range of facilities provided by the Union includes a cafeteria service and other dining facilities, a large shopping centre, cloak room, banking and hairdressing facilities, showers, a women's lounge, common, games, reading, meeting, music, practice, craft and dark rooms. Photocopying, sign printing, and stencil cutting services are also available.

The Union also sponsors and conducts courses in many facets of the arts including weaving, photography, creative dance and yoga.

STUDENT ACCOMMODATION RESIDENTIAL COLLEGES

The Kensington Colleges

Accommodation for students is provided within the group of The Kensington Colleges which comprise Basser College, Goldstein College and Philip Baxter College. The group houses 450 men and women students, as well as staff members. Tutors in residence provide tutorial assistance in a wide range of subjects.

Board and residence fees, which are payable on a session basis, amount to \$308 per session. Intending students should apply in writing to the Master, Box 24, Post Office, Kensington, N.S.W. 2033, from whom further information is available.

International House

International House accommodates over 110 students of whom half are Australian; the remaining half is made up of students from some 20 different countries. First-year students who have come to the University straight from school are not eligible for residence because preference is given to mature undergraduates and postgraduate students. Fees are \$23.50 per week.

Students should apply as soon as possible if they wish to reside at International House at a later date. They should write to the Warden, International House, Box 88, Kensington, N.S.W. 2033, for information.

New College

This Church of England College is the first of the independent Colleges on the Campus of the University. There are no religious tests, and accommodation is available for 210 men in single study-bedrooms. Fees are \$25 per week.

Enquiries should be addressed to the Master, New College, Anzac Parade, Kensington, N.S.W. 2033.

Warrane College

This College, an affiliated Roman Catholic residential college, was completed in 1970, and provides accommodation for 200 students and fourteen resident tutors.

Basic fees are \$24 per week for board and residence, payable on a session basis, and a registration fee of \$20. Intending students should write to The Master, Warrane College, Box 123, P.O., Kensington, N.S.W. 2033.

The Jewish College

The Jewish College will provide accommodation for 86 men and women students when it is ready for occupation in 1973. The basic fee for residents will be \$28 a week. Non-resident membership will be available to students who wish to avail themselves of the Kosher dining room and tutorial facilities.

Applications for residence and further information should be addressed to The Master, The Jewish College, The University of New South Wales, Box 1, P.O., Kensington, N.S.W. 2033.

Other Accommodation

Students requiring other than Residential College accommodation may make personal application to the Housing Officer (Extn. 3260) at the Student Amenities Unit. Current lists are kept of accommodation available at recognized boarding houses, private homes, and in serviced and unserviced apartments.

STUDENT HEALTH UNIT

A student health and first aid centre is situated within the University. It is staffed by two qualified medical practitioners, assisted by a nursing sister and secretary. The medical service, although therapeutic, is not intended to replace private or community health services. Thus, where chronic or continuing conditions are revealed or suspected, the student is referred to a private practitioner or to an appropriate hospital for specialist opinion and/or treatment. The health service is not responsible for fees incurred in these instances. The service is confidential and students are encouraged to attend for advice on matters pertaining to health.

The service is available to all enrolled students by appointment, free of charge, between 9 a.m. and 5 p.m. Mondays to Fridays, and additionally to part-time students from 6 p.m. to 8 p.m. on Tuesdays and Thursdays during session. For staff members, immunizations are available, and first aid services in the case of injury or illness on the campus.

The centre is located in Hut E on the northern side of the campus in College Road.

Appointments may be made by calling at the centre or by telephoning extension 2679 or 3275 during the above hours.

STUDENT COUNSELLING AND RESEARCH UNIT

The Student Counselling and Research Unit offers a free, confidential counselling service to help students, individually or in groups, to deal with problems, and to make plans and decisions associated with their personal, academic, and vocational progress.

Interviews, and group programmes, are available between 9 a.m. and 8 p.m. each week-day. Appointments may be made at the Unit, which is located at the foot of Basser Steps, or by ringing 663-0351, extensions 2600-2605 between 9 a.m. and 5 p.m.

STUDENT EMPLOYMENT UNIT

The Student Employment Unit offers assistance with career employment for final year students and graduates of the University. This service includes the mailing of regular job vacancy notices to registered students and a campus interview programme for final year students. Careers advice and assistance is also available to undergraduates. Assistance is offered in finding vacation employment which gives either course related experience or industrial training experience

where this is a course requirement. Information and advice regarding cadetships, undergraduate and postgraduate scholarships is also available.

The Service is located in the Chancellery on the ground floor.

Telephone: 663-0351, ext. 3259 for employment and careers advice, or 663-0351, ext. 2086 for cadetships and industrial training information.

STUDENT AMENITIES UNIT

The Amenities Unit is concerned with student welfare and its activities are associated with sport and recreation, travel and student accommodation. It works in close liaison with the Sports Association, assisting the various clubs, and administers sporting facilities for both grade and social competitions. The Unit also has the added responsibility of the Physical Education and Research Centre where attractive recreational programmes for students and staff are provided. Concessional application forms for all types of travel may also be obtained at the Enquiry Desk in the Chancellery or at the Student Amenities Unit. A Housing Officer is also available to assist students with any off-campus accommodation problems.

Location: The Student Amenities Unit is located in Hut B at the foot of Basser Steps.

Telephone: 663-0351, Extension

Centre

3261 Travel

3260 Accommodation

PHYSICAL EDUCATION AND RECREATION CENTRE

The Physical Education and Recreation Centre consists of eight squash courts and a main building. The latter has a large gymnasium and ancillary practice rooms for fencing, table tennis, judo and weightlifting. The Supervisor of Physical Recreation is responsible for this Centre and provides a recreational programme for both students and staff. Those who desire to participate in the recreational programmes should contact the Supervisor on Extension 3271.

FINANCIAL ASSISTANCE TO STUDENTS

The Students' Union and the University have co-operated to provide assistance to students who are in financial difficulties which are

considered likely to prejudice their progress with their studies.

Three main forms of assistance are available:

1. *Deferment of Payment of Fees*

Deferments may be granted for a short period, usually one month, without the imposition of a late fee penalty, provided the deferment is requested prior to the due date for fee payments.

In exceptional circumstances the University may consider granting deferments for up to twelve months or even longer. In cases where payment is deferred to December 31, examination results will not be published or made available until such time as the outstanding fees are paid. Where deferments are granted to a date beyond December 31, the University may require the student to enter into a formal agreement to repay the fees.

2. *Short Term Cash Loans*

Donations from the Students' Union, the University Union and other sources have made funds available for urgent cash loans not exceeding \$100.00. These loans are normally repayable within one month.

3. *Long Term Cash Loans*

An amount of up to \$300.00 is available from this fund, repayable usually after twelve months or within twelve months of graduation or upon withdrawal from the course. This scheme is funded jointly by the University and the Students' Union. Students are required to enter into a formal agreement with the University to repay such a loan.

In all cases assistance is limited to students with reasonable academic records and whose financial circumstances warrant loans.

Applications may be made personally to the Deputy Registrar (Student Services).

FINANCIAL ASSISTANCE TO ABORIGINAL STUDENTS

Financial assistance is available from a number of sources to help Aboriginal students. Apart from Open Entrance Commonwealth University Scholarships, there is also a Commonwealth Aboriginal Study Grant Scheme. Furthermore, the University may assist Aboriginal students with some essential living expenses or the waiving of course fees in exceptional circumstances.

All enquiries relating to this scheme should be directed to The Deputy Registrar (Student Services).

CHAPLAINCY SERVICE

This service is provided for the benefit of students and staff by five Christian Churches and by the Jewish congregation. Chaplains are in attendance at the University at regular times. A Chapel is also available for use by all denominations.

The University Chapel and full-time chaplains are located in Hut F near the Chemistry Building. They may be contacted by telephone at the following extensions: Anglican, 2684; Jewish, 3273; Roman Catholic, 2379; Churches of Christ, Methodist and Seventh Day Adventist, 2683.

THE UNIVERSITY REGIMENT

Enquiries should be made to the Adjutant at the Regimental Depot in Day Avenue just west of Anzac Parade.

THE N.S.W. UNIVERSITY SQUADRON

Enquiries should be made to the Commanding Officer at Squadron Headquarters at the corner of City and Darlington Streets, Darlington, 2008.

ROYAL AUSTRALIAN NAVY

Enquiries should be made to the Royal Australian Naval Liaison Officer, Professor J. S. Ratcliffe, Commander, R.A.N.V.R., at the School of Chemical Engineering. Telephone: 663-0351, ext. 2406.

UNIVERSITY CO-OPERATIVE BOOKSHOP LTD.

Membership is open to all students, on payment of a fee of \$5.00, refundable when membership is terminated. Members receive an annual rebate on purchases of books.

CASHIER'S HOURS

The cashier's office is open for the payment of fees from 9.30 a.m. to 1.00 p.m., and from 2.00 p.m. to 4.30 p.m., Monday to Friday. It is open for additional periods during the first four weeks of Session 1 and three weeks of Session 2. Students are advised to consult notice boards for details.

HELP IMPROVE YOUR HANDBOOK

It is important to the University and to yourself that you understand its conventions and regulations. The University Calendar and faculty handbooks are means by which the University attempts to convey, amongst other things, information regarding the facilities it has to offer, and the rules and regulations which govern the conduct and progress of students.

You can help us assess the efficacy of the handbooks by completing this questionnaire, and thereby help yourself and your fellow students in the years to come.

If you would like to discuss any aspect of the Calendar or handbooks personally, please contact Mr Douglas Howie, Room 307, The Chancellery, or phone extension 3340.

.....

6. If there is any section which you feel might be expanded, please list and state why you feel it should be expanded.....
7. Would you like any of the following included in the handbook? YES NO
- | | | |
|---|--------------------------|--------------------------|
| Photographs of senior academic and administrative personnel | <input type="checkbox"/> | <input type="checkbox"/> |
| Prices of textbooks | <input type="checkbox"/> | <input type="checkbox"/> |
| Names of lecturers listed alongside subject descriptions | <input type="checkbox"/> | <input type="checkbox"/> |
| Timetables | <input type="checkbox"/> | <input type="checkbox"/> |
| Map of the Campus | <input type="checkbox"/> | <input type="checkbox"/> |
| Any other items | <input type="checkbox"/> | <input type="checkbox"/> |
8. Do you use the textbook lists in your handbook when buying your books? ☐ ☐
 If 'NO', please state where you obtained a list of the required textbooks
9. Do you use your handbook when selecting reference books? ☐ ☐
 If 'NO', please state where you obtained your list of reference books
10. The handbooks are generally available at the latest by mid-December. Is this date early enough for your purposes? ☐ ☐
 If 'NO', please nominate a month when you feel they should be on sale
11. Have you ever sought information from the University Calendar because it was not available in the handbook? ☐ ☐
 If 'YES', please indicate which information
12. If you had any difficulty in obtaining a copy of your handbook, please outline problem

B. FORMAT

13. Is the handbook a convenient size? ☐ ☐
14. Would you prefer some of the information to be presented differently, e.g., in tabular form, or expressed in a less complex manner or perhaps communicated in some other way? ☐ ☐
 If 'YES', please give examples of what you would like changed, and how you would change it
15. Have you any comments which you would like to make on either the contents or format?

When you have completed this form, please either return it personally to Mr. Douglas Howie, Publications Officer, Room 307, The Chancellery, or post it via the internal mail system. Thank you for your co-operation.
